UNIVERSITY OF PIKEVILLE GRADUATE TEACHER EDUCATION HANDBOOK

Introduction

The organizing theme which undergirds and guides all the professional education programs at the University of Pikeville including the Teacher Leader Program is “Empowering teachers to serve and lead in rural Appalachia and beyond.” To be able to make reflective analytical decisions that will enable all students to learn, teachers need appropriate knowledge, skills and dispositions.

The Master of Arts in Education: Teacher Leader Program is a natural extension of the mission of the University of Pikeville. The founders reasoned more than 100 years ago that leaders in this area of Appalachia would have to be developed from within (Pikeville College, 1999-2000). Over a century later, the University of Pikeville still faces the challenge of preparing teachers who will serve, lead, and affect the changes necessary to benefit the educational foundations of the local citizenry. We will accomplish this by equipping teachers with the necessary leadership skills to positively transform their classrooms, schools, districts, and the profession. Schools need teachers who are dedicated to **learning, leading, and empowering** others through their professional knowledge and leadership skills. By fulfilling these roles, teacher leaders encourage a culture that inspires excellence and the growth of professional learning communities (Childs-Bowen, Moller, and Scrivner, 2000).

The University of Pikeville Teacher Leader Program believes that effective teacher leaders are dedicated to excellence in practice, and they use their expertise about teaching and learning to contribute to continuous improvement efforts within their classroom, schools, and districts (York-Barr & Duke, 2004). Therefore, we will equip our teacher leader candidates to accomplish these tasks through research designed to improve educational practice, collaboration with professional learning communities, modeling effective practice, and being continuous learners (Childs-Bowen, Moller, & Scrivner, 2000; Teacher Leader Model Standards, 2011).

All teacher education graduate candidates must follow the provisions outlined in the Graduate Teacher Education Handbook, which provides information for applicants and candidates interested in earning a Rank I, Rank II, or a Teacher Leader Endorsement. In addition, this handbook is **not** intended to be used in place of an advisor. Certification requirements are dependent on the date of graduation, not the date of entry to the Graduate Teacher Education Program. Candidates who do not complete their degree in a timely manner may be subject to additional requirements. Additional information for our Teacher Leader Master’s Program can be found in the University of Pikeville Catalog. **Please note that information within this handbook may be subject to change based on guidelines published by the Education Professional Standards Board and/or changes made by the University of Pikeville Patton College of Education.**

CONCEPTUAL FRAMEWORK

Pikeville College Then

Pikeville College was founded in 1889 by Presbyterian ministers with a mission to provide educational opportunities for people from the central Appalachian Mountains. From its earliest stages, the institution that would become the college focused its curriculum on preparing young people for entrance to college and the training of much needed teachers. The preparation of teachers has continued. The following statement was printed in an 1890 publication: “The preparatory department prepares teachers for county examinations and to do better work in their line of teaching” (Division of Education, 2009, p. 2). To further its mission of improving educational opportunity in the local region, Pikeville College founded the Pike County Teacher’s Institute in 1909. Institute meetings were conducted in the circuit courtroom in downtown Pikeville and consisted of sermons from local pastors, the pledge to the flag, entertainment, and various speakers who discussed teaching methods and encouraged teachers to inspire mountain youth toward higher goals in education. It became evident early on that improvement of educational conditions in the region would have to be accomplished predominantly by citizens from the area. It was reasoned that leaders would have to be developed from within because they would be more likely to stay in the region and have greater commitment to providing uplift for their people (Title II Report, 1999-2000, p. 6).

University of Pikeville Now

Pikeville College has continued to evolve throughout the years, changing its curricula to meet the needs of Appalachia. On July 1, 2011, Pikeville College, a small college on the hill, became the University of Pikeville. The University was reorganized into two schools, the Kentucky College of Osteopathic Medicine and the College of Arts and Sciences, an umbrella organization that houses a forward-looking undergraduate program and growing programs in the graduate fields. The School of Optometry opened its doors in the fall of 2016. The University offers associate and baccalaureate degrees in a variety of majors in conjunction with a quality liberal arts and science curriculum. The University also offers a Master of Business Administration, Teacher Leader Master of Arts in Education, a Doctorate of Osteopathic Medicine, and a Doctorate of Optometry. With the continuing growth to meet the needs of Appalachia, the institution has never changed its true mission to “prepare students for the future while creating intellectual, cultural, and economic opportunities for Appalachia” (Pikeville College Catalog, 2017-2018, p.9). The historical practice of “open enrollment” in the undergraduate school is a testament to the university’s efforts to improve the overall educational level of the regional population, enhancing the quality of life for as many individuals as possible (Title II Report, 1999-2000, p.8).

University of Pikeville Mission Statement

The University of Pikeville is the leading higher education institution of Central Appalachia. Founded in 1889, UPIKE remains steadfast in our commitment to preparing students for the future while creating intellectual, cultural and economic opportunities for Appalachia. Maintaining our commitment to Christian principles, UPIKE recognizes the infinite worth of each person, respecting a variety of religious expressions.

UPIKE achieves its mission by:

- Creating a pathway to higher education for all students who desire to embark upon that journey and attracting and retaining high caliber students who will be future regional, national, and global leaders.
- Preparing graduates through quality academic programs, grounded in the liberal arts, and through involvement in community service, experiential learning, research, athletics, humanitarian efforts and global outreach.

- Achieving academic excellence by maintaining academic rigor and relevancy in undergraduate, graduate and professional degree programs.
- Attracting and retaining distinguished faculty, staff, administrators, trustees and alumni who are dedicated to meeting the individual needs of students, promoting a caring and supportive environment conducive to learning and meeting the needs of an evolving university; and
- Providing superior infrastructure with state-of-the-art classrooms, clinics, instructional materials, physical facilities, technological infrastructure and campus amenities through sound fiscal policy and efficient and effective administrative services.

Patton College of Education

Vision

The Patton College of Education will collaborate with colleagues, P-12 partners, and community members to empower teachers to serve and lead in rural Appalachia and beyond and to improve our community, region, country, and world through education and leadership.

Mission

The mission of the Patton College of Education is to model best practices, create challenging learning experiences, use technology resources, and address diverse learning needs to prepare teachers for the schools and communities in which they will serve.

Core Values

- **Academic Excellence:** We are committed to providing exceptional education programs that have opportunities for rigor, innovation, the best research-informed practices, and support for critical thinking, problem solving, and thoughtful inquiry.
- **Collaboration:** We are committed to fostering collaboration with all stakeholders within education, our school, and community.
- **Diversity:** We are committed to building a program that meets the diverse needs of all students, ensures equal opportunity for success regardless of experiences and personal differences, and attracts a diverse body of students, faculty, and staff.
- **Leadership:** We are committed to developing leaders in our schools who serve others with compassion, use best practices drawn from reflection and current research, build systems that guarantee fairness and equity, and value and empower those they lead.
- **Equity:** We are committed to building systems that guarantee fairness, focus on reducing achievement gaps, and value and empower those they lead.

Beliefs

- We believe in offering a challenging academic program that focuses on the best educational practices.
- We believe that passion must be the touchstone of all teaching.
- We believe in making the transition from the university classroom to our student's clinical year a seamless experience.
- We believe that empowered teachers accommodate the needs of every student in their classes.
- We believe that exceptional teachers not only help students be successful, they empower them to adapt, continuously learn, and thrive in an ever-changing world.

Philosophy of the Patton College of Education

“Empowering teachers to serve and lead in rural Appalachia and beyond” serves as the organizing theme that undergirds and guides all the professional education programs at the University of Pikeville. Preparing highly skilled teachers and teacher leaders to meet the needs of the rural districts and schools

in which they will serve is the mission of the Patton College of Education. By partnering with the surrounding rural schools and districts, it is our goal to design and implement quality educator training programs that will prepare candidates to successfully lead students, schools, and districts as they build upon the strengths and positively face the challenges of rural education.

The University of Pikeville is situated in a region where the local schools and teachers are highly respected and have a powerful impact on community (Hlinka, Mobelini, & Giltner, 2015). For this reason, the role of teachers as innovative participants and leaders in our schools and communities is vital. Central Appalachia is challenged with the highest rates of unemployment, disability, poverty, and school dropouts in the United States (Pollard & Jacobson, 2014). Despite the challenges facing this region, graduation rates generally exceed national averages, and student scores on ACT exams are no lower than in other regions (Kannapel & Flory, 2017). Therefore, we believe that context does not prevent quality and excellence in communities where well-prepared teachers accommodate individual needs and facilitate success. Framing educational careers in rural communities in terms of possibilities and opportunities and refusing to foster negative stereotypes about the people or place are crucial (Comber, 2015). Building respect and celebrating the region inspires hope and commitment to make this an even better place to learn, live, and serve. The educators graduating from our programs will meet the challenges and advantages of working in a tight-knit community where transparency promotes both support and scrutiny (Cagnon & Mattingly, 2015). This will open opportunities to contribute in unique and powerful ways. The goal to prepare teachers for this task, equipped to create possibilities and hope for new generations of students, drives us to perpetually work to improve our program and ourselves. We produce professionals who create new opportunities, empower their students with the agency they have developed to make meaningful choices, use the tools they have acquired to adapt to a changing economy, and inspire the next generation to excel.

Therefore, equipping our candidates with the skills, knowledge, and experiences to understand the importance of place, the values/norms of a school community, meeting the needs of diverse learners, collaboration with stakeholders, and becoming a change agent to create a shared vision and a culture of high expectations will prepare them to effectively lead and positively impact student achievement in the rural schools and districts within our region and beyond. Our program will ingrain in candidates what Dweck (2006) calls a growth mindset, which influences attitudes toward learning, motivation, work habits, and self-efficacy. We believe that real learning takes place when learners actively construct knowledge and interact with it, not when they become passive repositories of content (Richardson, 2003). As a crosscutting focus in our program, embracing technology enhances the construction of knowledge with broader boundaries for exploration and tools that expedite analysis and illuminate knowledge (Schrader, 2015).

While rural areas tend to have less diversity than urban counterparts do, the University of Pikeville attracts students from across the United States and the world. This creates opportunities for students to develop a deeper understanding and appreciation of cultural, philosophical, and regional differences. Diversity also serves as an important theme across the curriculum. As Freire (1970) encourages learners through reflection and conscious action toward justice, we hope to facilitate proactive leadership to eradicate oppression, inequalities, stereotypes, stigma, and unmet needs in our schools and communities.

Our teacher education candidates engage in field experiences and reflections to complement their classroom training. McMahon & Garza (2016) note the benefits of pairing teacher candidates and other educational learners with exceptional teachers in authentic situations. We believe this will provide them with an opportunity to develop as educators, leaders, and active participants in the education system. We invite expert educators and leaders from the local public schools to collaborate with the college of education to participate in the ongoing planning, implementing, analyzing, and evaluating our Teacher Education Programs. We believe it is essential to create a bridge between the university and the schools

to prepare our teacher education and teacher leader candidates in the best manner possible. Regardless of the level of education or the trajectory of careers, every student we educate deserves the benefit of opportunities to develop self-efficacy, skills to analyze and evaluate information, experiences to make informed choices, tools to adapt to changing situations, and lifelong educational support from a proactive and involved alma mater. They should be prepared to succeed as teachers and leaders in education wherever they serve, but they should also have the training to adapt and develop as necessary to remain and contribute locally if they choose to do so (Daniels, 2014).

Thus, our organizing theme, “Empowering teachers to serve and lead in rural Appalachia and beyond,” provides the foundation for all undergraduate and graduate program at the Patton College of Education. When preparing teachers and teacher leaders, our primary focus is student success.

MODEL OF THE PATTON COLLEGE OF EDUCATION TEACHER PREPARATION PROGRAMS

Advanced Level Program

Step 5 – General Admission to the Graduate Teacher Education Program

General Requirements

1. Complete an application to the Graduate Teacher Education Program (GTEP).
2. The applicant must submit a completed and signed character and fitness questionnaire contained in Section III of the CA-1.
3. The applicant must present a signed Administrator Agreement with the principal of the school of employment. If the applicant is not actively employed within a P-12 school, he/she must have a signed Administrator Agreement designating a classroom/teacher partner with whom the applicant can collaborate to complete all required clinical experiences before being admitted to the program.
4. Submit official transcripts of all undergraduate and graduate work sent directly from the credit-granting institution to the University Registrar at the University of Pikeville. (Up to 6 hours of transferred credits are allowed.)
5. The applicant must sign an acknowledgement form stating that he/she can access the online GTEP Handbook.
6. The applicant must submit a copy of his/her P-12 statement of eligibility or an initial certificate earned by completion of an approved program through an approved educator preparation provider in **Kentucky**; or, for out-of-state applicants, a statement of eligibility or an initial certificate issued by the Education Professional

Standards Board per 16 KAR 5:020 and earned by completion of a program through an approved educator preparation provider. (The Certification Inquiry from the EPSB Website demonstrating P-12 certification will also be acceptable evidence.)

7. If the applicant's first language is not English, he/she must provide evidence of English proficiency (i.e., TOEFL score of 80 on the iBT or 550 on the PBT).

General Knowledge

1. The applicant must have on file official transcripts showing a minimal, non-rounded cumulative GPA of 2.75 on a 4.0 scale from the degree-granting institution (or a 2.6 prior to 2012) and a 3.0 on a 4.0 scale on all relevant graduate level coursework.

Specialization Knowledge

1. Submit a copy of minimum Kentucky passing scores on Praxis exams required for certification area, which can be indicated by a Statement of Eligibility (SOE) or Teaching Certificate issued by EPSB.

Professional Knowledge

1. The candidate must review and sign a declaration to uphold the Professional Code of Ethics for Kentucky School Personnel defined in 704KAR20:680.
2. Agree to uphold the Model Code of Ethics for Educators (MCEE).
3. The applicant must demonstrate appropriate characteristics of a teacher leader by receiving no *Level 1 (Rarely or Never)* ratings on each section and a positive final recommendation on the Evaluation for Admission to the Graduate Teacher Education Program, that includes sections on professional qualities, critical thinking, communication skills, creativity, and collaboration. (Assessment of both ***professional knowledge*** and ***professional dispositions***--three are required.)

Teacher Competencies

1. The candidate must complete a pre self-assessment of the Teacher Leader Model Standards.

Professional Dispositions

1. The applicant must have a signed statement indicating understanding and commitment to developing the expected dispositions.

Step 6 – Admission to Candidacy in the Teacher Leader Master's Program

General Knowledge

1. The candidate must obtain a minimum, non-rounded GPA of 3.0 on a 4.0 scale on the first 12 hours of relevant, transferable, education graduate coursework. (If the required GPA is not met, then the candidate will not be admitted to candidacy in the Teacher Leader Program until the GPA is raised to a 3.0.)
2. The candidate must be approved for admission to candidacy in the TLP by the Teacher Education Committee.

Professional Knowledge

1. The candidate must submit an approved professional growth plan based on the *Kentucky Framework for Teaching*.

Teacher Competencies

1. The candidate must have no ratings at the *Ineffective* level on the teacher partner assessment of the Teacher Leader Model Standards.

Dispositions

1. The candidate must attain a score of *3 or better* on each of the professional dispositions identified on the Candidate Dispositions Inventory as assessed by graduate education faculty.

Step 7 – Exit from the Teacher Leader Graduate Education Program

General Requirements

1. Complete an application for graduation.
2. Complete 24 semester hours of TLP coursework at the University of Pikeville with a minimum, non-rounded GPA of 3.0 or higher on a 4.0 scale in graduate-level coursework.
3. The candidate must complete the University of Pikeville Teacher Education Unit Operations Survey and other surveys/assessments as required by the PCOE to gather program data.

Professional Knowledge

1. The candidate must satisfactorily complete EDU 570 within one year of completion of EDU 550.
2. The candidate must receive an overall score of *2 or better* on the EDU 570 presentation of research results.

Teacher Competencies

1. The candidate must complete a post self-assessment of the Teacher Leader Model Standards.
2. The candidate must have no ratings at the *Ineffective* level on the Teacher Leader Model Standards (TLMS) for the Teacher Performance Assessment (TPA) as assessed by the teacher partner and school administrator based on classroom observations and performance products.

Dispositions

1. The candidate must attain a score of *3 or better* on each of the dispositions identified on the Candidate Dispositions Inventory as assessed by education faculty and the school administrator.

Any candidates having problems meeting any of the above criteria should contact their graduate advisor who will help them complete or develop an action plan for remediation.

General Information

Limitation on Hours in Graduate Teacher Education Program

All applicants in the Graduate Teacher Education Program (GTEP) may only take 12 hours before application to candidacy is required. Once admission to candidacy requirements are met, the applicant will be considered a candidate for the Master of Arts in Education: Teacher Leader Program Degree (TLP).

Transfer Policy

No more than six semester hours of graduate coursework may be transferred to the University of Pikeville to be applied as credit toward the Master of Arts in Education: Teacher Leader Program. These hours must be completed in a state or CAEP approved teacher education program, must be acceptable substitutions for required coursework for the University of Pikeville Teacher Leader Program, and must be a “B” or better for any course to be considered transferable.

The Registrar will determine the transferability of any course completed at another institution. Any transferable coursework must be at the graduate level and must have been completed within the last three years prior to admission to the Graduate Teacher Education Program.

Academic Advisor

Each applicant in the University of Pikeville Graduate Teacher Education Program is assigned an advisor from within the Graduate Teacher Education Program who will guide him or her in completing educational goals, including requirements for the degree.

Orientation

All initial applicants will be informed of how to receive a student ID and email account and how to access library resources. Applicants will also review the handbook and be assigned an advisor.

Graduate Course Load

Students may enroll on a part-time or full-time basis. Full-time status in the Graduate Teacher Education Program requires enrollment in six semester hours of graduate level coursework. The Chairperson of the Patton College of Education and the Dean of the College of Arts and Sciences may grant a maximum of twelve hours with special permission. Our TLP is designed for adults who are employed full-time.

Good Standing

The applicant or candidate must maintain a minimum GPA of 3.0 on a 4.0 scale in all graduate level course work in order to be considered in “good standing.”

- Repeat Policy: Courses may be repeated twice without special approval.
- Withdrawal Policy: An applicant or candidate wishing to withdraw from a course must consult with his or her graduate advisor. Withdrawal becomes effective only when official notice has been presented to the Registrar. Anyone who wishes to withdraw from the University must submit a completed “Withdrawal Form” to the Registrar.
- Probation and Suspension Policy: When an applicant or candidate’s GPA falls below 3.0 on a 4.0 scale, he or she will automatically be placed on academic probation for one semester during which the GPA must be raised to the required 3.0 level. If the GPA is not successfully raised after one semester of probation, the applicant or candidate may be officially suspended from the program. If an applicant or candidate is officially suspended from the Graduate Teacher Education Program, he or she must remain inactive for one semester before re-applying for admission.
- Readmission Policy: An applicant or candidate may be inactive for up to one year for any reason except official suspension without reapplying for admission. The applicant or candidate will be required to complete a readmission form from the graduate education office and must attend the Campus Orientation.

Due Process Policy

Who is eligible to appeal:

Candidates who:

- Were denied admission to the Graduate Teacher Education Program.
- Were denied admission to candidacy in the Master of Arts in Education: Teacher Leader Program.
- Were removed from the Graduate Teacher Education Program or the Master of Arts in Education: Teacher Leader Program.
- Were not recommended for exit from the Master of Arts in Education: Teacher Leader Program.

Grounds for appeal:

The candidate can appeal on the basis of violations of Graduate Teacher Education Program policy or procedure that results in a decision that the candidate believes was inaccurate. The only appeals submitted to the Teacher Education Appeals Committee, which includes the candidate’s advisor, the Dean of the College of Arts and Science, a representative from the Graduate Teacher Education Committee, and the Director of Teacher Education, are those related to entry, exit, or continuation in any graduate teacher education program. All other appeals, e.g. grade appeals, probation or suspension from the University, etc., are handled according to the

appeals policies outlined in the University of Pikeville Catalog and the University of Pikeville Student Handbook.

Procedures for appeal:

- Candidates who wish to appeal any Teacher Education Committee (TEC) decision will meet with their graduate education faculty adviser to discuss the TEC decision.
- The candidate must appeal the decision by writing a letter to the Director of Teacher Education that clearly states the part or parts of policies or procedures that the candidate feels is unjust. The Director of Teacher Education will forward the letter to the Graduate Appeals Committee.
- The Graduate Appeals Committee will meet with the candidate, normally within one week of receipt of the appeals letter.
- At the appeals meeting, all factual information related to the petition will be presented by the Director of Teacher Education. The petitioner will be allowed 30 minutes to make his/her presentation and to answer questions posed by the individual members of the committee. The petitioner will be excused before deliberation by the committee begins. The Appeals Committee will consider the petitioner's appeal and reach a decision regarding the petition. The petitioner will receive written notification within 5 working days of the hearing.

Program Design

The Master of Arts in Education: Teacher Leader Program was designed in response to requests from teachers and administrators in the University of Pikeville service area. The Master of Arts in Education: Teacher Leader Program was designed collaboratively by these teachers and administrators, arts and sciences faculty, and education faculty. This collaboratively designed program embeds technology used by educators in the state of Kentucky in its courses, and it is aligned with the Teacher Leader Model Standards.

Diversity

Diversity is a pervasive characteristic of the University of Pikeville Teacher Leader Program. The program ensures that candidates develop proficiencies in specific aspects of diversity. Graduate faculty members will collaboratively assess these proficiencies:

1. Demonstrates high expectations for others
2. Demonstrates respect for the beliefs of other
3. Demonstrates and/or promotes effective collaboration skills (e.g., with colleagues, instructors, students)
4. Demonstrates respect for cultural differences
5. Demonstrates patience with and/or compassion for those experiencing difficulty in the learning process
6. Demonstrates flexibility during the learning process

Embedded Technology

The University of Pikeville Graduate Teacher Education Program embeds numerous opportunities for technology use throughout the required courses. In addition, teacher leader candidates will participate in online courses where they will complete and submit electronic files and video clips to demonstrate effective use of technology. Being able to use technology to enhance instruction, track student progress, and enhance

professional learning are embedded in our program. In addition, communication through our online Canvas Learning Management System and/or Google Classroom Tools will provide further opportunities for candidates to hone their technology skills, as they have opportunities to communicate with the instructor and with peers through discussion boards and online chats. We believe that this platform is an effective means to enhance the communication skills of teacher leader candidates as they progress toward becoming effective leaders within their schools and district. Good communication skills are essential for today's leaders.

Individualized Program

This program is individualized to meet each candidate's professional growth and leadership needs. In the initial course, EDU 510 Leadership Skills for Today's Teachers I, candidates reflect on their own classroom practices to determine what it means to be a teacher leader and will reflect on their own classroom data to determine areas of growth. Candidates will assess their leadership styles and reflect on the leadership styles of others.

In addition, the candidate and UPIKE graduate faculty will collaborate in the selection of the candidate's teacher partner. The teacher partner will support and provide feedback to the teacher candidate as relevant field experiences are completed that will result in professional growth.

Multiple Career Pathways

Developing mastery in the program's goals will provide the candidate with the expertise necessary to assume the following career pathways in their schools and/or districts:

- Mentor new teachers
- Develop and model best practices
- Serve as assessment leaders
- Provide leadership for school improvement initiatives
- Serve as RTI leaders
- Design curriculum
- Chair departments, grade levels, or content areas
- Serve as team leaders by serving on or chairing school leadership teams
- Serve as content area coaches
- Serve as technology leaders
- Design and deliver professional development
- Guide and lead the work of task forces
- Assist administrators with collecting and analyzing data for school improvement
- Serve on state committees and teams giving leadership in areas of expertise

These multiple pathways address many areas of need within the P-12 school system. Teacher leaders in these areas of need can help raise student achievement and close achievement gaps.

Job-Embedded Professional Experiences

Each course offered in the Teacher Leader Program incorporates multiple professional experiences. All projects are job-embedded and some are individualized based on the candidate's Professional Growth Plan goals and the Teacher Leader Model Standards. However, candidates cannot meet the requirements of the job-embedded experiences in these courses by only completing the activities prescribed in their Professional Growth Plans. To successfully complete these job-embedded experiences, candidates must perform at a high level. Job-embedded experiences will be assessed by graduate education professors.

Interpretation and Analysis of Student Achievement Data

The University of Pikeville Master of Arts in Education: Teacher Leader Program prepares candidates to interpret and analyze student achievement data to improve student learning. In the first course EDU 510: *Leadership Skills for Today's Teachers I*, candidates are introduced to the knowledge and skills required for analysis of classroom, school, and district data, school and school improvement planning. In EDU 530: *Assessment for Teacher Leaders*, candidates will learn to interpret and analyze achievement data and to apply the assessment results to improve student learning at the classroom level. In EDU 630: *Leadership for Differentiated Instruction*, candidates will interpret and analyze P-12 student achievement data and plan lessons incorporating differentiation to meet individual student learning needs. In EDU 570: *Research II*, candidates will analyze, evaluate, and interpret student learning data at the school and/or classroom level in order to answer the research question(s) developed in EDU 550: *Research I*, which relate to student achievement data.

Online Delivery Method

The University of Pikeville Master of Arts in Education: Teacher Leader Program will be accessible online beginning Fall 2018. The program will utilize Canvas as the online Learning Management System.

Program Curriculum

Leaders in Schools and Districts

The Master of Arts in Education: Teacher Leader Program prepares candidates to be leaders in their classrooms, schools, districts, and in the profession. Candidates must complete job-embedded clinical experiences that include examination of P-12 student achievement in diverse settings. Clinical experiences are completed both individually and in collaboration with the teacher partners and are evaluated by the course graduate education professors based on completion of required course objectives.

Rigorous Curriculum

The Master of Arts in Education: Teacher Leader Program is aligned with the Teacher Leader Standards and incorporate the Kentucky Academic Standards, which include the College Readiness Standards. In addition, some courses are aligned to the applicable Special Program Association Standards. The rigorous curriculum in this program prepares candidates to demonstrate motivational instructional methods, appropriate assessment methods, differentiation of instruction, willingness to collaborate, appropriate and effective use of technology, and leadership through job-embedded assignments, projects, assessments, and field experiences. After candidates evaluate research on P-12 student learning and college readiness, they will be able to implement best practices in preparing students for success. Implementation of these research-based best practices is embedded in the coursework through clinical experiences.

The University of Pikeville Master of Arts in Education: Teacher Leader Program is practitioner-based and consists of 30 graduate credit hours. The six professional education core courses are designed to provide the candidate with the vital knowledge, skills, and dispositions required to obtain the Teacher Leader Endorsement.

EDU 620 Literacy Instruction in the Content Areas.....	(3)
EDU 630 Leadership for Differentiated Instruction	(3)
EDU 640 Content Knowledge Enhancement	(3)
EDU 650 Instructional Design	(3)

The initial course, EDU 510, is the pre or corequisite for all coursework in the Graduate Teacher Education Program. Candidates can start taking courses in the Fall, Spring or Summer semesters. After admission to the Graduate Teacher Education Program (GTEP), candidates must complete 12 hours before admission to candidacy. Candidate coursework, projects, and leadership experiences are developed, implemented, and evaluated in collaboration with education faculty and P-12 school/teacher partners. In this program, Teacher Leader candidates will complete a research project where they will analyze, evaluate, and interpret student learning data at the school or district level to improve student learning. During Research II, candidates will present the final results of their research project to the appropriate audience that can include education faculty, teacher partners, and/or school/district leadership as a requirement for exit from the program.

Clinical Diversity Experiences

Clinical experiences that address diversity are integrated throughout the program. For example, in EDU 530, candidates will complete district, school, and classroom proficiency profiles using contextual analysis related to diverse subgroups. The results of this analysis will be used by candidates to develop a classroom plan to increase proficiency and close achievement gaps.

P-12 and University Resource People

Candidates in the University of Pikeville Teacher Leader Program will receive mentoring and guidance from P-12 teacher partners, P-12 school administrators, and education faculty. The duties of these resource people are:

P-12 School Administrators

- will give permission for candidates to complete the required clinical experiences.
- will give permission for candidates to conduct their action research projects in their assigned classrooms or schools.
- will give permission for candidates to present action research findings to the appropriate audience.

P-12 Teacher Partners

- will mentor and provide feedback to teacher leader candidates as they progress through the TLP.
- will evaluate candidates on meeting the Teacher Leader Model Standards.

Graduate Education Faculty

- will serve as resources for all candidates in the program.

College of Arts and Sciences Program Coordinators

- will serve as members of the Teacher Education Committee.

Governance of the Patton College of Education

The Patton College of Education maintains a structure and governance system for planning, delivering, and evaluating all education programs that includes P-12 school practitioners and arts and science faculty.

Structure

The structure of the Patton College of Education consists of the Chairperson of the Patton College of Education (PCOE), Coordinator of Clinical Experiences/University Supervisor, Certification Officer, and education faculty. The Patton College of Education operates under the Dean of the College of Arts and Sciences. The PCOE Chairperson oversees the operations of all teacher education programs at the University of Pikeville. The Coordinator of Clinical Experiences/University Supervisor conducts specific functions involving the placement and direction of candidates' clinical experiences. The Certification Officer completes the coordination of the certification procedures. Education faculty respect collegiality and work collaboratively with all members to complete the task of teacher preparation.

Committees include the Teacher Education Committee and the Committee on Diversity in Teacher Education. Program Coordinators from content areas outside of education, but within the College of Arts and Sciences, and P-12 teachers and administrators participate in decision-making as members of the Teacher Education Committee.

Teacher Education Committee

The Teacher Education Committee enables education faculty, Program Coordinators from content areas outside of education but within the College of Arts and Sciences, and practitioners in P-12 schools to collaborate about the design, delivery, and evaluation of the teacher education programs within the Patton College of Education. The components of the Teacher Education committee are as follows:

A. Composition

The Teacher Education Committee consists of the following:

- 3 classroom teachers
- 3 school administrators
- 2 education candidates
- all education faculty members
- community member
- program coordinators from all certification areas including arts and science
- Dean of the College of Arts and Sciences
- Registrar of the University
- Director of Teacher Education

The Director of Teacher Education will serve as the Chair of the Teacher Education Committee. The classroom teachers, administrators, and students are selected by the Patton College of Education and invited to serve on the committee by the Chair of the Teacher Education Committee. Students are non-voting members, but we seek and value their input.

B. Responsibilities

The responsibilities of the Teacher Education Committee (TEC) consists of the following:

- Admission and retention of teacher education candidates in the Teacher Education Programs and the Student Teaching Program
- Policy development
- Curricular development
- Appeals process
- Monitoring and revising the Quality Assurance System

Admission and Retention. One of the functions is to administer the process of admission and retention to the Teacher Education Programs and the Student Teaching Program in accordance with policies and procedures established by the institution, the program, and Kentucky's Education Professional Standards Board.

Policy Development. The TEC is to make and/or approve policy changes in the Teacher Education Programs. The TEC will review suggested policy changes submitted by the Patton College of Education based on assessment data. The Committee may also make suggestions for policy changes based on assessment data submitted by the Patton College of Education.

Curricular Development. The TEC is to make and/or approve curricular changes made in the Teacher Education Programs. Any suggested changes will then be presented to the Curriculum Committee and the faculty for their approval.

Appeals Process. The TEC is to hear and rule on appeals from teacher education candidates related to entry or continuation in any education program.

Continuous Improvement. The TEC is to monitor and revise the Quality Assurance System to ensure continuous improvement.

Course Descriptions

EDU 510 Leadership Skills for Today's Teachers I..... (3)

This first course in the program explores the various theories and practices in teacher leadership (i.e. co-teaching, mentoring, and peer coaching) and ways teacher leadership impacts P-12 student learning. It introduces teacher leader candidates to professional literature and to the knowledge and skills required for analysis of classroom, school, and district data and school and district improvement plans and available resources available. This knowledge assists the Teacher Leader candidate in the refinement of his/her individualized Professional Growth plan.

EDU 520: Motivating Today's Students While Managing Today's Classroom (3)

This course addresses principles and instructional practices that motivate and engage P-12 students, transforming teaching from the old "assign and assess" model into an engaging, compassionate, coherent and rigorous new instructional model. The teacher leader candidate will explore and create positive and productive learning environments that integrate technology while focusing on dynamic leadership. *This course requires clinical implementation and reflection. Pre- or corequisite: EDU 510*

EDU 530 Assessment for Teachers Leaders..... (3)

This course prepares teacher leader candidates to interpret and analyze P-12 student achievement data from the school and classroom. Teacher leader candidates will also apply data analysis results to differentiate instruction and intervention strategies at all levels, considering classroom, school, and district school improvement goals and plans. This course requires clinical implementation and reflection. *Pre- or corequisite: EDU 510.*

EDU 540: Leadership Skills for Today's Teachers II (3)

This course prepares the teacher leader candidate to collaborate as a co-teacher, resource teacher, department chair, team leader, peer observer, and as a leader in both the local and on-line professional community (Professional Learning Community). Teacher leader candidates will be equipped with the theoretical knowledge and skill necessary to participate in co-teaching, coaching and/or mentoring first and second year teachers, to assist teachers in the development of a cycle of reflective practice and to use technology to improve pedagogy. They will also design and facilitate professional development as part of this course. *This course requires clinical implementation and reflection. Pre- or corequisite: EDU 510*

EDU 550: Research I (3)

In this course teacher leader candidates will learn to read professional literature and to develop and evaluate both quantitative and qualitative research that informs their instruction and assessment. They will learn how to use research to answer specific questions that arise in their own classrooms, schools, and districts. They will collaborate with others in their schools and/or districts and candidates in their program and profession to develop a question or questions that will be used for future collaborative research in EDU 570. *Must be taken at the University of Pikeville and must be completed before taking EDU 570. Pre- or corequisite: EDU 510*

EDU 570: Research II (3)

In this course emphasis will be placed on conducting applied research. Teacher leader candidates will complete an active research project where they will analyze, evaluate, and interpret student learning data at the school or district level in order to answer the research question(s) developed in EDU 550. Candidates will prepare and present the findings of the research project, which will be used to improve P-12 student learning in the school or district. Each candidate will also have the option of submitting the completed research project to an appropriate journal, e-publication, or conference for inclusion. This course must be completed within one year of completion of EDU 550 Research I and must be taken in the candidate's last semester. *Prerequisite: EDU 550.*

EDU 610: Literacy Instruction in the Elementary School (3)

This course explores the most recent research on the principles underlying the teaching of reading and writing in the elementary school along with the methods, materials, use of technology, instruction, and assessments necessary for a balanced literacy approach.
Pre- or corequisite: EDU 510

EDU 620: Literacy Instruction in the Content Areas (3)

This course provides a comprehensive study of the most recent research on the strategies and materials for developing literacy skills across the content areas in middle and secondary classrooms. Candidates will be introduced to the literacy demands of the different disciplines and the instructional strategies and technologies to use in those disciplines.
Pre- or corequisite: EDU 510

EDU 630 (3)

This course examines the key underpinnings of differentiation, the important components of differentiation, and practical ways to accomplish differentiation in the classroom. Candidates will incorporate the various components of differentiated instruction and technologies in designing lessons for implementation in a diverse classroom based on data from the state assessment system as well as school and classroom data. *This course requires clinical implementation, reflection, and a 5-hour clinical experience in a diverse P-12 setting outside of the candidate’s own classroom. Pre- or corequisite: EDU 510*

EDU 640: Content Knowledge Enhancement (3)

This course is designed to enhance the teacher leader candidate’s content knowledge. Candidates will read and respond to research and will self-assess their subject matter content knowledge, pedagogical content knowledge, *and* curricular content knowledge. They will work with a teacher partner within the same content area to develop and implement a content knowledge enhancement collaboration plan. *Pre-or corequisite: EDU 510.*

EDU 650: Instructional Design..... (3)

This course is designed to enhance the teacher leader candidate’s ability to design instruction aligned with state and national standards to actively engage and motivate P-12 learners. This course integrates the principles of the *Universal Design for Learning Guidelines* (udlguidelines.cast.org | CAST, Inc. 2018), which includes using multiple means of student engagement, multiple means of representation, and multiple means of action and expression to advance learning. This course familiarizes candidates with the Kentucky Framework for Teaching and addresses self-assessment and professional growth. *This course requires a videotaped lesson. Pre-or corequisite: This course can only be taken during the last semester of the candidate’s coursework.*

A Look at The Model Code of Ethics for Educators (MCEE)

The MCEE serves as a guide for future & current educators faced with the complexities of P-12 education. The code establishes principles for ethical best practice, mindfulness, self-reflection, and decision-making, setting the groundwork for self-regulation & self-accountability. The establishment of this professional code of ethics, by educators and for educators, honors the public trust and upholds the dignity of the profession.

Following are the MCEE principles; the full code with indicators is available at www.nasdttec.net.

Principle I: Responsibility to the Profession

The professional educator is aware that trust in the profession depends upon a level of professional conduct and responsibility that may be higher than required by law. This entails holding one and other educators to the same ethical standards.

Principle II: Responsibility for Professional Competence

The professional educator is committed to the highest levels of professional and ethical practice, including demonstration of the knowledge, skills and dispositions required for professional competence.

Principle III: Responsibility to Students

The professional educator has a primary obligation to treat students with dignity and respect. The professional educator promotes the health, safety and well-being of students by establishing and maintaining appropriate verbal, physical, emotional and social boundaries.

Principle IV: Responsibility to the School Community

The professional educator promotes positive relationships and effective interactions, with members of the school community, while maintaining professional boundaries.

Principle V: Responsible and Ethical Use of Technology

The professional educator considers the impact of consuming, creating, distributing and communicating information through all technologies. The ethical educator is vigilant to ensure appropriate boundaries of time, place and role are maintained when using electronic communication.

The MCEE was developed under the leadership of the National Association of State Directors of Teacher Education and Certification (NASDTEC) and is supported by a number of national education organizations that undergird the profession.

More information, details, and resources are available at: <http://www.nasdttec.net>

I hereby acknowledge that I have read the Model Code of Ethics for Educators and agree to abide by and exhibit the behaviors described therein.

CANDIDATE RECOGNITION OF DISPOSITIONS

Patton College of Education

Candidate's Statement of Commitment regarding Dispositions

It is the responsibility of the Patton College of Education to successfully prepare candidates to become effective teachers and teacher leaders. The education program requires candidates to demonstrate the knowledge, skills, and *dispositions* outlined in the conceptual framework as they align with the expected behaviors of teachers. Each candidate will be evaluated on these dispositions and provided with feedback to assist with their progress.

Dispositions are defined as how values, commitments, and professional ethics manifest themselves in professional practice. Dispositions are guided by beliefs and attitudes related to values such as care, respect, trust, integrity (OCT 2006), fairness, honesty, responsibility, and social justice (NCATE, 2001). The following dispositions are expected of teacher education candidates in the university classroom and in the schools.

Professional Commitment and Responsibility: The candidate demonstrates a commitment to the profession and adheres to the legal and ethical standards set forth by it.

The Candidate:

1. Maintains appropriate confidentiality
2. Demonstrates compliance with laws/regulations/policies/standards
3. Maintains professional appearance
4. Is prepared for class or appointments
5. Is punctual for class or appointments
6. Demonstrates honesty/academic integrity

Professional Relationships: The candidate develops, maintains, and models appropriate relationships within the workplace, community, and larger diverse society.

The Candidate:

7. Demonstrates high expectations for others
8. Demonstrates respect for the beliefs of others
9. Demonstrates effective collaboration skills (e.g., with colleagues, instructors, students)
10. Demonstrates respect for cultural differences
11. Demonstrates patience with and/or compassion for those experiencing difficulty during the learning process
12. Demonstrates flexibility during the learning process

Critical Thinking and Reflective Practice: The candidate demonstrates a commitment to continuous development within the profession.

The Candidate:

13. Demonstrates critical thinking in written or verbal form
14. Addresses issues of concern professionally (with instructors/colleagues/students)
15. Responds positively to constructive criticism
16. Takes responsibility for his or her learning by actively seeking out new information
17. Demonstrates personal progress through professional development to improve content and pedagogical knowledge
18. Demonstrates reflective practice in written or verbal form

I have read the dispositions and indicators above. I believe that good dispositions are integral to being an effective, professional educator. I am committed to growing and demonstrating excellence in these dispositions. I understand that in addition to academic performance in accord with the requirements of the Patton College of Education, my success and progress in the teacher education program depends upon successful demonstration of these dispositions.

Teacher Partner Assessment of Teacher Leader Model Standards

Introduction

Context: The main goal of the University of Pikeville Teacher Leader Program Master's Program is to prepare our candidates to meet the Teacher Leader Model Standards so that they are equipped to step into teacher leadership positions within their classrooms and schools. The Teacher Leader Model Standards have seven domains, and each domain has several related functions. The standards are both research -based and nationally recognized.

Purpose: The purpose of this assessment is to determine to what extent our teacher candidates are implementing the standards within their classrooms and schools. The results will also help us evaluate how well our program is preparing candidates with the teacher leadership skills to meet the standards.

Assessment/Rubric: To increase data reliability, it is important that you understand the assessment instrument and the rating system. The assessment asks you to rate the implementation level of each function of the Teacher Leader Model Standards and to provide a final rating for each domain based on your observations of the teacher candidate. The identified functions detail the specific research-based leadership skills and activities that teacher leaders are expected to demonstrate. The following rubric levels and descriptions are identified on the assessment; however, to guide the scoring process, further clarification for each rubric level is given below:

Ineffective: *The teacher leader candidate is **not** meeting the identified functions from each domain of the Teacher Leader Model Standards.*

Ineffective should be selected if you have **not observed** the teacher candidate demonstrating any of the leadership activities identified in each function of the Teacher Leader Model Standards.

Developing: *The teacher leader candidate is **partially** meeting the identified functions from each domain of the Teacher Leader Model Standards.*

Developing should be selected if you have observed the teacher candidate implementing **only part** of the function. The candidate is on the right track in developing the leadership skills, but the identified skills are **not fully developed**.

Accomplished: *The teacher leader candidate is **fully** meeting the identified functions from each domain of the Teacher Leader Model Standards.*

Accomplished should be selected if you have observed the teacher candidate implementing **all** the leadership skills identified in the function. The candidate has **fully developed** the skills and demonstrates them regularly.

Exemplary: *The teacher leader candidate is **fully** meeting the identified functions from each domain of the Teacher Leader Model Standards, **and** he/she **actively seeks opportunities for professional growth** to continue to improve in these areas.*

Exemplary should be selected if the teacher candidate is **fully** meeting the teacher leadership skills in each function, and he/she regularly **participates in professional growth opportunities to further refine the identified skills**.

If you have any questions or wish additional training for this assessment, please do not hesitate to contact the University of Pikeville Patton College of Education at 606-218-5314. Clinical partnerships are important to the quality of our Teacher Leader Program, and we value your input!

Please proceed to the assessment.

Candidate Disposition Inventory

Dispositions are operationally defined as tendencies or beliefs that are conveyed or made public through observable behaviors. Identify your choice by selecting the appropriate level. Complete the following inventory using the Excel sheet provided in accordance with the following scale as a means to describe the manner in which each behavior has been exemplified. Please remember that students are scored with respect to their level of acceptable behavior or their deviation from it. A score of 3 is given to students for whom you have not observed any behaviors that would lead you to believe that their dispositions are anything other than acceptable. Scores that approach 1 should be given to students whom exhibit less than acceptable behaviors and scores that approach 5 should be reserved for students who exhibit exceptional behaviors.

School Administrator Assessment of the Teacher Leader Model Standards

Introduction

Context: The main goal of the University of Pikeville Teacher Leader Program Master's Program is to prepare our candidates to meet the Teacher Leader Model Standards so that they are equipped to step into teacher leadership positions within their classrooms and schools. The Teacher Leader Model Standards have seven domains, and each domain has several related functions. The standards are both research-based and nationally recognized.

Purpose: The purpose of this assessment is to determine to what extent our teacher candidates are implementing the standards within their classrooms and schools. The results will also help us evaluate how well our program is preparing candidates with the teacher leadership skills to meet the standards.

Assessment/Rubric: To increase data reliability, it is important that you understand the assessment instrument and the rating system. The assessment asks you to rate the implementation level of each function of the Teacher Leader Model Standards and to provide a final rating for each domain based on your observations of the teacher candidate. The identified functions detail the specific research-based leadership skills and activities that teacher leaders are expected to demonstrate. The following rubric levels and descriptions are identified on the assessment; however, to guide the scoring process, further clarification for each rubric level is given below:

Ineffective: *The teacher leader candidate is **not** meeting the identified functions from each domain of the Teacher Leader Model Standards.*

Ineffective should be selected if you have **not observed** the teacher candidate demonstrating any of the leadership activities identified in each function of the Teacher Leader Model Standards.

Developing: *The teacher leader candidate is **partially** meeting the identified functions from each domain of the Teacher Leader Model Standards.*

Developing should be selected if you have observed the teacher candidate implementing **only part** of the function. The candidate is on the right track in developing the leadership skills, but the identified skills are **not fully developed**.

Accomplished: *The teacher leader candidate is **fully** meeting the identified functions from each domain of the Teacher Leader Model Standards.*

Accomplished should be selected if you have observed the teacher candidate implementing **all** the leadership skills identified in the function. The candidate has **fully developed** the skills and demonstrates them regularly.

Exemplary: *The teacher leader candidate is **fully** meeting the identified functions from each domain of the Teacher Leader Model Standards, **and** he/she **actively seeks opportunities for professional growth** to continue to improve in these areas.*

Exemplary should be selected if the teacher candidate is **fully** meeting the teacher leadership skills in each function, and he/she regularly **participates in professional growth opportunities** to **further refine the identified skills**.

If you have any questions or wish additional training for this assessment, please do not hesitate to contact the University of Pikeville Patton College of Education at 606-218-5314. Clinical partnerships are important to the quality of our Teacher Leader Program, and we value your input!

Please proceed to the assessment.

Teacher Partner Assessment of Teacher Leader Model Standards

Introduction

Context: The main goal of the University of Pikeville Teacher Leader Program Master's Program is to prepare our candidates to meet the Teacher Leader Model Standards so that they are equipped to step into teacher leadership positions within their classrooms and schools. The Teacher Leader Model Standards have seven domains, and each domain has several related functions. The standards are both research -based and nationally recognized.

Purpose: The purpose of this assessment is to determine to what extent our teacher candidates are implementing the standards within their classrooms and schools. The results will also help us evaluate how well our program is preparing candidates with the teacher leadership skills to meet the standards.

Assessment/Rubric: To increase data reliability, it is important that you understand the assessment instrument and the rating system. The assessment asks you to rate the implementation level of each function of the Teacher Leader Model Standards and to provide a final rating for each domain based on your observations of the teacher candidate. The identified functions detail the specific research-based leadership skills and activities that teacher leaders are expected to demonstrate. The following rubric levels and descriptions are identified on the assessment; however, to guide the scoring process, further clarification for each rubric level is given below:

Ineffective: *The teacher leader candidate is **not** meeting the identified functions from each domain of the Teacher Leader Model Standards.*

Ineffective should be selected if you have **not observed** the teacher candidate demonstrating any of the leadership activities identified in each function of the Teacher Leader Model Standards.

Developing: *The teacher leader candidate is **partially** meeting the identified functions from each domain of the Teacher Leader Model Standards.*

Developing should be selected if you have observed the teacher candidate implementing **only part** of the function. The candidate is on the right track in developing the leadership skills, but the identified skills are **not fully developed**.

Accomplished: *The teacher leader candidate is **fully** meeting the identified functions from each domain of the Teacher Leader Model Standards.*

Accomplished should be selected if you have observed the teacher candidate implementing **all** the leadership skills identified in the function. The candidate has **fully developed** the skills and demonstrates them regularly.

Exemplary: *The teacher leader candidate is **fully** meeting the identified functions from each domain of the Teacher Leader Model Standards, **and** he/she **actively seeks opportunities for professional growth** to continue to improve in these areas.*

Exemplary should be selected if the teacher candidate is **fully** meeting the teacher leadership skills in each function, and he/she regularly **participates in professional growth opportunities to further refine the identified skills**.

If you have any questions or wish additional training for this assessment, please do not hesitate to contact the University of Pikeville Patton College of Education at 606-218-5314. Clinical partnerships are important to the quality of our Teacher Leader Program, and we value your input!

Please proceed to the assessment.

Candidate Disposition Inventory

Dispositions are operationally defined as tendencies or beliefs that are conveyed or made public through observable behaviors. Identify your choice by selecting the appropriate level. Complete the following inventory using the Excel sheet provided in accordance with the following scale as a means to describe the manner in which each behavior has been exemplified. Please remember that students are scored with respect to their level of acceptable behavior or their deviation from it. A score of 3 is given to students for whom you have not observed any behaviors that would lead you to believe that their dispositions are anything other than acceptable. Scores that approach 1 should be given to students whom exhibit less than acceptable behaviors and scores that approach 5 should be reserved for students who exhibit exceptional behaviors.
