Title IV Loans	\$ 3,218	
Other Educational Debt	\$ 0	
Debt-to-Earnings Annual Rate	--%	

Prepared by the Office of Institutional Research and Effectiveness

- Notes:
- (1) This rate is computed on the graduates who entered program during the five years of 2013/2014 to 2017/2018. Indebtedness includes students in this group who did and did not take out loans while enrolled in this specific program.
 - (2) Beginning fall 2017, this program became fully online with a set tuition and fees of \$350 per credit hour. This is the amount for two years of tuition and fees based on the average load for a student enrolled fall and spring terms with a 3% annual increase; DOES NOT take into account grant and scholarship financial assistance.
 - (3) This is the amount for two years of (a) books and supplies of \$2,500 per year. It does NOT include the cost room and board cost of \$7,800 per year as the students in this program all live off campus.
 - (4) This rate is computed on the graduates during the five years of 2013/2014 to 2017/2018 who either (a) obtained jobs or (b) enrolled in graduate school within one year of graduation. Because students in this program are all working nurses, the rate will always be 100%.
 - (5) The number of students completing the program is fewer than five during this period. The data will not be reported for privacy reasons. Please contact the Dean of the Elliott School of Nursing for more information regarding this program, (606) 218-5750.
 - (6) This information comes from the Kentucky Center for Education & Workforce Statistics, 603 Wilkinson Blvd, Frankfort, KY (updated 03/13/2018). All bachelor credential earners from AY 2011 to AY 2015 are included. If the graduate subsequently completed a graduate/professional program, that person's salary is not included in the calculation. Average wages are calculated by summing the wages for the 2011-2016 Federal Fiscal Year (FFY 11-16) for applicable individuals and calculating a median wage for each group.
 - (7) The number of students completing the program and working in Kentucky is fewer than five during this period so KCEWS didn't release the income data.
