IMPORTANT UNIVERSITY-WIDE INFORMATION

Changes

The contents of this catalog are provided for students in programs administered by the College of Arts and Sciences, the Coleman College of Business, the Patton College of Education, and the College of Nursing and Human Services: associate, baccalaureate, and master's degree programs. The catalog for the Kentucky College of Osteopathic Medicine and the Kentucky College of Optometry are available online at www.upike.edu. Information in this catalog is prepared based on the best information available at the time of publication, including statements of fees, course offerings, and academic regulations. The catalog was accurate at the time of printing but is subject to change as deemed appropriate by the University of Pikeville to fulfill its mission or to accommodate circumstances beyond its control. Any such changes may be implemented without prior notice and without obligation and, unless otherwise specified, are effective when made.

Notice of Non-Discrimination

The University of Pikeville does not discriminate based on race, ethnicity, color, sex, gender, gender identity, sexual orientation, religion, national origin, age or disabilities in its programs, activities, hiring, or the admission of students.

The following person has been designated to handle inquiries regarding non-discrimination policies under Title IX:

Bethany Bowersock Assistant Dean of Graduate and Professions Title IX Coordinator University of Pikeville 147 Sycamore Street Pikeville, KY 41501 bethanybowersock@upike.edu 606-218-5344

The following person has been designated to handle inquiries regarding other non-discrimination policies:

Michael Pacheco Human Resources Director University of Pikeville 147 Sycamore Street Pikeville, KY 41501 michaelpacheco@upike.edu 606-218-5216

If either individual is unavailable, inquiries concerning any non-discrimination policy may be directed to the other individual.

Sexual Assault Prevention

The University of Pikeville is committed to providing a supportive learning environment and fostering safe, healthy relationships among our students. As such, the institution and members of our community will not tolerate the offenses of dating violence, domestic violence, sexual assault and stalking. The University encourages any member of the University community who has experienced sexual harassment, sexual assault, domestic violence, dating violence, or stalking, or knows of another member of the community who has experienced sexual harassment, sexual assault, domestic violence, dating violence or stalking, to report the incident to the University. In case of an emergency or ongoing threat, a survivor should get to a safe location and call 911. Calling 911 will connect you with local police. Students and employees who have experienced sexual harassment, sexual assault, domestic violence, dating violence, or stalking should report incidents to Bethany Bowersock, J.D., Title IX Coordinator and Compliance Officer. Her email and phone contact information are BethanyBowersock@upike.edu and 606-218-5344.

Representation of Accreditation Status

The University of Pikeville is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate, baccalaureate, masters, and doctorate degrees. Questions about the accreditation of the University of Pikeville may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website (www.sacscoc.org).

The Kentucky College of Osteopathic Medicine has been granted accreditation by the American Osteopathic Association's Commission on Osteopathic College Accreditation. This body is recognized by the U.S. Department of Education as the accrediting agency for colleges educating osteopathic physicians.

The professional optometric degree program at the University of Pikeville Kentucky College of Optometry holds the status of "Accredited" from the <u>Accreditation Council on Optometric Education (ACOE)</u>, 243 N. Lindbergh Blvd., St. Louis, MO 63141—Telephone 314-991-4100. The next evaluation visit is currently scheduled for April 2028. The classification of "Accredited" is granted to an educational program indicating that the program generally meets the standards of accreditation and that the program has no deficiencies or weaknesses that compromise the educational effectiveness of the total program.

The University's degree programs in Teacher Education are approved by the Kentucky Education Professional Standards Board.

The University of Pikeville RN-BSN program is accredited by the Accreditation Commission for Education in Nursing (ACEN), 3390 Peachtree Road NE, Suite 1400, Atlanta, Georgia 30326; telephone (404) 975-5000; www.acenursing.org. The University's program for the associate of science degree in Nursing has approval status by the Kentucky Board of Nursing.

The University's baccalaureate degree program in Social Work and master's degree in Social Work are accredited by the Council on Social Work Education (CSWE), 1701 Duke Street, Suite 200, Alexandria, VA 22314; telephone (703) 683-8080; www.cswe.org.

President's Message

Welcome to the UPIKE family!

At some institutions, presidents throw those words around without a lot of substance behind them, but here at UPIKE the faculty, staff, and students told me about the UPIKE family before we even arrived on campus. There is an atmosphere of caring and closeness that permeates the hill, transcends the classroom and reaches into the heart of who we are as a people.

As a family we believe in, and embrace certain things.

First - We are a Christian community, but that does not mean we are all people of the same faith. We believe that, at its best, the Christian community is expressed by valuing people, offering hospitality to all, and providing an environment where faith can grow. We welcome all people of all faiths and ask that we respect and honor one another as people made in the image of God. Our family has its roots in Christianity and we extend our arms to everyone.

Second - We strive to be a healthy family, but that does not mean we are perfect. We recognize that the people who make up the UPIKE family come from many different backgrounds and some of us are passionate in our opinions. We might disagree sometimes, but at the end of the day, we are a family that loves and values one another and we will work to be healthy. There is great strength in diversity and we do our best to embrace it.

Third - Communication is one of the most important keys to being a healthy family. In every setting we strive for healthy communication that encourages, lifts up, and holds everyone accountable to our life together as a family. We realize that open communication is not always natural and that it will take work and trust to maintain. Communication is at the heart of what we seek to do academically and we believe in putting knowledge into practice. We think healthy communication is worth the effort.

Finally - We are a family of learners. This last characteristic of the UPIKE family encompasses each of the preceding three. We humbly recognize that we do not have all of the answers when it comes to faith, so we welcome others and seek to learn from their experiences. We acknowledge our imperfections while simultaneously seeking to heal them and grow from our experiences. We are always learning how to speak, write, and communicate in ways that bring life and growth. We are always learning.

As we aim toward our faith, live in community, and communicate with one another we learn what it might be like to experience the life well-lived. Along the way we will intentionally learn important skills like writing, speaking, optometry, nursing, social work and medicine. We are a great university that is built to do those things too, but our aim is to build lives of character by forming people who pursue truth, seek justice and understand what it is to live well in the twenty-first century. If we can do that and educate students in their chosen field, we will have done well as the UPIKE family.

Striving to serve,

Burton J. Webb, Ph.D.

President

University of Pikeville

University of Pikeville Mission and Goals

The University of Pikeville is the leading higher education institution of Central Appalachia. Founded in 1889, UPIKE remains steadfast in our commitment to preparing students for the future while creating intellectual, cultural, and economic opportunities for Appalachia. Maintaining our commitment to Christian principles, UPIKE recognizes the infinite worth of each person, respecting a variety of religious expressions.

UPIKE achieves its mission by:

- Creating a pathway to higher education for all students who desire to embark upon that journey and attracting and retaining high caliber students who will be future regional, national, and global leaders.
- Preparing graduates through quality academic programs, grounded in the liberal arts, and through involvement in community service, experiential learning, research, athletics, humanitarian efforts, and global outreach.
- Achieving academic excellence by maintaining academic rigor and relevancy in undergraduate, graduate, and professional degree programs.
- Attracting and retaining distinguished faculty, staff, administrators, trustees, and alumni who are dedicated to
 meeting the individual needs of students, promoting a caring and supportive environment conducive to
 learning, and meeting the needs of an evolving University; and
- Providing superior infrastructure with state-of-the-art classrooms, clinics, instructional materials, physical
 facilities, technological infrastructure and campus amenities through sound fiscal policy and efficient and
 effective administrative services.

History of the University of Pikeville

The University of Pikeville was established in 1889 as an outreach of the Presbyterian Church, after an extensive survey of the religious and educational needs of eastern Kentucky. An 1887 scouting party, which included Dr. W.C. Condit, Rev. Samuel B. Alderson, and Rev. James P. Hendrick, set forth (in Condit's words) to "select the location for an institution of higher learning for the youth of the mountains."

September 16, 1889, was the first day of class at Pikeville College Institute, a four-room, brick building situated on three acres of land in Pikeville, Kentucky. It functioned as both school and church. The institute was not originally intended to confer degrees, but to give "good practical education to those persons who pursue its courses." At that time, the institute offered schoolwork in primary, preparatory, and "college" departments.

In 1909, the structure of the school changed. After obtaining permission from the Synod, the articles of incorporation were amended to make Pikeville College a chartered college, empowered by the state of Kentucky to offer four years of college work and confer baccalaureate degrees. Although the college immediately began planning the additional curriculum and faculty needed for this endeavor, the school maintained its commitment to primary and secondary education in the region by sustaining the Pikeville College Academy for grades 1-12. Pikeville College admitted its first college freshman class in 1916. The final two years of college were not added until 1955, and the first baccalaureate graduation was held in 1957, a year that also marked the closing of the Pikeville College Academy.

Pikeville has continued to evolve throughout the years, changing its curricula to meet the changing needs of Appalachia. Students may earn either associate or baccalaureate degrees in a variety of majors in conjunction with a quality liberal arts and science curriculum. As further evidence of its commitment to the health and well-being of the Appalachian region, in the fall of 1997 Pikeville College admitted its first students into the newly established Pikeville College School of Osteopathic Medicine.

On July 1, 2011, the college officially became the University of Pikeville, a bold and strategic move that will build upon the institution's tradition of excellence. In the fall of that same year, the University launched its first master's program – a Master of Business Administration. Today, the University has undergraduate and graduate academic programs housed in six colleges or schools: College of Arts and Sciences (1889), the Kentucky College of Osteopathic Medicine (1997), the Coleman College of Business (2013), the Patton College of Education (2015), the Kentucky College of Optometry (2016), and the College of Nursing and Human Services (2019).

The motto of the University is "Prospician ad Montes" or "Look to the Mountains." When people in the valley below do so, they see a thriving institution dedicated to the education of its people. What began as only a dream has endured more than a century of strife and prosperity, emerging as the "Leading University of Central Appalachia."

UNDERGRADUATE ADMISSION INFORMATION

The University of Pikeville supports a liberal admission policy emphasizing flexibility and individuality. Each applicant for the undergraduate program is evaluated by the Office of Admissions based on past academic achievement and potential for success at the University of Pikeville.

Unless otherwise stated, applications for admission will be considered through the registration period. Questions regarding admissions should be directed to the Office of Admissions at (606) 218-5251.

Admission Requirements (General)

An applicant for admission must provide the Office of Admissions with the following by the designated document deadline:

- 1. Application for admission.
- 2. An official transcript indicating successful completion of high school or its equivalent as shown by the General Educational Development (GED) test.
- 3. Official transcript(s) of any college or other post-secondary courses.
- 4. Official results of the American College Test (ACT) or the Scholastic Aptitude Test (SAT). (Note: The University of Pikeville is now test optional. If you have standardized test scores you would like to have entered as part of your application, please submit them. Test scores are not required as part of the application process.

Transfer Applicants

Transfer students are required to submit official transcripts from all colleges previously attended by the designated document deadline. Admission to the University will be based on the overall grade point average achieved. Applicants with a cumulative 2.0 grade point average or higher (on 0-4 quality point scale) will be admitted in good standing. Transfer applicants with less than a 2.0 grade point average will be reviewed for admission to the University. Those transfer applicants who are admitted to the University with less than a 2.0 grade point average will be placed on probation under the same restrictions applied to University of Pikeville students. Applicants suspended from the last institution attended for academic or social reasons will be reviewed by the Enrollment Committee. Applicants who are denied submission may petition the Enrollment Committee. Please note that while standardized test scores are not required for transfer admission, they can be used to satisfy some course prerequisite requirements and it is recommended that you provide standardized test scores, when possible.

Transfer Credit

The University accepts credit for courses from regionally accredited institutions per the policies outlined below:

- 1. Transfer credit will be awarded for courses comparable to those taught at the University of Pikeville and/or that are compatible with a liberal arts education, including developmental studies courses; credit is not granted for English as a Second Language (ESL) courses.
- 2. Credit will be granted only for courses with a grade of "C" or above.
- 3. Transfer students are required to complete all the stated requirements for the degree to be received.
- 4. The final grade point average (GPA) will include only those hours earned at the University of Pikeville.
- 5. To be considered for honors at the time of commencement, a student must have completed a minimum of 60 hours at the University of Pikeville.
- 6. Upon receipt of official transcripts, the University will make every effort to inform students of the amount of credit that will transfer prior to enrollment, but no later than the end of the first term of enrollment. A notation of "P" and the credit hours transferring are recorded on the University of Pikeville transcript; grade point averages and quality points are not recorded.
- 7. The University of Pikeville accepts dual credit for courses that correspond with similar courses offered at the University, provided such courses are offered by a regionally accredited institution, ensuring instruction by qualified faculty and adherence to appropriate placement criteria.

Students may petition for the transfer of credit not covered by the aforementioned. Requests will be considered on an individual basis per established criteria. Further information and appropriate procedures for requesting transfer credit may be obtained from the Registrar's Office.

Dual Credit Opportunities

The University of Pikeville partners with several high schools to offer select courses for dual credit. The program allows qualified high school juniors and seniors to earn both high school and college credit at the same time. The intention of the program is threefold: to challenge high achieving students, to allow students to earn college credit, and to provide students with college classroom experiences.

High school students interested in the program should contact the University of Pikeville Admissions Office or their high school counselor to obtain information about registration and fees.

International Students

Welcome international applicants! A student may apply as either a new freshman or as a transfer student. The University of Pikeville is a Student and Exchange Visitor Program (SEVP) certified school and is authorized to accept students under an F-1 Visa.

Application deadline: June 15 for fall semester and November 1 for spring semester.

Please carefully read the requirements below. International students will be reviewed for admission once all of the following materials are received by International Admissions:

- International Student Admission application.
- Evidence of English proficiency determined by taking a standardized test to demonstrate fluency:
 - TOEFL Test (i.e. Test of English as a Foreign Language) a minimum score of 68.0 is acceptable for an undergraduate student, and a minimum score of 79 is acceptable for a graduate student.
 - IELTS Test (i.e. International English Language Testing System (IELTS) a minimum score of 6.0 is acceptable for the purpose of meeting the English language requirement.
 - Other standardized English tests may be considered for the purpose of meeting the English Language requirement. Contact the International Student Services for exceptions.
- Passport If you are a citizen of another country, please provide a copy of your passport (the passport must be valid for at least the next six months.
- Financial Affidavit Form Student and Exchange Visitor Program (SEVP) requires certified schools have specific requirements for acceptable forms of evidence. Prospective F-1 students must prove their financial resources to live and study in the United States. This includes being able to cover the cost of tuition, books, living expenses, and travel. Designated school officials (DSOs) must collect evidence of the student's financial ability before issuing a Form I-20, Certificate of Eligibility for Nonimmigrant Student Status.

Additionally, prospective students must bring their evidence of financial ability when applying for their student visa with the U.S. Department of State. It is also advised to have the evidence on-hand when entering the country at a U.S. port of entry in the event a U.S. Customs and Border Protection officer asks for review.

Working off campus is illegal without special permission from immigration. Note that students do not qualify for U.S. financial aid or FAFSA benefits.

- Evidence of Financial Ability https://studyinthestates.dhs.gov/students/financial-ability
 - A prospective student must have financial evidence showing that they or a sponsor has sufficient
 funds to cover tuition and living expenses during the period of intended study. To verify if a form
 of financial evidence is acceptable, contact the schools' international student office. Evidence of
 financial ability includes, but is not limited to:
 - Family bank statements.
 - Documentation from a sponsor.
 - Financial aid letters.

- Scholarship letters.
- Letter from an employer showing annual salary.
- Immunizations All incoming international students must are required to provide current immunization records per the national guidelines from the U. S. Centers for Disease Control and Prevention (CDC), the American College Health Association and the World Health Organization (http://www.who.int/ith/vaccines/en/)

All incoming international UPIKE students must receive the following vaccinations *prior* to their arrival on campus:

- Meningococcal Meningitis
- <u>Tetanus-diphtheria-pertussis booster</u> (within the last 10 years)
- Polio booster (completed childhood series)
- **Hepatitis A** (two-dose series)
- **Hepatitis B** (three-dose series)
- <u>Chicken Pox</u> (two-dose series)
- **HPV** (three-dose series)
- Tuberculosis: **T-Spot Blood Tests**
- Transcript Evaluation The University of Pikeville requires an assessment by a transcript evaluation service that is a member of the National Association of Credential Evaluation Services (www.naces.org). All secondary and post-secondary education (not U.S. accredited) done outside of the United States must be evaluated by an independent international credential agency at the applicant's expense. The process of grade conversion to U.S. equivalencies requires many variables to arrive at a fair assessment of individual achievement. Therefore, to make grading scales including their definitions and distributions meaningful in a U.S. context we require academic assessment by third-party transcript evaluators. One of the following evaluators:
 - Josef Silny & Associates, Inc. see website: http://www.jsilny.com/
 - World Education Services (WES) see website: http://www.wes.org

Transcript Evaluations should be sent to:

International Students & Scholar Services University of Pikeville 147 Sycamore Street Pikeville, Kentucky 41501

Application deadline: June 15 for fall semester and November 1 for spring semester.

When the student's admission file is complete, the student will be issued an acceptance letter from the undergraduate Admissions Office at University of Pikeville.

An international student <u>will not</u> be issued a "Certificate of Eligibility" (I-20 form until all required documents have been received by international student services including financial support evidence. Financial support evidence is required that meets or exceeds the cost of tuition, housing, living expenses and miscellaneous expenses, including travel. Living expenses and other costs are only an estimate. A student's actual expenses may vary.

Students should submit their financial documents as soon as possible, but no sooner than 6 months prior to your start date at the University of Pikeville.

8 CFR 214.2(f)(1)(i)(B) Federal regulations require all students applying for an F-1 visa to show proof of sufficient funding in the amount indicated on the SEVIS I-20 form with expected sources of funding for the remaining years of their program.

Next, International Student & Scholar Services will issue to the student a Form I-20, *Certificate of Eligibility for Nonimmigrant (F-1) Student Status – for Academic and Language Students*. The last step is for the student to apply for an F-1 Visa with the U.S. Embassy in their home country. A student <u>will not</u> be able to schedule a visa interview or pay the SEVIS fee without submitting their financial document and receiving a signed I-20 form from the Designated School Official.

Complete the U.S Government Form DS-160, Nonimmigrant Visa Electronic Application. In order to complete form I-901, you must have a signed Form I-20 from the University of Pikeville. Next, make an appointment with the American Consulate or Embassy in your home country. Although you may apply at any U.S. Consular office abroad, it may be more difficult to qualify for the visa outside the country of your permanent residence.

Find the nearest embassy to your location here: https://www.usembassy.gov/

Appointments are now mandatory for all visas, and some U.S. embassies and consulates require that appointments be made at least four to eight weeks in advance. All U.S. embassies and consulates have a website where you can read the latest information on visa procedures.

SEVIS FEE – Prior to applying for your visa you must pay a \$350 SEVIS fee (if applying for a F-1 visa), payment should be made to the U.S. Department of Homeland Security (DHS). Please read all instructions fully before attempting to pay the fee. If your visa is denied, you do not need to pay the SEVIS fee again if you re-apply for the same visa within 12 months of the denial.

Students and scholars from Canada and Bermuda do not have to apply for a visa. You will show SEVIS fee payment verification along with your Form I-20 to an immigration inspector at the port of entry at the border of the United States.

Any questions about the Form I-20 should be directed to the Designated School Official (DSOs) that issued the I-20 Form to the student.

Results of the American College Test (ACT) or the Scholastic Aptitude Test (SAT) are not required for international admission; however, to obtain athletic eligibility for example with NAIA, they will require either an ACT or SAT score report (refer to Athletics Department or coach for minimum requirements). In addition, University of Pikeville mandates placement in reading, English, and mathematics. All international students are required to take placement tests to demonstrate reading, English, and mathematics, and other proficiencies upon arrival to campus.

Categories of Admission

All undergraduate students at the University of Pikeville are admitted under one of the following categories:

- 1. **Degree candidates** are those students seeking either a two or four-year degree and meeting all requirements for admission.
- 2. **Special students** are those students not meeting all requirements for "regular" acceptance who may be admitted to certain classes as special, non-degree seeking students. Students must be qualified to enroll in classes with prerequisites, unless a waiver is granted by the Dean of the appropriate college. A student may take up to 15 hours under this status. Students classified as non-degree are not eligible for financial aid.
- 3. **Certification candidates** are those students who hold a baccalaureate degree from an accredited college or university and are seeking teacher certification in an appropriate teaching field.
- 4. **Non-Degree students** are those students who are not seeking a degree at the University of Pikeville. Students must be qualified to enroll in classes with prerequisites, unless a waiver is granted by the Dean of the appropriate college. A student may take up to 11 hours under this status. Students classified as non-degree are not eligible for financial aid.
- 5. **Certificate students** are those students seeking to complete requirements for a certificate only. Students must be qualified to enroll in classes with prerequisites, unless a waiver is granted by the Dean of the appropriate college. A student may take hours (12 24) required for the certificate under this status. Most certificate programs are not eligible for financial aid.

Readmission

Any student who has been away from the University of Pikeville for at least one academic semester or withdrew from the University during the previous semester must reapply for admission. An updated admissions application and official transcripts from any institutions attended while away from the University of Pikeville are required for readmission. In certain situations, such as suspension or dismissal for academic or social reasons, other requirements, in addition to the admissions application, may have to be met by the student before readmission is granted. Please consult related sections of this catalog for additional information.

Senior Citizens

Any individual sixty-five years of age or older wishing to attend undergraduate classes may do so as a special student without being a high school graduate or having a GED. Interested parties must complete an admission application and, if a degree seeking student, submit official transcripts of any post-secondary course work completed.

Demographic Information

The University of Pikeville welcomes students from all regions and cultural backgrounds. In Fall 2021, the University of Pikeville undergraduate program enrolled 1,000 students from 30 states and 12 foreign countries. Of that number, 76% came from the Appalachian Region as defined by the Appalachian Regional Commission. Additional demographic data and student success data is shown below:

Student Body Diversity

Degree-Seeking Undergraduate Students, Fall 2021

Allara Library

The Frank M. Allara Library offers students, faculty and staff a wide range of resources and services. Allara Library maintains a collection of approximately 60,000 books and 150 journals in print. As part of the Kentucky Virtual Library and the Appalachian College Association, the library provides electronic access to more than 250,000 ebooks, 68,000 journals, streaming films and music, and a wide variety of other resources. All electronic resources are accessible to students and faculty from both on- and off-campus. The main floor of Allara is a primary computing and printing center on campus. Additional floors are study spaces for individual and group study. Librarians and staff are always available to answer questions and assist with research.

Intercollegiate Athletics

The University of Pikeville offers opportunities for intercollegiate competition in archery, men's baseball, basketball, bowling, cheerleading, cross country, dance, eSports, football, golf, soccer, women's fast pitch softball, swimming, tennis, indoor/outdoor track and field, women's volleyball, and men's Wrestling. The Bears are members of the National Association of Intercollegiate Athletics (NAIA) and the Mid-South Conference. All students who are enrolled in four-year undergraduate degree programs are eligible and encouraged to compete for positions on the athletic teams.

UNDERGRADUATE FINANCIAL INFORMATION

The University of Pikeville seeks to provide excellent instruction and pleasant living conditions at a modest expense. As a private institution of higher education, the University of Pikeville does not receive a fixed amount of state or federal funding. For undergraduate programs, student tuition covers approximately one-third of the educational cost. Therefore, to support its academic programs, the University accepts funds from foundations, corporations, endowments, alumni, parents, and friends of the University. Additionally, the University administers an extensive federal, state, and institutional financial aid program.

Students may attend the University of Pikeville despite their financial limitations. To do so, however, they are urged to seek financial assistance early from the Office of Student Financial Services. The following figures are for the 2022-2023 academic year and are subject to revision.

2022-2023 Tuition, Housing, & Board Cost

	Costs (2022- 2023) *	Per Semester	Per Year

2022-2023 Fees

The cost of all instructional materials, required supplies, and the fees listed below, are not included in the tuition charge. There is no charge for textbooks. *All additional fees are subject to change for the 2022-2023 academic year*.

- 1. **Enrollment Deposit:** An Enrollment Deposit of \$75 is required for all incoming students new to UPIKE before registration can occur. You can request a waiver of the enrollment deposit by emailing the Director of Admissions at _UPIKE Admissions admissions@upike.edu
- 2. **Graduation Fee:** A \$100.00 fee is assessed when the student applies for graduation and must be paid, <u>not charged to a student account</u>, at the time of filing the *Application for Degree*. This fee helps to cover the costs of the student's cap, gown, tassel, diploma, and assessments.
- 3. **Directed Independent Study, Directed Research, and Internship Courses:** All Directed Independent Study, Directed Research, and Internship courses will be charged an additional fee of \$75.00 per credit hour up to \$300.00 per course.
- 4. **Student Activities Fee:** All full-time undergraduate students will be charged a \$75.00 fee per semester (\$150 for the academic year). These funds will be directly allocated towards the co-curricular experience and no institutional aid can cover this cost.
- 5. **Education Program Fees:** There are additional fees assessed for the following Education (EDU) courses. These fees help to offset the additional costs associated with background checks, review materials for the required PRAXIS II: Subject Assessments/Specialty Area Test(s) and the PRAXIS II: Principles of Learning and Teaching Test(s) and the additional costs of the Clinical Practice courses (cooperating P-12 teacher expenses and supervisor travel). Each educational program only requires one of the Clinic Practice I and II courses. These fees are assessed each time the course is attempted.

Education Courses with Additional Fees*	Amount
EDU 100 Introduction to Education as a Profession	\$50.00
EDU 328 Education in Kentucky	\$150.00
Clinical Practice I (EDU 411, 413, 415, 417, 419, 421, and 423)	\$150.00
Clinical Practice II (EDU 440, 442, and 444)	\$250.00

^{*} All charges are subject to change for the 2022-2023 academic year.

6. **Nursing Program Fees:** There are additional fees assessed for the following Nursing (NUR) courses. The fees cover the costs associated with clinical laboratory kits, program assessments, and some licensure preparation materials. For specific details contact the Dean of the College of Nursing and Human Services. These fees are assessed each time the course is attempted.

Nursing Courses with Additional Fees*	Amount
NUR 110 Fundamentals of Nursing I	\$370.00
NUR 120 Fundamentals of Nursing II	\$370.00
NUR 230 Nursing Across the Lifespan I	\$450.00
NUR 240 Nursing Across the Lifespan II	\$450.00

^{*} All charges are subject to change for the 2022-2023 academic year.

7. **Music Program Fees:** There are additional fees assessed for the following Music (MUS) courses. The fees help offset the additional costs associated with private piano and private voice courses. These fees are assessed each time the course is attempted.

Music Courses with Additional Fees*	Amount
Private Piano (MUS 150,151, 250, 251, 350, 351, 450, and 451)	\$100.00
Private Voice (MUS 152, 153, 252, 253, 352, 353, 452, and 453)	\$100.00
Private Instrumental (MUS 154, 155, 254, and 255)	\$100.00

^{*} All charges are subject to change for the 2022-2023 academic year.

8. **Social Work Program Fees:** There are additional fees assessed for the following Social Work (SW) courses. The fees help offset the additional costs associated with the Social Work Practicum Courses. These fees are assessed each time the course is attempted.

Social Work Courses with Additional Fees*	Amount
SW 491 Social Work Practicum I	\$100
SW 492 Social Work Practicum II	\$100
SW 496 Social Work Practicum	\$200

^{*} All charges are subject to change for the 2022-2023 academic year.

9. Special Fees: There are special fees that are only applicable for those situations.

Special Fees* (only when applicable)	Amount	
Transcripts [†]	\$10.00 to \$50.00 depending on	
Transcripts	Delivery Mode	
Credit by Examination	\$100.00 basic fee per course plus \$100	
	for each semester hour of credit granted	
Work Experience Credit	\$100.00 basic fee per course plus \$100	
	for each semester hour of credit granted	
Smart Card Replacement	\$10.00	
Diploma Replacement	\$35.00	

^{*} All charges are subject to change for the 2022-2023 academic year.

Official Registration

A student is not officially registered for any class until he or she has made a satisfactory settlement with the Business Office for tuition and fees, as well as room and board and any other charges, if applicable.

Room and Board

Room rent is assessed at the beginning of each semester. All students in University of Pikeville housing must furnish sheets, pillows, blankets, pillow cases, and towels for themselves.

The meal plan covers the actual number of weeks that classes are in session during the fall and spring semesters. A meal plan is required of all residential students. The food service provider is willing and able to accommodate students with special diets prescribed by their doctors. Consequently, no exemption from the meal plan will be granted unless the University and the student's physician agree that the food service provider is not able to meet the specific dietary needs of the student. Applications for exemption from the meal plan are available in Student Affairs and should be returned two weeks prior to the beginning of the semester. Commuter students may also purchase a meal plan. Meals may also be purchased on a cash basis at the door.

[†] Transcripts will not be issued for a student when there is an unpaid balance.

Financial Responsibilities

All students are personally responsible for payment of financial obligations. Students must, therefore, be familiar with the following policies, since no exception will be made.

Before the beginning of each term, the Business Office will send each student an email to review their student account online. Loans will not be shown as expected aid until all loan paperwork has been completed. One third of the remaining balance must be paid by the first day of classes. The final two payments may be made on or before October 1 for the fall term and March 1 for the spring term. For summer terms, the full tuition charge is due on the first day of classes. Summer term bills for early registered students are available online approximately mid-May. Students can access their account activity and bills via UPIKE Self-Service at any time. For more information about these payment options, please contact the University's Student Receivables accountant at (606) 218-5203.

Any student who does not have a balance of zero at the end of each semester will not be permitted to register for a new semester or summer term until that balance is paid or arrangements have been made. Charges for parking tickets, library fines, or other charges will automatically be added to a student's account and will become part of what a student owes the University.

No transcript will be issued to a student, nor will one be forwarded to another institution when there is an unpaid balance. If an outstanding or an unpaid balance exists, a student cannot receive their diploma.

Withdrawal Policy

All students who withdraw before a semester is completed may be assessed fees according to the refund policy as outlined below. Any student who fails to go through proper procedures for withdrawal, or delays official withdrawal, will also be held responsible for charges in accordance with the refund policy.

Refund Policy

Tuition, room, and board are refundable for students who withdraw from the University of Pikeville during fall and spring semesters. Tuition and room and board are refunded based on the point in the semester that the student completes the withdrawal process which is reflected in the following table:

Term/Semester	Official Date of Withdrawal	Charge	Refund
Courses of sixteen (16) in length	On or before the end of the first week of classes.	0%	100%
	On or before the end of the second week of classes.	25%	75%
	On or before the end of the third week of classes.	50%	50%
	On or before the end of the fourth week of classes.	75%	25%
	After the fourth week of classes	100%	0%
Courses eight (8) weeks in length	On or before the end of the first week of classes.	0%	100%
	On or before the end of the second week of classes.	50%	50%
	On or before the end of the third week of classes.	75%	25%
	After the third week of classes	100%	0%
Courses of four (4) weeks in length.	On or before the second day of class	0%	100%
	After the second day and by the end of the first week of class	50%	100%
	After the first week of class	100%	0%

* All charges are accurate at the time of printing but are subject to change as deemed appropriate by the University of Pikeville in order to fulfill its mission or to accommodate circumstances beyond its control. Any changes may be implemented without prior notice and without obligation and, unless otherwise specified, are effective when made.

There are **no refunds** for individual classes dropped after the first week of classes.

The University reserves the right to make changes in costs and fees when such changes are deemed necessary by the Board of Trustees.

Return of Title IV Funds Policy

It is the responsibility of the Office of Student Financial Services to complete the calculation of the Title IV returns within the time frame required by federal regulation. Any student with Title IV funding that has attended at least one class will be run through the R2T4 calculation process. The Office of Student Financial Services provides the student with a final award letter once R2T4 has been completed. Exit Counseling is completed in the Office of Student Financial Services, if student had received loans. Otherwise, student is given the exit counseling brochure and instructed to complete the counseling online at www.studentloans.gov. The University of Pikeville returns the calculated amount to the appropriate sources which may result in a bill owed to the University of Pikeville. The student receives notification from the Business Office of any remaining balance.

Title IV Return Calculation Procedures – The following steps outline the general procedures used to calculate a Title IV return:

- A. Determine the percentage of aid earned by calculating the percentage of the period that the student completed.
- B. Determine the amount of earned aid by applying the percentage of the total Title IV aid that was or could have been disbursed.
- C. Determine the amount of unearned aid by subtracting earned aid from disbursed aid.
- D. If unearned funds must be returned, determine the school's and the student's shares.

The portion of the unearned funds the school is responsible to pay is returned by the school immediately. The student is then notified of the school's responsibility to return funds to the federal aid program, and is subsequently billed, via a balance on their institutional account for any funds the school was required to return. Any funds returned by the school represents a debt owed by the student to the University of Pikeville. A student may not enroll in subsequent terms, or have academic records released, until such time that all debts have been repaid to the institution. The University of Pikeville is required to return unearned financial aid assistance in a particular order when a student officially or unofficially withdrawals:

- A. Unsubsidized Direct Loans
- B. Subsidized Direct Loans
- C. Federal Perkins Loans
- D. Direct PLUS Loans
- E. Federal PELL Grant
- F. Federal SEOG
- G. TEACH Grant

Unofficial Withdrawal Policy

Once final grades are available at the end of every semester, a report is generated to identify Title IV aid recipients who have earned W's or FN's for the term. These students are considered to have been unofficially withdrawn from the university. The last date of attendance is determined and a Title IV refund calculation is run based on that date. If a final date of attendance cannot be determined, the university will use the midpoint of the term for the calculation. A letter is sent to the student to notify them of their aid eligibility.

Drop/Withdrawal/Refund Policy – Summer Terms (See Refund Policy above)

Students may drop or withdraw from summer classes through the first two days of the term with no penalty. Tuition is refunded at 100% during these first two days. Tuition is <u>not</u> prorated or refunded to students who drop or withdraw from summer classes after the first two days of the term. The University reserves the right to make changes in costs and fees when such changes are deemed necessary by the Board of Trustees.

UNDERGRADUATE SCHOLARSHIPS AND FINANCIAL AID

The financial aid program at the University of Pikeville has a dual purpose: to recognize outstanding achievement in academic and athletic performance areas; and to provide assistance to students who, without such aid, would be unable to attend college. All aid awarded is to supplement the resources of the student and, if applicable, his or her parents. In order to be considered for state and/or federal financial aid, a student must be a United States citizen or eligible non-citizen and must be enrolled as a regular student in an eligible program, studying for a degree or other approved course of study.

Financial Aid Processes and Deadlines

To determine financial need with a degree of uniformity, the University of Pikeville requires financial information from the student and, if applicable, his or her parents. The Free Application for Federal Student Aid (FAFSA) serves as the basic application form for Pell Grant, Kentucky Higher Education Assistance Authority (KHEAA) grants, Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Direct Loans, and Federal Work-Study. To receive full consideration for these programs, students who are Kentucky residents should complete the FAFSA beginning October 1 each year. Students may file a FAFSA after the October date; however, those students may not receive KHEAA Grants if their application is filed after state funding has been exhausted.

Grants, work-study, and loans available to students who demonstrate a financial need may include one or more of the following:

- Federal Pell Grant
- Federal Supplemental Education Opportunity Grant (FSEOG)
- Kentucky Educational Excellence Scholarship (KEES)
- Kentucky Tuition Grant (KTG)
- College Access Program Grant (CAP)
- KC4\$ Kentucky Coal Completion Scholarship
- Vocational Rehabilitation Grant
- Federal TEACH Grant
- Federal Work-Study Program (FWS)
- Federal Direct Subsidized/Unsubsidized Loans
- Federal Direct Parent PLUS Loans

Academic Scholarships

Students who wish to be considered for an academic scholarship must be accepted for admission. He or she must also be enrolled as a **full-time student** and meet scholarship criteria established by the University. The criteria consist of grade point average (GPA), National ACT/SAT scores, and may include other criteria, as deemed necessary.

The University of Pikeville scholarships are renewable for up to four years of undergraduate study provided the student remains a full-time student and maintains the University's Financial Aid Satisfactory Academic Progress standards. UPIKE institutional scholarships may be combined in certain circumstances. A student may get one Academic Scholarship, one primary, and one secondary athletic/activity scholarship (i.e. football, choir, track, band, soccer, OSP, OMSP, etc.), and two supplementary scholarships (i.e. regional recruiter, Dual Credit, Governor's scholarship, legacy, etc.) For the Athletic and Activity scholarship, the secondary award will be a maximum of \$1,000.

Athletic Scholarships

Athletic Scholarships are awarded to students who meet the qualifications for such aid as determined by the University and the Athletic Department based on NAIA guidelines. Scholarships may be awarded for: archery, athletic trainer, men's baseball, basketball, bowling, cheerleading, cross country, dance, eSports, football, golf, soccer, women's fast pitch softball, sport information, swimming, tennis, indoor/outdoor track and field, women's volleyball, and men's wrestling.

All applicants for athletic scholarships must submit the Free Application for Federal Student Aid (FAFSA). All inquiries concerning athletic scholarships should be addressed to the Athletic Director or to the head coach of the sport in which the student is interested. Athletic scholarships may be packaged with other aid programs where applicable.

Veterans Affairs Education Benefits

Department of Veterans Affairs education benefits are authorized to veterans and qualified dependents under specific chapters of Title 38, U.S. Code (USC). Eligibility for these benefits is determined solely by the Department of Veterans Affairs.

Students eligible to receive VA education benefits from the Montgomery GI Bill[®] (active duty reserve/guard or dependent) must provide their Certificate of Eligibility and DD-214 (if applicable) and contact the VA Certifying Official (Student Financial Services Office) to complete the application process.

® GI BILL is a registered trademark of the U.S. Department of Veterans Affairs (VA).

Maintaining Financial Aid and/or Scholarships

To be eligible to continue receiving federal and institutional financial aid, the student must maintain satisfactory academic progress (SAP). The rules for maintaining basic financial aid are derived from required federal regulations and are published on the UPIKE financial aid SAP page. Students should be aware that a change in course load prior to or during the drop-add period (i.e., full-time, part-time, etc.) may affect the total aid package. Furthermore, tuition adjustments may only be made during the drop-add period.

Financial Aid Default

Students who are in default on a federal loan are not eligible for financial assistance in federal, state or institutional aid. Such students are urged to work closely with the Office of Student Financial Services in order to rectify the default status. Also, students who have a grant overpayment will not be eligible for Title IV aid.

Satisfactory Academic Progress (SAP) for Financial Aid Policy

Federal regulations require that all students who receive any federal or state financial assistance make measurable academic progress toward a degree at the University of Pikeville. Progress is determined by length of program, hours attempted versus hours earned (passing rate), and grade point average (GPA).

Enrollment: The minimum standard for full-time enrollment at the undergraduate level is 12 credit hours per semester. A minimum standard for the part-time enrollment (at least half time) at the undergraduate level is six credit hours per semester.

Length of Program: The time frame in which a student must complete their degree cannot exceed more than 150% of the published length of the student's program of study. All undergraduate students at UPIKE are required to complete a minimum of 120 hours to complete a bachelor's degree. Therefore, the student can attempt up to 180 hours and still be eligible for financial aid. Once the 180 hours are exceeded (150% and above), the student will no longer be eligible for financial assistance. All semesters and classes attempted are used for the SAP Length of Program calculation regardless of whether the student received any financial aid for those specific classes. All classes taken, whether they are transferred, dropped, failed, repeated, or taken to change a major will count as credit hours attempted toward the maximum time frame. If a UPIKE student is attempting an associate degree which requires a minimum of 64 credit hours, the maximum to receive financial aid is a total of 96 credit hours. Once the 96 credit hours have been exceeded, aid will be suspended.

66.67% Passing Rate: In order for a UPIKE student to be on-track to graduate with a degree from the University of Pikeville at an acceptable rate, the student must successfully complete at least 66.67% of all credit hours attempted. Successful completion is defined as completing the course with a grade of A, B, C, D, or P. For example, a junior who has attempted 75 credit hours, must have passed at least 50 (75 x 0.6667 = 50.00) of those hours to be making satisfactory progress. Likewise, if a student registers for 18 hours he/she must pass 66.67% (or 12) of the original 18 hours the student initially registered for at the beginning of the term. Please note that courses attempted but withdrawn from (received a grade of W or FN) will count against the passing rate.

Grade Point Average (GPA): Satisfactory Academic Progress GPA requirements for a UPIKE student ensures the student is maintaining a satisfactory academic level to be successful in his/her academic endeavors. The minimum acceptable grade point average for undergraduate students that have completed 30 hours or less than two

years is 1.5. The minimum acceptable grade point average for undergraduate students that have completed more than 30 hours is 2.0.

SAP Progressions

Financial Aid SAP Warning: Students that do not meet the GPA or Passing Rate criteria their first semester/term will be placed on Financial Aid SAP Warning. Students are still eligible for financial aid during this term, but must bring the GPA and/or Passing Rate up at the end of the semester/term you are on Warning.

Financial Aid SAP Suspension: If while on Warning, the GPA and/or Passing Rate does not improve to the required level, you will be placed on SAP Suspension. While on SAP Suspension, you will be ineligible for Federal, State, or institutional aid.

How to regain financial aid eligibility: A student must graduate or take courses at their own expense until they improve their GPA or Passing Rate.

Improve GPA: A student must raise GPA above minimum requirement by taking courses at their own expense. Once this is achieved, a student is required to notify the Office of Student Financial Services they have reached the minimum GPA requirement for further financial aid processing. *Students may not use hours earned off campus to improve the UPIKE GPA*.

Improve Passing Rate: A student must take the next semesters' courses at his/her own expense and meet the minimum requirement of passing at least 67% of the attempted credit hours. Once the classes have been taken and passed successfully, the student must notify the Office of Student Financial Services for further financial aid processing.

Student's Right to Appeal a SAP Suspension: If you, as a student, have had an extenuating circumstance that has prevented you from completing the minimum standards set within the UPIKE Satisfactory Academic Progress policy, you have the right to appeal the decision with the UPIKE Satisfactory Academic Progress Appeals Committee. The appeal must be submitted in writing and must explain the following items:

- a. What extenuating circumstance (i.e. death, personal injury, or illness, etc.) caused you fail to meet the minimum requirement of Satisfactory Academic Progress?
- b. What has changed to explain how you can now make the minimum requirements and be in satisfactory progress for the next evaluation period (i.e. What is your academic plan of action? And include an academic plan).
- c. Submit documentation necessary to prove that the circumstance was beyond your control.

If the appeal is denied, the student will not be eligible to receive any institutional, state, or federal financial assistance. The student will be required to pay for classes at their own expense or through a private loan. Students receiving a denial will be informed by mail/email.

If an appeal is approved, the student will be informed by mail/email. The student will be placed on financial aid probation and may be placed on a SAP Academic plan for one term. After the probated term, the student will be monitored again and must be meeting the minimum standards of SAP or completing the SAP academic plan successfully that was designed for the student upon SAP appeal approval.

SAP Academic Plans are designed on a student-by-student basis. Plans and student progress will be monitored each term and reported by the Center for Student Success as outlined in each student's academic plan.

UNDERGRADUATE STUDENT AFFAIRS

Student Affairs is located on the ground floor of the Administration Building and is responsible for all non-academic aspects of student life. Refer to the *University of Pikeville Student Handbook* for details concerning the various services offered and available to all students. The following is a short-list of services available:

- Alcohol and Illicit Drug Policy
- Clubs and Organizations
- Dining/Food Services
- Disability Services
- Fraternities and Sororities
- Health & Wellness Services
- Honor Societies
- Inclement Weather Policy
- Intramural Sports
- Information Disclosure Policy
- Intellectual Property Right Policy
- Missing Student Notification Policy
- Residence Life/Student Housing
- Service and Assistant Animal Policy
- Spiritual Life
- Student Activities
- Student Code of Conduct/Violations
- Student Government Association (SGA)
- Tobacco Policy
- Veteran Affairs

Student Rights

The campus environment is intended to foster the personal growth and development of the students who choose to attend the University of Pikeville.

Students are entitled to the basic rights and privileges of U.S. citizens. University of Pikeville students are expected to obey all federal, state, and local laws. In addition, they are expected to obey the rules and regulations established by the University. These specific regulations are contained in the <u>University of Pikeville Student Handbook</u> which is located on the University of Pikeville website for all students to view and understand. It is the policy of the University that no student shall be excluded from participating in, be denied the benefits of, or be subjected to discrimination in any program sponsored by the University because of gender, race, religion, sexual orientation, age, handicap, or national origin. To promote a broad learning environment, University of Pikeville welcomes applications from individuals of diverse backgrounds.

Student Success

The Division of Student Success provides support for students as they connect to campus, establish their academic, personal, and professional goals and discover their path to academic success. In order to assist students in reaching their goals and to ensure the quality of their academic success and learning, Student Success focuses on the combined efforts of:

- Academic Excellence
- Student Support Services (ACE)
- First Year Academic Advising
- Family Connections
- First Year Experience
- Second Year Experience

Center for Academic Excellence

The Center for Academic Excellence (CAE) delivers services that nurture collaborative learning for students to empower them to succeed academically in a secure, accessible, and reliable manner.

The CAE provides students with free tutoring and academic assistance and is led by a team of academic mentors who are also students in the UPIKE classroom. The CAE offers a variety of services, including embedded tutoring and tutoring for all undergraduate majors. The CAE is open Monday - Friday from 8 a.m. - 6 p.m. and is located o the ground floor of Allara Library. Students can drop-in or schedule a tutoring session, which can be conducted either face-to-face or virtually.

The goal of the CAE is to instill confidence in University of Pikeville students and assist them in becoming independent learners who rely on their strengths and abilities for academic success.

What We Do:

- Aid students through educational and supportive activities that improve academic achievement.
- Discuss class material and assist with preparing for exams and finalizing papers.
- Share information about learning strategies.
- Foster an encouraging, inclusive, and positive learning environment.

ACE Program

The ACE Program is a federally funded Student Support Services grant that offers services and activities designed to provide comprehensive academic support. The mission of ACE is to assist and prepare students to achieve academic and personal goals, and to provide the information, resources, and learning opportunities necessary for a successful academic career. Serving University of Pikeville since 2001, the program's ultimate goal is help students achieve continual academic success to the point of graduation. ACE serves 165 students who meet specific eligibility requirements, including income guidelines, first generation status, and/or a disability. Students may apply for the program by visiting our office or accessing the application on the University of Pikeville website.

Center for Student Success

The Center for Student Success (CSS) serves as the initial point of contact and referral for students with academic, social, or financial needs. The CSS serves students by providing connections to resources and support services on campus. The connections created through the CSS will assist students with the transition to university life and lead to solutions for difficulties encountered in the first year. The CSS provides the following:

- First-year advising for freshmen
- Creation of an individualized academic plan
- Assistance with setting academic, personal, and career goals
- Assistance with skill building, time management, and study habits
- Collaborative workshops for student success
- Support for students placed on academic probation

Family Connections

Parents and families of every University of Pikeville student are encouraged to share and support their student's UPIKE experience. The Office of Family Connections serves as a contact, information source, and advocate for families of all UPIKE students. Emphasis is put on informing families of first-year students about the academic challenges of pursuing higher education and what it takes for students to be successful in college. UPIKE partners with families with a common goal of promoting the growth and success of our students.

First Year Experience (UPIKE FIRST)

UPIKE First is a concentrated effort designed to orient new students to college life by helping them integrate into an academic and social network of professors and classmates and proving them with the knowledge and resources necessary for success throughout their college career. This experience starts before students begin their first semester and UPIKE and includes GROWL, UPIKE First Week, Welcome Week, and First-Year Seminar, a one-semester course.

Second Year Experience

Second Year Experience programming builds upon UPIKE FIRST and continues to provide opportunities for students' success while addressing challenges students may face in their second year, including searching for their identity or feeling uncertain about their goals and aspirations. Students are provided timely, in-depth information about campus resources that they will find particularly beneficial during this time, such as UPIKE's Office of Career and Professional Development to learn more about the value of internships and career shadowing for future success.

Students with Disabilities

The University of Pikeville is committed to providing equal educational opportunities and full participation for students with disabilities in accordance with Section 504 of the Rehabilitation Act of 1973 and the ADA Amendments Act of 2008 (ADAAA). The **Disability Resource Center (DRC)** supports the university's commitment by coordinating the accommodation process and providing services and reasonable accommodations based on each student's unique functional abilities. Our goal is to assist students in developing the skills necessary to advocate for their individual learning and living needs.

Some accommodations and services available include:

- Extended time and/or distraction-reduced locations for testing
- Classroom and lab accommodations
- Accessible housing, parking and building access
- Note-takers, Readers and Scribes
- Communication with faculty and advisors regarding student needs/concerns
- Assistance in obtaining alternate format textbooks and identifying assistive technology needs
- Information and referral for additional services

Eligibility Process for Accommodations:

- Students with disabilities are required to self-identify by registering with the Disability Resource Center.
- All students requesting accommodations must provide current documentation of their disability and need for accommodations before services can be provided.
- Once accommodations have been determined, DRC staff will meet with the student to review his/her rights
 and responsibilities and to provide accommodations letters for delivery to instructors.
- Accommodation letters are valid for one academic semester and must be renewed at the beginning of each semester in which the student is enrolled at UPIKE and desires to receive accommodations. (Accommodations will not be retroactively applied.)
- Student may request a review of accommodations at any time during the semester. Revisions may require
 additional documentation.

Reasonable academic accommodations are meant to provide equal access to students. It is not necessary to dilute curriculum or to reduce course requirements for individuals with disabilities. Students who receive academic accommodations complete the same course requirements as all students, and accommodations will not interfere with the fundamental requirements or objectives of an academic course.

For information, contact: Kathy Petot at (Work) 606-218-5232, (Cellular) 606-424-9710, (Fax) 606-218-4472 or kpetot@upike.edu

UNDERGRADUATE ACADEMIC POLICIES

All students earning a degree at the University of Pikeville are responsible for and expected to be familiar with the academic policies and procedures outlined in this catalog. Each student is responsible for being informed of the academic regulations and requirements set forth in the *University of Pikeville Catalog*, including all changes approved by the Faculty; official University of Pikeville policies and procedures set forth in the *University of Pikeville Student Handbook*; and other appropriate publications. Lack of knowledge of the policies of the institution does not excuse failure to meet the requirements or to comply with regulations contained in these publications.

Classification of Undergraduate Students

- Regular students are those who have met all admission requirements and have enrolled as degree seeking students.
- Special students are those admitted on special conditions, students who have received a baccalaureate degree, or are non-degree seeking students and are not eligible to receive financial assistance.
- Full-Time students are those registered for twelve or more hours in a semester.
- Part-Time students are those registered for fewer than twelve hours in a semester. A minimum standard for part-time enrollment (at least half-time) at the undergraduate level is 6 credit hours per semester.

Students are classified as follows:

Freshmen	.0-29 semester hours
Sophomores	.30-59 semester hours
Juniors	.60-89 semester hours
Seniors	.90 semester hours or more

Course Credit

Academic credit is awarded in terms of semester credit hours. The University uses a three-digit numbering system for its courses. Undergraduate numbering ranges from 091 to 499. Undergraduate courses with numbers less than 100 (091- 095) are designated for developmental studies courses and are not included in the credit hours required to graduate. Undergraduate courses numbered 100 and 200 are designated lower division courses while 300 and 400 level courses are designated as upper division courses.

As a general rule, undergraduate coursework offered as three-credit hour courses where the number of credit hours assigned to a course quantitatively reflects the outcomes expected, the mode of instruction, the amount of time spent in class, and the amount of outside work expected for the class. For undergraduate courses, a credit hour corresponds to approximately 48 hours of student engagement. The vast majority of the undergraduate program course work is in a traditional format during a 16-week fall or spring semester with classes meeting once, twice, or three times per week. The number of credit hours assigned determines the classroom time allotted for a course. For traditional format classes, one credit hour of undergraduate credit is equivalent to at least one hour (50 minutes) of lecture per week (700 minutes/semester), two hours of lab work per week (1400 minutes/semester), or 3 hours of internship or clinical practicum per week (2100 minutes/semester) with the balance of the time being allocated to student engagement outside the traditional classroom setting. For classes designated as hybrid, the number of face-to-face classroom hours is reduced, while increasing the number of out of class student engagement hours. Online classes are usually asynchronous in nature and require students to engage in the material through discussions, readings, lectures, study and research, and assignments. Regardless of mode of delivery, a credit hour corresponds to approximately 48 hours of student engagement. The basis for awarding credit is consistent with the guidelines of the American Association of Collegiate Registrars and Admissions Officers (AACRAO) [Lauren, Barbara (2006) The Registrar's Guide: Evolving Best Practices in Records and Registration, page 24.]

Some majors will allow semester hours earned in fulfillment of the General Education Curriculum to also be counted as part of the major or minor. However, students should not assume that this is always the case. In addition, courses may be utilized to meet requirements in a major or minor, but not in both areas. Students with questions concerning the use of a course to fulfill multiple graduation requirements should consult with their academic advisor. The final determination in these instances will be made by the University Registrar, after consultation with the appropriate program faculty and the appropriate academic Dean.

Academic Year/Summer Terms

The university operates on a semester system. A semester credit hour is the unit by which academic progress is measured. The University of Pikeville's academic year is comprised of two 16-week semesters (fall and spring) and two eight-week terms/blocks within the 16-week semester. Offerings in the Summer (May – August) vary, but may include four-weeks or eight weeks term in length.

Student Course Load

The semester credit hour is the unit by which the University undergraduate program awards credit for coursework and a normal student load during the fall and spring terms is twelve to eighteen semester hours. Permission to carry an overload (more than 18 semester hours) requires approval from the appropriate academic Dean; using the *Registration Permissions Request Form*, which is available in the Registrar's Office. During the summer terms, the maximum course load is seven semester hours per term and cannot exceed a total of 13 semester hours. Full-time students at the University of Pikeville may not enroll at another institution without prior permission from their Academic Advisor and the University Registrar or the appropriate academic Dean.

Registration

Registration schedules for each semester and summer terms are posted in advance on the University's web site via the Academic Calendar. The Registrar's Office also publishes and makes available a flyer with details about early registration dates and times. This information is also sent via electronic mail to all currently enrolled students. Registration is based on the student's classification (Seniors, Juniors, Sophomores, and Freshman). The University allows recipients of Veterans education benefits to register at the beginning of the registration with seniors, regardless of classification. Students are strongly encouraged to meet with their Academic or Student Success Advisor(s) during these scheduled registration periods. Students needing assistance with registration, class selection, transcript evaluation, and academic counseling may contact the Registrar's Office or Center for Student Success at any time. Credit is granted only for courses for which students are properly registered.

Course Audits

A student who wishes to audit or take courses without credit must obtain permission from the instructor of the course to be audited and from the University Registrar during the first week of a semester. The same registration procedure is followed as for courses bearing credit, and the regular semester hour tuition and fees are charged. Audited courses cannot be counted toward meeting graduation requirements. Once enrolled as an auditor, and after the drop/add period, the student may not change enrollment to receive credit for the course. A student who stops participating as an auditor should request a course withdrawal from the course in the Registrar's Office based on dates indicated on the published Academic Calendar.

Cancellation of Courses

The university administration reserves the right to cancel any course for which an insufficient number of students has enrolled or for other reasons deemed necessary. Registered students will be notified by UPIKE email of a cancellation.

Adding a Course

It is recommended that a student consult with their assigned academic advisor or student success advisor before adding a course. The advisor can add the class to your class schedule or you can use UPIKE Self-Service. No course may be added after the deadline set in the academic calendar for each semester/term. A student may also seek assistance with adding a class in the Registrar's Office.

Class Attendance

Students are expected to attend all classes in which they are enrolled. During the first couple of days of the term, faculty are required to take attendance and report no-shows to the Registrar's Office. Students determine as no-shows will be removed from all classes during the first week of the term. Course attendance policies are determined by the instructor and will be communicated to students as part of the course syllabus provided at the beginning of the semester. It is the student's responsibility to know the policy on attendance for each course in which he/she is enrolled and understand the ramifications of not attending. For many classes, failure to attend can result in a failing grade.

Students with excessive absences may be referred to the Center for Student Success for assistance in improving their class attendance and performance.

Withdrawal from a Course

A student may withdraw from any course with the consent of the assigned Academic Advisor. Withdrawal becomes effective only when the student presents official notice (*Course Withdrawal Form*) to the Registrar's Office. Students may withdraw from a regular class up to 5:00 p.m. on the last day of regular classes (before Final Exams) as noted on the Academic Calendar for the specified semester/term.

Students participating in an online program should contact the Registrar's Office for assistance with withdrawing from a course.

When a student does not officially withdraw from a class or from the University, a letter grade (A through F or FN) is assigned by the instructor.

Withdrawal from the University

Any student who wishes to withdraw from the University must submit a completed *Withdrawal Form* to the University Registrar. Forms are available in the Registrar's Office. As part of the withdrawal process, students must return their UPIKE ID Card and are required to meet with an employee of the Center for Student Success, Office of Student Financial Services, Business Office, Library, and Student Affairs prior to submitting the form to the University Registrar. Grades for courses will be assigned in accordance with the course withdrawal policies, academic calendar dates, and refunds are issued in accordance with the policies outlined in the Financial Information section of the *University of Pikeville Catalog*. Withdrawal becomes effective only when the student presents the completed *Withdrawal Form* to the Registrar's Office.

Students participating in an online program should contact the Registrar's Office for assistance with withdrawing.

Military Activation Policy

This policy applies to any student activated or mobilized for military service. This does not include routine activation such as mandatory drills or annual training. It also does not apply to students who elect to enlist and attend Basic Combat Training (BCT), Advanced Individual Training (AIT), or other required training in lieu of completing the academic term.

A student who is activated by the military should speak with their program's academic dean and each of their instructors to determine which of the following four options would be best for them. In each case, a copy of the student's activation orders should be provided to the Registrar's Office and the Dean.

- 1. **Receive a Grade** For students deployed to military action after the 12th week of a 16-week term, the 6th week of an 8-week term, or the 3rd week of a 4-week term the instructor has the option of assigning the student a grade in the class based upon work completed. That grade would be submitted during normal final grade submission, no additional work would be required of the student.
- 2. **Receive an Incomplete** If the instructor feels that the portion of the semester remaining, and volume of uncovered material is such that it can be made up in a reasonable amount of time and effort, a grade of "Incomplete" may be given. The instructor completes an incomplete grade request form and notes the request is due to military activation. The student must ensure a copy of their military orders is received in the Registrar's Office along with the *Incomplete Grade Request Form*. It should be noted that once discharged from duty, the student is responsible for contacting the instructor and fulfill their obligation to complete requirements for the course. The 60 days allowed to complete the "I" grade begins on the date of military discharge.
- 3. **Withdrawal from a Class** If the student elects to withdraw from a class they must contact their advisor and complete a drop/add form. Withdrawal becomes effective only when the student presents the official notice (drop/add form) to the Registrar's Office according to the dates listed on the Academic Calendar.
- 4. **Withdrawal from the University** The student must send a letter to the Registrar's Office requesting to be withdrawn from all classes because of military activation and enclose a copy of the activation notification. The address is shown below:

Registrar's Office University of Pikeville 147 Sycamore Street Pikeville, Kentucky 41501 The letter must include the following information:

- Student name and UPIKE ID Number
- A statement that the student wishes to withdraw completely from the University or listing the individual courses for withdrawal.
- Student's **signature** (absolutely mandatory), and the **date**.

Refunds and Reimbursements – Students who <u>withdraw from the University</u> (withdraw from all classes) as a result of military activation will receive the following provided their financial aid had been verified and disbursed:

- 1. A refund for all tuition, room, board, and other program fees paid out of pocket i.e. those costs not covered by financial aid or loans for that semester. This refund does not include textbooks or other costs associated with taking courses.
- 2. Forgiveness of any remaining balance after all financial aid has been applied.
- 3. Receive a UPIKE grant in the amount of any direct loans taken during the affected semester. Student will have one year from their return from active duty to redeem the grant. Note: All aid awarded cannot exceed the cost of attendance per semester.

Questions about the refund and reimbursement for military activation should be directed to the University of Pikeville Business Office.

Grading System

The University of Pikeville uses the letter system of grading:

Grade	Definition	Point/Hour Value
A	Excellent	4 points per earned hour
В	Good	3 points per earned hour
С	Average	2 points per earned hour
D	Passing	1 point per earned hour
F	Failure	0 points per attempted hour
FN	Failure for Non-Attendance and/or Non-Participation	0 points per attempted hour
I	Incomplete*	0 points per attempted hour
W	Withdrew*	0 hours, 0 points
P	Pass*	Hours earned only
Au	Audit*	0 hours, 0 points

^{*} Not used in computing the grade point average.

Failure for Non-Attendance and Non-Participation (FN) Policy

Regular attendance and participation in courses are expected throughout the length of the term, semester, and academic year. The U.S. Department of Education requires that every university monitor the attendance of their students. The University of Pikeville monitors student attendance and participation in each course through the student's active engagement in the course and by their completion of academically-related activities regardless of delivery method. Simply sitting in a seat or logging onto the course's Learning Management System (Canvas or other system) does not constitute attendance and participation in the course. Active engagement is defined by, but not limited to:

- Submitting an academic assignment
- Taking an exam or quiz
- Attending a study group or recitation that is assigned by a UPIKE instructor
- Participating in an interactive tutorial or computer-assisted instruction required for class
- Participating in small group discussion and academic exercises
- Participating in an online discussion about academic matters
- Initiating contact with a faculty member to ask a question about the academic subject studied in the course

- Receiving formative feedback from instructors during project-based learning experiences
- Synchronous or asynchronous class attendance where there is an opportunity for interaction between the instructor and students

Failure for Non-Attendance Policy

Students who begin a course, but at some point, in the semester cease attending, and do not provide official notification to withdraw, will be assigned a grade of "FN" (Failure for Non-Attendance), dated to the student's last date of attendance (based on the definition provided below). A grade of "FN" will be assigned when a student stops attending and/or participating in a class for a period of 25% of the term or longer as measured in calendar days. An "FN" indicates that the student ceased attendance and failed to complete the course objectives. If a student receives all FN's (or failing grades) in a term, he/she is subject to the Unofficial Withdrawal procedure at the end of the term that includes the reduction and/or return of all financial aid. Students are fully responsible for all resulting charges on their student account.

Students receiving all F's or FN's in a term who are currently on probation must appeal to financial aid to receive aid in their next term of enrollment if these grades move the student to a suspension status.

Incomplete Grade

An incomplete grade ("I") may be given to a student only in the event of serious illness or justifiable hardship. It cannot be given in order to give a student more time to complete a course. Before an incomplete grade can be given, the appropriate form must be completed by the faculty member stating the justification for the grade, signed by the student, and be approved by school or college Dean.

The courses in which a student received a grade of "I" must be completed within 60 calendar days following the term in which an "I" was received; otherwise, these grades become "F". The responsibility rests with the student to complete the required work within the allotted time.

The grade of "I" does not count as credit hours earned and may in some circumstances affect a student's eligibility for financial aid, as well as disqualify a student to be eligible for the President's List or Dean's List.

Grade Point Average (GPA)

The grade point average (GPA) is computed by dividing the total number of quality points by the total number of hours attempted. Semester credit hours earned and those for which a grade of "F" or "FN" is recorded comprise the number of semester credit hours attempted. Courses for which students receive grades of "W" are not included in the grade point average computation.

A student in good academic standing has an overall average of "C" or better, represented by a GPA of 2.00 or higher and 2.00 or higher in the major field. Students must earn a "C" grade or better in all required major, minor, related studies, or an area of concentration classes, to earn a degree. Please note that certain majors may require a GPA greater than 2.00 to remain in the program.

Midterm Grades

Mid-term grades are of value to the students. They serve as an account of the student's academic performance to date. All faculty members report midterm grades for each student in their classes by the date designated in the academic calendar. Students may view their midterm grades using the University's web self-services system. Midterm grades are not entered on the student's permanent record and do not count toward the student's GPA.

Final Examinations

All examinations must be given on the scheduled date and at the scheduled time. All students must take final examinations on the scheduled date. If a final examination is given, it must be given during the scheduled final examination week. Final examinations in four-, five-, and six-credit hour courses will be no more than three hours in length. All other courses will have examinations not more than two hours in length. Examinations will be held in the room regularly occupied by the class unless a change is announced by the instructor.

Rescheduling of Final Exams

If a UPIKE undergraduate student is scheduled for more than two final exams in the same day, excluding evening or online exams, the student may request their individual final for the class with the highest catalog number be rescheduled. In case this highest number is shared by more than one course, the final exam for the course whose departmental prefix is first alphabetically may be rescheduled for the student.

To initiate the request, the *Request to Reschedule a Final Exam* form must be completed by the student and submitted to the faculty member by the designated deadline for a given academic term listed on the Academic Calendar. Any rescheduling should be reported by the faculty member to the Registrar's Office by sending a notice to **registrar@upike.edu** of the change. Faculty members must also notify their Dean/Chair of the change. Finals must be rescheduled within the final exam week.

Semester Final Grades

Faculty members will prepare a syllabus for each course taught that clearly states the course requirements and methods of evaluation. Syllabi for courses will be made available to students at the beginning of each semester. At the end of each semester/term, grades are available approximately 48 hours after the scheduled final exam and can be viewed online using UPIKE Self-Service.

Repeating a Course

A student who receives a grade of 'W', 'D', 'F', or 'FN' in any course has the option to repeat the course twice. Developmental Studies courses may only be repeated once. The student will notify the University Registrar of his or her intent to repeat a course (Use: *Registration Permissions Request Form*). Only the grade received on the final attempt will be used for calculating the cumulative grade point average and for meeting degree requirements. However, the student's transcript will show all attempts and will indicate that the course was repeated. A student with a grade of "C" may repeat the course for credit only once. A student with a grade of "A" or "B" may not repeat the course for credit. A course repeated at another institution will not affect the University of Pikeville GPA.

Academic Due Process - Course Grade Appeal

On occasion a student may wish to dispute a grade assigned in a University of Pikeville course. The following procedure is to ensure proper due process for a student who wishes to appeal their grade. Please note: A *Request for Hearing* form must be filed, step four, within 60 calendar days following the beginning of the next regular fall or spring semester after the grade in question was assigned.

- 1. **Meeting with Faculty Member**: A student who seeks appeal of a final course grade will first speak with the instructor concerned. If the instructor determines that a miscalculation resulted in an incorrect grade or that new and compelling evidence warrants a different grade, the instructor will submit a request for a change of grade to the appropriate academic Dean. If this request is approved by the Dean, it will be forwarded to the Registrar's Office for final processing.
- 2. Meeting with Division Chair (CAS courses only): A student wishing to proceed further with an appeal will then speak to the appropriate Division Chair. The Division Chair should keep a written record of all discussions and forward a copy to the Dean of the College of Arts and Sciences. If there is any question about the decision reached in this conference, the aggrieved student will request a meeting with the Dean of the College of Arts and Sciences.
- 3. **Conference with Dean and Instructor**: Upon receiving a student's request, the Dean of the appropriate college or school will call a conference with the student, the instructor, and the Division Chair (CAS only). If a satisfactory solution is not found, the appeal will continue. The Dean will keep a written record of this conference.

4. The Hearing

a. If the student wishes to proceed further on the appeal, he/she will register his/her grievance with the CAS, CCOB, PCOE, and CNHS Faculty Executive Committee using a *Request for Hearing* form obtained from the Registrar's Office. The *Request for Hearing* form must be filed within 60 calendar days following the beginning of the next regular fall or spring semester after the grade in question was assigned. The completed *Request for Hearing* form is submitted to the Registrar's Office who will forward the form to the chair of the Faculty Executive Committee. Grade appeals will normally be heard only during fall or spring semesters, although the Executive Committee may determine to hear an appeal during summer or during school breaks if, in its judgment, the student's academic situation warrants it and if the necessary faculty members are available.

- b. The Committee: The Committee shall consist of the elected members of the Executive Committee and two students selected by the Student Government Association. In any proceeding, faculty and student representatives from the division, college or school involved in the grievance shall be excluded. In addition, either the student or the faculty member may request the removal of any person from the Committee. The Committee will decide if a reasonable basis exists for this request.
- c. <u>Selection of Chair</u>: The Chair of the Executive Committee will sit as Chair of the Committee unless disqualified; in which case, the Committee will select a Chair by a simple majority of votes in a secret ballot. The Chair will:
 - i. have full voting rights,
 - ii. determine the status of all observers,
 - iii. set reasonable time limits for presentation and discussion,
 - iv. rule on the admissibility of evidence, and
 - v. be responsible to rule on such other questions as may arise.
- d. Notice of Hearing: The Committee Chair will call the hearing within 10 working days after the receipt of the *Request for Hearing* form. Either the student bringing the appeal or the faculty member concerned may request, in writing, a time extension of up to thirty calendar days. The extension will automatically be granted. Further time extensions may also be granted, but only with the approval of the Executive Committee. Notices of date, time, and place will be sent to the Executive Committee, the student, the instructor, the appropriate Division Chair (CAS only), the appropriate academic Dean, and the Provost.
- e. <u>Conducting the Hearing</u>: The hearing will be conducted in an orderly impartial manner. The student bringing the complaint and the faculty member involved will have the right to participate in the discussion. Each will have the right to be accompanied by an advisor from the University community (current student, faculty member, or administrator). The advisor may verbally participate in the proceedings.
- f. Recording the Hearing: The hearing will be recorded and the recording retained by the Registrar's Office. This recording will be kept in confidence and will be destroyed one calendar year after the decision of the Hearing Committee.
- g. <u>Committee Deliberations</u>: The Committee, in closed session, will carefully consider all of the evidence. In reaching its findings and recommendations, the Committee will consider the reliability of the witnesses and the authenticity and accuracy of the documented evidence regarding the point at issue. The Committee will make its decision solely on the basis of the evidence presented at the hearing. The decision of the Committee shall be final.
- h. <u>Committee Report</u>: The Committee will prepare and sign a written report of its findings and decision. The report will be sent to the Faculty Executive Committee, and copies of the report will be sent to the student, the instructor, the University Registrar, the Provost, the appropriate academic Dean, and the appropriate Division Chair (CAS only).
- 5. **Conclusion:** The University Registrar will inform the student and the instructor of the decision's effect upon the grade.

Admission to a Major

Students wanting to be admitted to a major must contact the Registrar's Office. Students admitted to a major will be assigned an advisor by the University Registrar or designee. Though students who have previously expressed an interest in an academic field may have been assigned a faculty advisor within that discipline, they are <u>not admitted</u> to the major <u>until</u> processed in the Registrar's Office. Please note that admission to certain majors/programs requires a separate application and admissions process for acceptance (i.e. Education (teacher certification); Nursing (Associate and RN-BSN); Social Work).

Change of Major

Students wanting to change their major must contact the Registrar's Office. Students admitted to a new major may be placed under the current catalog year and be assigned an advisor based on the discipline by the University Registrar or designee. Though students who have previously expressed an interest in an academic field may have been assigned a faculty advisor within that discipline, they are not admitted to the new major until finalized in the Registrar's Office.

Academic Advising

University of Pikeville takes great pride in the emphasis placed on assisting individual students in assessing their academic backgrounds and aptitudes, in planning career goals and objectives, in encouraging the successful completion of academic goals, and in actively participating in the learning process both in and out of the classroom.

The University Registrar or their designee assigns each student an academic advisor in their intended field of study. Students who have not chosen a major are assigned advisors with experience and expertise in working with undecided students. All entering freshman or first-time students entering the University of Pikeville are assigned a Student Success advisor.

Each faculty member will have posted office hours to work with advisees and with students in their courses. Students who have questions about courses or the academic programs should seek assistance from their Academic Advisor, their instructors, the University Registrar, or the appropriate academic Dean.

Good Standing

To be in good academic standing at the University of Pikeville, a student must maintain a minimum cumulative grade point average of 2.00 each semester.

Academic Probation

Academic probation is a warning status indicating that the student has fallen into academic difficulty and that they need to improve their grades to reach "Good Standing" status to avoid risk of separation from the university. Students failing to maintain a 2.00 cumulative GPA will be placed on academic probation. A student on academic probation may not enroll for more than fourteen (14) credit hours per semester without approval from the appropriate academic dean. Students who have successfully appealed their academic suspension status may be placed on academic probation.

Academic Suspension

Students are subject to suspension if they fail to raise their cumulative grade point average to a 2.00 following a semester of academic probation. Students are also subject to suspension if they fail to achieve a 1.00 grade point average (a "D" average) at the end of a semester.

A first-time suspension will result in the student being suspended for one regular (fall or spring) semester. Subsequent suspensions will result in the student being suspended an entire academic year. Students who are suspended may take courses at another institution prior to returning to the University of Pikeville. Students who are suspended must apply for readmission through the Admissions Office. Upon returning to the University of Pikeville, the student will be placed on academic probation until they have raised their cumulative grade point average to a 2.00 and returned to good academic standing. Students who fail to return to good academic standing may be subsequently suspended again.

Academic Decisions & Academic Suspension Appeal Process

At the end of the semester/term, the University Registrar will provide the Academic Life Committee a list of students who are not in good academic standing. The Committee will review the student's academic record and determine the academic status of these students. The Committee is composed of academic deans, four faculty representatives, one from each college/school (College of Arts and Sciences, Coleman College of Business, College of Nursing and Human Services, Patton College of Education), the Assistant provost of Retention, Assistant Dean of Student Affairs, and the Assistant Dean of Student Success. The Assistant Provost will serve as the Chair. The appropriate academic dean will not have a vote for the status of their students, since they will review all appeals.

Students who are academically suspended may appeal their suspension no later than 21 days of the date of receiving the outcome letter. All appeals will be submitted via the online Academic Suspension Appeals Form: (https://cm.maxient.com/reportingform.php?UnivofPikeville&layout_id=26). The appeal must detail why the student has failed to succeed academically and why the suspension should be reversed. The appropriate Dean will review the appeal and render a final decision. The appropriate dean will submit a final report no later than 48 hours after a decision to the Provost.

Academic Dismissal

Inappropriate behavior and disciplinary issues in the classroom, clinical, field experience, or campus setting which seriously disrupts the learning process, endangers the health or safety of persons, or involve the destructive use or neglect of facilities will result in disciplinary action up to and including academic dismissal. Students dismissed for

academic disciplinary or behavior reasons who wish to return must apply for reinstatement through the Office of the Provost.

Students who have been readmitted after academic dismissal may be required to abide by a Readmission Contract which may specify one or more required activities or behaviors. Failure to abide by the Readmission Contract may result in the immediate dismissal of the student.

Academic Amnesty

Any currently enrolled full-time University of Pikeville student whose GPA falls within the academic probation or dismissal range and who has been out of attendance at least two consecutive years immediately past, may petition the Faculty Executive Committee for academic amnesty (forgiveness) for course(s) previously taken at the University of Pikeville. Petitions for academic amnesty must be made during the first semester of a student's return to the University. Action will be taken on the petition only after the student has successfully completed 12 semester hours with a 2.0 GPA or better.

Academic Amnesty may be granted for a maximum of two semesters of work. Courses taken during amnesty semesters and passed with a grade of "C" or higher may be used to satisfy prerequisites and major/minor or General Education Curriculum requirements. However, courses passed during the amnesty term(s) will not be used to calculate total GPA or to apply toward the minimum total hours required for the bachelor or associate degree.

Academic Amnesty may be granted only once and, once granted, is irreversible. Amnesty may not be used to improve the GPA for consideration for graduation with honors.

Academic Integrity Policy

The University of Pikeville is an academic community, and like all other communities, it can function properly only if its members adhere to clearly established goals and values. Essential to those goals and values is the commitment to the principles of truth and academic integrity. In order to articulate fully its commitment to academic integrity and to protect members of its community from the results of dishonest conduct, the University of Pikeville has adopted the following policies to address cases of academic dishonesty. Academic dishonesty includes, but is not limited to, the following acts:

1. Cheating

Intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise and/or claiming such material as one's own work product. The unauthorized receipt of or attempt to obtain answers or assistance during an examination or other gradable activity or event from another student or from an unauthorized device (phone, tablet, computer, etc.).

2. Plagiarism

Intentionally or knowingly taking another's ideas, work, or words as one's own without properly documenting or crediting the original source in any academic exercise and/or using these ideas, words, or statements in a paper or presentation without properly documenting or crediting the original source.

3. Fabrication

The deliberate falsification or invention of any information or citation in an academic exercise.

4. Facilitating Academic Dishonesty

Intentionally or knowingly helping or attempting to help another individual violate any provision of this policy.

5. Unauthorized Acquisition of Materials

The unauthorized receipt or attempt to obtain unauthorized examination questions/answers either for personal use or distribution to others.

6. Unauthorized Assistance

Attempting to give answers, receive answers, or assistance to another student during an examination or other academic exercise without authorization.

7. Academic Falsification

Any attempt to falsify grades and/or data results.

8. Academic Interference

Any attempt to interfere with another student's outcome on an academic exercise or clinical performance.

9. Failure to Report

Failing to report known violations of the Academic Integrity Policy

10. Unapproved Collaboration

Collaborating on any assignments such as homework, notes, take-home exams, draft papers, or projects in which the instructor does not allow collaboration.

If a violation of the Academic Integrity Policy is determined to have occurred, sanctions will be imposed upon the individual consistent with the nature, circumstances, and severity of the offense. Possible sanctions may include the following actions:

- 1. A written and/or verbal warning;
- 2. The requirement of additional academic integrity training;
- 3. A grade reduction for the academic exercise;
- 4. The assignment of an "F" or zero for the academic exercise;
- 5. A failing grade in the course with the inability to withdraw;
- 6. Dismissal from the university (automatic for repeat substantiated incidents of academic dishonesty); or
- 7. Other sanctions deemed appropriate by individual colleges.

Cases of suspected academic dishonesty will be addressed through the following process:

- 1. The faculty member teaching the course at issue, or the course director or exam proctor, will meet with the student as promptly as possible to review the allegations and any supporting evidence, and to give the student a chance to address that information. The faculty member may arrange for a third person to attend and document the meeting. At this time, the faculty member is encouraged to notify his or her division chair and/or dean that a possible violation of the policy has occurred.
- 2. If the faculty member concludes from the meeting that academic dishonesty more likely than not occurred, he/she will submit a written report to the appropriate academic dean describing the incident, attaching supporting evidence, and recommending a sanction consistent with this policy.
- 3. The dean will promptly provide the student with a copy of the faculty member's written report, recommended sanction, and supporting evidence. The student will be allowed five (5) business days to submit a written response, together with any supporting evidence the student may wish to offer in his or her defense, to the dean. The dean will include notice to the student concerning whether the allegation, if substantiated, will constitute a repeat offense of academic dishonesty.
- 4. The dean will review the record and either affirm or work with the faculty member to appropriately adjust the recommended sanction imposed to ensure that it is consistent with this policy. The dean will then notify the student and the faculty member, and provide a written notice of the decision to the Office of the Provost.
- 5. The student may appeal this decision to the provost. Grounds for appeal are limited to the following: (a) a procedural error that could have significantly affected the outcome, (b) previously unavailable and relevant evidence that could impact the outcome, (c) the finding of a violation is unsupported by the evidence, or (d) the penalties are too severe in light of the evidence. A student must submit his/her request for an appeal and the grounds for the appeal to the provost within five (5) business days after receiving notice of the dean's decision. If the provost finds one or more of the required grounds for appeal apply, an Academic Appeals Panel will be appointed.
- 6. The Academic Appeals Panel will be comprised of a five member, cross-college panel appointed by the provost. The selection of the panel will take place in consultation with the college/school deans (CAS, CCOB, CNHS, CNHS, PCOE, KYCOM, and/or KYCO). The provost will provide the panel with a copy of the record for the case.
- 7. The Academic Appeals Panel will elect one of its members to serve as chair for the appeal. The panel may request both the student and the faculty member to appear before the panel and answer any questions the panel may have prior to rendering a decision. The panel will ensure that any meeting with the student and faculty member is recorded. Regardless of whether the panel meets with the student and/or the faculty member, the panel members will meet to review the record for the case, deliberate on the merits, and render a decision. The panel may affirm, modify, or reverse the previous decision consistent with the possible sanctions outlined in this policy, and it must provide the student, the faculty member, and the provost a copy of its written decision. The provost will notify the dean of any changes from the original decision or sanctions. Unless an extension is needed, the panel will review the record, deliberate on the merits, and render a decision within fourteen (14) calendar days after the provost receives the request for an appeal.
- 8. The standard of proof for charges brought under this policy is whether the evidence and record shows that it is more likely than not that the student committed academic dishonesty.
- 9. If, at any stage of review, it is confirmed that an established act of academic dishonesty represents a repeat offense by a student who has been previously disciplined for academic dishonesty or an offense so egregious that it may compromise the integrity of the given course or program, or compromise the safety or security of individuals seeking health care from the university, dismissal from the university may be recommended or imposed. Dismissal is not necessarily limited to these grounds. The appropriate academic dean should promptly inquire of the office of the provost as to whether there are prior incidents of academic dishonesty by the student in any academic unit of the university.

- 10. Students may have an advisor (parent, legal guardian, attorney, etc.) present during the appeals process; however, that person will be limited to participating in a passive/advisory role only. Non-panel members may not address the convening panel unless invited to do so by the chair of the panel. If the student obtains legal counsel the university retains the right to postpone the proceedings until university legal representation can be present.
- 11. The Office of the Provost will be responsible for maintaining the official record of any case of academic dishonesty processed under this policy.
- 12. In the event of an appeal, the decision of the Academic Appeals Panel will be considered a final decision. Therefore, the grade appeal process may not be utilized to alter or overturn the decision made by the appeals panel. There is no further appeal beyond the Academic Appeals Panel.

Advanced Placement Credit

Students may earn up to 15 semester hours of credit through the Advanced Placement Program of the College Entrance Examination Board. To receive course credit, students should earn a 3, 4, or 5 on an Advanced Placement Exam and be an accepted and registered student at the University of Pikeville.

The AP Exam column aligns with the 38 AP exams that are currently administered by the College Board (https://apstudents.collegeboard.org/course-index-page).

^{*}Additional information needed in order to award credit.

CLEP Credit

The University may grant up to 30 semester hours credit through the College Level Examination Program (CLEP). The specific University of Pikeville course equivalency and number of credits earned will be determined by the University Registrar in consultation with appropriate faculty and the appropriate academic Dean.

Conditions which apply to credit by examination are:

- 1. Only admitted students are eligible for credit by examination.
- 2. Credit earned by examination is recorded with a letter grade of "P"; hence, it has no effect upon the student's overall grade point average.
- 3. A student may attempt to earn credit by examination in a particular course only one time.
- 4. Students wanting to earn credit by examination in a course previously attempted and failed, must have approval from the Dean of the appropriate college/school.
- 5. A student may not take a CLEP examination for a course in an area in which advanced course work has been completed.
- 6. A student who has completed sixty semester hours or more must have the approval of the appropriate academic Dean before attempting a general CLEP examination. Information about CLEP credit may be obtained from the Registrar's Office.
- 7. Students requesting CLEP examination credit should refer to the Financial Information section of the *University of Pikeville Catalog* for applicable fees.

Credit by Examination

Applications for students wishing to receive credit by examination are available in the Registrar's Office. A maximum of fifteen semester hours credit can be granted through credit by examination. The grade of "P" will be recorded on the student's permanent record and will be credited toward graduation requirements.

Students applying for credit by exam must:

- 1. give evidence of a satisfactory academic or work experience background for the course.
- 2. have the approval of the appropriate Instructor and Dean of the appropriate College or School, and
- 3. pay any applicable fees. (See Financial Information in the *University of Pikeville Catalog*).

Cambridge International Examinations

The University of Pikeville recognizes course credit earned through the Cambridge International Examinations (CIE) and a student may earn up to 12 semester credit hours. To receive course credit, a student must have earned a score of A*, A, B, a, or b on a Cambridge International Examination and be a registered student at University of Pikeville. Any student desiring credit must request a Cambridge International Examinations score report to be sent to the University and in some cases additional curriculum information may be requested to the student's high school before credit will be awarded. Course credit awarded through the CIE program will apply toward degree requirements and is recorded with a letter grade of "P"; hence, it has no effect upon the student's overall grade point average. Questions and information regarding Cambridge International Examinations should be directed to the Registrar's Office.

International Baccalaureate Program (IB)

The University of Pikeville recognizes course credit earned through the International Baccalaureate (IB) Program and may earn up to 12 semester credit hours. To receive course credit, a student must have earned a score of 5, 6, or 7 on either the Standard Level (SL) exam or the Higher Level (HL) exam and be a registered student at University of Pikeville. Any student desiring credit must request an IB transcript to be sent to the University and in some cases additional curriculum information may be requested to the student's high school before credit will be awarded. Course credit awarded through the IB program will apply toward degree requirements and is recorded with a letter grade of "P"; hence, it has no effect upon the student's overall grade point average. Questions and information regarding the International Baccalaureate Program should be directed to the Registrar's Office.

Military Service

The University will grant transfer credit for courses taken by students during military service upon receipt of an official military transcript of record, DD214, and DANTES Subject Standardized Tests (DSST). Evaluations of such credits will be based upon standards set by the *American Council on Education's Guide to the Evaluation of Educational Experiences in the Armed Services (ACE)*.

Proficiency Examinations

Requests to take proficiency exams are made through the appropriate academic Dean. Students may be excused from taking courses or may qualify for enrollment in advanced courses by demonstrating proficiency in the subject matter through proficiency examinations administered by the department in which proof of proficiency is sought. No credit is given for the successful completion of a proficiency test, but it does permit a student to be exempt from a requirement. However, there is no reduction in the total number of credits needed for graduation.

Study Abroad

We strive to promote a greater understanding of the world, and its cultures, through education and interaction. The world is becoming more globalized and students who can effectively engage problems with a global mindset will be better prepared to solve problems. We accomplish this by encouraging our students to travel internationally, interact with international students on campus, and participate in events that promote understanding of other cultures. The University of Pikeville usually sponsors three international trips per year to places such as Belize, Haiti, Costa Rica, Germany, and Scotland. We also work regional, national, and international groups such as the *Kentucky Institute for International Studies*, the *Cooperative Center for Study Abroad*, and others to provide opportunities for our students.

Study abroad experiences can range from two weeks to one-year, involve all academic disciplines and include nearly every country and culture. Scholarships are available and academic credit may be earned for participation in the above program in accordance with University of Pikeville policies. Interested students should discuss their goals with faculty and staff and visit the Director of Study Abroad. Additional information and opportunities are posted on the information board located on the first-floor lobby of the Armington Learning Center.

The Washington Center for Internships and Academic Seminars

The Washington Center Program provides students an opportunity to study for a semester in Washington, D.C. A combination of experiential learning and academic based curriculum, conducted within the nation's capital, exposes students to the various functions of government, provides leadership development opportunities, and allows them to experience the diverse culture of the city. Academic credit may be earned for participation, depending on the length, breadth and depth of the programs.

Work Experience Credit

After a student has earned a minimum of sixteen semester hours at University of Pikeville, a maximum of fifteen semester hours of credit may be granted for prior work experience related to the student's area of academic concentration. Work experience credit is based on documented learning that demonstrates significant achievement related to the outcomes and objectives for the specific course in the degree program. The appropriate form for requesting work experience credit and the criteria for awarding credit may be obtained from the Registrar's Office. Only one course and one activity per course may be listed in each request. The student's advisor and the Dean of the appropriate college/school must concur in the determination of the credit to be granted in each individual case. Once credit is granted, the Dean sends a copy of the approved equivalent courses and credit hours to the University Registrar. The University Registrar records the notation "Work Experience Credit," followed by the appropriate course(s) and credit hours on the transcript. The number of hours is noted as "Hours Earned" and no quality points or grades are recorded. Neither "Hours Attempted" nor the grade point average includes work experience credit hours. Students requesting work experience credit should refer to the Financial Information section of the *University of Pikeville Catalog* for applicable fees.

Permission to Study at Other Institutions

Students enrolled at the University of Pikeville who wish to take a course at another accredited institution for credit toward a University of Pikeville degree must complete the *Permission to Study Off-Campus* form <u>prior</u> to enrolling in the course. The *Permission to Study Off-Campus* form is available in the Registrar's Office and requires approval from the student's Academic Advisor and the University Registrar or the appropriate academic Dean. Once the approved course is completed with a grade of "C" or better, the student must submit an official transcript showing the completed course before it can be used to meet a University of Pikeville degree requirement. Repeating a course at another institution will not change the grade received at the University of Pikeville for the same course. Students wishing to take courses off-campus while taking courses at the University of Pikeville will be limited to a combined load of eighteen hours for the fall and spring terms and seven hours for summer terms (see *Student Course Load*). Students on probation will not be allowed to enroll in off-campus courses while taking courses at the University of Pikeville.

Acadeum

Students enrolled at the University of Pikeville who wish to take a course at another accredited institution for credit, have an option to do so using Acadeum Course Share. Acadeum is a consortium with hundreds of colleges and universities that shares courses in an online format throughout the year with a variety of start times, end times, and course lengths. Acadeum Course Share makes it easy to expand your education options with online equivalent courses that are approved to transfer back to the University of Pikeville. These are quality courses and ensure students stay of track to meet degree requirements and/or athletic eligibility. UPIKE students can access Acadeum with the following link:

https://students.acadeum.com/institutions/university-of-pikeville

Transcript of Record

Requests for transcripts must be made through an online process via the website www.upike.edu. In the search bar, type in Registrar's Office and select Transcripts from the menu. Parchment Exchange, our associate company, will require an account to be created. The university will exercise the right to withhold the transcript of any student with outstanding financial obligation and/or other unmet obligation to the university. Students requesting a transcript should refer to the Financial Information section of the *University of Pikeville Catalog* for applicable fees.

Upon request, official transcripts will be mailed or sent as an e-Transcript directly to other institutions or agencies. Requests must specify the office and/or person to which the transcript is to be sent. Under special conditions, an official transcript, in a sealed envelope with the University Registrar's signature over the seal, may be given to a student. Transcripts given directly to students will be stamped "Issued to Student."

President's List and Dean's List

To publicly acknowledge the high scholastic achievement of its students, the University follows the traditional practice of publishing a President's List and a Dean's List at the end of each fall and spring semester.

President's List: To be eligible for the President's List, a student must be a full-time University of Pikeville student (minimum 12 UPIKE credit hours) and complete the semester with a 4.000 GPA. A grade of "I" will disqualify students. A student on the President's List is not eligible for the Dean's list. The President's List will be announced by the President after the close of each semester. This honor was started in fall 2014 and is not retroactive.

Dean's List: To be eligible for the Dean's List, a student must be a full-time student (minimum 12 credit hours) and complete the semester with no failures and earn a semester grade point average between 3.500 and 3.999. A grade of "I" will disqualify students. The Dean's List from each college/school will be announced by the appropriate academic Dean after the close of each semester.

Graduation with Honors

Honors are based on the cumulative grade point average for performance at the University of Pikeville. To be considered for honors at commencement, a minimum of 60 semester hours for the baccalaureate degree and 30 semester hours for the associate degree must have been completed at the University of Pikeville. Students who have a grade point average of 3.5 or higher are eligible to graduate with honors in the categories listed below. At the time of the commencement ceremony in December or May of each year, honors will be based on coursework completed at the University of Pikeville up through April 1.

Baccal	laureate	Degrees

Cum Laude The degree will be awarded cum laude to candidates who have a grade point

average of 3.50-3.69.

Magna Cum Laude The degree will be awarded magna cum laude to candidates who have a grade point

average of 3.70-3.84.

Summa Cum Laude The degree will be awarded summa cum laude to candidates who have a grade point

average of 3.85-4.00.

Associate Degrees

Honors The degree will be awarded with honors to candidates who have a grade point

average of 3.50-3.75

High Honors The degree will be awarded with high honors to candidates who have a grade point

average of 3.76-4.00

Graduation Awards

The Dr. W.C. Condit Award, established in 1909, is presented each year to the member of the graduating class who has achieved the highest scholastic standing throughout their entire college career. The Margaret E. Record Award is presented to the member of the graduating class who has achieved the second highest standing. Each award requires the graduate to have taken at least 96 semester hours toward graduation at University of Pikeville.

Family Educational Rights and Privacy Act (FERPA) Policy

The University of Pikeville's policy with respect to its student educational records adheres to the requirements and regulations of the Family Educational Rights and Privacy Act. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level. Students to whom the rights have transferred are "eligible students."

Education records are records that are directly related to a student, maintained by an educational agency or institution, or by a party acting for the agency or institution. Record means any information maintained in any way, including, but not limited to: handwriting, video, audio tape, computer media, film, print, microfilm and microfiche.

The Family Educational Rights and Privacy Act (FERPA), (20 U.S.C. § 1232g; 34 CFR Part 99), is a federal law that protects the privacy of student education records. FERPA places limitations on the disclosure of personally identifiable information maintained by University of Pikeville with respect to students and limits access to educational records; including the right to inspect and review; right to consent to disclosures, with certain exceptions; the right to obtain copies; the right to seek amendment or correction of such records through informal and formal internal procedures; and the right to place a statement in such educational records explaining any information which the student believes to be inaccurate or misleading.

In accord with FERPA regulations, the University of Pikeville holds certain information to be "directory information," and therefore, subject to disclosure without prior consent from the student. Unless written objection is received no later than 30 days from the commencement of the academic year, the University of Pikeville designates the following items as directory information:

- Student's Name
- Address
- Electronic mail address (UPIKE only)
- Telephone listing
- Date and place of birth
- Photographs
- Major field(s) of study
- Dates of attendance
- Enrollment Status (full-time; part-time, undergraduate, graduate, professional)
- Most recent previous school attended
- Degrees awarded
- Classification/Grade Level
- Name of the undergraduate, graduate, and/or professional school attended
- Participation in officially recognized activities and sports
- Weight and height of athletes
- Honors and awards received

Educational records may be disclosed to school officials (administrators, staff, faculty, coaches, individuals and/or organizations to whom the University has contracted or are conducting studies on behalf of the University for services, studies, or research) who have a "legitimate educational interest" in the student without prior consent of the student. "School official" is defined by the Department of Education as the following:

- Person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff)
- Person or company with whom the University has contracted as its agent to provide a service instead of using University employees or officials (such as an attorney, auditor, or collection agent)
- Person serving on the Board of Trustees; and/or
- Student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks

A school official has a "legitimate educational interest" if a review of a student's record is necessary to fulfill the official's professional responsibilities to the University. School officials may have legitimate educational interests both in students who are currently enrolled and in those no longer enrolled.

If a significant threat to the health or safety of a student or other individual is determined, university personnel may disclose information from education records to any person, including parents, whose knowledge of the information is necessary to protect the health or safety of the student or other individuals. University personnel must maintain a record of the significant threat that formed the rational basis for the disclosure.

Other exceptions to education records include: sole possession records, records created and maintained by a law enforcement unit for a law enforcement purpose, employment records (unless contingent on attendance), medical records made and maintained in the course of treatment and disclosed only to those individuals providing treatment, records that only contain information about a student after he or she is no longer a student at the University of Pikeville (i.e. alumni records).

Objections must be in writing, signed and dated by the student, and be directed to the University of Pikeville Registrar's Office. Complaints regarding alleged violations of rights accorded students by the Family Educational Rights and Privacy Act may be directed to: Family Policy Compliance Office U.S. Department of Education, 400 Maryland Ave. S.W., Washington, D.C. 20202-8520. For additional information: http://www.aacrao.org.

UNIVERSITY OF PIKEVILLE GENERAL EDUCATION LEARNING OUTCOMES

The University of Pikeville General Education Program is a fundamental component of all of the baccalaureate degrees (B.A., B.S., and B.B.A.) offered by the university and is based on three basic learning goals:

A University of Pikeville student will . . . Learn how to think, Learn how to learn, Learn how to express.

These three outcomes are actualized through four specific Learning outcomes.

University of Pikeville students will prepare for twenty-first century challenges by gaining:

Knowledge of Human Cultures and Societies

University of Pikeville graduates will develop a global perspective through exploration of knowledge in the social sciences, humanities, and the arts. The University of Pikeville's Mission Statement affirms knowledge of Christian principles and Appalachian culture in the context of respect for a variety of religious expressions and cultural backgrounds. Study may include:

- Issues of diversity
- Global learning leading to intercultural competence

Knowledge of the Physical and Natural World

University of Pikeville graduates will understand and apply tools drawn from the sciences and mathematics to address everyday problems. The University of Pikeville's Mission Statement affirms knowledge of quantitative skills and the sciences in the context of a broad undergraduate curriculum. Study may include:

- · Basic scientific principles and methods of inquiry
- Quantitative literacy
- Technological competence

Intellectual and Practical Skills

University of Pikeville graduates will be discerning readers and listeners as well as effective writers and speakers. The University of Pikeville's Mission Statement emphasizes communicative skills, independent thinking, and problem-solving ability. Study may include:

- Critical and creative thinking
- Written and oral communication
- Information literacy
- Teamwork and problem solving

Personal and Social Responsibility

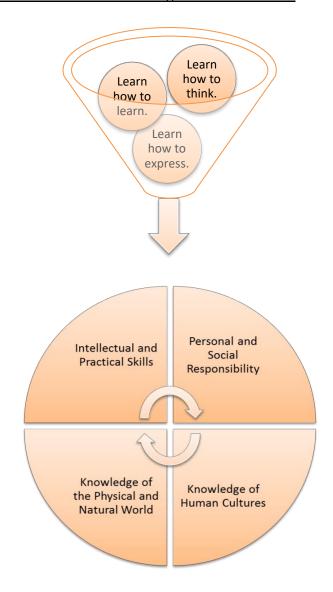

University of Pikeville graduates will be responsible citizens in a global society. They will develop a personal value system and possess the capacity to make ethical judgments. They will exemplify personal integrity and service to others. The University of Pikeville's Mission Statement stresses development of the whole person and preparation for leadership, civic responsibility, and lifelong learning. Study may include:

- Civic knowledge and engagement, both local and global
- Ethical reasoning and action
- Foundations for health and well-being
- Experiential learning beyond the classroom
- Foundations for lifelong learning

These four Learning Outcomes are interactively connected across the General Education curriculum.

These outcomes are already approved and in the catalog. They were adapted from The Association of American Colleges and University's Essential Learning Outcomes: https://www.aacu.org/leap/essential-learning-outcomes

UPIKE General Education Learning Goals & Outcomes

UNDERGRADUATE CURRICULUM AND COURSE REQUIREMENTS

The Curriculum

The undergraduate degree programs support the mission of the university through a quality education that focuses on the development of the whole person including the intellectual, spiritual, social and physical dimensions. The undergraduate curriculum includes four associate, 29 baccalaureate degree programs, and nine certificates built on a broad liberal arts foundation that emphasizes communicative and quantitative skills; independent thinking; tolerance of diverse points of view; cultural, historical and ethical awareness; and preparation for leadership, civic responsibility and life-long learning. The curriculum has three components: The General Education Curriculum requirements, the major program requirements, and sufficient electives to meet the semester-hour requirement for the degree sought. Baccalaureate students are encouraged to seek completion of a minor or second major to fulfill the 120-hour requirement to graduate.

Common to all baccalaureate degrees (associate degrees have specified general education requirements depending on the program of study), the general education requirements emphasize a strong foundation in the basic skills of reading, writing, speaking, problem-solving, and using technology. The general education curriculum also introduces the humanities, the sciences, the social sciences, and religion. The curriculum is designed to allow early completion of basic skills courses so these skills may be practiced in subsequent courses. To receive a baccalaureate degree, the student must select a major or an area of concentration. The major or area of concentration provides for in-depth study in a specific subject area.

General Education Curriculum

Finding Your Place at University of Pikeville

The University of Pikeville General Education Curriculum prepares students for their roles in a fast-changing 21st Century World. The General Education Curriculum positions student learning in the context of Finding Your Place at UPIKE. A curriculum that centers on place allows students to see themselves in their learning and encourages deeper connection to class material. Involving students in practices that focus on place gives them the critical skills needed to apply knowledge to world issues, whether local or global. Understanding place begins with understanding self and one's role in school and community and expands to include place in the physical and natural world, place in history, and place in the cultural and global world.

Common Requirements (14 credits)
First-Year Studies (2 credits)
Oral (3 credits) and Written Communication (3 credits) (6 credits total)
Mathematics (3 credits)
Systematic Study of the Bible (3 credits)

Finding Your Place at UPIKE Requirements (19 credits)	
Personal Place	6 credits*
Physical and Natural Place	4 credits including lab
Historical Place	3 credits*
Cultural and Global Place	6 credits*

^{*}These 15 credits must be from 5 different disciplines (disciplines are designated by prefixes such as ART, BUS, or HIS). These 15 credits must include 3 credits of humanities/fine arts and 3 credits of social science. Typically, Social Science courses are in COM, ECN, PLS, PSY, SOC. Typically, Humanities/Fine Arts courses are in ART, ENG (if literature), FMA (if film studies), HUM, MUS, THR, SPN (if literature).

Engaging Our World Requirement (3 credits)

3 credits in a designated course at the 300-400 level. In the Engaging our World course students will move from finding their place to engaging their world. The course could accomplish this goal in several ways: interdisciplinary collaboration, experiential learning, or a focus on world issues and problems. The focus of the course is integrative learning.

Oral Communication

The goal for a course in oral communication is to develop communication skills, verbal and nonverbal, in a variety of communication settings. These English-language skills include the ability to research, organize, and deliver a message to specific audiences: use listening skills to critique, evaluate, and/or assess oral communication; evaluate the effectiveness of messages and presentations; and demonstrate responsibility as an ethical oral communicator.

Aligns with the Learning Outcome Intellectual and Practical Skills

Written Communication

The goal for a course in written communication is to understand and produce knowledge through the process of reading and writing in English. Skills include critical thinking, rhetoric, voice and audience, research and methods, and producing content for a variety of media.

Aligns with the Learning Outcome Intellectual and Practical Skills

Mathematics

The goal for a course in mathematics is to develop skills in basic mathematical calculations and in interpreting mathematical data.

Aligns with the Learning Outcome Intellectual and Practical Skills

Systematic Study of the Bible

The goal for a course in systematic study of the Bible is to explore a significant portion of the Bible (such as Old Testament, New Testament, Gospels, or Pentateuch) or a topic in the Bible (such as Women in the Bible). The course will develop skills in studying the Bible in its literary and historical context.

Aligns with the requirement in the UPIKE By-Laws that the curriculum include systematic study of the Bible.

Personal Place

The goal for a course in Personal Place is to explore and develop self, identity, and the individual's role in and impact on society.

Aligns with the Learning Outcome Personal and Social Responsibility

Physical and Natural Place

The goal for a course in Physical and Natural Place is to explore the physical and natural world through the systematic study of the Physical Sciences (Chemistry, Physics, or Earth Sciences), the Natural Sciences (Biological Sciences) and Biomedical Science. This includes basic knowledge about the physical and natural world, the scientific method, and the ways that scientific knowledge affects our understandings of self, others, and the world.

Aligns with the Learning Outcome Knowledge of the Physical and Natural World

Historical Place

The goal for a course in Historical Place is for students to learn how they arrived at their place in history and how this knowledge will help them navigate their future. This is accomplished through the exploration of historical periodization, the use of historical primary sources, and an understanding of historical themes and historiography. Aligns with the Learning Outcome Knowledge of Human Cultures and Societies

Cultural and Global Place

The goal for a course in Cultural and Global Place is to explore and develop an understanding of the world's cultures and their impact on the individual and society.

Aligns with the Learning Outcome Knowledge of Human Cultures and Societies

Engaging Our World

The goal for the course is integrative learning. In the Engaging our Word course students will move from finding their place to engaging their world. The course could accomplish this goal in several ways: interdisciplinary collaboration, experiential learning, or a focus on world issues and problems. The course should be 300-400 level.

Aligns with the goal that the four Learning Outcomes are interactively connected across the General Education Curriculum.

NOTE: Check course descriptions for those courses meeting the above requirements.

Degree Requirement

Bachelor of Arts, Bachelor of Science, or Bachelor of Business Administration 4-6 hours

Students must select a degree option for their major and complete the appropriate requirement. Students may only select one option. Complete one of the following options:

B.A. Degree Option: Completion of six credit hours of a foreign language. English does not count

as a foreign language. Students may mix languages to meet the requirement.

B.S. Degree Option: Completion of four hours of laboratory science.B.B.A. Degree Option: Completion of either the B.S. or B.A. Degree Option.

General Requirements for Associate and Baccalaureate Degrees

Associate Degree

A candidate for the associate degree is expected to fulfill the requirements for graduation stated at the time of admission or readmission to the University of Pikeville. The general requirements for the associate degree are as follows:

- 1. A minimum of 60 semester hours (at the 100 level or higher) with a cumulative grade point average of 2.00 or higher depending on individual program requirements;
- 2. Successful completion of an approved associate degree major;
- 3. At least 50% of the semester hours required in the major and a total of 25% of the credit hours toward a degree must be earned at University of Pikeville;
- 4. A minimum cumulative grade point average of 2.00 in the major unless specified for a specific program;
- 5. A grade of "C" or better in all courses taken to satisfy major requirements;
- 6. Successful completion of departmental assessment requirements.

Note: Developmental Studies courses do not count toward the 60 semester hours required for the associate degree.

Baccalaureate Degree

A candidate for the baccalaureate degree is expected to fulfill the requirements for graduation stated at the time of admission or readmission to the University of Pikeville. The general requirements for the baccalaureate degree are as follows:

- 1. A minimum of 120 semester hours (at the 100 level or higher) with a minimum cumulative grade point average of 2.00 or higher depending on individual program requirements;
- 2. A minimum of 39 semester hours in 300 or 400 level courses;
- 3. Successful completion of the 36 semester credits hours of the General Education Curriculum, depending on the major and course selection;
- 4. Successful completion of one of the following:
 - 1. A major with 30 semester hours or more; or
 - 2. An area of concentration of 48 semester hours or more;
- 5. Thirty of the last 36 semester hours prior to graduation must be taken at the University of Pikeville.
- 6. At least 50% of the semester hours required in the major, minor, or area of concentration and a total of 25% of the credit hours toward a degree must be earned at the University of Pikeville.
- 7. A minimum cumulative grade point average of 2.00 in the major or minor unless specified for a specific major;
- 8. A grade of "C" or better in all major, minor, related studies, or area of concentration courses;
- 9. Successful completion of institutional and departmental assessment requirements.

Note: Developmental Studies courses do not count toward the 120 semester hours required for the baccalaureate degree.

General Requirements for Certificates

A candidate for a certificate is expected to fulfill the requirements specified in each certificate program stated at the time of admission or readmission to the University of Pikeville. The general requirements for the certificate are as follows:

- 1. A minimum of 12 semester hours (at the 100 level or higher) with a minimum cumulative grade point average of 2.00;
- 2. Successful completion of an approved certificate;
- 3. At least 75% of the semester hours required in the certificate must be earned at University of Pikeville.
- 4. A grade of "C" or better is required in all courses taken to satisfy certificate requirements;
- 5. Three credit hours of transfer work (with a grade of "C" or better) may be applied toward the requirements of one certificate;
- 6. Students must notify the Registrar's Office of their intention to earn a certificate;
- 7. Students pursuing only a certificate may incur an application fee, tuition, and possible course fees;
- 8. During the semester of completion, students must apply for the certificate by the deadline date published on the academic calendar.

Undergraduate Degrees Offered

The University of Pikeville offers the following undergraduate degrees:

Associate of Science (A.S.)
Bachelor of Arts (B.A.)
Bachelor of Science (B.S.)
Bachelor of Business Administration (B.B.A.)

The B.A. or B.S. degree is awarded depending upon the option chosen of either foreign language or laboratory science. The B.A. degree-seeking student completes two courses of foreign language (6 hours). The B.S. degree-seeking student completes an additional laboratory science (4 hours). If a student completes both the requirements for the B.A. and the B.S. degree, then the student is awarded their choice of the B.A. or the B.S. degree, not both. Students seeking a B.B.A. degree may complete either the B.A. or the B.S. option.

Students pursuing double majors must indicate so to the University Registrar and are eligible to qualify for additional Bachelor's degrees in different majors providing the student meets and completes all university, college, and departmental requirements for a degree. Courses taken towards fulfilling one degree may also count towards fulling parallel requirements in another degree, but the student must complete at least 30 additional hours in a different major for each degree.

A student will be assigned an academic advisor in each major.

The University of Pikeville diploma awarded states the degree name and year completed.

The academic transcript indicates the degree name, completion date, major(s), minor(s), certificate(s), emphasis/track/option/specialization (if applicable), and honors.

Majors Offered

Associate of Science degrees are awarded in the following areas:

College of Arts & Sciences

Communication (A.S.) Criminal Justice (A.S.)

Coleman College of Business

Business (A.S.)
Accounting Emphasis
Management Emphasis

College of Nursing and Human Services

Nursing (A.S.)

Baccalaureate degrees are awarded in the following areas:

College of Arts & Sciences

Humanities

English (B.A.)
Film and Media Arts (B.A.)
Performing Arts in Music (B.A.)
Religious Studies (B.A.)

Mathematics and Natural Sciences

Biology (B.A. or B.S.) Biomedical Science (B.A. or B.S.) Chemistry (B.A. or B.S.) Mathematics (B.A. or B.S.)

Undergraduate Certificates Offered

Career Communication
Corrections, Rehabilitation, and Preventative Control
Digital Communication
Digital Skills for the Workplace
Interpersonal Skills for Professional
Political & Civic Engagement
Spanish for the Workplace
Strategic Organizational Leadership
Women in Leadership

Pre-Professional Programs

Students intending to pursue a professional degree should follow the curriculum guidelines and requirements for admission from the specific school he or she plans to attend. The University of Pikeville offers courses and majors that prepare students for admission to the following types of professional schools:

Dental Engineering

Pharmacy

Law

Physical Therapy

Optometry

Medical

• Veterinary Medicine

A student must select a major from those listed in the **Majors Offered** section listed above. Students interested in preprofessional programs can contact the Registrar's Office for the name of the appropriate faculty advisor.

CERTIFICATES

Career Communication

The Career Communication certificate provides students with skills needed for communication in a wide variety of fields. The courses selected for the certificate will compel students to:

- Demonstrate cultural and interpersonal skills essential to professional communication;
- Produce reports, newsletters, media kits, and other business and professional writing;
- Learn to work collaboratively in teams to achieve leadership outcomes; and
- Construct artifacts (e.g. papers, assignments) using ethical arguments, research and methodologies from the fields of communication, business, etc.

Certificate Require	ements	12 hours
•	Business Communication.	
COM 303	Interpersonal Communication.	
COM 329	Public Relations	
SSC 310	Conflict Resolution and Ethical Decision Making	
550 510	Commet Resolution and Edited Decision Making	

Corrections, Rehabilitation, and Preventative Control

The Corrections, Rehabilitation, and Preventative Control certificate provides the basics of the United States correctional system with a detailed focus on corrections and rehabilitation. The courses required for the certificate will help students gain a practical understanding of the court system and methods used to sanction criminal offenders.

Certificate Requir	rements	12 hours
CJ 152	Introduction to the Criminal Justice System	
CJ 283	Corrections	
CJ 384	Community-Based Corrections.	
SOC 214	Juvenile Delinquency	

Digital Communication

The Digital Communication certificate provides students with skills needed for communication in a wide variety of digital environments. Students will gain both technical knowledge and practical skills and will be specifically equipped to create and curate digital content, collaborate and problem-solve in teams, and stay abreast and of and make recommendations about emerging technologies.

Certificate Require	ements
Select four (4	!) courses from the following:
BUS 216	Digital Citizenship3
COM 320	Digital Journalism 3
FMA 135	Introduction to Film and Media Arts
FMA 170	Digital Imaging
FMA 375	Web Design and Development

Digital Skills for the Workplace

The Digital Skills for the Workplace certificate is designed to equip students with important skills for the digital world. In their classes and labs, student will produce digital media that meet professional standards in each field. Emphasizing hands-on activities, student will learn and use software to design artifacts and operate specialized equipment to produce course projects. Emphasizing teamwork and problem solving, student will learn to critically evaluate and make informed decisions about the design process and steps in project completion.

Certificate Requirements	ſS
Select four (4) courses from the following:	
COM 102 Digital Design	3
ES 241 Introduction to Geographic information Systems	
FMA 170 Digital Imaging	3
FMA 235 Basic Video Production	3
SCI 250 Introduction to 3D Printing	3

Interpersonal Skills for Professionals

The Interpersonal Skill for Professional certificate provides students with skills needed for communication in diverse settings and groups. The courses selected for the certificate will compel students to:

- Analyze the role of culture, values, beliefs, and assumptions in interpersonal and professional communication;
- Analyze the ways personal identities and social stereotypes affect the communication process;
- Demonstrate active listening, intercultural, and relationship-focused communication skills; and
- Diagnose communication challenges and implement relational responses.

Certificate Requi	rements	12 hour
Select four ((4) courses from the following:	
	Interpersonal Communication	3
	Health Communication	
COM 306	Gender and Communication	
COM 323	Intercultural Communication	
SSC 310	Conflict Resolution and Ethical Decision Making	

Political & Civic Engagement

The Political & Civic Engagement certificate will provide students with the opportunity to foster a variety of skills needed in today's careers. The courses selected for this certificate will enable students to:

- Display an understanding of the need and associated use of history and politics. This is essential for any civic/community-based profession.
- Analyze documents, rhetorical situations, and case studies to understand, explain, debate/justify the potential solutions to the proposed problems at hand.
- Learn to work both independently and collaboratively within groups. This also will provide opportunities to practice and demonstrate leadership skills.
- Create projects that demonstrate an effective and proper use of methodological research and argumentation that is used within the fields of history, political science, law, criminal justice, and communication.

Certificate Require	ements	12 hours
CJ 152	Introduction to Criminal Justice.	3
COM 325	Political Communication	
HIS 150	Survey of U. S. History	
PLS 101	American Government & Politics	

Spanish for the Workplace

The Spanish for the Workplace certificate at the University of Pikeville prepares learners to communicate in Spanish for professional purposes, as the result of their language, cultural, and professional studies.

Certificate Requir	ements	2 hours
SPN 111	Beginning Spanish I	3
SPN 112	Beginning Spanish II	3
SPN 306	Spanish Conversation	3
SPN 317	Spanish for the Professions	3

Strategic Organizational Leadership

The Strategic Organizational Leadership certificate may be completed by any student seeking to differentiate themselves in the competitive job market through business training and with the ability to articulate leadership potential while contributing to the strategic direction of an organization.

Certificate Requir	ements12 ho	urs
BUS 330	Behavior in Organization	3
BUS 357	Leadership Theory and Practice	
BUS 499	Directed Individual Study in Business	
SSC 310	Conflict Resolution and Ethical Decision Making	

Women in Leadership

The Women in Leadership certificate will provide an emphasis in leadership skills with special attention to gender dynamics in the work place. Combining courses from the Social Sciences and Humanities that focus on the politics and history of gender identity with business and entrepreneurial courses.

Certificate Requir	rements	12 hours
BUS 357	Leadership Theory and Practice	
	or	
BUS 206	The Entrepreneurial Mindset	
COM 306	Gender and Communication	
HUM 320	Gender and Women Studies	
Select one (1	l) course from the following:	
ART 317	Women in Art	
ENG 380	Women Authors	
REL 381	Women and the Bible	
SSC 310	Conflict Resolution and Ethical Decision Making	
SW 300	Diversity and Difference	

UNDERGRADUATE ACADEMIC PROGRAMS DEGREE REQUIREMENTS

The requirements for each undergraduate degree program are outlined in detail on the following pages. All candidates for the baccalaureate degree must complete the University's General Education Curriculum requirements.

For a baccalaureate degree, majors may require no fewer than 30 semester hours. For an area of concentration, no fewer than 48 semester hours are required. For an emphasis, track, or option no fewer than 21 semester hours are required. Specific requirements for the major, area of concentration, specialization, emphasis, track, or option are listed for each program.

For associate degree programs, majors may require no fewer than 60 semester hours. Specific requirements for associate degree majors are listed for each program.

A minor is not required to fulfill the requirements for baccalaureate degree. A minor may require no fewer than 18 semester hours. Those interested in a minor must be seeking a baccalaureate degree. Students seeking an associate degree cannot declare a minor. A student cannot earn a minor and major in the same discipline.

A minimum of 12 semester hours (at the 100 level or higher) is required for a certificate. Certificates are available, but not required.

Student Responsibility for Graduation

The ultimate responsibility for fulfilling graduation requirements rests with the individual student. Students should consult with their Academic Advisor to ensure they are meeting all degree requirements. Students must apply for graduation by the deadline date published on the academic calendar. Applying late does not guarantee your name will appear in the program or that you will be permitted to participate in the commencement ceremony. Students may apply for graduation by accessing the UPIKE Self-Service Graduation Application or by visiting the Registrar's Office. Diplomas will be mailed to the address given during the application process approximately 45 days from the end of the semester/term that degree requirements and all financial obligations to the University have been met. If an outstanding or an unpaid balance exists, a student will not receive a diploma until the balance is zero.

Students who applied for graduation, but failed to meet all requirements by the anticipated completion date may be required to reapply to the institution, reapply for graduation, meet graduation requirements based on the catalog that is active at that time, and repay the \$100 graduation fee.

Additional information can be obtained by contacting the University Registrar.

UNDERGRADUATE ACADEMIC PROGRAMS, DEGREE REQUIREMENTS, AND COURSE DESCRIPTIONS

Art (ART)

The Art program is part of the Humanities Division of the College of Arts and Sciences. Through course work in creative thinking and skills this minor offers a variety of approaches which promote the role of art, aesthetics and expressive creativity in society. The Art Minor compliments students who have chosen major areas of study across the undergraduate colleges and prepares students to use creativity and visual language in their roles as artists, communicators, educators, and business, healthcare, and community leaders.

Ar	t Course Des	scriptions	
AR	T 100 Art A	Appreciation	(3)
		gned to encourage an appreciation of the Visual Arts. In this course students will examine, research,	
		by the property of the world head on the visual and cultural qualities. The course will also fears on the	

discuss works of art from around the world, based on the visual and cultural qualities. The course will also focus on the creation of art—as an experiential event--inspired by the works studied. The class will enhance students' perceptual abilities; encourage insight, and a greater understanding of the variety of visual expressions. *Does not fulfill requirements toward Art minor*. This course fulfills either the Cultural and Global Place or Personal Place requirement in the General Education Curriculum.

ART 102 Survey of Art from Prehistory to the 14th Century(3)

A general survey of art from earliest time through the precursors of the Renaissance. The class will deal with western as well as non-western art. The courses objective is to develop the ability to comprehend and evaluate concepts and issues pertaining to cultural heritage as embodied in the visual arts. *Does not fulfill requirements toward Art minor*.

This course fulfills the Cultural and Global Place requirement in the General Education Curriculum.

ART 103 Survey of Art from 14th Century to the Present(3)

A general survey of art from Renaissance to the present. The class will deal with western as well as non-western art. The course objective is to develop the ability to comprehend and evaluate concepts and issues pertaining to cultural heritage as embodied in the visual arts. *Does not fulfill requirements toward Art minor*.

This course fulfills the Cultural and Global Place requirement in the General Education Curriculum.

ART 121 Basic Drawing
This course fulfills the Personal Place requirement in the General Education Curriculum.

ART 495 Senior Capstone
ART 498 Internship in Art
ART 499 Directed Individual Study

Biochemistry (BCM)

Biochemistry is offered within the Division of Mathematics and Natural Sciences in the College of Arts and Sciences. The courses listed below may be used as requirement for the Chemistry—Medical Science emphasis and the Chemistry major—Traditional emphasis.

Biochemistry Course Descriptions

BCM 300 Methods in Biotechnology(4)

The primary objective of this course is to examine the basic concepts of biotechnology methods. The course focuses on basic laboratory exercises used in the manipulation of nucleic acids and/or proteins. Method demonstrations will illustrate the basic concepts and techniques of biotechnology. Bioethical issues relating to this new technology will also be discussed. Laboratory exercises and lectures will be integrated, with much of the lab time dedicated to individual project work. Lecture, three hours per week; laboratory, at least three hours per week. *Prerequisites: A grade of "C" or better in BIO 154, BIO 156, CHE 114, CHE 116, and Sophomore standing.*.

BCM 441 Biochemistry I(3)

First course in a sequence that studies the chemical processes within and related to living organisms. Biochemistry I is an introductory study of the structure and function of macromolecules (proteins, amino acids, carbohydrates, lipids, and coenzymes) and their roles in biological cells. The course begins with an introduction to amino acid and protein chemistry, then follows with a discussion of enzyme structure, function, and kinetics. Emphasis is placed on the organization of enzyme-catalyzed reactions into coordinated and regulated metabolic sequences. Other topics examined include the interaction between lipids and proteins to form biological membranes and the roles the biological membranes play in cells; carbohydrate, lipid metabolism, and hormonal regulation of these processes; and metabolic pathways. *Prerequisites: A grade of "C" or better in CHE 314 and CHE 316. It is recommended that students have had BIO 151 or BIO 153 prior to taking biochemistry*.

BCM 442 Biochemistry II(3)

Second course in a sequence that studies the chemical processes within and related to living organisms. Biochemistry II continues the discussion of metabolism started in BCM 441 with an examination of phosphoglyceride, sphingolipid, sterol, and amino acid metabolism. Emphasis will also be placed on nucleic acid structure and function, DNA replication, repair and recombination, RNA synthesis, protein synthesis, gene regulation, DNA sequencing, the polymerase chain reaction, and cloning. *Prerequisites: A grade of "C" or better in BCM 441.*

BCM 443 Biochemistry Laboratory(1)

This course will offer students fundamental laboratory approaches for biochemistry and biotechnology. Experiments in this course will reinforce concepts learned in biochemistry lecture classes. Three hours of lab per week. *Prerequisites: A grade of "C" or better in CHE-316. Prerequisite or Corequisite: BCM 441*.

Biology (BIO)

The Biology Program is a part of the Division of Mathematics and Natural Sciences of the College of Arts and Sciences. The program strives to provide students with a broad background in the discipline, while providing an opportunity to concentrate their studies in a way that facilitates their personal career goals. All students receive hands on training in scientific research through intense laboratory and/or field experiences.

Biology Major

PHY 223

PHY 224

Basic program for a baccalaureate degree:

General Physics II4

V. General electives as needed to meet the minimum requirements of 120 semester hours.

Biology Minor
Biology Requirements
Must include:
BIO 153 Principles of Biology I
BIO 155 Principles of Biology I Laboratory
BIO 156 Principles of Biology II Laboratory
BIO Biology Electives at 300-400 Level
Each student is required to take a minimum of 13 hours of eligible courses at the 300-400 level. Additional classes must com from a minimum of two different areas of study as listed in the requirements for the major. At least one of the additional classes must have a laboratory or field component.
Teaching Certification in Biology (See Education)
Biology Course Descriptions BIO 100 Introduction to Biology(3
A survey course for those not taking a biology major or minor. Three hours of lecture per week; accompanied by a lab course Prerequisite: MTH 100 or placement beyond. Corequisite: BIO 101 or consent of Instructor. Does not count toward a major of minor in Biology.
With BIO 101, this course fulfills the Physical and Natural Place requirement in the General Education Curriculum.
BIO 101 Introduction to Biology Lab
BIO 102 Biology for Future Educators
•
The hypothetico-deductive nature of scientific inquiry is introduced and is used as a foundation for the exploration of cellula organization and function. Topics covered include atomic bonding, the structure and importance of water to life, macromolecule essential to life, enzyme kinetics, eukaryotic cell structure, cellular respiration, photosynthesis, cell division, an introduction to Mendelian genetics, and the structure and function of DNA. Although the course focuses on the cellular level and below, th importance of these structures and processes to the organism is continually considered. <i>Prerequisite: A math ACT of 19 or highe or equivalent math placement. Prerequisite or Corequisite: BIO 155. Recommended Corequisite: CHE 113 and CHE 115.</i> With BIO 155, this course fulfills the Physical and Natural Place requirement in the General Education Curriculum.
BIO 154 Principles of Biology II(3
A survey course of Earth's biodiversity, including the prokaryotic and eukaryotic domains, intended for students to gain a understanding and appreciation of organismal diversity. Special attention will be given to the study of population genetics and evolutionary processes. Taxonomy, phylogeny, and life histories of various taxonomic groups will also be discussed in order to address evolutionary relationships and morphological and physiological differences among groups. <i>Prerequisite: A grade of "Cor better in BIO 153 and BIO 155. Prerequisite or Corequisite: BIO 156.</i> With BIO 156, this course fulfills the Physical and Natural Place requirement in the General Education Curriculum.
BIO 155 Principles of Biology I Laboratory(1
Laboratory to accompany Principles of Biology I lecture. Laboratory work provides hands-on activities to teach laboratory skill and support the concepts presented in the lecture. Lab activities will include investigations of the metabolic process of respiration and photosynthesis, mitosis, and basic genetics principles. Three hours of lab per week. <i>Prerequisite or Corequisite: BIO 153</i> . With BIO 153, this course fulfills the Physical and Natural Place requirement in the General Education Curriculum.
BIO 156 Principles of Biology II Laboratory(1
Laboratory to accompany Principles of Biology II lecture. Laboratory work provides hands-on activities to teach laboratory skill and support the concepts presented in the lecture. Lab activities will include dissections of representative animal groups an investigations of biological taxonomies. Three hours of lab per week. <i>Prerequisite: A grade of "C" or better in BIO 153 and BIO 155. Prerequisite: BIO 154.</i> With BIO 154, this course fulfills the Physical and Natural Place requirement in the General Education Curriculum.

This course provides the basic understanding of biology and chemistry with insight into the human body, primarily at the cellular and tissue levels. Topics include basic chemistry, DNA, RNA, cellular structure, basic histology, bones, muscles, and nervous systems. Three hours of lecture and two hours of laboratory per week. <i>Prerequisite: MTH 100 or placement beyond. Does not count toward a major or minor in Biology.</i> This course fulfills the Physical and Natural Place requirement in the General Education Curriculum.
BIO 172 Anatomy and Physiology II
BIO 200 You and Your Environment
BIO 273 Clinical Microbiology
BIO 280 Medical Terminology
BIO 281 Advanced Medical Terminology
BIO 290 Special Topics
BIO 300 General Entomology
BIO 303 Introduction to Evolution
BIO 313 Botany
BIO 314 Vertebrate Zoology
BIO 320 Genetics

BIO 324 Pathophysiology(3)
Pathophysiology will extend a student's understanding of physiological processes of the human body associate with disease or injury. Prerequisites: BIO 171 and BIO 172 with a grade of "C" or better. Does not count toward a major or minor in Biology.
BIO 325 Ecology
the distribution and abundance of species; population structure, dynamics, and regulation; community development (succession),
structure and function; food webs, energy flow, and nutrient cycling. A special focus will be placed on the natural history of
Kentucky as well as field study methodology and literature research. Lecture: three hours per week. Includes a required four hour
laboratory, meeting every other week, with extensive field-work requirements. Prerequisites: A grade of "C" or better in BIO 151 or BIO 153/155 and BIO 152 or BIO 154/156 and MTH 113 or placement beyond.
BIO 327 Environmental Science
An indepth look at the natural science and social science components of the human environment. Topics will include energy, food and agriculture, water use, invasive species, global climate change, human populations, social justice, pollution, sustainability and
public health. We will focus on global environmental issues in lecture and community-based environmental issues in our laboratory.
Presentations and societal engagement will be required. Lecture three hours per week and three hours of laboratory each week with
travel and field-work required. Prerequisites: A grade of "C" or better in BIO 152 or BIO 154/156 and MTH 113 or placement beyond.
BIO 328 Biological Data Analysis(3)
This course introduces the foundations of analyzing data in biology by focusing on the conceptual aspects of data analysis rather
than the mathematical calculations. Students will learn about hypothesis testing, experimental design, data visualization, and how to choose the correct statistical tests when conducting research in the biological sciences. The course will emphasize the use of the
R language in RStudio for all statistical analyses and data visualizations. <i>Prerequisites: A grade of "C" or better in BIO 152 or</i>
BIO 154/156 and a grade of 'C' or better in MTH 113 or placement beyond.
BIO 330 Comparative Anatomy of the Vertebrates(4)
A comparative study of the morphology, phylogeny, and ecology of vertebrate animals, with an emphasis on function and evolution. The laboratory component will investigate the comparative anatomy of vertebrates through dissections of representatives from
major vetebrate animal. Three hours of lecture and three hours of laboratory work each week. <i>Prerequisites: A grade of "C" or</i>
better in BIO 151 or BIO 153/155 and BIO 152 or BIO 154/156.
BIO 350 Microbiology(4)
A study of the morphology, physiology, genetics, and taxonomy of bacteria and other microorganisms, and their beneficial and harmful relationships to plants and animals. Laboratory methods of cultivation, examination, and identification of bacteria will be
stressed. Three hours of lecture and three hours of laboratory work each week. <i>Prerequisites: A grade of "C" or better in BIO 151</i>
or BIO 153/155 and BIO 152 or BIO 154/156.
BIO 360 Natural History of Belize(3)
This course is an experiential based course focused on the natural history of Belize. This course will pay special attention to the
natural history of: 1) Birds, monkeys, medicinal and traditional plants, crocodiles, and large charismatic mammals; 2) Marine ecosystems and coral reefs; 3) Mayan culture and history. International travel is required. Additional costs, passports, abilitiy to
travel by commercial air, etc. are also required. Presentations and reports will be required at the end of the course. Additional fees
required. Prerequisites: BIO 154 and BIO 156 and permission of Instructor.
This course fulfills the Engaging Our World requirement in the General Education Curriculum.
BIO 365 Introduction to Ornithology
physiology, ecology, and behavior. Through couse activities, you will build a foundation of knowledge about birds in a way that
will stimulate you to keep learning about them for the rest of your life and keep developing your bird identification and field skills.
Prerequisites: A grade of "C" or better in BIO 151 or BIO 153/155 and BIO 152 or BIO 154/156 and permission of Instructor.
BIO 375 Animal Behavior(3)
A study of the selective forces influencing animal behavior. Focal topics include communication, sexual selection, parental care
group living, cooperation and conflict, dispersal and migration, foraging, and predator avoidance. Students will be encouraged to read outside material, to think carefully, logically, and critically about ideas, and to ask questions and defend their views in class
Some field work will be required. Prerequisites: A grade of "C" or better in BIO 151 or BIO 153/155 and BIO 152 or BIO
154/156.
BIO 380 Developmental Biology
This course integrates molecular, cellular, and organismal mechanisms to address the development of animals from a single fertilized egg into a fully formed organism. It will emphasize the growth and development of complex organisms, including cell
differentiation, morphogenesis, pattern formation, and reproduction. Three hours of lecture each week. <i>Prerequisites: A grade of</i>
"C" or better in BIO 320.

BIO 400 Molecular Biology of the Cell(3)
Further study of eukaryotic cell structure, function, and regulation of activity. Topics covered include the structure, activity, assembly, "death," and targeting of proteins; membrane structure and function; the structure and function of eukaryotic organelles, transmembrane signaling; the cytoskeleton; cell cycle regulation; cancer; and techniques used in cell biology. Three hours of lecture each week. <i>Prerequisites: A grade of "C" or better in BIO 151 or BIO 153/155 and BIO 152 or BIO 154/156, and BIO 319 or BIO 320. Prerequisites: CHE 313 and CHE 315.</i>
BIO 402 General Parasitology(4)
A study of the life cycles of the parasites of man and selected domestic animals, with emphasis on the clinical manifestations. Laboratory methods will include examination and identification of parasitic organisms. Three hours of lecture and three hours of laboratory work each week. <i>Prerequisites: A grade of "C" or better in BIO 151 or BIO 153/155 and BIO 152 or BIO 154/156</i> .
BIO 430 Immunology
BIO 440 Histology(4)
The microscopic study of the cells and tissues of the body. Different types of microscopy will be discussed, with an emphasis on light microscopy. Three hours of lecture and three hours of laboratory work. <i>Prerequisites: A grade of "C" or better in BIO 151 or BIO 153/155 and BIO 152 or BIO 154/156.</i>
BIO 441 Neurobiology(3)
A study of nervous system physiology with contextual anatomy of the nervous system. Three hours of lecture each week. <i>Prerequisites: A grade of "C" or better in BIO 320 and CHE 314. Recommended BIO 400.</i>
BIO 471 Advanced Anatomy and Physiology I(4)
This course provides a detailed explanation of the structure and function of the musculoskeletal system and circulatory system. The course lays the basis of understanding, diagnosis, and treatment of diseases. Three hours of lecture and three hours of laboratory work each week. <i>Prerequisites: BIO 320 with a grade of "C" or better</i> .
BIO 472 Advanced Anatomy and Physiology II(4)
This course provides a detailed explanation of the structure and function of the endocrine, respiratory, digestive and genital urinary system. The course lays the basis for understanding, diagnosis, and treatment of diseases. Three hours of lecture and three hours of labor atory work each week. <i>Prerequisites: BIO 471 with a grade of "C" or better</i> .
BIO 480 Seminar in Biology(1)
Presentation of current and historical topics in biology. The course emphasizes practice in presentation of oral and written reports. As parts of the course, students will be assessed regarding their knowledge of the field of biology. <i>Prerequisites: At least 20 semester hours of BIO courses that count toward the major and Senior standing or consent of the Instructor.</i>
BIO 490 Special Topics(1-4)
A study of a selected topic of special interest. The topic may differ each time the course is offered and may be proposed by either the instructor or students. This course may be taken for credit any number of times, provided that a different topic is studied each time. <i>Prerequisite: Consent of the Instructor</i> .
BIO 498 Lab Internship (Biology)(1)
The student assists in instruction of a freshman level biology lab under the supervision of the laboratory instructor. <i>Prerequisite:</i> Consent of the Instructor. Recommended: CHE 147. Does not count toward a major or minor in Biology.
BIO 499 Directed Independent Study(1-4)
Individual research or study based on the interests and needs of the student. Credit of one to four hours each semester for a maximum of two semesters. A total of 4 credit hours may be counted toward a biology major. <i>Prerequisites: Eighteen (18) semester hours of biology and approval of a sponsoring biology faculty member, Advisor, Division Chair, and Dean of the College of Arts and Sciences</i> .

Biomedical Science (BMS)

The Biomedical Science major (BMS) is a part of the Division of Mathematics and Natural Sciences of the College of Arts and Sciences. The BMS major is an interdisciplinary collaboration between the biology and chemistry programs. The major integrates the core elements of chemistry and biology that are related to the biomedical discipline. Students will gain a strong foundation in organic chemistry, biochemistry, anatomy, physiology, microbiology, and genetics as well as critical-thinking and problem-solving skills. Graduates of the BMS major will acquire the necessary knowledge, skills, and experiences to pursue programs in medicine, dentistry, optometry, physician assistant, and other areas, as well as graduate degrees in a variety of health science-related fields.

Business (BUS)

The Coleman College of Business offers programs designed to provide basic competencies in and understandings of the practices of business, economics, and accounting and their impact on society. Programs leading to associate and baccalaureate degrees designed to prepare students for careers in various fields of business are offered.

The Bachelor of Business Administration (B.B.A.) degree candidates must fulfill General Education Requirements and Business Core requirements, as well as an emphasis in one of the following:

- Accounting
- Healthcare Management
- Management
- Sport Management

Business Course Descriptions

This course is designed to assist the consumer in management of personal financial affairs. Topics are consumerism, insurance, savings instruments, banking, personal expenditures and budgeting, personal taxes, home ownership, introduction to investments, and estate planning.

This course fulfills the Personal Place requirement in the General Education Curriculum.

BUS 105 Foundations of Business(3)

A study of the dynamic field of business and how it impacts individuals and our world. The focus is on introducing the importance of business and how the functions of a business organization work together to provide society with goods and services. Topics include business ownership, economics, marketing, management, production, social responsibility, and entrepreneurship.

BUS 206 The Entrepreneurial Mindset
This foundation course in entrepreneurship explores entrepreneurial thinking and behavior. The class introduces entrepreneurship as an approach to life and one's career. It examines the nature of entrepreneurship and the entrepreneur, contemplating the role of entrepreneurship in society. The key focus is on entrepreneurship as a process which anyone can master. The course is designed around the major stages in this process. An overview of factors which are crucial to entrepreneurial success and how to approach these issues is provided. This course fulfills the Personal Place requirement in the General Education Curriculum.
BUS 216 Digital Citizenship(3)
The goals of this course are to enable students to be successful in the 21st century and to assist them with the development of skills and knowledge that will allow them to effectively engage and participate as "digital citizens". Emphasis will be on the computer terminologies and applications for our global, computer-driven society and will specifically cover the applications of word processing, spreadsheets, database management, cloud computing, presentations, personal manager, email, internet, and applications of the world wide web. A variety of lectures, hands-one experiences and research will be utilized to reinforce learning. This course fulfills the Personal Place requirement in the General Education Curriculum.
BUS 231 Principles of Accounting I(3)
This course introduces students to the principles, rules, and procedures of accounting in the context of profit-oriented business organizations. Emphasis is placed on financial statements for users outside the entity.
BUS 232 Principles of Accounting II(3)
A continuation of BUS 231 (Principles of Accounting I) with emphasis on the preparation of statements and reports for users inside the business entity. <i>Prerequisite: BUS 231</i> .
BUS 270 Foundations of Sport Management
BUS 274 Foundations of Leadership(3)
Leadership development requires work and effort. The world of leadership is complex, but this course will help the student to be challenged to adapt and grow to uphold the mission and objectives of any organization—corporate, nonprofit, government, educational instituion or a service group. Maximizing the understanding of the impact of leadership and learning to develop the mindset of a leader are also presented in this course. <i>Prerequisite: ENG 112 or WRI 118</i> .
BUS 275 Foundations of Healthcare Management
BUS 284 Leadership and Motivation
BUS 305 Management Information Systems
BUS 310 Accounting Information Systems
BUS 311 Ethical Issues in Sport
BUS 321 Legal Issues in Healthcare(3)
Legal issues in healthcare examines sources of legal authority and legal constraints in Healthcare. Emphasis will be on patient rights, informed consent, organizational and professional liability, facilities regulations and malpractice. <i>Prerequisite: BUS 275.</i>

	Sport Law(3)
conduct res	examines the governance of professional and amateur sport activities by the various governing agencies. Students will earch and become familiar with these agencies, their authority, organizational structure, and functions. The role and f sport commissions and other governmental bodies on sport governance is also explored, along with the sanction and esses utilized by the agencies. <i>Prerequisite: Junior standing</i> .

BUS 499 Directed Individual Study in Business

Chemistry (CHE)

The chemistry program is part of the Division of Mathematics and Natural Sciences of the College of Arts and Sciences. The program provides two different tracks for chemistry majors: a traditional emphasis and a medical science emphasis.

The traditional emphasis provides students with a solid foundation for graduate study in chemistry and related sciences, preparation for careers in teaching, entry-level positions in scientific occupations, such as forensic chemist, analytical chemist, food chemist, pharmaceutical chemist, medicinal chemist, clinical chemist, industrial chemist, as well as related careers such as project manager, technical manager, or technical/scientific writer and editor.

The medical science emphasis provides students with a solid foundation for graduate studies in the medical field. This includes professional programs such as allopathic medicine, osteopathic medicine, veterinary medicine, dentistry, pharmacy, optometry, law, and others. In addition, this track also prepares students for employment in industry and biochemical research.

Chemistry Major

Basic program for a baccalaureate degree: General Education Curriculum Requirements 36 hours II. Degree (B.A. or B.S.) Option Requirements 4 - 6 hours Chemistry Core (26 hours) **CHE 113 CHE 114** CHE 115 CHE 116 **CHE 313 CHE 314 CHE 315 CHE 316 CHE 321** CHE 451 **CHE 480** Chemistry Emphasis Area: Select either the Traditional Emphasis (17 hours) or Medical Science Emphasis (14 hours) Traditional Emphasis (17 hours) CHE 322 Instrumental Analysis4 **CHE 452 CHE 453** CHE Select nine (9) hours of electives from CHE and BCM courses at the 300 or 400 level, excluding BCM 300. Medical Science Emphasis (14 hours) BCM 441 **BCM 442** BCM 443 BIO Elective 4 Select from the following: BIO 320 Genetics; BIO 330 Comparative Anatomy; BIO 350 Microbiology; BIO 440 Histology; and BCM 300 Methods in Biotechnology. CHE Elective(s) 3 Select three (3) hours of electives from CHE at the 300 or 400 level.

high-performance liquid chromatography and infrared and UV-Vis spectroscopy. Three hours of lecture and three hours of lab per week. *Prerequisites: CHE 321 and PHY 224*.

CHE 335 Introduction to Medicinal Chemistry and Pharmacology(3)

An Introduction to Medicinal Chemistry and Pharmacology provides undergraduate students with a concise introduction to the process of drug discovery and development from the identification of disease targets to the introduction of new drugs into clinical practice. It covers the basic principles of how drugs are developed and used, including such topics as drug identification, optimization, classification, functional groups characteristics, kinetics, pharmacology, and metabolism. Drug development case studies include several major classes of medicinal agents, which are discussed for molecules that made historic contributions to society. Computational chemistry is used to illustrate drug design principles and protein structure. *Prerequisites: Grade of "C" or better in CHE 313 and BIO 151 or BIO 153/155. Prerequisite or Corequisite: CHE 314.*

CHE 371 Chemical Research I......(1-4)

Chemical Research I provides a more in-depth coverage of laboratory research for sophomore or junior science majors. Research involves laboratory work with a project designed by the instructor and student in any chemical subdiscipline, including but not limited to organic chemistry, medicinal chemistry, biochemistry, protein chemistry, analytical chemistry, food chemistry, inorganic chemistry, physical chemistry, forensic chemistry, or related discipline. This research course involves effective literature searching, design of experiments, laboratory techniques and methods, and instrumental analysis. Independent laboratory work and experimental design is expected. If enrolled in 3 or more hours credit of CHE 371, the student is expected to prepare a written report and oral presentation, summarizing the research results and/or the research literature. The student is expected to work 45-50 hours per semester for every 1 credit hour (2-3 hours per week). *Prerequisites: At least Sophomore standing and approval of the research faculty mentor, Division Chair, and Dean of the College of Arts and Sciences. Prerequisite or Corequisite: CHE 313 and CHE 315.*

CHE 372 Chemical Research II(1-4)

Second semester of Chemical Research I for sophmore or junior science majors, a continuation of CHE 371. If the student has enrolled in or obtained 3 or more hours credit in CHE 371 and CHE 372, then a written report and oral presentation is expected, summarizing the research results and/or the research literature. The student is expected to work 45-50 hours per semester for every 1 credit hour (2-3 hours per week). *Prerequisites: Grade of "C" or better in CHE 371; Approval of the research faculty mentor, Division Chair, and Dean of the College of Arts and Sciences. Prerequisite or Corequisite: CHE 314 and CHE 316.*

CHE 435 Inorganic Chemistry......(3)

A study of the chemistry of the elements and inorganic compounds, including theoretical and structural concepts. Topic may include symmetry, molecular geometry and structure, molecular orbital theory of bonding (polyatomic molecules and transition metals), solid state chemistry, energetics and spectroscopy of inorganic compounds. The course consists of three hours of lecture each week. *Prerequisites: Grade of "C" or better in CHE 314 and CHE 316; or consent of the Instructor.*

CHE 451 Physical Chemistry I......(3)

First semester physical chemistry designed for students majoring in Chemistry. Physical chemistry is the study of physical properties, the structure of matter, and the laws and theories governing these properties applied to chemical systems but are relevant to the biological sciences. This course examines the laws of classical thermodynamics, followed by applications to the properties of gases, liquids, and solids, as well as to solutions, kinetics, and chemical equilibria. *Prerequisites: MTH 121, PHY 224 and a grade of "C" or better in CHE 114 and CHE 116.*

CHE 452 Physical Chemistry II(3)

Second semester physical chemistry course introducing the postulates and general principles of quantum mechanics. Quantum mechanics is applied to chemical bonding, molecular structure, and spectroscopy. *Prerequisites: CHE 451 and MTH 222*.

CHE 453 Physical Chemistry Laboratory.....(1)

Physical chemistry laboratory course that provides an experimental and computational perspective on physical chemistry principles. Experiments will cover fundamental concepts in thermodynamics, kinetics, and spectroscopy. Three hours of laboratory per week. *Prerequisite: CHE 451.*

CHE 471 Advanced Chemical Research I(1-6)

Advanced Chemical Research I provides in-depth coverage of laboratory research for junior or senior science majors. Research can be a continuation of the experiments designed in CHE 371-372 or a new research project in chemistry or related discipline. This research course involves effective literature searching, design or experiments, laboratory techniques and methods, and instrumental analysis. More independent laboratory work and experimental design is expected than in CHE 371-372, approaching the level of research quality of a graduate student in chemistry or related discipline. If the student has enrolled in or obtained 3 or more hours credit in CHE 371, CHE 372, and/or CHE 471, then a written report and oral presentation is expected, summarizing the research results and/or the research literature. The student is expected to work 45-50 hours per semester for every 1 credit hour (2-3 hours per week). Prerequisites: At least Junior standing and approval of the research faculty mentor, Division Chair, and Dean of the College of Arts and Sciences. Prerequisite: Grade of "C" or better in CHE 371. Prerequisite or Corequisite: CHE 321.

CHE 472 Advanced Chemical Research II
CHE 480 Seminar in Chemistry
CHE 490 Special Topics
CHE 497 Chemistry Intership
CHE 498 Lab Internship (Chemistry)
CHE 499 Directed Individual Study

Communication (COM)

The Communication program, offered through the Division of Social Science of the College of Arts and Sciences, gives students both a practical and theoretical grounding within a liberal arts context. Communication courses teach the oral, nonverbal, and writing skills that are essential for success in personal relationships, business settings, and society. Graduates with a Communication degree generally seek employment in professional fields where interaction with people is important. For this reason, programs leading to the associate and baccalaureate degrees in Communication are designed to prepare students for careers in various fields.

A Communication degree, minor, or certificate is an excellent choice for a successful career in media, business, education, law, politics, entertainment, medical services, or religion.

Communication Major

Basic program for a baccalaureate degree:

I.	General Education Curriculum Requirements		
II.	Degree (B.A. or B.S.) Option Requirements		
III.	-	on Requirements	
	COM 105 COM 220	Introduction to Communication 3 Media Writing 3 or	
	COM 221	Writing for Communication	
	COM 301	Communication Theory	
	COM 303	Interpersonal Communication	
	COM 305	Mass Media in Society	
	COM 310	Principles of Editing & Design	
		or	
	COM 320	Digital Journalism	
	COM 400	Senior Capstone in Communication	
	COM 425	Professional Speech Communication	
	or		
	COM 426	Persuasion3	
	COM 494	Directed Research in Communication	
		or	
	COM 498	Internship in Communication	
	Select three (3) COM Electives		
	COM	Electives	

IV. General electives as needed to meet the minimum requirements of 120 semester hours.

Communication Minor

Requirements	
COM 103	Introduction to Mass Communication
	or
COM 105	Introduction to Communication
COM 301	Communication Theory
	or
COM 303	Interpersonal Communication
	or
COM 305	Mass Media in Society
COM	Electives
	(Notes: SSC 310 and SSC 320 may be used as COM electives. COM 225 and COM 226 are not included in the minor.)

Associate Degree Program in Communication

Basic program for an Associate degree:

I.	General Educa	ation Curriculum Requirements	36 hours
II. Communication Requirements			24 hours
	COM 103	Introduction to Mass Communication	3
		or	
	COM 105	Introduction to Communication	3
	COM 220	Media Writing	3
		or	
	COM 320	Digital Journalism	3
	COM 303	Interpersonal Communication	3
	COM 305	Interpersonal Communication	3
		COM Electives	
	COM	Electives	12
		(Notes: SSC 310 and SSC 320 may be used as COM electives. COM 225 and COM 226 are n	ot included in
		the major.)	

Certificates

Career Communication

The Career Communication certificate provides students with skills needed for communication in a wide variety of fields. The courses selected for the certificate will compel students to:

- Demonstrate cultural and interpersonal skills essential to professional communication;
- Produce reports, newsletters, media kits, and other business and professional writing;
- Learn to work collaboratively in teams to achieve leadership outcomes; and
- Construct artifacts (i.e. papers, assignments) using ethical arguments, research and methodologies from the fields of communication and business.

Certificate Requir	ements	hours
BUS 327	Business Communication	3
COM 303	Interpersonal Communication	3
COM 329	Public Relations	3
SSC 310	Conflict Resolution and Ethical Decision Making	3

Interpersonal Skills for Professionals

The Interpersonal Skill for Professional certificate provides students with skills needed for communication in diverse settings and groups. The courses selected for the certificate will compel students to:

- Analyze the role of culture, values, beliefs, and assumptions in interpersonal and professional communication;
- Analyze the ways personal identities and social stereotypes affect the communication process;
- Demonstrate active listening, intercultural, and relationship-focused communication skills; and
- Diagnose communication challenges and implement relational responses.

Certificate Require	ements	hours
	purses from the following:	
COM 303	Interpersonal Communication	3
COM 304	Health Communication	3
COM 306	Gender and Communication	3
COM 323	Intercultural Communication	3
SSC 310	Conflict Resolution and Ethical Decision Making	3

Communication Course Descriptions

COM 102 Digital Design(3)

This course provides an in-depth approach to using software and graphics for the development of a variety of publications and materials, including newsletters, advertisements and public relations pieces.

COM 103 Introduction to Mass Communication.....(3)

In this course, students will study and understand the factors and technologies affecting contemporary mass communication in the digital age. This requires a historiographical overview combined with theoretical analysis to understand the relationship between mass media, society, technology, trends in media, media law, public relations, radio, television, books, film, ethics, and the internet. The course will provide an overview of the traditional mass media while understanding the latest trends and potential impact they have on the future of "traditional media" and "new media."

This course fulfills the Personal Place or Cultural and Global Place requirement in the General Education Curriculum.

COM 105 Introduction to Communication(3)
The course provides an introduction to the basic concepts, vocabulary, theories and processes relevant to understanding
communication. The various contexts of communication are explored: intrapersonal, interpersonal, small group, organizational, public, and mass. Students also gain an appreciation for the careers in which human communication plays an especially important
role.
This course fulfills the Personal Place requirement in the General Education Curriculum.
COM 220 Media Writing(3)
This course emphasizes the skills of reporting. Practice in writing and editing news and sports stories and feature articles, with a
glance at reviews, editorials, and columns is also provided. This course is required of all students majoring in Communication.
Prerequisite: ENG 112 or WRI 118.
COM 221 Writing for Communication(3)
This course introduces students to the skills needed to write analytical papers in the communication discipline. Students will have been a feel as
develop reading and writing skills through a lens of the discipline, its research, and its theories. Students will learn how to write abstracts, discussion posts, journal entries, and literature reviews. Emphasis will be placed on conventions of APA style.
Prerequisite: ENG 112 or WRI 118.
COM 225 Fundamentals of Public Speaking(3)
This course introduces the major forms of speech, concentrating on the primary elements of public address and group discussion.
Prerequisite: ENG 112 or WRI 118. The course does not count toward the major or minor in Communication.
This course fulfills the Oral Communication requirement in the General Education Curriculum.
COM 226 Communication Skills in Healthcare(3)
This course will focus on developing communication skills essential for working with clients and professionals in health care
settings. Student will practice communication skills with individuals, within groups, and in front of audiences. <i>Prerequisites</i> :
ENG 112 or WRI 118 and eight hours of Biology. The course is a general education requirement and does not count toward the
major or minor in Communication. This course fulfills the Oral Communication requirement in the General Education Curriculum.
COM 290 Special Topics
offered and may be proposed by the instructor or students. This course may be taken for credit any number of times, provided that
a different topic is studied each time.
COM 301 Communication Theory(3)
The course is a survey of the major theories of human communication, attitude development, and change. Systems, symbolic
interaction, cognitive, behavioral, interpretive, critical, and other theoretical perspectives are studied. <i>Prerequisites: COM 225 and</i>
a grade of "C" or better in COM 103 or COM 105.
COM 303 Interpersonal Communication
This course focuses on theories and excercises in verbal and nonverbal communication within interpersonal relationships. Students improve their interpersonal skills by examining issues involving language, nonverbal communication, culture, listening, conflict
resolution, and self-concept. Prerequisites: ENG 112 or WRI 118 and COM 225.
This course fulfills the Personal Place requirement in the General Education Curriculum.
COM 204. Health Communication
COM 304 Health Communication
interactions. Professional-to-patient, patient-to-professional, and professional-to-professional perspectives are studied.
Prerequisite: COM 225.
COM 305 Mass Media in Society(3)
This course explores the dynamic forms of mass media and persuasion in society, including advertising, politics, and entertainment.
Prerequisites: ENG 112 or WRI 118 and COM 225. This course fulfills the Engaging Our World requirement in the Congrel Education Coursingly.
This course fulfills the Engaging Our World requirement in the General Education Curriculum.
COM 306 Gender and Communication
The purpose of this course is to provide students with an understanding of how people communicate in gendered styles. Students will examine how gender affects the communication process in a variety of communication contexts, including interpersonal,
organizational, and within the media. Students will study the formation of gender identities and examine gender roles in society.
Prerequisites: ENG 112 or WRI 118.
This course fulfills the Personal Place requirement in the General Education Curriculum.
COM 310 Principles of Editing and Design(3)
This hands-on course emphasizes both creative and managerial skills in layout, typography, photo selection and use, editing,
headline writing and developing publication objectives. Students will also participate in and share responsibility for a college publication. <i>Prerequisite or Corequisite: COM 220</i> .
I

COM 320 Digital Journalism
and report information, engage the public, tell stories using different media, and publish and promote content. <i>Prerequisite: WRI 118</i> .
COM 321 Publications Practicum
COM 323 Intercultural Communication
COM 325 Political Communication
COM 329 Public Relations
COM 333 Oral Interpretation
COM 337 Social Justice and Media
COM 340 Popular Culture
From movie theaters to video games, television adaptations, t-shirts, lunchboxes, and almost every form of advertising or media merchandise that exists, superheroes are a constant presence in popular culture. It is through this genre that we understand when someone refers to something as their "personal kryptonite" or that they are "team captain America". However, we often ignore the political and philosophical content that is deeply-rooted within this popular genre. Much like other forms of media, the superhero narrative provides an understanding of the political and cultural values that have shaped it. This course will explore the genre of popular superhero media from a critical perspective, allowing students to develop techniques and skills to analyze the impact of superheroes on cultural, political, and personal values. <i>Prerequisite: ENG 112 or WRI 118</i> . This course fulfills the Cultural and Global Place requirement in the General Education Curriculum.
COM 355 Rhetoric of Injustice

This course fulfills the Engaging Our World requirement in the General Education Curriculum.

equality. Prerequisite: Sophomore Standing.

COM 390 Special Topics
COM 400 Senior Capstone in Communication
COM 425 Professional Speech Communication
COM 426 Persuasion
COM 494 Directed Research in Communication
COM 498 Internship in Communication
COM 499 Directed Study in Communication

Criminal Justice (CJ)

The Criminal Justice program is part of the Division of Social Sciences of the College of Arts and Sciences. The Criminal Justice Major consists of a core of required courses in Criminal Justice (beyond the General Education Curriculum). The Criminal Justice Major at the University of Pikeville follows the programs listed by the US News Best Criminology Programs, but on a smaller scale. A Criminal Justice Major must complete 21 credit hours of core requirements. The Criminal Justice Major is then able to tailor their program of study around their interests and intended careers through the completion of 15 credit hours of electives from other related disciplines, such as Sociology, Psychology, Communication, History, and Religion, to gain a well-rounded knowledge base. This firm foundation in Criminal Justice would prepare students for a variety of professional settings, including State and Federal law enforcement, corrections, courts, chemical dependency and substance abuse counseling, research, pre-law, and graduate studies in Criminal Justice and related disciplines.

Criminal Justice Major

Certificates

Corrections, Rehabilitation, and Preventative Control

The Corrections, Rehabilitation, and Preventative Control certificate provides the basics of the United States correctional system with a detailed focus on corrections and rehabilitation. The courses required for the certificate will help students gain a practical understanding of the court system and methods used to sanction criminal offenders.

Certificate Requir	rements12	2 hours
CJ 152	Introduction to the Criminal Justice System	3
CJ 283	Corrections	3
CJ 384	Community-Based Corrections	3
SOC 214	Juvenile Delinquency	3

Political & Civic Engagement

The Political & Civic Engagement certificate will provide students with the opportunity to foster a variety of skills needed in today's careers. The courses selected for this certificate will enable students to:

- Display an understanding of the need and associated use of history and politics. This is essential for any civic/community-based profession.
- Analyze documents, rhetorical situations, and case studies to understand, explain, debate/justify the potential solutions to the proposed problems at hand.
- Learn to work both independently and collaboratively within groups. This also will provide opportunities to practice and demonstrate leadership skills.
- Create projects that demonstrate an effective and proper use of methodological research and argumentation that is used within the fields of history, political science, law, criminal justice, and communication.

Certificate Require	rements12 h	ours
CJ 152	Introduction to Criminal Justice	3
COM 325	Political Communication	3
HIS 150	Survey of U. S. History	3
PLS 101	American Government & Politics	3

Criminal Justice Course Descriptions
CJ 152 Introduction to the Criminal Justice System
CJ 273 Police Practices and Procedures (3) An overview of the organization and operations of law enforcement agencies, and their line, staff, and auxiliary functions. Focus shared between the police as a formal organization in patrol and investigative operations, and the role given law enforcement in the relationship of communal security and consent to governmental authority. Primary attention given to law enforcement ethics and professionalism, with some scenario-based instruction to illustrate these critical factors in law enforcement. Prerequisite or Corequisite: CJ 152.
CJ 274 Community Policing
CJ 275 History of Police in America
CJ 280 Ethics in Criminal Justice
CJ 283 Corrections
CJ 290 Special Topics in Criminal Justice
CJ 291 Special Topics in Criminal Justice and Sociology
CJ 315 Homeland Security
CJ 450 Police and Society
While a relatively new field in criminology and criminal justice, the study of crime victims is just as important as the study of crime and criminals. The course will review sources of data on crime victims, the interaction between the victim and the criminal justice system, and different types of crime victims, such as intimate partners, children, women, men, and the elderly. Other topics related to Victimology may also be addressed. <i>Prerequisites: ENG 112 or WRI 118, CJ 152 and Sophomore standing.</i>

CJ 371 Criminological Theory
CJ 375 Investigative Function in Law Enforcement
CJ 384 Community-Based Corrections
CJ 419 Women and Crime
CJ 463 Race, Ethnicity, Social Class, and Crime
CJ 472 The Law of Criminal Justice
CJ 490 Special Topics in Criminal Justice
CJ 491 Special Topics in Criminal Justice and Sociology
CJ 498 Practicum
CJ 499 Directed Individual Study in Criminal Justice

Earth Science (ES)

Courses in earth science are offered under the Division of Mathematics and Natural Sciences in the College of Arts and Sciences. Introductory and advanced courses may be used to fulfill the laboratory science core requirement or to fulfill requirements for science teaching majors.

runni requirements for science teaching majors.			
Earth Science Course Descriptions			
ES 107 Introduction to Earth Science(3)			
A lecture course focusing on the various aspects of earth science. Topics emphasize the physical environment and may include			
rocks and minerals, the structure of the earth, plate tectonics, geological history, and the development of landforms. Prerequisite:			
MTH 100 or placement beyond. Additionally, it is recommended that the accompanying laboratory (ES 108) be taken concurrently.			
With ES 108, this course fulfills the Physical and Natural Place requirement in the General Education Curriculum.			
ES 108 Introduction to Earth Science Laboratory(1)			
Laboratory to accompany the Introduction to Earth Science lecture. The lab covers a variety of Earth Science topics including			
crystal growing, the rock cycle, mineral identification, sedimentary rock identification, metamorphic rock identification,			
weathering, porosity and permeabilty, ice and glaciers, seawater and freshwater, plate tectonics, stress and deformation,			
earthquakes, and volcanoes. Prerequisite or Corequisite: ES 107.			

With ES 107, this course fulfills the Physical and Natural Place requirement in the General Education Curriculum.

With ES 127, this course fulfills the Physical and Natural Place requirement in the General Education Curriculum.

With ES 138, this course fulfills the Physical and Natural Place requirement in the General Education Curriculum.

With ES 137, this course fulfills the Physical and Natural Place requirement in the General Education Curriculum.

Economics (ECN)

The Economics program is part of the Coleman College of Business. Courses in this area are an intrinsic part of the program in business. A background in economics also is required for those students seeking to teach social studies in the secondary school environment.

Economics Course Descriptions

ECN 201 Principles of Macroeconomics(3)

Overview of economics, concepts, and institutions; emphasis on the accounting, analytical, and policy aspects of national income and product, as well as public finance, money and banking, and international trade. *Prerequisite: MTH 095 or MTH 105 or placement beyond.*

This course fulfills the Cultural and Global Place requirement in the General Education Curriculum.

Theories of production, determination of prices, and distribution of income in regulated and unregulated industries. Attention is given to problems of industrial relations, monopolies, and to comparative economic systems. *Prerequisite: MTH 095 or MTH 105 or placement beyond.*

Education (EDU)

The graduate and undergraduate education programs are part of the Patton College of Education. At the undergraduate level, the College offers the following non-certification and initial teacher certification degree programs.

Educational Studies – Non-Certification (B.A. or B.S.)
Elementary Education – Certification (B.A. or B.S.)
Middle Grades Education – Certification (B.A. or B.S.)
Secondary Education Biology – Certification (B.A. or B.S.)
Secondary Education Chemistry – Certification (B.A. or B.S.)
Secondary Education English – Certification (B.A. or B.S.)
Secondary Education Mathematics – Certification (B.A. or B.S.)
Secondary Education Social Studies – Certification (B.A. or B.S.)

Educational Studies Major - Non-Certification

The Educational Studies major is offered through the Patton College of Education for students who wish to teach outside the traditional classroom settings. These students will develop a better understanding of the teaching and learning process in order to work in organizations that support the development of children, youth, and/or adults. This major does not lead to teacher certification, does not require admission to any teacher certification program, and requires a GPA of 2.0 for graduation. A student cannot get an Educational Studies major and a major in a teacher education certification area.

Basic program for a baccalaureate degree:

I.	General Education Curriculum Requirements (Non-Education)			
II.	. Degree (B.A. or B.S.) Option Requirements			
III.	. Education Requirements		33 hours

	EDU	Elective 300-400 level	3	

IV. General Electives as needed to meet the minimum requirements of 120 semester hours.

Teacher Education Certification Programs

The organizing theme which undergirds and guides all the professional education programs at the University of Pikeville is "Effective teacher leaders enable ALL students to learn." To be able to make reflective analytical decisions that will enable all students to learn, teachers need appropriate knowledge, skills and dispositions.

Since applicants to the undergraduate teacher certification programs are only admitted in the fall semester, students who have met or plan to meet prior to the next fall term all the criteria listed below must apply for admission by February 1, if they plan to be admitted for the next fall semester.

Students seeking elementary, middle grades or secondary teacher certification who do not have a baccalaureate degree from a regionally accredited institution must fulfill all graduation requirements of the University and the requirements for the specific certification area desired. *Certification requirements are subject to change based on guidelines published by the Education Professional Standards Board and changes made by the University of Pikeville.* Specific requirements for all certification programs may be obtained from the Patton College of Education Office.

Admission to the University of Pikeville does not guarantee admission to any undergraduate Teacher Education Certification Program, and admission to any undergraduate Teacher Education Certification Program does not ensure automatic admission to the University of Pikeville Clinical II Program.

Criteria for Admission to the Undergraduate Teacher Education Certification Programs

The following criteria have been established for admission to any University of Pikeville Undergraduate Teacher Education Programs.

General Requirements for Admission

- 1. The applicant must be enrolled at the University of Pikeville.
- 2. The applicant must submit a formal application for admission to the Patton College of Education. Applications must be submitted no later than February 1 to be considered for fall admission.
- 3. The applicant must have an overall, non-rounded grade point average of 2.75 or higher at the University of Pikeville.
- 4. The applicant must have on file in the Patton College of Education a signed and dated Verification of Federal Background Check from the district where the candidate will be placed for Clinical I and Clinical II and a Child Abuse and Neglect Check. These reports must not show any convictions that would disallow the candidate from serving as an employee in the school district. The district will decide if the candidate's background check is appropriate for placement in the district for Clinical I and Clinical II.
- 5. The applicant must submit a completed and signed character and fitness questionnaire contained in Section III of the CA-1
- 6. The candidate must submit a valid and current physical examination report including tuberculin test.
- 7. The applicant must sign a declaration acknowledging awareness of information required for certification in the state of Kentucky.
- 8. The applicant must present evidence of liability insurance by presenting current membership in KEA-SP or another organization that provides comparable insurance.
- 9. The applicant must keep the address, phone number, level of certification, area of specialization, and other changeable information up-to-date in the Education Office.
- 10. The applicant must be admitted by the Teacher Education Committee, which has representation from the University and public school system.

General Knowledge for Admission

- 1. The applicant must demonstrate competency in basic literacy skills by
 - a. obtaining Kentucky required passing scores on Praxis Core Academic Skills for Educators test in Reading, Writing, and Mathematics.
 - b. completing all required courses in general knowledge with a minimum, non-rounded GPA of 2.75.
 - c. completing each of the following courses with a course grade of "C" or better: ENG 112 or WRI 118, COM 225, MTH 105 or MTH 113 or MTH 121, and EDU 205.

Specialization Knowledge for Admission

- 1. The applicant must have completed all required courses in specialization knowledge with a minimum, non-rounded GPA of 2.75 and no course grade lower than a "C."
- 2. The applicant must demonstrate a current and sufficient specialization knowledge of certified content area(s) by earning Kentucky's passing scores on Praxis II: Subject Assessments/Specialty Area Test(s).

Professional Knowledge for Admission

- 1. The applicant must have completed all required EDU 100-300 level courses in education with a minimum, non-rounded GPA of 2.75 and no course grade lower than a "C."
- 2. The applicant must demonstrate entry-level professional knowledge of foundations by earning a consensus score of *Demonstrates* or higher on each section of the Admission to Undergraduate Teacher Education Professional Knowledge of Foundations Interview Rubric. Education faculty and P-12 teachers/ administrators will conduct the interview.
- 3. The applicant must have satisfactorily completed Phase A of Clinical Experience by completing all required field experience hours, including documenting contact with students from appropriate diverse demographic groups, for all 100, 200, and 300 level education courses and entered the hours into the Kentucky Field Experience Tracking System (KFETS). The University Supervisor will verify hours before admission to Clinical I.
- 4. The applicant must demonstrate appropriate characteristics of a preservice teacher by receiving no level 1 (Rarely or Never) rating on each section and a positive final recommendation on the Recommendation for Admission to the Undergraduate Teacher Education Program, that includes sections on professional qualities, critical thinking, communication skills, creativity, and collaboration. An education faculty member, a content faculty member, and a P-12 teacher must complete this evaluation.
- 5. The candidate must review and sign a declaration to uphold the Professional Code of Ethics for Kentucky School Personnel defined in 704KAR20:680.
- 6. Agree to uphold the Model Code of Ethics for Educators (MCEE).

Teacher Competencies for Admission

 The applicant must demonstrate foundational knowledge of each of the Kentucky Teacher Performance/ InTASC Standards by electronically submitting the Candidate Digital Portfolio (CDP) containing student products reflecting the understanding of each standard and receiving no ratings of *Unsatisfactory*. The CDP will be submitted at the end of EDU 328 and will be scored by education faculty prior to admission to Clinical I.

Professional Dispositions for Admission

- 1. The applicant must have a signed statement indicating understanding and commitment to developing the expected professional dispositions.
- 2. The applicant will complete a pre and post self-assessment of the dispositions identified on the Candidate Dispositions Inventory in EDU 100 and EDU 328.

NOTE: Those students who plan to major in education but fail to meet any of the above admission criteria are informed of the missing components. These students should check with the Chair of the Education Division and their advisor(s) for assistance. Tutorial assistance, along with other academic support services, is provided for students wishing assistance of this type. If applicant does not demonstrate current and sufficient specialization knowledge of certified content area(s) by earning Kentucky's passing scores on Praxis II: Subject Assessments/Specialty Area Test(s), the applicant will meet with his/her academic advisor or the Director of Education to prepare an action plan. Most plans involve scheduling a regular time to meet with an education faculty member or the person in charge of Praxis review sessions.

Transfer Students

Transfer students must attend the University of Pikeville for at least one full semester and earn at least 12 semester hours of credit before applying for admission to any Teacher Education Certification Program. They must then meet the above stated criteria to be admitted. EDU 100 – Introduction to Education as a Profession, EDU 328 – Education in Kentucky and all 400-level teacher certification education courses <u>must</u> be completed at the University of Pikeville.

Post-Baccalaureate Students

Students who have completed a baccalaureate degree from a regionally accredited institution and wish to become certified teachers should meet with the University of Pikeville's Certification Officer who will advise them individually.

NOTE: Criteria for admission to any Teacher Education Certification Program is subject to institutional and Kentucky's Education Professional Standards Board requirement changes.

Admission to any Undergraduate Teacher Education Certification Program

Applications for admission to any Undergraduate Teacher Education Certification Program at the University of Pikeville are due in the Patton College of Education Office, no later than February 1. When a candidate applies for admission, he/she will have until the end of the last summer term of the academic year of the application submission to complete all admission criteria. In August of each year the Division will make recommendations to the Teacher Education Committee (TEC) concerning the admission status of each candidate. (See *Teacher Education Handbook* for further information).

Enrollment in Upper Division Professional Courses

Admission to a Teacher Education Certification Program is required for enrollment in many of the upper level professional education courses. They include the following courses: EDU 401 to EDU 423 and EDU 440 to EDU 444. Students need to note that all of the 400-level education courses required for the Teacher Education Programs - Certification must be taken at the University of Pikeville.

Description of Undergraduate Teacher Education Certification Programs

The University of Pikeville has a variety of teaching majors leading to either the Bachelor of Science degree or the Bachelor of Arts degree. Candidates who seek to be recommended for a teaching certificate must, after having met specific requirements, be accepted into a Teacher Education Certification Program in order to complete required courses and be accepted into the Student Teaching Program to complete a student teaching assignment.

Teacher Education Certification Programs at the University of Pikeville are accredited by Kentucky's Education Professional Standards Board, which uses the standards of the Council for the Accreditation of Educator Preparation (CAEP) for evaluation purposes. Requirements for each teaching area at the University of Pikeville are in compliance with the Education Professional Standards Board certification guidelines and are subject to change.

The University of Pikeville – Patton College of Education offers teacher preparation programs in the following areas:

- 1. **Elementary Education**: A candidate who completes a program in elementary education will be prepared to teach in primary through fifth grade in Kentucky. Candidates are required to complete courses in general knowledge, specialization knowledge, and professional knowledge.
- 2. **Middle Grades Education**: A candidate who completes a program in middle grades education will be prepared to teach in grades five through nine in Kentucky. Candidates are required to complete courses in general knowledge; specialization knowledge, in one or two teaching fields; and professional knowledge.
- 3. **Secondary Education**: A candidate who completes a program in secondary education will be prepared to teach in grades eight through twelve in Kentucky. Candidates are required to complete courses in general knowledge, specialization knowledge in one of the following areas: (1) biology; (2) chemistry; (3) English; (4) mathematics; or (5) social studies, and professional knowledge.

Admission Criteria For Clinical II

During the semester prior to Clinical II, the candidate must apply for admission to the University of Pikeville Clinical II Program. The candidate must have already been admitted to a University of Pikeville Teacher Education Certification Program and must meet the criteria listed below.

General Requirements for Admission

- 1. The candidate must satisfactorily complete all prerequisites to Clinical II.
- 2. The candidate must have a minimum, non-rounded overall grade point average of 2.75 based on all work completed at the University of Pikeville.
- 3. The candidate must submit a formal application for admission to the University of Pikeville's Clinical II Program by January 2 of the semester the candidate plans to do student teaching.
- 4. The candidate must submit a completed and signed character and fitness questionnaire contained in Section III of the CA-1.

- 5. The candidate must have on file in the Patton College of Education a signed and dated Verification of Federal Background Check from the district where the candidate will be placed for Clinical I and Clinical II and a Child Abuse and Neglect Check. These reports must not show any convictions that would disallow the candidate from serving as an employee in the school district. The district will decide if the candidate's background check is appropriate for placement in the district for Clinical I and Clinical II. (This is completed before admission to Clinical I.)
- 6. The candidate must keep address, phone number, level of certification, area of specialization and other changeable information including any criminal status changes up-to-date in the Education Office.
- 7. The candidate must present evidence of liability insurance by presenting current membership in KEA-SP or another organization that provides comparable insurance.
- 8. The candidate must be formally approved for admission to the University of Pikeville Clinical II Program by the Teacher Education Committee.

General Knowledge for Admission

1. The candidate must have completed all required courses in general knowledge with a minimum, non-rounded GPA of 2.75. (All completed coursework must be on file in Registrar's Office).

Specialization Knowledge for Admission

1. The candidate must have completed with a minimum, non-rounded GPA of 2.75 and no grade lower that a "C" for all required courses in specialization knowledge. (All completed coursework must be on file in Registrar's Office).

Professional Knowledge for Admission

- 1. The candidate must have completed all education courses (with the exception of Clinical II) with a minimum, non-rounded GPA of 2.75 and no grade lower than a "C." (All completed coursework must be on file in Registrar's Office).
- 2. The candidate must demonstrate sufficient professional knowledge by earning Kentucky's passing scores on Praxis II: Principles of Learning and Teaching Test(s).*
- 3. The candidate must satisfactorily complete Clinical I by earning a grade of "C" or better in Clinical Experience I. (Must maintain a minimum, non-rounded GPA of 2.75)
- 4. The candidate must demonstrate appropriate characteristics of a preservice teacher by receiving no *level 1* (*Rarely or Never*) rating on each section of the Final Clinical I Assessment that includes professional qualities, critical thinking, communication skills, creativity, and collaboration aligned with the KTPS/InTASC Standards. The University Supervisor and Collaborating Teacher(s) will complete the assessment.
- 5. The candidate must have completed all required clock hours (over 200) of field experiences and entered the hours into the Kentucky Field Experience Tracking System (KFETS). The University Supervisor will verify hours before admission to Clinical II. These hours must occur in a variety of primary through grade 12 school settings which allow the candidate to participate in the following: (1) observation in schools and related agencies including Family Resource Centers or Youth Service Centers; (2) student tutoring; (3) interaction with families of students; (4) attendance at school board and school-based council meetings; (5) participation in a school-based professional learning community; and (6) opportunities to assist teachers or other school professionals. During the above activities, the candidate must also have participated in meaningful learning activities with the following diverse populations: (1) students from a minimum of two different ethnic or cultural groups of which the applicant would not be considered a member; (2) students from different socioeconomic groups; (3) English language learners (4) students with disabilities; and (5) students from across elementary, middle school, and secondary grade levels. (For more information, see the *Clinical II Handbook.*)
- 6. The candidate must review and sign a declaration to uphold the Professional Code of Ethics for Kentucky School Personnel defined in 704KAR20:680.
- 7. Agree to uphold the Model Code of Ethics for Educators (MCEE).

Teacher Competencies for Admission

1. The candidate will successfully demonstrate understanding and application of the Kentucky Teacher Performance/InTASC Standards and the Kentucky Framework for Teaching by scoring at the *developing* level or above on Tasks A-D in the Teacher Performance Assessment (TPA). Tasks A-D are based on the *Kentucky Framework for Teaching* and the Kentucky Teacher Internship Program Evidence Documents.

Professional Dispositions for Admission

1. The candidate must score at a level 3 or higher on each of the expected dispositions identified on the Candidate Dispositions Inventory as determined by the University supervisor, education faculty, and the cooperating teachers.

*If a candidate does not earn a passing score on the Praxis II: Principles of Learning and Teaching Test(s)(PLT), the candidate will meet with the instructor of EDU 403 Students as Learners, to develop an action plan for review for the PLT. The instructor of EDU 403 Students as Learners will tell the candidate when she/he is ready to take the exam again.

NOTE: Criteria for admission to the Student Teaching Program at the University of Pikeville is subject to institutional and-Kentucky's Education Professional Standards Board requirement changes.

Elementary Education - Certification

A candidate who completes a program in elementary education will be prepared to teach in primary through fifth grade in Kentucky. Candidates are required to complete courses in general knowledge, specialization knowledge, and professional knowledge.

Proficiency Evaluation Process

The University of Pikeville will conduct proficiency evaluation in the following areas:

1.	Elementary Education	6.	Secondary Biology
2.	Middle Grades English	7.	Secondary Chemistry
3.	Middle Grades Science	8.	Secondary English
4.	Middle Grades Social Studies	9.	Secondary Mathematics
5.	Middle Grades Mathematics	10.	Secondary Social Studies

Proficiency Evaluation for Initial Certification

Proficiency evaluation for initial certification requires the candidate to have a **bachelor's or advanced degree.** (The degree <u>must</u> be in an area that directly relates to the area in which certification is being sought.)

Proficiency Evaluation for Additional Certification

Proficiency evaluation for additional certification requires the candidate to be currently **certified to teach in Kentucky**.

Consistent with the <u>16 KAR 5:030</u> on Proficiency Evaluation, when conducting a proficiency evaluation, the faculty may assess proficiency by considering:

- Previous education;
- Unusual experience; or
- Proficiency assessment at a level comparable to the usual requirements in the content area in which the educator is seeking certification.

Please contact the Patton College of Education for more information about the specific requirements for this program.

English (ENG)

The English program is offered through the Division of Humanities in the College of Arts and Sciences. It fosters an understanding of the literary tradition and is designed to teach students to think critically, to write effectively, and to develop an aesthetic sensibility through course offerings in composition, language, and literature. An appreciation of our literary and cultural traditions and facility with the use of the English language are fundamental prerequisites for successful leadership and service in our society.

This program provides students with the opportunity to major or minor in English and to prepare for teacher certification.

English Major

Teaching Certification in English

(See Education)

English Course Descriptions

critical and cultural perspectives.

This course fulfills the Cultural and Global Place requirement in the General Education Curriculum.

ENG 111 Composition I(3)

This course focuses on practical instruction in the process of reading, planning, and writing short essays, with emphasis on rhetorical strategies for structure and development, and on the basic rules of grammar and punctuation.

ENG 112 Composition II(3)
This course focuses on additional instruction and practice in writing, with emphasis on argumentation and research. This course is designed to strengthen and refine the skills acquired in ENG 111. <i>Prerequisite: ENG 111</i> . This course fulfills the Written Communication requirement in the General Education Curriculum.
ENG 200 Introduction to Literature(3)
A study of representative selections in the genres of fiction, drama, and poetry, with emphasis on interpretation and appreciation. Critical approaches and terminology appropriate to each genre will be considered. <i>Prerequisite or Corequisite: ENG 112 or WRI 118</i> .
This course fulfills the Cultural and Global Place requirement in the General Education Curriculum.
ENG 240 British Literature: Heroes & Monsters
ENC 241 Puitigh Literatures The City & the Country
ENG 241 British Literature: The City & the Country
ENG 250 American Literature: Finding the American Voice
ENG 251 American Literature: The American Voice(3)
Study of American writing from Twain to the present, with emphasis on poetry, short fiction, drama, and the essay. <i>Prerequisite: ENG 112 or WRI 118</i> . This course fulfills the Cultural and Global Place requirement in the General Education Curriculum.
ENG 300 World Literature
•
ENG 311 Personal Discovery
ENG 325 Creative Writing(3)
Practice in writing various forms of fiction and poetry, with help from a study of theory and models. <i>Prerequisite: ENG 112 or WRI 118</i> . This course fulfills the Personal Place requirement in the General Education Curriculum.
•
ENG 336 Stories & Wellness
ENG 358 Victorian to Modernist Literature(3)
Study of literature beginning with the Victorian Period up to and including British Modernism. This course will include such nineteenth-century writers as Dickens, Eliot, Gaskell, the Brontes and will cover the First World War and subsequent Modernists such as Woolf, Joyce, T.S. Eliot, and Yeats. <i>Prerequisite: ENG 112 or WRI 118</i> .
ENG 375 Contemporary Literature
ENG 380 Women Authors
ENG 383 Shakespeare & Modernity
This course fulfills the Engaging Our World requirement in the General Education Curriculum.

ENG 385 African American Literature
ENG 390 Special Topics
ENG 395 Appalachian Literature
ENG 410 Literary Criticism
ENG 420 Linguistics
ENG 499 Directed Individual Study in English

English as a Second Language (ESL)

The English as a Second Language program is part of the Division of Humanities in the College of Arts and Sciences. The objective of the program is to prepare students whose first language is not English for their program of academic study. This program is only for international students who have not received a passing score on the Test of English as a Foreign Language (TOEFL). Along with academic English, the students enrolled in this program will learn about the culture of the United States. Upon arrival, the ESL student will take a placement test to determine which level he/she will place in the following courses: beginning, intermediate or advanced speaking, listening, reading, grammar and writing. As a student successfully completes the advanced level of any of the skills, he or she may begin taking appropriate undergraduate courses.

ESL 011	Beginning Writing	3
ESL 012	Beginning Reading	
ESL 013	Beginning Listening	3
ESL 014	Beginning Grammar	
ESL 015	Beginning Speaking	
ESL 021	Intermediate Writing	
ESL 022	Intermediate Reading	3
ESL 023	Intermediate Listening	3
ESL 024	Intermediate Grammar	3
ESL 025	Intermediate Speaking	3
ESL 031	Advanced Writing	3
ESL 032	Advanced Reading	3
ESL 033	Advanced Listening	3
ESL 034	Advanced Grammar	3
ESL 035	Advanced Speaking	3
ESL Course Do		
	inning Writing	(3)
	Writing Course teaches basic sentence structure through prewriting techniques. English writing	
	mmar will be addressed through writing. By the end of the course, the students will be able to ide	
	vithin a coherent paragraph. Prerequisite: placement by examination.	
•		(4)
	inning Reading	
	o-fold: vocabulary development and reading strategies development. The focus on vocabulary inc	
	nding vocabulary within context and an introduction to roots and affixes. Students will also fo	
strategies such as	s making inferences, improving reading speed and making predictions. Prerequisite: placement by	y examination.
ESL 013 Begin	inning Listening	(3)
This course entail local dialect of E	ils basic listening strategies, such as listening for the main idea and some details of a lecture, und English and understanding everyday fast speech. The students will be able to listen and product of American English <i>Prerequisite: placement by examination</i> .	derstanding the

This course focus	ses on the tenses of English. Also included is a review of the following parts of speech: prepositions, comparative adjectives and adverbs, and factual conditionals with <i>if. Prerequisite: placen</i>	ons of
ESL 015 Begin	inning Speaking	(3)
This course detail	ls the ability of the student to utilize everyday English in conversational skills. Students will learn g and how to agree and disagree with a speaker within the culture of the American classrooms. <i>Pr</i>	n how to check
ESL 021 Inter	rmediate Writing	(3)
Writing short mul	lti-paragraph essays is the focus of this course. Students will continue paragraph development from a progress to writing a five or more paragraph essay. <i>Prerequisite: ESL 011 or placement beyond</i>	m the beginning
ESL 022 Inter	rmediate Reading	(3)
Building an acade	emic vocabulary is stressed in this course. Students will learn English phrasal verbs and how to use y and thesaurus. Students will build on the reading skills from the beginning reading course. <i>Pre</i>	se an English-
ESL 023 Inter	rmediate Listening	(3)
Students will con	ntinue to develop their understanding of fast speech, but in this course, it is within a lecture context and pronounce the vowels of American English. <i>Prerequisite: ESL 013 or placement beyond.</i>	

ESL 024 Intermediate Grammar
ESL 025 Intermediate Speaking
ESL 031 Advanced Writing
ESL 032 Advanced Reading
ESL 033 Advanced Listening
ESL 034 Advanced Grammar
ESL 035 Advanced Speaking

Film and Media Arts (FMA)

The Film and Media Arts major, offered through the Division of Humanities in the College of Arts and Sciences, is multi-disciplinary in approach, drawing together interests from across the College of Arts and Sciences to provide students with a comprehensive understanding of the media arts. Students will develop an understanding of the relationship between art, media, and technology. They will learn how to create state-of-the-art digital media while also developing a critical eye toward media. The Film and Media Arts major or minor prepares students for advanced study in film and media arts or for careers in the growing fields of interactive and visual communication, creative services, and media.

Certificates

Digital Communication

The Digital Communication certificate provides students with skills needed for communication in a wide variety of digital environments. Students will gain both technical knowledge and practical skills and will be specifically equipped to create and curate digital content, collaborate and problem-solve in teams, and stay abreast and of and make recommendations about emerging technologies.

FMA 375	Web Design and Development	3

Digital Skills for the Workplace

The Digital Skills for the Workplace certificate is designed to equip students with important skills for the digital world. In their classes and labs, student will produce digital media that meet professional standards in each field. Emphasizing hands-on activities, student will learn and use software to design artifacts and operate specialized equipment to produce course projects. Emphasizing teamwork and problem solving, student will learn to critically evaluate and make informed decisions about the design process and steps in project completion.

First-Year Experience (FS)

The First-Year Seminar courses are managed through the division of Student Success. The purpose of the First-Year Experience program is to help students make the transition to college life. The keystone of this program is the First-Year Seminar course required of all first-time freshman and transfer students with less than 15 semester hours of credit.

First-Year Experience Course Description

FS 102 First-Year Seminar(2)

The First-Year Seminar is designed to provide comprehensive guidance to students transitioning into college life. This course provides information on the development of study skills, academic planning and career awareness as well as information about campus resources that are designed to aid in student success. Students will be introduced to the college's liberal arts emphasis, cultural awareness issues and concepts of personal well-being and life skills development. All first-time freshmen and transfer students with less than 15 credit hours are required to complete a FS course - dual credit high school/college courses do not count toward this total. Students who withdraw from or fail the course are required to make subsequent attempts in successive semesters. This course fulfills the First-Year Studies requirement in the General Education Curriculum.

German (GER)

German courses are managed through the Division of Humanities in the College of Arts & Sciences. German supports globalization efforts, encourage the exploration of a different culture, reinforce critical comparative thinking, and foster students' emotional intelligence. German serves as foreign language for the Bachelor of Arts degree.

German Course Descriptions

GER 111 Beginning German I(3)

Designed for new learners, the course focuses on the four foundational language skills: speaking, listening, writing, reading in the context of German culture and heritage.

This course fulfills the Cultural and Global Place requirement in the General Education Curriculum.

GER 112 Beginning German II(3)

Designed as continuation of GER 111, the course further develops the four foundational language skills: speaking, listening, writing, reading in the context of German culture and heritage. *Prerequisite: GER 111*.

This course fulfills the Cultural and Global Place requirement in the General Education Curriculum.

Global Health (GH)

The Global Health program is part of the Division of Social Sciences in the College of Arts and Science. Students will explore questions, such as: why are some communities "healthy," while others seem to suffer disproportionately? How can we help build a culture of health across all communities? Students will learn from diverse perspectives, develop community-based connections, and produce individualized projects that probe questions about the state and future of global health. Students will learn from instructors with expertise across different fields and from leaders in community health departments, mental health agencies, addiction recovery centers, child advocacy agencies, and more. Students will finish the program with a professional portfolio and be ready for service in health agencies, research centers, graduate school, education, and other areas.

Global Health Description

Global Health Minor

Global Health Minor Requirements		
Core Requirements

Note: A directed independent study, directed research, study abroad experience, or special topics (depending on topic) course may be substituted as an elective upon request by the student to the Global Health advisor. A <u>Petition for Course Substitution</u> form is available in the Registrar's Office.

Health (HEA)

Health courses are managed through the Patton College of Education. It provides a basic overview of health-related issues at the individual and community level.

Health Course Description

This course fulfills the Personal Place requirement in the General Education Curriculum.

HEA 261 Introduction to Nutrition(3)

This course provides a basic introduction to nutrition. Students will explore nutrients and how they are used in the human body. A broad overview of carbohydrates, lipids, protein, vitamins, minerals, and water will be presented. Students will study how to apply dietary guidelines and nutrition principles to their own food choices and how nutrient requirements are altered based on disease state, physical activity, and age. *Prerequisites: ENG 112 or WRI 118, and four (4) hours in BIO or CHE is required.*

This course fulfills the Personal Place requirement in the General Education Curriculum.

Health and Human Performance (HHP)

The Health and Human Performance program is offered through the Division of Social Sciences in the College of Arts and Sciences. The multi-disciplinary curriculum provides students with a broad knowledge base and hands-on learning opportunities to practice essential skills. The program prepares students for a number of careers and/or graduate programs in areas such as health and wellness, fitness, and physical performance.

Health and Human Performance Course Descriptions
HHP 115 Introduction to Health and Human Performance
HHP 315 Kinesiology(3)
This course is the study of the mechanics and biomechanics of human movement, with emphasis on analysis of motor skills. Preventative and rehabilitory exercise methods, application of physical laws, classes of levers, origins and insertions of muscles, and principles underlying movement in range of flexibility, strength, and endurance are covered. <i>Prerequisite: BIO 172</i> .
HHP 320 Exercise Physiology(3)
This course examines the effects of physical stress on the human system at the subcellular level, tissue, organ, and organism levels, with a focus on energy production, expenditure (metabolism), muscle contraction, cell signaling, and pulmonary functions among others. <i>Prerequisite: HHP 315</i> .
HHP 330 Motor Development(3)
The focus of this course is the study of basic principles of motor learning, motor control, and motor development as they relate to human voluntary movement. The course will involve applications of principles through observations and assessment of motor behavior and motor development from learning to performance (acquisition of skill) throughout the life span, from infancy to older adulthood. <i>Prerequisite: Sophomore standing</i> .
HHP 390 Special Topics in Health and Human Performance(1-3)
This course is a study of a selected topic of special interest. The topic may be proposed by either the instructor or students, and may be taken for credit any number of times, provided a different topic is studied each time. <i>Prerequisites: HHP 115 and Sophomore standing</i> .
HHP 415 Exercise Testing and Prescription(3)
This course covers concepts involved in exercise testing and prescription for the healthy adult as outlined by The American College of Sports Medicine (ACSM) as well as for patients/clients with specific needs or disease. The pathophysiology, risk factors, exercise responses, and issues of concern will be discussed as they relate to special populations of children, pregnancy, older adults and those with diagnosis of disease involving the cardiovascular, pulmonary, metabolic, musculoskeletal, neuromuscular, and immunologic systems. Students will also administer a battery of fitness tests to assess components of health-related physical fitness and prescribe a program of exercise based on goals. <i>Prerequisites: HHP 315 and MTH 200 or SSC 285</i> .
HHP 452 Capstone in Health and Human Performance(3)
This capstone course will accommodate the needs and career interests of each student to include mentored research, engagement in career and professional development, and/or practicum/internship experiences. <i>Prerequisite: Seventy-two</i> (72) <i>credit hours</i> .

History (HIS)

The history and history/political science majors are offered through the Division of Social Sciences in the College of Arts and Sciences. These programs focus on the processes of institutional change within societies. Recognizing that human experience is continuous, history seeks to understand how people lived in the past and how their institutions shaped their world and our own. The major in history/political science further addresses these issues, with particular emphasis on the political process and its consequences.

History Major

Basic program for a baccalaureate degree:

I.	General Education Curriculum Requirements		
II.	. Degree (B.A. or B.S.) Option Requirements		
III.	History Req	uirements	39 hours
	HIS 150	Survey of United States History	3

- 2. Electives in History and Political Science must total 24 credit hours with a minimum of 9 hours in at least one.
- IV. General electives as needed to meet the minimum requirements of 120 semester hours.

Certificate

Political & Civic Engagement

The Political & Civic Engagement certificate will provide students with the opportunity to foster a variety of skills needed in today's careers. The courses selected for this certificate will enable students to:

- Display an understanding of the need and associated use of history and politics. This is essential for any civic/community-based profession.
- Analyze documents, rhetorical situations, and case studies to understand, explain, debate/justify the potential solutions to the proposed problems at hand.
- Learn to work both independently and collaboratively within groups. This also will provide opportunities to practice and demonstrate leadership skills.
- Create projects that demonstrate an effective and proper use of methodological research and argumentation that is used within the fields of history, political science, law, criminal justice, and communication.

HIS 495 Seminar in History
HIS 497 Historiography and Research Methods
HIS 499 Directed Individual Study

Humanities (HUM)

The humanities courses are offered by the Division of Humanities in the College of Arts and Sciences. The courses provide an interdisciplinary introduction to western civilization and culture.

Humanities Course Descriptions
HUM 100 Appreciation of the Humanities
HUM 211 Interdisciplinary Humanities I: The Big Questions
HUM 212 Interdisciplinary Humanities II
HUM 311 Interdisciplinar Humanities II: Hands-On Humanities
HUM 320 Gender and Women Studies
HUM 350 Rojo, blanco, y azul: Latinos in the USA

HUM 357 World Mythology......(3)

A study of the cultural and literary functions of myth, including material from among Greek, Roman, and a variety of other cultural, including modern, mythologies, as well as the work of scholars of myth and religion. *Prerequisite: ENG 112 or WRI 118*. This course fulfills the Cultural and Global Place requirement in the General Education Curriculum.

HUM 370 Destination Study(3)

This course is a humanities-oriented analysis of conditions oand cultural representations of gender in historical and contemporary society. The course will focus on how gender intersects with race, class, and other aspects of identity, and how gender is used as a target for discrimination and a vehicle to privlege. The course may be repeated with a different topic. Deposit may be required at registration. *Prerequisites: Determinded by the content of the offered course*.

This course fulfills the Engaging Our World requirement in the General Education Curriculum.

HUM 390 Special Topics......(3)

A study of a selected topic of special interest. The topic may differ each time the course is offered and may be proposed by either the instructor or students. This course may be taken for credit any number of times, provided that a different topic is studied each time. *Prerequisite: ENG 112 or WRI 118.*

HUM 450 Interdisciplinary Senior Capstone......(3)

The Senior Capstone in the Humanities will allow students the opportunity to demonstrate skills in investigation, critical thinking, and original research according to the conventions of the area of study. The course will also require the preparation of professional documents relevant to careers related to the discipline. *Prerequisite: Seventy-two (72) credit hours.*

Information Technology Management (ITM)

The Information Technology Management program is offered through the Coleman College of Business. The Bachelor of Science degree in Information Technology Management combines core technical requirements and business courses to prepare students for IT related careers. The program includes hands-on experiences that encourage students to apply their skills to real-world problems. Graduates will be equipped to support essential technology functions and provide management leadership in businesses and a range of organizations.

Information Technology Management Course Descriptions

ITM 110 Introduction to Information Technology.....(3)

This course is an overview of information technology (IT) and introduces students to a variety of IT areas. Course topics include office applications, basic computer hardware, networking and security, and webpage creation and programming. This course will help student learn common problem-solving methodologies and soft skills in an Information Technology setting.

This course fulfills the Personal Place requirement in the General Education Curriculum.

ITM 160 Introduction to Databases(3)

This course is an introduction to databases and the Structured Query Language. It will include a survey of modern databases and select one to install/configure/secure. Students will explore basic administrative tasks, learn to create and manipulate data, and understand compliance issues with standards in relational databases. Prerequisite: A grade of "C" or better in ITM 110.

ITM 200 Networking & Information Security......(3)

This course addresses security issues for TCP/IP-based and NT networks. Access control and communications security issues will be covered as well as Internet and intranet security. Awareness of key information security principles regarding information, confidentiality, integrity, and availability. Key aspects in computer and network security, including some appreciation of threats, attacks, exploits, and vulnerabilities. Prerequisite: A grade of "C" or better in ITM 110 or permission of Instructor.

ITM 290 Special Topics in ITM(1-3) This course is a study of selected topics of special interest. The topic may differ each time the course is offered and may be proposed by either the instructor or students. This course may be taken for credit any number of times, provided that a different topic is studied each time. <i>Prerequisite: ITM major</i> .
ITM 298 Internship in ITM I
ITM 300 System Administration
This course introduces business analytics for all students, including those with no prior analytics experience. This course covers fundamental concepts and tools needed to understand how organizations can make better-informed business decisions. Topics include various industries using data analysis and related professional roles. It covers on how students could analyze data to find out patterns that will be helpful in developing strategies. Emphasis is placed on applications, concepts, and the interpretations and communication of results. <i>Prerequisite: A grade of "C" or better in ITM 110 or BUS 216 or MTH 113 and MTH 114</i> .
This course is an introduction to Python programming language for students without prior programming experience. Phython is a language with a simple syntax, and a powerful set of libraries. It is an interpreted language, with a rich programming environment, including a robust debugger and profiler. While it is easy for beginners to learn, it is widely used in many scientific areas for data exploration. <i>Prerequisites: A grade of "C" or better in ITM 110 and ITM 160 or MTH 113 and MTH 114</i> .
ITM 322 Programming II
ITM 330 Cloud Computing
ITM 350 Machine Learning for All
This course covers advanced concepts in database analysis, performance, protection, and administrations. Themes include performance topics (normalized data, indexes, performance tuning, views, stored procedures, triggers) as well as advanced administrative features (storage subsystems, security contexts, and recovery). <i>Prerequisites: A grade of "C" or better in ITM 110 and ITM 160</i> .
ITM 390 Special Topics in ITM(1-3) This course is a study of selected topics of special interest. The topic may differ each time the course is offered and may be proposed by either the instructor or students. This course may be taken for credit any number of times, provided that a different topic is studied each time. <i>Prerequisite: ITM major</i> .

ITM 398 Internship in ITM II(2)
This course allows the student to gain experience in an Information Technology Management (ITM) work position with technical and administrative content. Students will learn ITM under the supervision of professionals in the field. The internship includes both a practical component and an analytical research component. All internships must be pre-approved by the faculty advisor overseeing the ITM Program. Prerequisites: ITM major, consent of ITM Advisor, and Dean of the College of Business. Can be repeated once for credit as an elective in the ITM program.
ITM 400 Cyber Security(3)
This course provides an overview of the evolving field of cybersecurity, with an introduction to cybersecurity standards and law. Students will learn about common cyber-attacks and the techniques for identifying, detecting, and defending against cybersecurity threats. They will also gain a basic understanding of personal, physical, network, web, and wireless security, as well as a foundation for more advanced study of cybersecurity. <i>Prerequisite: A grade of "C" or better in ITM 200 or ITM 322</i> .
ITM 410 Operating Systems(3)
This course is a study of operating systems with respect to scheduling, program initiation, memory and central processing unit allocation, input/output control, system security contexts, and administration. <i>Prerequisites: A grade of "C" or better in ITM 110 and ITM 300</i> .
ITM 420 Information Technology Project Management
ITM 490 Special Topics in ITM(1-3)
A study of selected topics of special interest. The topic may differ each time the course is offered and may be proposed by either the instructor or students. This course may be taken for credit any number of times, provided that a different topic is studied each time. <i>Prerequisite: ITM major</i> .
ITM 498 Internship in ITM III(3)
This course allows the student to gain experience in an Information Technology Management (ITM) work position with technical and administrative content. Students will learn ITM under the supervision of professionals in the field. The internship includes both a practical component and an analytical research component. All internships must be pre-approved by the faculty advisor overseeing the ITM Program. Prerequisites: ITM major, consent of ITM Advisor, and Dean of the College of Business. Can be repeated once for credit as an elective in the ITM program.
ITM 499 Directed Independent Study(1-3)
This course is a study based on the interest and needs of the student. Credit of one to three hours each semester for a maximum of two semesters. Prerequisites: At least 18 semester hours of ITM coursework and approval of sponsoring ITM faculty member, Advisor, and Dean of the Coleman College of Business.

Interdisciplinary Studies (IDS)

The Interdisciplinary Studies program is part of the College of Arts and Sciences. The Interdisciplinary Studies major is designed to allow students, under the supervision of selected faculty, an opportunity to pursue a course of study outside existing majors by combining course work around a theme or topic utilizing an interdisciplinary approach. Students majoring in Interdisciplinary Studies are expected to complete an IDS application to declare their intentions as early as possible, but no later than the first semester of the junior year. For more information and an application, please contact the Dean of the College of Arts & Sciences.

Interdisciplinary Studies Major

- - (Minimum of 27 hours at 300-400 level)

Two-Discipline Option

Minimum of 21 hours each in two disciplines with at least 12 hours in each discipline at 300-400 level IDS 400 Interdisciplinary Studies Project..... 3-6 hours

or

Three-Discipline Option

Minimum of 21 hours in one discipline with at least 12 hours at 300-400 level Minimum of 21 hours in a combination of two additional disciplines with at least 12 hours at 300-400 level IDS 400 Interdisciplinary Studies Project...... 3-6 hours

IV. General electives as needed to meet minimum requirement of 120 semester hours.

Interdisciplinary Studies Course Description

Leadership

The Leadership major is offered through the Coleman College of Business. The bachelor's degree in leadership is an innovative degree, developing leadership skills and will prepare graduates with leadership careers in a variety of professions. The courses in this program provide a multidisciplinary approach to leadership, allowing students to focus on practical skill building in topics relevant to today's business leaders. As students build solid foundational knowledge in leadership, they will also build an array of practical work skills. Upon graduation, students will enjoy the confidence that comes with a solid understanding of the complex social, cultural, and organizational issues that confront leaders in the modern world.

	HUM 320	Gender and Women's Studies	

IV. General electives as needed to meet the minimum requirements of 120 semester hours.

Business Leadership Course Descriptions

BUS 274 Foundations of Leadership(3)

Leadership development requires work and effort. The world of leadership is complex, but this course will help the student to be challenged to adapt and grow to uphold the mission and objectives of any organization—corporate, nonprofit, government, educational institution or a service group. Maximizing the understanding of the impact of leadership and learning to develop the mindset of a leader are also presented in this course. Prerequisite: ENG 112 or WRI 118.

Leadership and Motivation.....(3)

Working to your potential is key to compete in today's business environment. Motivating an employee is complex and requires and understanding of the needs, wants, and expectations of employees. In this course a comprehensive introduction to leadership and the steps one must take to become an effective leader are presented. The course also presents the topics of rewards and recognition in leading others. Prerequisite: ENG 112 or WRI 118.

Behavior in Organizations(3)

An analysis of approaches to managing modern organizations, using organizational theory to evaluate human interactions. The focus is on small group behavior with an emphasis on leadership, perception, communication, diversity, and team building. Prerequisite: Junior Standing.

This course fulfills the Engaging Our World requirement in the General Education Curriculum.

Leadership Theory and Practice(3)

The purpose of this course is to examine the relationship of leadership philosophy to leadership theory and the translation of this relationship into practice. Students will be exposed to various leadership theories and concepts upon which to develop a universal understanding of leadership. The course will assist students in developing their knowledge, attitudes, skills, and aspirations regarding leadership theory and practice. Other issues covered will include leadership history, change, visioning, coaching, followership, personal and professional goal setting, team dynamic and critical thinking. Prerequisite: ENG 112 or WRI 118.

BUS 470 Business Policy and Strategy.....(3)

A capstone course focusing on the integration of business principles in the formulation of organizational policy and strategy. Emphasis on managerial decision making as it relates to development and implementation by a variety of businesses, both domestic and international. Prerequisite: Senior Standing.

BUS 498 Internship......(1-6)

Work experience supervised and related to the student's academic program for approved candidates for the B.B.A. *Prerequisites*: Junior standing and designated courses completed.

Mathematics (MTH)

The Mathematics program is part of the Division of Mathematics and Natural Sciences of the College of Arts and Sciences. This program is designed to promote critical thinking and analytical reasoning and to prepare students for mathematical careers in business, government, teaching, and industry.

Developmental Mathematics Studies

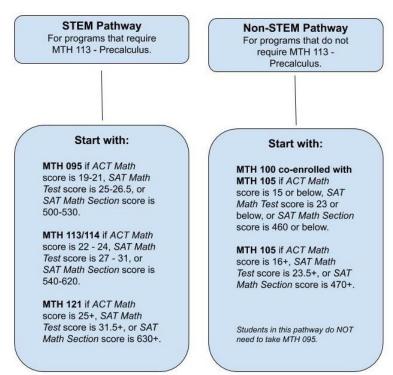

Developmental Mathematics Studies is designed and allows students a supportive and comfortable environment in which to excel. These courses, MTH 095 Intermediate Algebra and MTH 100 Preparatory Mathematics, provides students who need review or additional academic preparation with the opportunity to improve their mathematics skills. The goal is to help students succeed in their studies. They cannot be taken as electives by students who have placed into or after completing higher-level mathematics courses. Collaboration with general education faculty, combined with research-based teaching methods and supplemental academic support, will facilitate increases in student persistence and culminate in higher graduation rates for program completers. The program policies are as follows:

Grading Policy and Repeat Course Policy: Developmental Mathematics Studies will adhere to the grading scale of the institution. MTH 100 Preparatory Mathematics will be graded on Pass/Fail basis. A grade of "C" or better is required to progress out of MTH 095 Intermediate Algebra. Once enrolled, degree seeking students must continue to register for the Intermediate Algebra until they have successfully completed the course with a grade of "C" or better. The Intermediate Algebra course may only be repeated once. Students who do not successfully complete a required developmental studies course in two attempts may be asked to leave the University.

GPA and Graduation Requirements: Semester hours earned in courses numbered under 100 are used for computing the University of Pikeville grade point average (GPA) and for determining athletic eligibility and financial aid awards. They cannot be used to satisfy the Associate or Baccalaureate degree semester-hour requirements for graduation.

Mathematics Placement and Pathways

The university uses ACT test results, SAT test results, or an evaluation of high school transcripts and GPA for placing students in mathematics courses. The pathways chart below provides placement information for mathematics courses for which an ACT or SAT test score is provided. If an ACT or SAT test score is not provided, an evaluation of high school transcripts, and associated GPA in mathematics courses, will provide the information for mathematics placement.

MTH 303 Introduction to Abstract Mathematics (3)

An introduction to abstract mathematics and proofs by means of a study of selected topics in elementary number theory.

inconsistencies, and discoveries that led to the growth of the field of mathematics. Prerequisite: MTH 223.

Prerequisite: MTH 222 or a prerequisite of MTH 251 and a Corequisite of MTH 222.

MTH 307 Complex Variables(3)
Functions, limits, continuity, differentiation, and integration of functions of a complex variable are examined. Also, contour integration and applications to physics and mechanics are presented. <i>Prerequisite: MTH 223</i> .
MTH 320 Introduction to Numerical Methods(3)
Algorithms for the solution of numerical problems implemented on micro-computers; includes discussion of error, polynomial interpolation, solution of nonlinear equations, and numerical integration. <i>Prerequisite: MTH 222</i> .
MTH 322 Differential Equations(3)
A study of simple types of ordinary differential equations of various orders and their algebraic and geometric solutions, Laplace transforms, systems of differential equations, and applications. <i>Prerequisite: MTH 222</i> .
MTH 326 Probability and Statistics for Scientists and Engineers(3)
This calculus-based course will include methods in enumeration, discrete and continuous random variables; conditional and independent probality; mathematical expectation, mean, variance and standard deviation; distributions and hypothesis testing. <i>Prerequisite: MTH 121. Recommended c/prerequisite MTH 222.</i>
MTH 335 Linear Algebra(3)
A study of vector spaces, linear equations, linear transformations, matrices, determinants, and geometric applications of these concepts. <i>Prerequisite: MTH 222</i> .
MTH 400 Advanced Geometry(3)
A study of advanced topics in plane and solid geometry. Topics may include, but are not limited to, methods of proof, constructions, loci, elementary transformations, introduction to non-Euclidean geometry, and introduction to projective geometry. <i>Prerequisite: MTH 303</i> .
MTH 410 Abstract Algebra(3)
A study of abstract binary operations, groups, rings, and fields. <i>Prerequisite: MTH 303 or consent of the Instructor</i> .
MTH 481 Advanced Mathematics of Maps, Puzzles, and Games(1)
An advanced investigation of mather of basic map projections and travel itineraries; familiar puzzles such as Sudoku, the triangular peg puzzle, Rubik's Cube, and jigsaw puzzles; and board games such as Yahtzee, Risk, Monopoly, and others. Students demonstrate the solving of the Rubik's Cube from memory as well as the other puzzles. Meets with MTH 281. <i>Prerequisite: MTH 222. No credit for students with credit in MTH 281.</i>
MTH 482 Advanced Mathematics of TV Shows(1)
An investigation of advanced math topics in past and contemporary television shows and episodes. Topics may include basic mathematics used by Charlie Eppes in the TV show NUMB3RS as he assists the FBI in solving crimes, as well as basic mathematics in specific episodes of Futurama, The Big Bang Theory, The Price is Right, and other shows. Students also identify and discuss key math ideas present in episodes and give an advanced idea based on a basic math idea from any television show episode. Meets with MTH 282. <i>Prerequisite: MTH 222. No credit for students with credit in MTH 282.</i>
MTH 490 Special Topics(1-4)
A study of a selected topic of special interest. The topic may differ each time the course is offered and may be proposed by either the instructor or by students. <i>Prerequisite: MTH 223 or consent of the Instructor. May be taken for credit any number of times, provided that a different topic is studied each time.</i>
MTH 495 Seminar in Mathematics(3)
Study of a variety of mathematical topics of interest to instructor and students, with active student participation emphasized. <i>Prerequisites: Senior standing, Mathematics major, and consent of the Instructor.</i>
MTH 499 Directed Study(1-3)
Individual advanced study of a selected topic in mathematics, under the direction of a member of the faculty. Normally open only to students who have completed all regularly offered courses in the mathematics major. <i>Prerequisites: Consent of the Instructor, ivision Chair, and Dean of the College of Arts and Sciences.</i>

Performing Arts in Music

The Music program is part of the Humanities Division in the College of Arts & Sciences. Courses in the music curriculum are designed to develop student's appreciation for music, skills in performance, and musical literacy, research, and arts advocacy. The music course of study will include skills to prepare for entry-level careers or further graduate study. Students interested in the major should schedule an interview and audition with the Music Area Coordinator. Learning outcomes for the Performing Arts Major in Music are designed to develop the student's ability to:

- 1. The ability to hear, identify, and work conceptually with the elements of music such as rhythm, melody, harmony, structure, timbre, texture.
- 2. An understanding of and the ability to read and realize musical notation.
- 3. An understanding of compositional processes, aesthetic properties of style, and the ways these shapes and are shaped by artistic and cultural forces.
- 4. An acquaintance with a wide selection of musical literature, the principal eras, genres, and cultural sources, for example, classical, jazz, popular, and world music forms.
- 5. The ability to develop and defend musical judgments.
- 6. Technical skills requisite for artistic self-expression in at least one major performance area at a level appropriate for the particular music concentration.
- 7. Knowledge and skills sufficient to work as a leader and in collaboration on matters of musical interpretation. Rehearsal and conducting skills are required as appropriate to the particular music concentration.

MUS 262 Instrumental Pedagogy(2)
The course will focus on the teaching of musical skills to individual instrumental students. Students will develop competence in musical performance, knowledge of musical genres and repertoire for their specific instrument, and gain experience in teaching and adapting their teaching method to students of different personalities, learning styles, and education level. <i>Prerequisite: MUS 255.</i>
MUS 315 Music History: The Cultural Impact of Music(3)
The course is a survey on the topic <i>As Goes Music, So Goes Culture</i> . Changes in music historically match closely to changes in society's world view. The course will examine how and why each generation finds the music of the last generation unsatisfactory. <i>Prerequisite: ENG 112 or WRI 118</i> . This course fulfills the Cultural and Global Place requirement in the General Education Curriculum.
MUS 316 Music History: Women in Music(3)
The course is a survey of the contributions of women in music and how the current issues that lie within the music society and industry can be traced back to societal standards and expectations dating over 400 years back. The female presence in music has a sparse history. This survey course will look at women in music from the renaissance, baroque, classical, and romantic to the modern periods. <i>Prerequisite: ENG 112 or WRI 118</i> . This course fulfills the Cultural and Global Place requirement in the General Education Curriculum.
MUS 317 Music History: Popular Music(3)
This course is a survey of the history of popular music, which is conceived for mass distribution to large and socio-culturally heterogeneous groups of listeners. The course will look at the emergent popular music industry of the late 18th and 19th centuries, including Tin Pan Alley, Radio, Recording and Movie Industries, the study of musical trends, as well as historical and current artists. <i>Prerequisite: ENG 112 or WRI 118</i> . This course fulfills the Cultural and Global Place requirement in the General Education Curriculum.
MUS 350 Private Piano(1)
The course provides private instruction on the principal instrument. Literature studied, appropriately chosen for its technical, musical, and interpretive demands, will prepare students for end-of-semester performance requirements. <i>Prerequisite: MUS 251. Fee \$100.</i>
MUS 351 Private Piano
MUS 352 Private Voice(1)
The course provides private instruction in Voice. Literature studied, appropriately chosen for its technical, musical, and interpretive demands, will prepare students for end-of-semester performance requirements. <i>Prerequisite: MUS 253. Fee \$100</i> .
MUS 353 Private Voice(1)
The course provides private instruction in Voice. Literature studied, appropriately chosen for its technical, musical, and interpretive demands, will prepare students for end-of-semester performance requirements. <i>Prerequisite: MUS 352. Fee \$100.</i>
MUS 354 Private Instrumental Lessons(1)
This course provides private instruction on the principal instrument. Literature studied, appropriately chosen for its technical, musical, and interpretive demands, will prepare students for end-of-semester performance requirements. <i>Prerequisite: MUS 255. Fee \$100.</i>
MUS 355 Private Instrumental Lessons(1)
This course provides private instruction on the principal instrument. Literature studied, appropriately chosen for its technical, musical, and interpretive demands, will prepare students for end-of-semester performance requirements. <i>Prerequisite: MUS 354. Fee \$100.</i>
MUS 376 Music History: Research Project(1)
For the music history emphasis, the Research Project will serve as final culmination of study. <i>Must be approved by the faculty member serving as supervisor of the Research project.</i>
MUS 390 Special Topics
MUS 394 Music Research Techniques(3)
For the music history emphasis, this course will serve as an introduction to doing research in music <i>Prerequisite MUS 315, MUS 316 or MUS 317.</i>
MUS 418 Basic Conducting(2)
Fundamentals in both instrumental and choral conducting will be practiced. Students will also learn beat patterns along with the study of terminology, problems of tempo, phrasing, rehearsal planning, ensemble administration, and articulation. Other topics will

include score study, transpositions, ranges, and podium technique. Prerequisite: MUS 222.

Nursing (NUR)

The University of Pikeville College of Nursing and Human Services Elliott School of Nursing (hereafter referred to as ESON) offers an Associate of Science (two-year degree) and a Bachelor of Science (four-year degree) with a major in nursing.

Responding to the needs of nursing education and health care in the region, the Associate of Science in Nursing (ASN) was the first nursing degree program established by the formerly named Pikeville College in 1983. The ASN is a two-year program leading to an associate of science degree, with a major in nursing. The ASN program also permits Licensed Practical Nurses (LPN) to earn an ASN in two semesters, once admitted to the LPN-RN program of study.

The second nursing degree program is the RN-BSN program that leads to a Bachelor of Science Degree, with a major in nursing. The RN-BSN program began in 2011 in response to the complex health care needs of the region and nation. Beginning in the fall of 2018, the RN-BSN program is a 100% distance education (online) program. The Southern Association of College and Schools Commission on Colleges (SACSCOC), Accreditation Commission of Education in Nursing (ACEN), and Kentucky Council of Post-Secondary Education (CPE). The RN-BSN program is a post-licensure program for registered nurses (RN's) who have an associate degree or diploma from a state-approved pre-licensure program for RN's and hold an unrestricted RN license.

Nursing Major - Associate of Science in Nursing (ASN) Degree

The University of Pikeville's associate degree in nursing program has approval status from the Kentucky Board of Nursing. Graduates of the ASN degree program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN) through the State Board of Nursing in which they plan to practice. An RN with an ASN is eligible to enroll in an RN-BSN completion or higher degree nursing program, contingent on the requirements of the University of Pikeville or transfer institution. An RN with an ASN is qualified as a provider of care, manager of care, and member of the health care team.

Admission to the ASN degree program may be limited based on regulatory, institutional, or affiliating agency criteria. Selection for admission is competitive and based on, but not limited to, ranking on an objective scale (available from Elliott School of Nursing) and other qualifying factors such as semester GPA, overall GPA, pattern of coursework, and professional behaviors.

A new ASN class is admitted once a year in the fall semester with an application deadline of March 1. ASN readmission, LPN-to-RN, and transfer applicants who were in another nursing program are admitted to either fall or spring semester with an application deadline of respectively, March 1 or November 1. The Nursing Admissions Committee determines acceptance of applicants to the ASN nursing program. Admission or readmission to the nursing program is not guaranteed to any applicant. All students accepted to the nursing program also must be accepted to University of Pikeville.

Admission Criteria – ASN Degree Program

The admission criteria for the nursing program include the following. (For further information of each criterion, contact the **Elliott School** of Nursing or once admitted, refer to the <u>Nursing Student Handbook-ASN</u>).

All Nursing Applicants – Associate of Science Nursing (2-year degree)

- 1. Official admission to the University of Pikeville.
- 2. High school graduate or the equivalent.
- 3. Completion of courses with a "C" grade or better, per university policy for course placement.
- 4. Meet the nursing mathematics requirement with: a minimum ACT/SAT Math subscore required by the university, an evaluation of high school transcript and GPA, or a transfer equivalent of mathematics course at the 100 level or higher.
- 5. An overall average of "C" or better, represented by a university cumulative G.P.A. of 2.0 or higher.
- 6. Completion of Kaplan Nursing Entrance Exam no minimum score required; performance on this test may be taken into consideration as part of the overall criteria for acceptance. Retakes are not allowed with an application cycle.
- 7. A "C" grade or better in required core courses for the ASN major. The grade on the second attempt, including "W" grades, stands as the final grade.
- 8. Science course grades must be within the last 10 years.
- 9. Any exception will be determined by the Nursing Admission Committee.

Admission with Advanced Standing - ASN

1. Applicants who may be eligible for admission with advanced standing are:

- b. Readmission nursing students
 - (1) Students who have withdrawn one time from the ASN degree program.
 - (2) Nursing students who failed to achieve a "C" or better in the University's required nursing or corequisite courses, resulting in academic dismissal from the ASN degree program.
- b. Transfer students from other registered nursing programs.
- c. Licensed Practical Nurses (LPN) who apply to the LPN-RN program of study.

2. Applicants seeking admission with advanced standing to the ASN degree program must:

- a. Meet admission requirements for all nursing applicants.
- b. Achieve a grade of at least a "C" and/or 76% on required Nursing Challenge examinations if out of a RN program for more than one year but less than three years, or if required for transfer equivalency (readmission and transfer nursing students). Otherwise, one must apply as a new ASN degree student.
- c. Validate selected nursing skills.
- d. Abide by an admission contract, if applicable, which may specify one or more required activities.
- e. Meet with the Dean of CNHS or Nursing Admissions Committee for an interview and update on ASN degree program requirements.

3. Readmission nursing students – additional admission criteria include:

- a. Submit a letter of petition to the Nursing Admissions Committee to be considered for reinstatement to the ASN degree program. This letter must explain why the student failed to progress in the program and what has been done to remedy the situation.
- b. Factors considered by the Nursing Admissions Committee include, but are not limited to, overall and semester GPA, GPA in nursing courses, professional behaviors, and clinical evaluations.
- c. A student may only be readmitted to the ASN degree program one time.

4. Transfer students from other nursing programs – additional admission criteria include:

- a. Meet University of Pikeville requirements for transfer applicants and transfer credit.
- b. Transcript evaluation by an ESON administrator for nursing course equivalency.
- c. Two letters of reference, one of which must be from the applicant's former nursing program.

5. LPN-RN Applicants – additional admission criteria include:

- a. Valid practical nurse license.
- b. Minimum of one-year clinical experience as an LPN within the last three years.
- c. Grade of "C" or better in prerequisite LPN-RN program support courses. These courses include ENG 112 or WRI 118, PSY 110, PSY 215, BIO 171 and BIO 172 allowing 20 credit hours in the nursing major.
- d. Grade of "C" or better and/or 76% on required Nursing Challenge examinations, allowing 13 hours of nursing credit hours in the major.
- e. Grade of "C" or better in NUR 130 received within the last two years, allowing three hours of nursing credit hours in the major.
- f. Satisfactory completion of all LPN-RN admission criteria, allowing 16 hours of nursing credit (see 5d & 5e above), a minimum of 20 hours of support courses, and eligibility for advanced standing placement in Semester III of the ASN degree curriculum.

Application Procedure – ASN

- 1. Submit to the University of Pikeville Admissions Office by the respective deadline:
- 2. Online application for admission to University of Pikeville (complete a new application if not currently enrolled at the University).
- 3. Application for admission to the ASN degree program (complete a new application each time you apply).
- 4. Official transcript with high school graduation date or passing GED score.
- 5. Official transcripts from ALL colleges, universities, and/or vocational schools attended.
- 6. The Kaplan Nursing Entrance Test is administered in the Elliott School of Nursing (ESON) only on published dates. Contact ESON or visit www.upike.edu for Kaplan registration information.
- 7. After selection of applicants into the ASN degree program, if vacancies exist, the Nursing Admissions Committee may extend the deadline for applications.

8. If an applicant is not admitted to the ASN degree program and wishes to be considered for the next admission year, the applicant must complete a new University of Pikeville online application if not a current student, complete a new nursing program application, update one's records in the Admissions Office, and retake the Kaplan Nursing Entrance Test.

Associate of Science Degree (non-LPN students)

	NUR 245	Mental Health Nursing	4
	NUR 246	Professional Transitions	

NOTE: Additional costs for ASN nursing students include: Semester nursing fees, uniforms, health examination. TB skin test (or if applicable, a chest X ray), immunizations, CPR certification, drug-screening, criminal background check, liability insurance, University graduation fee, RN licensure application costs, and NCLEX-RN registration. Students are responsible for providing their own transportation to meet all course-related requirements. A detailed list of costs is available from the ESON office or at www.upike.edu/SON.

Progression in the ASN nursing program is dependent upon completion of required activities by publicized deadline dates, adherence to nursing program policies as stated in the <u>Nursing Student Handbook</u> (available upon admission or by request) and course syllabi, meeting minimal functional abilities and standardized testing scores, completion of required remediation, "C" or higher grade in pre- and corequisite courses, "C" or higher grade in the didactic portion of nursing courses, and final "Satisfactory" rating in the clinical portion of nursing courses.

The University of Pikeville and clinical affiliating agencies may require a criminal background check and drug screen. These agencies have the right to deny a student's clinical placement based on findings of the criminal background check or drug screen. Should this situation occur, the Elliott School of Nursing does not guarantee the student's placement in the nursing program or at an alternate site and the student may need to withdraw from the program.

An applicant for RN licensure must submit findings from a criminal background check and fingerprint card to the Kentucky Board of Nursing (KBN). KBN has the power to delay or deny a nursing graduate the right to take the NCLEX-RN if the applicant for licensure has been convicted of a felony or misdemeanor which bears directly on the qualifications of the applicant to practice nursing.

ASN nursing courses are open only to students admitted into the nursing program. Exceptions may apply for non-clinical courses.

Nursing (RN-BSN)

Nursing Major – RN-BSN (Online Completion Program of Study)

The University of Pikeville College of Nursing and Human Services Elliott School of Nursing (hereafter referred to as ESON) offers one option to obtain a bachelor of Science degree with a major in Nursing: the RN-BSN completion program offered as a distance education, fully online format. The University of Pikeville RN-BSN program was initiated in 2011 and is nationally accredited by the Accreditation Commission for Education in Nursing (ACEN). The RN-BSN program is for registered nurses (RNs) who have an associate degree or diploma from a state-approved prelicensure program for RN's and hold an unrestricted RN license. The RN-BSN program prepares RN's for advanced staff and leadership positions in diverse practice environments and provide a foundation for graduate level nursing education, contingent on the graduate school's admission requirements.

If general education requirements are met, the RN-BSN program can be completed on a full-time basis in one year (fall, spring, summer) or on a part-time basis in two years. All degree requirements for the RN-BSN must be completed within five years of admission to the program.

Admission Requirements – RN-BSN

- 1. Official admission to the University of Pikeville.
- 2. Submit a separate RN-BSN application to the Elliott School of Nursing (ESON) by the annual deadline date of June 1. After selection of applicants to the RN-BSN program, if vacancies exist, the Nursing Admissions Committee or an ESON representative may extend the deadline for applications.
- 3. Submit official transcripts of high school and post-secondary schools attended.
- 4. Be a graduate of a state-approved pre-licensure program for registered nursing.
- 5. Have earned at least a "C" grade in all courses taken to satisfy the nursing major at the ASN or diploma level.
- 6. Have a minimum 2.50 cumulative grade point average (GPA). Exceptions may apply for RN's with satisfactory work experience.
- 7. Have earned at least 26 credit hours of the 52 credit hours of general education core requirements. These 26 hours should include the equivalent of the MTH prerequisite to a college level statistics course.
- 8. Have validation of a current, unrestricted, and unencumbered RN license.

Transfer Credit - RN-BSN*

- 1. Transfer equivalency credit of non-nursing coursework is based on the policies of the University of Pikeville as published in its catalog.
- 2. Nursing transfer credit from an ASN or diploma program: Upon completion of 11 credits with at least a "C" grade in the RN-BSN program at the University of Pikeville, transfer students who hold a current RN license making application to the RN-BSN program may receive up to 40 hours of NUR elective credit for proficiency validated by licensure. These credits are determined by evaluating lower division NUR courses completed at another institution. If the student leaves the RN-BSN program prior to graduation, NUR elective credit is not transferable to another institution and might not be transferred to another major at the University of Pikeville.

Nursing Course Descriptions

Note: Credit Hour Definition: 1 semester credit hour = 1 clock hour of instruction/seminar/lecture or 3 clock hours of practicum/clinical/skills laboratory per week.
NUR 100 Introduction to Nursing as a Profession
NUR 110 Fundamentals of Nursing I
NUR 120 Fundamentals of Nursing II
NUR 125 Family Nursing
NUR 130 LPN to RN Transition (for LPNs only)
NUR 200 Pharmacology in Nursing
NUR 230 Nursing Across the Lifespan I
NUR 240 Nursing Across the Lifespan II
NUR 241 Preparing for NCLEX(1) Preparing for NCLEX will lead students in the final semester of the pre-licensure nursing program to systematically work through NCLEX preparation resources. There will be a emphasis on practice of NCLEX style questions, review of results, and remediation of discovered areas of weakness. Prerequiste: NUR 200 and NUR 230. Corequiste: NUR 240.
NUR 245 Mental Health Nursing
NUR 246 Professional Transitions

timeframe to meet the requirements of the Kentucky Board of Nursing as a key feature of this course. One and a half hours of

120 hours have been completed. Prerequisites: NUR 200 and NUR 230. Prerequisites or Corequisites: NUR 240, NUR 245, and restricted elective (choose one): BIO 280, HEA 261, SOC 119, SOC 229, REL 230, or SPN 111. NUR 290 Directed Individual Readings(1) Study of selected nursing topic(s) of particular interest. Topic(s) may be proposed by the student or faculty. This course may be taken more than once if different topics are chosen for a total of two credits. Prerequisites: Eight hours of nursing and approval of Dean of Nursing and supervising faculty. NUR 302 Advanced Concepts in Nursing Practice......(5) This course focuses on concepts to advance the practice and discipline of nursing at the baccalaureate level. The student will explore and apply concepts such as writing in the discipline, information literacy, evidence-based literature, clinical reasoning, and theories from other disciplines that inform nursing practice, multiple dimensions of patient centered care, and quality and safety initiatives in healthcare. Prerequisite: RN status and admission to the RN-BSN program. NUR 304 Health Assessment for Registered Nurses (3) This course provides an opportunity to enhance skill in health assessment of persons and families including genetic, developmental, psychological, and environmental parameters. Assessment models will be analyzed for use with diverse populations. Emphasis will be placed on health assessment of clients across the lifespan and performance of the health exam. Prerequisite: RN status and admission to the RN-BSN program. NUR 306 Pharamcology in Nursing Practice.....(3) This course will examine the clinical application of drugs as they relate to clients across the lifespan who are experiencing acute and chronic health problems. Emphasis will be placed on gerontological implications of pharmacology. Prerequisite: RN status and admission to the RN-BSN program. NUR 308 Scholarship and Inquiry for Evidence Based Practice(3) This course is designed to develop the knowledge and skills required to translate current evidence into practice. Emphasis will be placed on an overview of qualitative and quantitative research processes, models to apply evidence to clinical practice, nursesensitive quality indicators, information literacy to search, locate, and evaluate sources of information, and dissemination of findings. Prerequisites: MTH 200 or SSC 285 and NUR 302. NUR 390 Special Topics.....(1-3) This elective is the study of selected topics of interest in the field of nursing. The topic may differ each time the course is offered and may be proposed by the instructor or students. This course may be taken for credit any number of times, provided that a different topic is studied each time. Prerequisite: Eight hours of nursing or admission to the RN-to-BSN program of study. NUR 401 Population-based Nursing Care.....(5) This course will introduce the concept of population health and the application of health promotion, disease, and injury prevention across the lifespan at the local, national, and global population level. Special emphasis will be placed on health disparity among diverse populations, genetics, epidemiology, clinical judgment during disaster, and population-focused interventions. The role of policy development and regulation in healthcare will be analyzed. Three hours instruction and six hours practicum per week in a community of choice. Prerequisite: NUR 302. Corequisite: NUR 308. NUR 403 Organizational and Systems Leadership(3) This course will examine leadership skills at the microsystem level in healthcare organizations including decision-making, delegation, care coordination, and change and conflict resolution. Awareness will be developed of complex organizational systems and related mission and vision statements. Knowledge will be enhanced on an organization's quality improvement process, standards for a safe environment, and implications of healthcare. Prerequisites: NUR 304, NUR 306, NUR 308, and NUR 401. Corequisite: NUR 405. NUR 405 Nursing Synthesis and Capstone(5)* This capstone course will provide the RN the opportunity to integrate the knowledge, skills, and attitudes of baccalaureate generalist nursing practice. The focus will be on professionalism, evidenced-based practice, and dissemination of knowledge synthesized within the practicum. The practicum emphasis will provide the RN an opportunity to explore a nursing practice role of interest. Individualized practicum experience with an RN preceptor is subject to approval by course faculty. Three hours instruction and six hours practicum per week in a community of choice. Prerequisites: NUR 304, NUR 306, NUR 308, and NUR 401. Corequisite:

lecture per week and approximately 24-36 hours of clinical experience per week (up to seven weeks) with a preceptor until the full

*Note: Students may have their NUR 405 seminar hours reduced by portfolio submission. Portfolios are maintained, submitted, and evaluated throughout the RN-BSN program, with final evaluation in NUR 405.

NUR 403.

Philosophy (PHI)

The Philosophy courses are offered through the Division of Humanities in the College of Arts and Sciences. They stress the cultural and logical bases of a society's system of beliefs. Courses are offered in support of other academic programs.

Philosophy Course Descriptions
PHI 211 Introduction to Philosophy(3
Introduces philosophic thinking and philosophic problems such as natural theology (can knowledge of God be achieved by reason?)
metaphysics (what is ultimate reality?), epistemology (how do we know?), ethics (what is good?), and aesthetics (what is art?)
Prerequisite: ENG 112 or WRI 118.
This course fulfills the Personal Place requirement in the General Education Curriculum.
PHI 290 Special Topics(3
A study of selected topics of special interest. The topic may differ each time the course is offered and may be proposed by eithe the instructor or students. The course may be repeated for credit, provided that a different topic is studied each time. <i>Prerequisite PHI 211 or at least 12 hours in the specific discipline to be studied</i> .
PHI 390 Special Topics(3
A study of selected topics of special interest. The topic may differ each time the course is offered and may be proposed by eithe
the instructor or students. The course may be repeated for credit, provided that a different topic is studied each time. <i>Prerequisite</i>

Physical Education (PED)

The activity and wellnesses courses in physical education are managed through the Patton College of Education.

Physical Education Course Descriptions PED 106 Archery – Men's
Completion of a semester of participation after being certified as an eligible athlete in archery by the sport's sanctioning body. Verification of participation will be required by the coach and the athletic director prior to awarding of credit. The athletic director will be the instructor of record and will issue the mid-term and final grades. This course will be graded on Pass/Fail basis.
PED 108 Archery – Women's
PED 112 Baseball
PED 116 Basketball – Men's
PED 118 Basketball – Women's
PED 126 Bowling – Men's
PED 128 Bowling – Women's
PED 130 Cheerleading
PED 136 Cross Country – Men's
PED 138 Cross Country – Women's
PED 140 Dance Team
PED 141 Basic Ballet
PED 142 Belly Dance Basics

students to the concepts, history, and current state of belly dancing. Class meets 75 minutes a week for 16 weeks. Bare bellies and performing in front of a group are not required. Final exam will consist of a practical skills test. Women of all shapes and size are welcome!
PED 145 Football
PED 146 Golf – Men's
PED 148 Golf – Women's
PED 151 Self-Defense for Women
PED 152 Self-Defense for Men
PED 158 Lacrosse
PED 161 Softball/Volleyball
PED 163 Conditioning/Weight Training(1) Provides the student with isometric and isotonic exercises for overall body strength and stamina.
PED 166 Soccer – Men's
PED 168 Soccer – Women's
PED 170 Softball
PED 174 Concepts of Fitness and Wellness
PED 176 Tennis – Men's

PED 178 Tennis – Women's(1)
Completion of a semester of participation after being certified as an eligible athlete in women's tennis by the sport's sanctioning body. Verification of participation will be required by coach and the athletic director prior to awarding of credit. The athletic director will be the instructor of record and will issue the mid-term and final grades. <i>This course will be graded on Pass/Fail basis</i> .
PED 184 Basic Rhythms
PED 185 Martial Arts & Fitness(1)
This course is about exceptional training for the mind and body. Elementary martial arts will include but is not limited to self-defense, defense of others, katas, kata bunkai, pressure points, acupuncture/acupressure points, acupuncture channels, joint lock, and/or joint manipulation. The fitness is from a martial arts training perspective which includes but is not limited to stretching, cardiovascular, isometric exercises, strength training, and tai chi/qi gong.
PED 186 Track and Field Men's(1)
Completion of a semester of participation after being certified as an eligible athlete in men's track and field by the sport's sanctioning body. Verification of participation will be required by coach and the athletic director prior to awarding of credit. The athletic director will be the instructor of record and will issue the mid-term and final grades. <i>This course will be graded on Pass/Fail basis</i> .
PED 188 Track and Field Women's(1)
Completion of a semester of participation after being certified as an eligible athlete in women's track and field by the sport's sanctioning body. Verification of participation will be required by coach and the athletic director prior to awarding of credit. The athletic director will be the instructor of record and will issue the mid-term and final grades. <i>This course will be graded on Pass/Fail basis</i> .
PED 195 Volleyball(1)
Completion of a semester of participation after being certified as an eligible athlete in volleyball by the sport's sanctioning body. Verification of participation will be required by coach and the athletic director prior to awarding of credit. The athletic director will be the instructor of record and will issue the mid-term and final grades. <i>This course will be graded on Pass/Fail basis</i> .
PED 206 Archery – Men's(1)
Completion of a semester of participation after being certified as an eligible athlete in archery by the sport's sanctioning body. Verification of participation will be required by the coach and the athletic director prior to awarding of credit. The athletic director will be the instructor of record and will issue the mid-term and final grades. <i>This course will be graded on Pass/Fail basis. Prerequisite: PED 106.</i>
PED 208 Archery - Women's(1)
Completion of a semester of participation after being certified as an eligible athlete in archery by the sport's sanctioning body. Verification of participation will be required by the coach and the athletic director prior to awarding of credit. The athletic director will be the instructor of record and will issue the mid-term and final grades. This course will be graded on Pass/Fail basis. Prerequisite: PED 108.
PED 212 Baseball(1)
Completion of a second semester of participation after being certified as an eligible athlete in baseball by the sport's sanctioning body. Verification of participation will be required by coach and the athletic director prior to awarding of credit. The athletic director will be the instructor of record and will issue the mid-term and final grades. <i>This course will be graded on Pass/Fail basis. Prerequisite: PED 112.</i>
PED 216 Basketball – Men's(1)
Completion of a second semester of participation after being certified as an eligible athlete in men's basketball by the sport's sanctioning body. Verification of participation will be required by coach and the athletic director prior to awarding of credit. The athletic director will be the instructor of record and will issue the mid-term and final grades. <i>This course will be graded on Pass/Fail basis. Prerequisite: PED 116.</i>
PED 218 Basketball – Women's(1)
Completion of a second semester of participation after being certified as an eligible athlete in women's basketball by the sport's sanctioning body. Verification of participation will be required by coach and the athletic director prior to awarding of credit. The athletic director will be the instructor of record and will issue the mid-term and final grades. <i>This course will be graded on Pass/Fail basis. Prerequisite: PED 118.</i>
PED 226 Bowling – Men's(1)
Completion of a second semester of participation after being certified as an eligible athlete in men's bowling by the sport's sanctioning body. Verification of participation will be required by coach and the athletic director prior to awarding of credit. The athletic director will be the instructor of record and will issue the mid-term and final grades. <i>This course will be graded on Pass/Fail</i>

basis. Prerequisite: PED 126.

PED 228 Bowling – Women's
PED 230 Cheerleading
PED 236 Cross Country – Men's
PED 238 Cross Country – Women's

Physics (PHY)

The courses in physics are offered through the Division of Mathematics and Natural Sciences in the College of Arts and Sciences. The program provides a general background for students seeking to prepare for careers in teaching, entry-level positions in scientific occupations, or further study in graduate or professional schools. The courses in this program support other majors or are utilized as general electives.

Physics Course Descriptions PHY 102 Introduction to Physics(4)
This is a laboratory-science course designed for non-science majors utilizing guided inquiry teaching and learning methodologies. The course is designed to introduce the student to concepts in classical mechanics, thermodynamics, sound, electricity, magnetism, light and optics. Students will be engaged in small, hands-on, group activities during each class meeting. The course meets 5 hours per week. <i>Prerequisite: MTH 100 or placement beyond.</i>
This course fulfills the Physical and Natural Place requirement in the General Education Curriculum.
PHY 105 Introduction to Astronomy and Astrophysics
PHY 106 Introduction to Astronomy and Astrophysics Laboratory
PHY 223 General Physics I
PHY 224 General Physics II
PHY 290 Special Topics
PHY 300 Engineering Physics
PHY 310 Physics of the Human Body
PHY 350 Modern Physics
PHY 490 Special Topics
PHY 495 Seminar in Physics

Political Science (PLS)

The program in political science is offered through the Division of Social Sciences in the College of Arts and Sciences. It is the study of human behavior as it relates to government and politics. Students studying political science are prepared to understand the governmental process and its relationship to the other major institutions in our society. At University of Pikeville a combination major with history is offered.

History/Political Science Major

Basic program for a baccalaureate degree:

I.	General Educa	ation Curriculum Requirements	36 hour
II.	Degree (B.A.	or B.S.) Option Requirements	4 - 6 hour
III.	Requirements	for Combined Major	39 hours
	History (21-24	4 hours)	
	HIS 150	Survey of U. S. History	3
	HIS 160	Survey of World History	
	HIS 200	The Historian's Craft	
	HIS 497	Historiography and Research Methods

	Political Scier	nce (12-15 hours)	
	PLS 101	United States Government and Politics	
	PLS	Electives at 300-400 level	9-15

Notes:

- 1. PLS 448 Development of the American Constitution, PLS 455 American Chief Executive, and HIS 463 American Foreign Policy may be used as History or Political Science electives at the 300-400 level.
- 2. Electives in History and Political Science must total 24 credit hours with a minimum of 9 hours in at least one.
- IV. General electives as needed to meet the minimum requirements of 120 semester hours.

Certificate

Political & Civic Engagement

regional integration. Prerequisite: PLS 101.

The Political & Civic Engagement certificate will provide students with the opportunity to foster a variety of skills needed in today's careers. The courses selected for this certificate will enable students to:

- Display an understanding of the need and associated use of history and politics. This is essential for any civic/community-based profession.
- Analyze documents, rhetorical situations, and case studies to understand, explain, debate/justify the potential
 solutions to the proposed problems at hand.
- Learn to work both independently and collaboratively within groups. This also will provide opportunities to practice and demonstrate leadership skills.
- Create projects that demonstrate an effective and proper use of methodological research and argumentation that is used within the fields of history, political science, law, criminal justice, and communication.

Psychology (PSY)

The program in Psychology is offered through the Division of Social Sciences in the College of Arts and Sciences. Psychology attempts to give meaning to human behavior and mental processes. The field is multifaceted, addressing topics as diverse as human physiology, interpersonal relationships, emotions, motivations, group dynamics, learning, and mental disorders. The psychology program at University of Pikeville bridges the chasm between humanistic and scientific inquiries. Students are provided the opportunity to explore such fascinating topics as personality, dreams, lifespan development, psychopathology, social psychology, learning and cognition, memory, myths and archetypes, research methodology, the psychology of religion, and psychology in law.

Psychology Course Descriptions

PSY 110 General Psychology......(3)

Introduces the field of psychology by examining fundamental issues in the field from various perspectives, some of which can be resolved by moving beyond the old antitheses. For instance, the classic argument over nature versus nurture is resolved by Albert Bandura's notion of reciprocal determinism. Topics include learning, scientific method, measurement, personality, mental disorders, memory, dreams, language, cognition, behavior, and consciousness.

This course fulfills the Personal Place requirement in the General Education Curriculum.

PSY 215 Lifespan Development(3)

This course uses an integrative approach to study the lifespan. It focuses on the major developmental theories, as well as their views of maturation in the physical, social, emotional and intellectual realms. The interrelatedness of various aspects of development from conception through death is emphasized. *Prerequisite: PSY 110*.

This course fulfills the Personal Place requirement in the General Education Curriculum.

	Psychology of Language(3)
will include processing,	will examine current theory and research on the psychology of language as it occurs throughout the lifespan. Topics the nature of language, first language acquisition, bilingualism and multilingualism, the brain and language, language social aspects of language, cultural influences on language and its use (including endangered languages), gender in language use and language processing, language use by older adults, and language disorders, among others. :: PSY 110.

Religious Studies (REL)

The Religious Studies program is offered through the Division of Humanities in the College of Arts and Sciences. The academic study of religion in interdisciplinary and focuses on ways of understanding the Bible, ways of being religious, and ways religion engages society. Religious Studies Courses explore religious expressions using a variety of approaches: historical, ethical, spiritual, and cultural.

This program is designed for individuals who are interested in the study of religion for personal, academic, or professional goals.

Science	(SCT)
or lence	1.70.11

Science courses are offered by the Division of Mathematics and Natural Sciences in the College of Arts and Sciences.

Science	Course	Description	16
Science	Course	Describuoi	15

SCI 250 Introduction to 3D Printing(3)

This course will enrich students' knowledge in design and applied engineering as they model, fabricate, test, discuss, and iterate upon mechanical 3D objects they design throughout the course. Each aspect of the course will allow students to design and fabricate 3D objects using computer-aided design (CAD) software and 3D printers. Students will experience the design process and become familiar with the advantages and limitations of each 3D printing technology in terms of precision, resolution, and material capabilities. *Prerequisite: Sophomore standing.*

SCI 383 The Nature of Science......(3)

This course provides a basic introduction to the main philosophical and historical questions concerning scientific knowledge and methodology. It surveys a variety of positions on standard philosophy of science topics, centered around the question, "What is science?", using biology as a context. In addition, the course emphasizes practice in leading discussion and presentation of oral and written reports. *Prerequisites: ENG 112 or WRI 118 and either BIO 151/BIO 153 or CHE 113. Corequisite: REL 383.*This course fulfills the Engaging Our World requirement in the General Education Curriculum.

Supervised field experience in an appropriate agency or organization. *Prerequisites: Permission of Instructor, Division Chair, and Dean required.* Repeat up to a total of 6 hours. Does not count toward a major or minor in biology or chemistry.

Social Sciences (SSC)

The Social Science courses are offered by the Division of Social Science in the College of Arts and Sciences. They provide and interdisciplinary approach to the study of human behavior.

Social Science Course Descriptions

SSC 285 Statistics for the Social Sciences(3)

This course will examine both descriptive (e.g. distributions, central tendency, variability, graphic representations) and inferential (e.g. t-tests, Analysis of Variance) statistics within the context of the social sciences. Emphasis will be placed on understanding the conditions that call for the use of one test over another. Students will be exposed to theory as well as to hands-on application through computer statistics packages such as SPSS. *Prerequisites: CJ 152, PSY 110 or SOC 119 and MTH 095, MTH 113, or MTH 121.*

This course will focus on diagnosing workplace conflict by applying a problem solving approach through leading challenging conversation and debates with ethical decision-making practices. The course work will focus on team building, ethical decision making, organizational and interpersonal communication skills, and critical thinking. *Prerequisite: Sophomore standing*.

SSC 320 Psychology of Social Media.....(3)

Social media plays a pervasive role in our daily lives, and this course will explore the tremendous influence it exerts. In this course, students will examine social media usage and its effects from a psychological perspective. Topics of study will include personality differences, generational differences, and gender differences, as well as studying the digital divide. The course will increase students' media literacy and encourage them to think critically about their own social media use and the content they view on social media. Blending psychology and communication, students will engage with varying topics related to social media, such as fake news, privacy issues, online dating, and cyberbullying. Students will focus on current issues and contemplate possible solutions. *Prerequisite: ENG 112 or WRI 118 and Sophomore standing.*

This course fulfills the Engaging Our World requirement in the General Education Curriculum.

This course will reflect a multi-disciplinary approach to the study of social science issues and/or topics. Topics will teach students to understand how people behave and influence the world through institutions and other cultural forms. The topic may differ each time the course is offered and may be taken for credit for up to six hours. *Prerequisite: Permission of Instructor*.

SSC 452 Interdisciplinary Commons(3)

This capstone course will examine the interdisciplinary connections between psychology, sociology, criminal justice, and public policy. We will draw on the knowledge of experts and practitioners in representative fields to construct common ethical and philosophical basis from which to view contemporary problems in a legal, social, and psychological sense. *Prerequisite: Seventy-two (72) credit hours or permission of Instructor.*

SSC 497 Internship in Statistics......(1 - 3)

This is a supervised experiential learning course. It is intended to enhance the classroom experience. This course includes on-the-job learning of data collection and analysis in a higher education setting. Field experience involving supervised contact with a member of the University's Executive Staff. Forty-five contact hours per semester hour credit is required. *Prerequisites: Permission and Consent of the Instructor, Advisor, Division Chair/Dean of the College of Arts and Sciences, Dean of the College of Nursing and Human Services based on the student's major(s).*

Social Work (SW)

The program in social work is part of the School of Social Work in the College of Nursing and Human Services. Social Work is a dynamic, noble, and altruistic profession with a rich history of commitment to the needs of others, especially the most vulnerable in our society. To achieve this, social work has a dual focus: to assist the individual to function as effectively as possible in their environment and to work to create conditions in society that foster healthy growth and development, personal freedom, and human dignity. This unique dual focus allows social workers to become involved in activities and service provision that protect, promote, or restore the well-being of all people. As such, social workers are employed in areas such as education, healthcare, mental health, counseling, services to the aging, substance abuse services, corrections and criminal justice, child welfare services, services for the mentally and physically disabled, rehabilitation, veteran services, government, politics and social policy, community development, and other similar areas.

The Social Work Program at the University of Pikeville educates students in the generalist practice approach, with an emphasis on social work practice in rural Appalachia. All social work majors are provided the opportunity to "practice" social work in the field in an approved agency under the direction of professional social workers and Program faculty. Graduates of the Social Work program are equipped with the knowledge, values, and skills necessary to be competent entry-level social work professionals, as well as being prepared for graduate study in social work and other human service fields.

Criteria for Admission to the Social Work Baccalaureate Degree Program

The following criteria have been established for admission to the University of Pikeville Social Work program.

- 1. The applicant must be enrolled at the University of Pikeville.
- 2. The applicant must submit an application for admission to the Social Work Committee no later than the priority deadlines:
 - a. Fall Semester April 1*
 - b. Spring Semester November 1*
- 3. The applicant must have a minimum cumulative GPA of 2.50 on all completed college work. Students with GPA below 2.50 may be considered; a statement requesting special consideration must be submitted with application materials.
- 4. The applicant must complete SW 215 with a "C" or better, a "B" or better is preferred. Applicants currently enrolled in SW 215 may be provisionally accepted until final grade is confirmed.
- 5. The applicant must complete the application process in its entirety. More detailed instructions can be found in the Social Work Program Student Handbook.
- 6. The applicant must submit two recommendation forms. One recommendation must be from a non-social work professor (the Program Director will request recommendation forms from faculty for all social work courses taken by the applicant.). The second recommendation will be accepted from an individual in any of the following categories:
 - a. Non-Social Work Faculty or Staff Member
 - b. Athletic Coach
 - c. Work or Volunteer Supervisor

Note: Personal references from relatives, friends, etc. will not be accepted.

- 7. The applicant must agree to a criminal background check, which is necessary for field education/practicum placement.
- 8. The application must review and sign a declaration to behave in a manner consistent with the National Association of Social Workers (NASW) Code of Ethics at all times.

^{*}Note: Admission to University of Pikeville does not guarantee admission to the social work program.

Social Work Course Descriptions
An introduction to the social work profession, its philosophy, and value commitments to social welfare. Course will examine social work from its origins to current trends and influences. An overview of social work education is also discussed giving particula attention to social work values and ethics, generalist practice theory, diversity and populations-at-risk, social work roles, and an exploration of various practice settings Course also includes an examination of the role of the social work profession in the development of social welfare policy and the role of contemporary social welfare policy and its impact on generalist social work practice. Required of social work majors and recommended to be taken during first year.
This course challenges students to engage in a journey of self-awareness of their own identity, including biases they may hold about diversity and difference and how these biases may limit their ability to interact effectively with people of diverse backgrounds. The course will prepare student from various fields of study to develop the knowledge, values, and skills necessary to practice with diverse and different populations. The course will also require students to broaden and deepen their knowledge base and awareness of identities outside of their own. An additional focus of the course involves exploring the implications and consequences of prejudice, discrimination, oppression, economic deprivation, marginalization, alienation, power, acclaim, and privilege as they apply to both majority and minority groups in terms of social identity construction. The concept of intersectionality is also explored. The course will also present strategies for interrupting and challenging systems of oppression as a way to advance human rights social and economic justice, and environmental justice. Required of social work majors. Prerequisite: ENG 112 or WRI 118. This course fulfills the Engaging Our World requirement in the General Education Curriculum.
SW 305 Social Work Practice in Medical Settings
SW 315 Human Behavior in the Social Environment
SW 325 Trauma
SW 334 Professional Ethics
SW 340 Generalist Social Work Practice I: Individuals & Families
SW 343 Issues in Aging

This is the second course in the social work practice sequence and presents the application of social work generalist practice skills

Generalist Social Work Practice II: Groups(3)

SW 360 Generalist Social Work Practice III: Organizations & Communities(3)

This is the third course in the social work practice sequence and presents the generalist practice model with emphasis on macro level social work with organizations and communities. Generalist practice knowledge and skills are expanded to include community assessment, community organizing, program planning, evaluation, acquisition of funding, and grant writing. The course focuses on macro social work in the rural, Appalachian communities. The impact of oppression, discrimination, and prejudice on populations-at-risk, specifically those in Appalachia is discussed. *Prerequisite: Admission to the Social Work Program. Recommended that SW 315 and SW 340 be taken prior to enrollment in this course.*

SW 370 Generalist Social Work Practice IV: Policy Practice(3)

This course is the fourth and final course in the social work practice sequence and presents the generalist practice model with emphasis on work in the social welfare policy arena. This course is designed to provide students with the knowledge and tools to engage in effective policy practice. The first part of the course focuses on the development of the profession of social work and its role within the social welfare system. This includes providing an awareness of problems and concepts of the policy process in the U.S., exploring the political, economic, and institutional frameworks which structure public social welfare choices. An important focus of the course is to identify and understand the impact of a wide range of social policies on social work clients and the human service delivery system within a social justice framework with specific attention given to rural, Appalachian clients and service delivery. The second part of the course focuses on the knowledge and skills related to advocacy, such as media relations, community organizing and coalition building, lobbying methods, campaign strategies, position taking, and proposal development. *Prerequisite: Admission to Social Work Program. Recommended that SW 315 and SW 340 be taken prior to enrollment in this course.*

This course examines the concepts of financial capability and asset-building with vulnerable populations often served by social workers. The course will emphasize the impact of cultural diversity and systems of oppression on the financial well-being of marginalized groups. Special attention will also be given to the importance of policy practice in working toward economic justice. Students will be equipped with the knowledge and intervention skills necessary to assist low to moderate-income households to improve their financial well-being. The course will also improve students' capability to engage in financial self-care and improve their own financial well-being. *Prerequisites: 6 hours in PSY, SOC or SW and ENG 112 or WRI 118*.

SW 390 Special Topics in Social Work(1-3)

This course consists of small group study regarding issues of current and special significance for social work practice. Issues may include death and dying, racism and ethnic prejudices, global poverty, forensic social work, social work and law, social work and juvenile justice, AIDS, school social work, social work with gay and lesbian people, and social work with oppressed people. This course may be repeated in a different topic for a maximum of six hours. *Prerequisites: Sophomore standing and six* (6) hours in *PSY, SOC, or SW and ENG 112 or WRI 118.*

SW 450 Mental Health Assessment(3)

The course will examine the role of social workers in various mental health settings with special emphasis on assessment techniques, assessment tools, including scales, Diagnostic and Statistical Manual (DSM) criteria, and use of current DSM. Special attention given to social work roles in intervention and crisis stabilization. *Prerequisites: Fifteen (15) hours of course work in either PSY or SW. Recommended that PSY 323 or PSY 440 are completed prior to enrollment in course.*

SW 491 Social Work Practicum I(6)

This course is the first course in a field instruction sequence, which provides educationally directed practice experience under the direct supervision of an approved, agency-based professional social worker in collaboration with social work program faculty. This course provides students with the opportunity to further integrate the knowledge, values, and skills of generalist social work practice in the field setting with client systems of all sizes (individuals, families, small groups, organizations, and communities). Emphasis is placed on supervised practice in a rural, Appalachian setting. A total of 200 hours will be completed through agency-based, onsite experiential learning. Course also includes a weekly seminar designed to complement field placement by assisting students with the further integration of knowledge and values, as well as further refinement of practice skills. A seminar's purpose is to discuss, as a small group, issues related to the integration of the practicum experience. *Prerequisites: Admission to the Social Work Program and Admission to the Field Education Component of the Social Work Program as outlined in the Social Work Program Field Education Handbook. Fee \$100.*

SW 492 Social Work Practicum II(6)

This course is the second course in a field instruction sequence, which provides educationally directed practice experience under the direct supervision of an approved, agency-based professional social worker in collaboration with social work program faculty. This course provides students with the opportunity to further integrate the knowledge, values, and skills of generalist social work practice in the field setting with client systems of all sizes (individuals, families, small groups, organizations, and communities). Emphasis is placed on supervised practice in a rural, Appalachian setting. A total of 200 hours will be completed through agency-based, on-site experiential learning. Course also includes a weekly seminar designed to complement field placement by assisting students with the further integration of knowledge and values, as well as further refinement of practice skills. A seminar's purpose is to discuss, as a small group, issues related to the integration of the practicum experience. *Prerequisite: SW 491. Corequisite: SW 495. Fee \$100.*

SW 495	Senior Seminar – Capstone	(3)
--------	---------------------------	----	---

This course serves as the capstone course for the social work program and is designed to foster the integration of curriculum content, critical thinking, ethical problem-solving, and the use of informational resources in making decisions about social work practice. Additional focus of the course is on the preparation of students for continued professional development following graduation. In addition to course requirements, students will be expected to successfully complete a comprehensive exam. *Prerequisite: Admission to the Field Education Component of the Social Work Program as outlined in the Social Work Program Field Education Handbook.*

SW 496 Social Work Practicum.....(12)

This course provides educationally directed practice experience under the direct supervision of an approved, agency-based professional social worker in collaboration with social work program faculty. This course provides students with the opportunity to integrate the knowledge, values, and skills of generalist social work practice in the field setting with client systems of all sizes (individuals, families, small groups, organizations, and communities). Emphasis is placed on supervised practice in a rural, Appalachian setting. A total of 400 hours will be completed through agency-based, on-site experiential learning. Course may include a seminar component designed to complement field placement by assisting students with the integration of knowledge, values, and skills acquired in social work classes, applying that knowledge in the field, and the further development of generalist social work competencies. *Prerequisite: Admission to the Field Education Component of the Social Work Program as outlined in the Social Work Program Field Education Handbook. Corequisite: SW 495. Fee \$200.*

SW 499 Directed Individual Study in Social Work(1-4)

Directed study in a specific area or issue in social work not covered by existing courses within the curriculum. Interdisciplinary study is welcomed and encouraged. Student must be of junior or senior standing. Permission of instructor(s) granted upon approval of a student generated proposed plan of study. Prerequisites: Twenty-one (21) hours of social work courses and consent of the Instructor, Program Director, Division Chair, and Dean of the College of Nursing and Human Services.

Sociology (SOC)

Offered through the Division of Social Sciences in the College of Arts and Sciences, Sociology serves interested students in the liberal arts, and who seek to develop a better cross-cultural understanding of the social order and the social processes essential to personality development. The discipline seeks:

- To prepare students for productive careers. While some coursework in this discipline is appropriate in any
 vocation, students planning their life work primarily around interaction with other persons will find this major
 a wise choice. Career possibilities are found in a wide variety of public and private enterprises, social services
 and business, or public administration settings from criminal justice to family and child service agencies to
 religious ministry or social action. Some career choices may require additional graduate education or other
 specialized training.
- 2. To provide training in theoretical analysis and the development of research skills, or other information on the means of social action, civic or religious leadership, or for those whose conscience calls them to engage our society in the pursuit of social justice or the peaceful resolution of social conflict; and
- 3. To equip students to pursue an academic career in teaching, administration or research as a professional Sociologist.

Prerequisites: CJ 152, PSY 110 or SOC 119, and Junior standing.

significance, and constructing and evaluating hypotheses. Both quantitative and qualitative research techniques are examined.

SOC 334 Sport in Society(3)
This course examines the relationship between sport, both professional and amateur, and society. Students apply critical thinking skills to analyze current sport-related controversies, and gain a deeper understanding of the relationships between sports and global social issues such as gender, ethnicity, social class, economics, politics, and mass media. It will also examine the social and cultural history of sport and its influence on our social institutions, such as politics, the economy, and government. <i>Prerequisites: ECN 201 or ECN 202 or SOC 119</i> .
SOC 342 Drugs and Society
SOC 350 The Culture of the Appalachian Region
SOC 355 Deviant Behavior(3) The course begins with an overview of sociological theories of deviance which attempt to define the sociological significance of
deviant behavior. Social conditions and processes associated with careers of deviants will be explored, as well as the relationship of deviancy to problems of social control. Offering a more complex way of understanding and defining deviance in relation to social expectations, substantive readings and selected media will offer examples of the nature of deviant behavior. <i>Prerequisite:</i> ENG 112 or WRI 118, and CJ 152, PSY 110, or SOC 119 and Sophomore standing.
SOC 405 Social Stratification
SOC 411 Sociology of Mental Disorders
SOC 412 Sociology of Health and Illness
SOC 490 Special Topics in Sociology
SOC 491 Special Topics in Criminal Justice and Sociology
SOC 498 Practicum(3)
A supervised work/study placement in a setting consistent with the student's interest and career goals. May be repeated for a total of 6 semester hours with 3 hours credited to the completion of a Sociology or Criminal Justice major and the remaining 3 hours credited as an upper division general elective. A student may earn no more than 6 hours of CJ 498 and SOC 498. Contacts with agencies arranged with permission of instructor. <i>Prerequisites: Junior standing, completion of 15 hours of coursework in Criminal Justice and/or Sociology, and permission of faculty supervisor. Cross-listed as CJ 498.</i>
SOC 499 Directed Individual Study in Sociology
A program of reading and reporting planned and carried out under the guidance of a faculty member in the major. The topic, issue or area of student interest must concern a problem in the discipline not routinely available in the college catalog. Interdisciplinary study is encouraged. This option is available to majors of all disciplines of upper level standing. By permission of instructor(s) upon approval of a student-generated proposal. <i>Prerequisites: Junior standing and completion of 12 hours of Sociology, and consent of the Instructor, Division Chair, and the Dean of the College of Arts and Sciences</i> .

Spanish (SPN)

The Spanish program is part of the Division of Humanities in the College of Arts and Sciences. The objectives of the program's curriculum are to develop the student's proficiency in Spanish for personal and professional purposes and deepen the student's knowledge and understanding of cultures associated with the language. Combined with other areas of specialization, the competence gained in the Spanish program will prepare the student for successful and meaningful engagement in our global society.

Certificate

Spanish	for	the	W	orkı	olace
---------	-----	-----	---	------	-------

The Spanish for the Workplace certificate at the University of Pikeville prepares learners to communicate in Spanish for professional purposes, as the result of their language, cultural, and professional studies.

Science degree.	
SPN 112 Begi	nning Spanish II(3)
Novice learners v skills. Students w Spanish course a	will continue to develop foundational abilities in Spanish, including interpersonal, presentational, and interpretive who are native, heritage, or advanced Spanish speakers should contact the Spanish program faculty for appropriate dvising. Prerequisite: SPN 111 or Permission of the Instructor.
	lls the Cultural and Global Place requirement in the General Education Curriculum, if pursuing the Bachelor of
Science degree.	
SPN 306 Spai	nish Conversation(3)
	actice speaking in Spanish for multiple interpersonal and presentational purposes, as well as review language mmonly used in oral Spanish expression. <i>Prerequisite: SPN 112 or Permission of the Instructor</i> .
SPN 317 Spai	nish for the Professions(3)
A study of the Sp business, and cr	panish language for professional purposes. Areas of study could include, but are not limited to, fields of medicine, riminal justice, as well as helping professions such as education, social work, counseling, and ministry. In 112 or Permission of the Instructor.
SPN 390 Spec	rial Topics(3)
A study of a selection 390 may be repeated	cted topic of special interest related to the Spanish language or Spanish-speaking peoples and civilizations. SPN ated for credit provided the topic of study differs from previous SPN 390 courses taken for credit. The course is nish. <i>Prerequisite: SPN 112</i> .
SPN 400 Stud	ly Abroad in Spanish(3)
Three-credit-hours is earned in additional a	r elective for students who enroll in an approved study abroad program in a Spanish-speaking country. This credit tion to courses taken abroad in acknowledgement of the linguistic skill and cultural understanding gained from periences. This course may not be used to fulfill the Bachelor of Arts language requirement. Prerequisite:

Theatre (THR)

The Theatre program is a part of the Division of Humanities in the College of Arts and Sciences. Through coursework and practical experience, the program provides students with foundational skills in acting, technical work, and directing. A minor in theatre directly complements many majors and prepares students for roles not only as theatre makers, but also as communicators, leaders, and educators.

		of Acting
		sition, interaction and the structuring of action.
тн	R 120 Basics	of Technical Theatre(3)
		es a study of the technical aspects of stage production. The emphasis will be on gaining practical experience
		and shop facilities. Additionally, it will include consideration of the physical theatre and stage, construction,
		g of scenery as applied to theatrical production.
-		
TH	R 152 Music	al Theatre Performance I(1)
		nclude techniques of performance relevant to musical theater. Students will prepare scenes and songs from
		icals. In this course students will apply knowledge of theatre elements such as movement and acting as well as
		ch as singing and vocal production into performance ready scenes and songs. Students will work with both
		faculty. This course will culminate in a public performance of prepared scenes and songs. Prerequisite or
Cor	equisite: MUS	<i>152</i> .

THR 153 Musical Theatre Performance II(1)				
This course is a continuation of THR 152 and include techniques of performance relevant to musical theatre. Students will prepare				
new scenes and songs from representative musicals. In this course students will apply knowledge of theatre elements such as				
movement and acting as well as musical aspects such as singing and vocal production into performance ready scenes and songs.				
Students will work with both theatre and music faculty. This course will culminate in a public performance of prepared scenes and				
songs. Prerequisites: MUS 152 and THR 152. Prerequisite or Corequisite: MUS 153.				
THR 251 Speaking Your Truth(3)				
Students will explore the voice through the lens of releasing habitual tensions that impede freedom in speaking. They will develop				
internal and external awareness of themselves; discover the efficiency of the human body and its innate ability to produce sound;				
develop greater resonance and relaxation; discover a personal connection to body; breath and voice; and communicate through				
sound more freely and fully, thus allowing them to own and share their thoughts out loud as they strive to speak their truth.				
This course fulfills the Personal Place requirement in the General Education Curriculum.				
THR 285 Theatre Practicum I(1)				
Students participate in performance and technical production of staged works by actively contributing to a UPIKE production.				
Students participate in performance and technical production of staged works by actively contributing to a OFIKE production.				
THR 301 Makeup & Costuming(3)				
Students will explore the basics of costume design and makeup techniques and styles, from design to construction and				
application. Prerequisite: Three (3) hours of THR.				
THR 302 Stage Design(3)				
This course will introduce students to the basics of set design and construction, stage lighting skills, and sound design. <i>Prerequisite</i> :				
Three (3) hours of THR.				
THR 303 Script Analysis & Research(3)				
In this course, students learn the skills to analyze theatrical texts for all aspects of production, from acting to directing, and including				
basic dramaturgy. Prerequisite: Three (3) hours of THR.				
THR 304 Character Movement(3)				
This course enables students to create character through a variety of techniques, including acting methods and techniques of				
theatrical movement and physical theatre. <i>Prerequisite: THR 110</i> .				
THR 360 Theatre History(3)				
This course is an investigation of theatrical forms from the ancient Greeks to the modern era, focusing on the most significant				
developments in dramatic genres, performance styles, stagecraft, architecture, and audience. Students will study dramatic texts as				
well as evidence of historical theatre practice in order to explore the influence of theatrical trends and culture have on performance				
(and vice versa). Prerequisite: ENG 112 or WRI 118.				
This course fulfills the Cultural and Global Place requirement in the General Education Curriculum.				
THR 385 Theatre Practicum II(1)				
Students participate in performance and technical production of staged works by actively contributing to a UPIKE production in				
more advanced tasks than in THR 285. <i>Prerequisite: THR</i> 285.				
•				
THR 390 Special Topics				
This upper-level course focuses on selected topics of interest in the field of Theatre. The topic may differ each time the course is				
offered and may be proposed by the instructor or students. This course may be taken for credit any number of times, provided a				
different topic is studied each time. Prerequisite: Three (3) hours of THR.				
THR 410 Advanced Scene Work(3)				
This is a scene-study course focused on applying and integrating the skills taught in Basics of Acting and Creating a Character.				
The emphasis is placed on character analysis, research, and script analysis. The objectives include developing a rehearsal				
technique and understanding the process of exploration. Prerequisites: THR 110 and THR 210.				
THR 420 Stage Management(3)				
This is an independent-study course designed to teach the various duties required of stage managers in different production				
situations. Students will learn organization, communication and management techniques in the area of technical theatre. As part				
of the course, students will serve as the stage manager for one or more theatrical productions. <i>Prerequisites: THR 110, THR 120</i> ,				
and THR 285.				
THR 465 Directing(3)				
This is an independent-study course designed to teach the various duties required of theatrical director in different production				
situations. Students will learn organization, communication and directing techniques. As part of the course, students will serve as				
the director for one or more theatrical productions. <i>Prerequisites: THR 110, THR 120, THR 285, and THR 303.</i>				
THR 481 Acting Performance Practicum III(1)				
Students participate in acting performance of staged works. Students are involved in more advanced tasks than THR 381. The				
course will include practical experience with theatre professionals. <i>Prerequisite: THR 381</i> .				

THR 482 Technical Theatre Practicum III
THR 485 Theatre Practicum III
THR 498 Theatre Internship
THR 499 Directed Study

World Language & Cultural Studies Minor

The World Language & Cultural Studies minor will complement any major program of study and will empower students with vital competencies that they will need to engage with diverse people with differing perspectives and cultural practices in a range of settings for a variety of purposes.

Writing (WRI)

The Writing program is offered through the Division of Humanities in the College of Arts and Sciences. It exists to support and strengthen the culture of writing at the University of Pikeville at all levels and disciplines and to prepare students to communicate effectively in a variety of situations and fields.

Writing Course Description

WRI 118 College Writing(1-6)

This course is designed to introduce students to college-level critical thinking and writing. The courses include practice in rhetoric, voice and audience, research methods, and producing content for a variety of texts and platforms.

This course fulfills the Written Communication requirement in the General Education Curriculum.

UNIVERSITY OF PIKEVILLE

Coleman College of Business (CCOB)

Patton College of Education (PCOE)

College of Nursing and Human Services School of Social Work (CNHS)

Graduate Catalog 2022-2023

GRADUATE PROGRAMS

This section of the College of Arts and Sciences (CAS), Coleman College of Business (CCOB), College of Nursing and Human Services (CNHS), and Patton College of Education (PCOE) catalog addresses the specific policies and procedures associated with the University of Pikeville's graduate programs administered by the Coleman College of Business, the Patton College of Education, and the College of Nursing and Human Services School of Social Work. The University currently offers graduate level degrees in Business (M.B.A.), Education (M.A.), Social Work (M.S.W.), Osteopathic Medicine (D.O.), and Optometry (O.D.). The osteopathic medical program is housed as a separate academic unit as: University of Pikeville - Kentucky College of Osteopathic Medicine (KYCOM). Policies and procedures for the medical school are found in the *University of Pikeville Kentucky College of Osteopathic Medicine Catalog*. The Optometry program is housed as a separate academic unit as: University of Pikeville - Kentucky College of Optometry. Policies and procedures for the optometry school are found in the *University of Pikeville - Kentucky College of Optometry Catalog*.

2022-2023 GRADUATE ACADEMIC CALENDAR

COLEMAN COLLEGE OF BUSINESS COLLEGE OF NURSING & HUMAN SERVICES PATTON COLLEGE OF EDUCATION

The University of Pikeville reviews and publishes its academic calendar each year. The calendar was accurate at the time of printing, but is subject to change as deemed appropriate by the University of Pikeville to fulfill its mission or to accommodate circumstances beyond its control. Any such changes may be implemented without prior notice and without obligation and, unless otherwise specified, are effective when made. Therefore, the following calendar is *SUBJECT TO REVISION*.

GENERAL ADMISSIONS POLICIES FOR GRADUATE PROGRAMS

All master's degree programs are selective and require program permission before admission and registration for any graduate courses. Admission standards are established for each master's degree program at the University of Pikeville by the responsible academic unit. Students should contact the appropriate program director for specific program admission requirements and an application. Students must meet the following minimum criteria to be considered for admission to graduate study toward a master's degree:

- 1. Complete the graduate program application for the program of interest. These are available in the Office of Admissions or from the specific graduate program office.
- 2. Hold an earned bachelor's degree from a regionally accredited university or college or meet the special admission requirements. The University of Pikeville reserves the right, even after the enrollment of students, to make individual curricular adjustments whenever serious deficiencies have been identified by the program faculty. Students may be required to take such courses without credit toward the master's degree and at their own expense.
- 3. Provide official transcripts of all post-secondary degree course work (undergraduate and graduate).
- 4. Satisfy one of the following:
 - a. an undergraduate cumulative grade point average (GPA) of at least 2.5 on a 4.0 scale (all undergraduate course work, including work completed after the baccalaureate degree, is used to calculate the cumulative GPA).
 - b. a cumulative GPA of at least 3.0 on a 4.0 scale for the last 60 hours of undergraduate coursework taken (all coursework taken in semester when the 60th semester hour was taken will be included in the GPA calculation).
- 5. Meet all program admission requirements.

Special Admissions

There are three groups of students who must meet special admission requirements:

International Students

All international students who have earned the equivalent of a baccalaureate degree must have their transcripts evaluated by an agency approved by the National Association of Credential Evaluation Services (NACES). All international students whose primary language is not English are required to take the standardized Test of English as a Foreign Language (TOEFL) offered by the Educational Testing Service (ETS). The minimum required score for a paper test is 550, for an Internet test is 79, or for a computer test is 213. International students who have completed a bachelor's degree from an accredited college or university in the U.S. are exempt from this requirement. International students will be officially admitted and issued a Form I-20A only after Enrollment Services has been notified that they have successfully passed the TOEFL, have met the program admission requirements, and have submitted a statement certifying their ability to meet all financial obligations.

Graduates of Non-Regionally-Accredited U.S. Colleges and Universities

Graduates of colleges and universities that are not regionally accredited must meet the University of Pikeville undergraduate requirements for graduation before their applications for graduate study will be approved. In such instances the program director will evaluate the student's preparation and if a student's undergraduate preparation is deemed inadequate, this deficiency must be satisfied by taking designated courses that will not be counted as graduate credit. The University of Pikeville reserves the right, even after the enrollment of students, to make individual curricular adjustments whenever serious deficiencies have been determined by the program director. Students may be required to take such courses without credit toward the master's degree and at their own expense.

Non-Degree students are those students who are not seeking a degree at the University of Pikeville. Students must be qualified to enroll in classes with prerequisites, unless a waiver is granted by the Dean of the appropriate college. A student may take up to six hours under this status. Students classified as non-degree are not eligible for financial aid.

Transfer Applicants

Transfer students interested in transferring in graduate level coursework are required to submit official transcripts from all colleges and universities attended by the specified document deadline. Transcripts will be evaluated by the University Registrar in consultation with the appropriate graduate program director. The Registrar's Office will notify the applicant regarding the transferability of the coursework. The University of Pikeville accepts credit for graduate courses from regionally accredited institutions according to the policies outlined below:

- 1. Transfer credit will be awarded for courses comparable to those taught at the University of Pikeville and/or that are compatible with the graduate program curriculum.
- 2. Credit will be granted only for courses with a grade of "B" or above and are subject to the degree time limits established by the individual programs. In general, no coursework older than ten (10) years may be used to satisfy degree requirements at the time of graduation. Specific programs may have shorter time limits. For specific program requirements refer to the program listing in the *University of Pikeville Catalog*.
- 3. Transfer hours are limited to a maximum of one-third of the program requirements. Only course work with a grade of "B" or better will be accepted for transfer. For specific program requirements refer to the program listing in the *University of Pikeville Catalog*.
- 4. A minimum of nine of the last twelve semester hours used to complete the master's degree requirements must be taken at the University of Pikeville.
- 5. The final grade point average (GPA) will include only those hours earned at the University of Pikeville.
- 6. Upon receipt of official transcripts, the University will make every effort to inform students of the amount of credit that will transfer prior to enrollment, but no later than the end of the first term of enrollment. A notation of "P" and the credit hours transferring are recorded on the University of Pikeville transcript; grade point averages and quality points are not recorded.

Students may petition for the transfer of credit not covered by the aforementioned. Requests will be considered on an individual basis per established criteria. Further information and appropriate procedures for requesting transfer credit may be obtained from the Registrar's Office.

Readmission

Any student who has been away from the University of Pikeville for at least one academic semester or has withdrawn during the previous semester must reapply for admission. An updated application and official transcripts from any institutions attended while away from the University of Pikeville are required for readmission. Please consult with the Program Director of the appropriate graduate program for details regarding rejoining the program.

Categories of Admission

All graduate students at the University of Pikeville are admitted under one of the following categories:

- 1. Degree candidates (regular) are those students seeking a graduate degree and meeting all requirements, general and program, for admission.
- 2. Special students (non-degree seeking) are those students not meeting all requirements for "regular" acceptance who may be admitted to certain classes as special, non-degree seeking students. Students must be qualified to enroll in classes with prerequisites and have the permission of the Graduate Program Director and the appropriate Dean to enroll. A student may take up to six (6) hours under this status. Students classified as non-degree are not eligible for financial aid.
- 3. Readmit student are those seeking readmission to their program after non-enrollment for one full semester.

Orientation

Each graduate program is responsible for its own orientation program for incoming students.

FINANCIAL INFORMATION AND POLICIES FOR GRADUATE PROGRAMS

The University of Pikeville seeks to provide excellent instruction at a modest price. All graduate students are expected to familiarize themselves with the information and policies found in this section.

Graduate Tuition and Fees

The following are tuition and fee costs* associated with the University of Pikeville Graduate Program for the 2022-2023 academic year. These fees are subject to annual revision. The cost of all instructional materials, except for books, required supplies, and the fees listed below, are not included in the tuition charge.

2022-2023 Graduate Program Tuition and Fees*

Cost *	Amount
Graduate Program Application Fee	\$50.00 per application
M.A. Education Tuition	\$345.00 per credit hour
M.B.A. Program Tuition	\$475.00 per credit hour
M.S.W. Program Tuition	\$530.00 per credit hour
Graduate Program Graduation Fee	\$250.00 (Must be paid at the time of filing the <i>Application for Degree</i>) [includes diploma, cap, gown, and hood]
Transcript Fee	\$10.00 to \$50.00 depending on Delivery Mode
Smart Card Replacement Fee	\$10.00
Directed Independent Study/Directed Research /Internship	\$75.00 per semester credit hour up to \$300.00 per course, in addition to tuition
Replacement Diploma Fee	\$50.00
Room and Board Options	Contact the Director of Residence Life

BOARD PLANS COMMUTER & PROFESSIONAL (You can add more Bear Bucks at ANYTIME)				
Meal Plan	Bear Bucks	Price Per Plan		
40 Block	\$300	\$555		
70 Block	\$300	\$685		
Bear Bucks	\$300	\$300		

^{*}All charges are accurate at the time of printing but are subject to change as deemed appropriate by the University of Pikeville to fulfill its mission or to accommodate circumstances beyond its control. Any changes may be implemented without prior notice and without obligation and, unless otherwise specified, are effective when made.

Official Registration

A student is not officially registered for any class until he or she has made a satisfactory settlement with the Business Office for tuition and fees, as well as room and board and any other charges, if applicable.

Financial Responsibilities

All students are personally responsible for payment of financial obligations. Therefore, students must be familiar with the following policies, since no exceptions will be made.

Once a student has registered for classes, the student's account information is available online. Students who cannot pay in full must make arrangements with the Business Office immediately. Students who register late for classes must settle their account immediately. Students are urged to report to the Business Office any inability to comply with billing or any perceived discrepancies in their account. Questions concerning billing statements should be directed to the University's Accounts Receivable Coordinator at (606) 218-5203.

Charges for parking tickets, library fines or other charges will automatically be added to a student's account and will become part of what the student owes the University. Any student who does not have a balance of zero will not be permitted to register for a new semester or course session until that balance is paid.

No transcript will be issued to a student, nor will one be forwarded to another institution when there is an unpaid balance. If an outstanding or an unpaid balance exists, a student will not be issued a transcript (official or unofficial) or receive a diploma.

Graduate Program Withdrawal and Refund Policy

All students who withdraw before a semester or term is completed may be assessed. As the semester or term begins, charges will be credited as outlined below provided a student completes and submits the official withdrawal process. If a student discontinues attending classes and does not notify the Registrar's Office in writing, the student forfeits all rights to a refund or reduction of fees. Graduate students are subject to the financial aid unofficial withdrawal policies as outlined in the Undergraduate Scholarship and Financial Aid section of the *University of Pikeville Catalog*. The refund schedule for graduate students is provided by the Graduate Program Tuition Refund Table shown below. The University reserves the right to make changes to the refund schedule when such changes are deemed necessary.

Graduate Program Tuition Refund Table*

Term/Semester	Official Date of Withdrawal	Charge	Refund
Courses of 12 – 16 weeks or greater in length	On or before the end of the first week of classes.	0%	100%
	On or before the end of the second week of classes.	25%	75%
	On or before the end of the third week of classes.	50%	50%
	On or before the end of the fourth week of classes.	75%	25%
	After the fourth week of classes	100%	0%
Courses of seven (7) or eight (8) weeks	On or before the end of the first week of classes.	0%	100%
	On or before the end of the second week of classes.	50%	50%
	On or before the end of the third week of classes	75%	25%
	Beginning start of fourth week of classes	100%	0%

^{*} All charges are accurate at the time of printing but are subject to change as deemed appropriate by the University of Pikeville in order to fulfill its mission or to accommodate circumstances beyond its control. Any changes may be implemented without prior notice and without obligation and, unless otherwise specified, are effective when made.

Return of Title IV Funds Policy

It is the responsibility of the Office of Student Financial Services to complete the calculation of the Title IV returns within the time frame required by federal regulation. Any student with Title IV funding that has attended at least one class will be run through the R2T4 calculation process. The Office of Student Financial Services will inform students of any aid changes once the R2T4 calculation is completed. Exit Counseling is completed in the Office of Student Financial Services if possible and if a student had received loans. All students that withdraw are emailed instructions to complete the counseling online at www.studentaid.gov. The University of Pikeville returns the calculated amount to the appropriate sources which may result in a bill owed to the University of Pikeville. The student receives notification from the Business Office of any remaining balance.

Title IV Return Calculation Procedures – The following steps outline the general procedures used to calculate a Title IV return:

- A. Determine the percentage of aid earned by calculating the percentage of the period that the student completed.
- B. Determine the amount of earned aid by applying the percentage of the total Title IV aid that was or could have been disbursed.
- C. Determine the amount of unearned aid by subtracting earned aid from disbursed aid.

D. If unearned funds must be returned, determine the school's and the student's shares.

The portion of the unearned funds the school is responsible to pay is returned by the school immediately. The student is then notified of the school's responsibility to return funds to the federal aid program, and is subsequently billed, via a balance on their institutional account for any funds the school was required to return. Any funds returned by the school represents a debt owed by the student to the University of Pikeville. A student may not enroll in subsequent terms, or have academic records released, until such time that all debts have been repaid to the institution. The University of Pikeville is required to return unearned financial aid assistance in a particular order when a student officially or unofficially withdrawals:

- A. Unsubsidized Direct Loans
- B. Subsidized Direct Loans
- C. Federal Perkins Loans
- D. Direct PLUS Loans
- E. Federal PELL Grant
- F. Federal SEOG
- G. TEACH Grant

Unofficial Withdrawal Policy

Once final grades are available at the end of every semester, a report is generated to identify Title IV aid recipients who have failed to earn a passing grade in at least one course. These students are considered to have been unofficially withdrawn from the university. The last date of attendance is determined and a Title IV refund calculation is run based on that date. If a final date of attendance cannot be determined, the university will use the midpoint of the term for the calculation. A letter is sent to the student to notify them of their aid eligibility.

Drop/Withdrawal/Refund Policy – Summer Terms (See previous Refund Policy table)

Students may drop or withdraw from summer classes through the first two days of the term with no penalty. Tuition is refunded at 100% during these first two days. Tuition is <u>not</u> prorated or refunded to students who drop or withdraw from summer classes after the first two days of the term. The University reserves the right to make changes in costs and fees when such changes are deemed necessary by the Board of Trustees.

Satisfactory Academic Progress (SAP) for Financial Aid Policy

Federal regulations require that all students who receive any federal or state financial assistance make measurable academic progress toward a degree at the University of Pikeville. Progress is determined by length of program, hours attempted versus hours earned (passing rate), and grade point average (GPA).

Enrollment: The minimum standard for full-time enrollment at the graduate level is 6 credit hours per semester. A minimum standard for the part-time enrollment (at least half time) at the graduate level is three credit hours per semester.

Length of Program: The time frame in which a student must complete their degree cannot exceed more than 150% of the published length of the student's program of study. Graduate programs can vary in length from 30 to 60 hours. Student in a 30-hour program can attempt up to 45 hours (or 90 credits in a 60-credit hour program) and still be eligible for financial aid. Once it is mathematically impossible to complete within the 150% timeframe (45 credits), the student will no longer be eligible for financial assistance. All semesters and classes attempted are used for the SAP Length of Program calculation regardless of whether the student received any financial aid for those specific classes. All classes taken, whether they are transferred, dropped, failed, repeated, or taken to change a major, will count as credit hours attempted toward the maximum time frame.

66.67% Passing Rate: For a student to be on-track to graduate with a degree from the University of Pikeville at an acceptable rate, the student must successfully complete at least 66.67% of all credit hours attempted. Successful completion is defined as completing the course with a grade of A, B, C or P. A student registers for 12 hours, they must pass 66.67% (or 9) of the original 12 hours the student initially registered for at the beginning of the term. Please note that courses attempted but withdrawn from (received a grade of W) will count against the passing rate, as well as a grade of D, F, or FN.

Grade Point Average (GPA): Satisfactory Academic Progress GPA requirements for a UPIKE student ensures the student is maintaining a satisfactory academic level to be successful in his/her academic endeavors. The minimum acceptable grade point average for graduate students is 3.0.

SAP Progressions

Financial Aid SAP Warning: Students that do not meet the GPA or Passing Rate criteria their first semester/term will be placed on Financial Aid SAP Warning. Students are still eligible for financial aid during this term, but must bring the GPA and/or Passing Rate up at the end of the semester/term you are on Warning.

Financial Aid SAP Suspension: If while on Warning, the GPA and/or Passing Rate does not improve to the required level, you will be placed on SAP Suspension. While on SAP Suspension, you will be ineligible for Federal, State, or institutional aid.

How to regain financial aid eligibility: A student must graduate or take courses at their own expense until they improve their GPA or Passing Rate.

Improve GPA: A student must raise GPA above minimum requirement by taking courses at their own expense. Once this is achieved, the student is required to notify the Office of Student Financial Services they have reached the minimum GPA requirement for further financial aid processing. *Students may not use hours earned off campus to improve the UPIKE GPA*.

Improve Passing Rate: A student must take the next semesters' courses at his/her own expense and meet the minimum requirement of passing at least 66.67% of the attempted credit hours. Once the classes have been taken and passed successfully, the student must notify the Office of Student Financial Services for further financial aid processing.

Student's Right to Appeal a SAP Suspension: If you, as a student, have had an extenuating circumstance that has prevented you from completing the minimum standards set within the UPIKE Satisfactory Academic Progress policy, you have the right to appeal the decision with the UPIKE Satisfactory Academic Progress Appeals Committee. The appeal must be submitted in writing and must explain the following items:

- a. What extenuating circumstance (i.e. death, personal injury, or illness, etc.) caused you fail to meet the minimum requirement of Satisfactory Academic Progress?
- b. What has changed to explain how you can now make the minimum requirements and be in satisfactory progress for the next evaluation period (i.e. What is your academic plan of action? And, include an academic plan).
- c. Submit documentation necessary to prove that the circumstance was beyond your control.

If the appeal is denied, the student will not be eligible to receive any institutional, state, or federal financial assistance. The student will be required to pay for classes at their own expense or through a private loan. Students receiving a denial will be informed by mail/email.

If an appeal is approved, the student will be informed by mail/email. The student will be placed on financial aid probation and may be placed on a SAP Academic plan for one term. After the probated term, the student will be monitored again and must be meeting the minimum standards of SAP or completing the SAP academic plan successfully that was designed for the student upon SAP appeal approval.

SAP Academic Plans are designed on a student-by-student basis. Plans and student progress will be monitored each term and reported by the Center for Student Success as outlined in each student's academic plan.

GRADUATE PROGRAMS STUDENT AFFAIRS

All student services provided by the University are available to graduate students. The Office of Graduate and Health Professions Student Affairs is located on the fifth floor of the Coal Building and responsible for all non-academic aspects of student life.

Please refer to the *University of Pikeville Student Handbook* for details concerning the various services offered and available to all students.

Student Rights

The campus environment is intended to foster the personal growth and development of the students who choose to attend the University of Pikeville.

Students are entitled to the basic rights and privileges of U. S. citizens. University of Pikeville students are expected to obey all federal, state, and local laws. In addition, they are expected to obey the rules and regulations established by the University. These specific regulations are contained in the *University of Pikeville Student Handbook* which is located on the University of Pikeville website for all students to view and understand. It is the policy of the University that no student shall be excluded from participating in, be denied the benefits of, or be subjected to discrimination in any program sponsored by the University because of gender, race, religion, sexual orientation, age, handicap, or national origin. To promote a broad learning environment, University of Pikeville welcomes applications from individuals of diverse backgrounds.

Students with Disabilities

The University of Pikeville is committed to providing equal educational opportunities and full participation for students with disabilities in accordance with Section 504 of the Rehabilitation Act of 1973 and the ADA Amendments Act of 2008 (ADAAA). The **Disability Resource Center (DRC)** supports the university's commitment by coordinating the accommodation process and providing services and reasonable accommodations based on each student's unique functional abilities. Our goal is to assist students in developing the skills necessary to advocate for their individual learning and living needs.

Some accommodations and services available include:

- Extended time and/or distraction-reduced locations for testing
- Classroom and lab accommodations
- Accessible housing, parking and building access
- Note-takers, Readers and Scribes
- Communication with faculty and advisors regarding student needs/concerns
- Assistance in obtaining alternate format textbooks and identifying assistive technology needs
- Information and referral for additional services

Eligibility Process for Accommodations:

- Students with disabilities are required to self-identify by registering with the Disability Resource Center.
- All students requesting accommodations must provide current documentation of their disability and need for accommodations before services can be provided.
- Once accommodations have been determined, DRC staff will meet with the student to review his/her rights and responsibilities and to provide accommodations letters for delivery to instructors.
- Accommodation letters are valid for one academic semester and must be renewed at the beginning of each semester in which the student is enrolled at UPIKE and desires to receive accommodations. (Accommodations will not be retroactively applied.)
- Student may request a review of accommodations at any time during the semester. Revisions may require
 additional documentation.

Reasonable academic accommodations are meant to provide equal access to students. It is not necessary to dilute curriculum or to reduce course requirements for individuals with disabilities. Students who receive academic accommodations complete the same course requirements as all students, and accommodations will not interfere with the fundamental requirements or objectives of an academic course.

For information, contact: Kathy Petot at (w) 606-218-5232, (c/t) 606-424-9710, (fax) 606-218-4472 or kpetot@upike.edu

ACADEMIC POLICIES FOR GRADUATE PROGRAMS

Many of the academic policies for graduate degree programs are the same as those policies for the undergraduate degree programs. This section highlights the differences in policies and directs the student to the appropriate section of the *University of Pikeville Catalog* when necessary. All students enrolled at the University of Pikeville are responsible for and expected to be familiar with the academic policies and procedures outlined in the catalog.

Student Responsibilities

Each student is responsible for being informed of the academic regulations and requirements set forth in the *University of Pikeville Catalog*, including all changes approved by the Faculty; official University of Pikeville policies and procedures set forth in the *University of Pikeville Student Handbook*; and other appropriate publications. Lack of knowledge of the policies of the institution does not excuse failure to meet the requirements or to comply with regulations contained in these publications.

Graduate Student Classification

Individuals who are admitted into a University of Pikeville graduate program are classified either as Degree Candidates or Special Students:

- 1. Degree candidates (regular) are those students seeking a graduate degree and meeting all requirements, general and program, for admission.
- 2. Special students (non-degree seeking) are those students not meeting all requirements for "regular" acceptance who may be admitted to certain classes as special, non-degree seeking students. Students must be qualified to enroll in classes with prerequisites and have the permission of the Graduate Program Director and the appropriate Dean to enroll. A student may take up to six (6) hours under this status. Students classified as non-degree are not eligible for financial aid.

Master's Level Online Course Credit

Academic credit is awarded in terms of semester credit hours. The University uses a three-digit numbering system for its courses. Graduate level courses are numbered ranging from 500 to 699.

The Master's level course work is delivered in an online mode using seven- or eight-week block terms (excluding weekends, holidays, fall/spring breaks). For example, a seven-week term is 33 days of instruction and one day for the final examination. As a general rule, graduate course work is offered as three-credit hour courses. The number of credit hours assigned to a course quantitatively reflects the outcomes expected, the mode of instruction, the amount of time spent in class, and the amount of outside work expected for the class. For online graduate level courses, each credit hour corresponds to approximately 48 hours of student engagement. This time may be spent on discussions, readings, lectures, study and research, and assignments. The basis for awarding credit is consistent with the guidelines of the American Association of Collegiate Registrars and Admissions Officers (AACRAO) [Lauren, Barbara (2006) *The Registrar's Guide: Evolving Best Practices in Records and Registration*, page 24.]. For seven and eight week terms, the following guidelines are used for Master's level course student engagement:

Credits to be Earned (Semester Credit Hours)	Minimum Hours Per Week 7-Week Course	Minimum Hours Per Week 8-Week Course
1 Credit	7 Hours	6 Hours
3 Credits	21 Hours	18 Hours
6 Credits	42 Hours	36 Hours

Graduate Student Course Load

A full-time graduate student must be enrolled in the equivalent of six (6) semester credit hours per term. A student may enroll in up to twelve (12) semester credit hours per regular term (16-weeks) without special permission. During the summer, a student may take up to six semester hours per summer term but no more than 12 semester hours overall for the summer. A student wishing to take an overload may do so only with the permission of the Program Director and the appropriate Dean. For programs that operate on an alternative model such as a cohort program, full-time is defined by the schedule of courses required.

Academic Advising

Upon acceptance into a University of Pikeville graduate program, the student will be assigned a graduate advisor (usually the Program Director) by the University Registrar or designee. Students who have questions about courses or their academic program should seek assistance from their instructors, their graduate advisor, the Program Director, or the University Registrar.

Military Activation Policy

This policy applies to any student activated or mobilized for military service. This does not include routine activation such as mandatory drills or annual training. It also does not apply to students who elect to enlist and attend Basic Combat Training (BCT), Advanced Individual Training (AIT), or other required training in lieu of completing the academic term.

A student who is activated by the military should speak with their program's academic dean and each of their instructors to determine which of the following four options would be best for them. In each case, a copy of the student's activation orders should be provided to the Registrar's Office and the Dean.

- 1. **Receive a Grade** For students deployed to military action after the 12th week of a 16-week term, the 6th week of an 8-week term, or the 3rd week of a 4-week term the instructor has the option of assigning the student a grade in the class based upon work completed. That grade would be submitted during normal final grade submission, no additional work would be required of the student.
- 2. **Receive an Incomplete** If the instructor feels that the portion of the semester remaining, and volume of uncovered material is such that it can be made up in a reasonable amount of time and effort, a grade of "Incomplete" may be given. The instructor completes an incomplete grade request form and notes the request is due to military activation. The student must ensure a copy of their military orders is received in the Registrar's Office along with the incomplete grade request form. It should be noted that the student is responsible for contacting the instructor once they are discharged from duty and fulfill their obligation to complete requirements for the course. The date of military discharge starts the student's clock counting down the 60 days allowed to complete the "I" grade.
- 3. **Withdrawal from a Class** If the student elects to withdraw from a class they must contact their advisor and complete a drop/add form. Withdrawal becomes effective only when the student presents the official notice (drop/add form) to the Registrar's Office according to the dates listed on the Academic Calendar.
- 4. **Withdrawal from the University** The student must send a letter to the Registrar's Office requesting to be withdrawn from all classes because of military activation and enclose a copy of the activation notification. The address is shown below:

Registrar's Office University of Pikeville 147 Sycamore Street Pikeville, Kentucky 41501

The letter must include the following information:

- Student name and UPIKE ID Number
- A statement that the student wishes to withdraw completely from the University or listing the individual courses for withdrawal.
- Student's **signature** (absolutely mandatory), and the **date**.

Refunds and Reimbursements – Students who <u>withdraw from the University</u> (withdraw from all classes) as a result of military activation will receive the following provided their financial aid had been verified and disbursed:

- 1. A refund for all tuition, room, board, and other program fees paid out of pocket i.e. those costs not covered by financial aid or loans for that semester. This refund does not include textbooks or other costs associated with taking courses.
- 2. Forgiveness of any remaining balance after all financial aid has been applied.
- 3. Receive a UPIKE grant in the amount of any direct loans taken during the affected semester. Student will have one year from their return from active duty to redeem the grant. Note: All aid awarded cannot exceed the cost of attendance per semester.

Questions about the refund and reimbursement for military activation should be directed to the University of Pikeville Business Office.

Grading System:

The graduate programs at the University of Pikeville use the same letter system of grading as the undergraduate program.

Grade	Definition	Point/Hour Value
A	Excellent	4 points per earned hour
В	Good	3 points per earned hour
С	Average	2 points per earned hour
D	Passing	1 point per earned hour
F	Failure	0 points per attempted hour
FN	Failure for Non-Attendance and/or Non-Participation	0 points per attempted hour
I	Incomplete*	0 points per attempted hour
W	Withdrew*	0 hours, 0 points
P	Pass*	Hours earned only
Au	Audit*	0 hours, 0 points

^{*} Not used in computing the grade point average.

Incomplete Grade

A grade of "Incomplete" is assigned only in instances where work is not completed because of serious illness, accidence, death in the immediate family, etc. Before an "I" grade can be given, the appropriate form must be completed by the student and approved by the faculty member, the Program Director, and the Dean of the appropriate college. Courses in which a student received a grade of "I" must be completed within 60 calendar days from the last day of final exams; otherwise, the grade becomes an "F". The responsibility rests with the student to complete the work within the allotted time. The grade of "I" does not count as credit ours earned and may in some circumstances influence a student's eligibility for financial aid.

Semester Final Grades

The Faculty member will prepare a syllabus for each course taught that clearly states the course requirements and methods of evaluation. Syllabi for courses will be made available to students at the beginning of each semester. At the end of each semester, grades are available approximately 48 hours after the scheduled final exam and can be viewed online using UPIKE Self-Service.

Grade Point Average

The grade point average (GPA) is computed by dividing the total number of quality points by the total number of hours attempted. Semester hours earned and those for which a grade of "F" or "FN" is recorded comprise the number of semester hours attempted. Courses for which students receive grades of "W" are not included in the grade point average computation.

Transcript of Record

Requests for transcripts must be made through an online process via the website www.upike.edu. Select Transcript Request from the Quick Links pull-down menu. Parchment Exchange, our associate company, will require an account to be created. The university will exercise the right to withhold the transcript of any student with outstanding financial obligation to the university. Students requesting a transcript should refer to the Financial Information section of the University of Pikeville Catalog for applicable fees.

Upon request, official transcripts will be mailed or sent as an e-Transcript directly to other institutions or agencies. Requests must specify the office and/or person to which the transcript is to be sent. Under special conditions, an official transcript, in a sealed envelope with the University Registrar's signature over the seal, may be given to a student. Transcripts given directly to students will be stamped "Issued to Student."

No transcript will be will be issued to a student, nor will one be forwarded to another institution when there is an unpaid balance. If an outstanding or an unpaid balance exist, a student will not be issued a transcript (official or unofficial).

Repeat a Graduate Course

Graduate students can repeat courses in accordance with the policy established by each graduate program. Please refer to the specific program requirements regarding repeat course policies.

If a student is allowed to repeat a course, the student will notify the University Registrar of his or her intent to repeat a course (Use: *Registration Permissions Request Form*). Only the grade received on the final attempt will be used for calculating the cumulative grade point average and for meeting degree requirements. However, the student's transcript will show all attempts and will indicate that the course was repeated. A course repeated at another institution will not affect the University of Pikeville GPA.

Schedule of Classes

The University of Pikeville publishes its schedule of classes via UPIKE Self-Service. Questions regarding the schedule of classes for a specific program should be addressed to the appropriate Program Director, Division Chair, or Dean.

Graduate Course Registration

Registration schedules are posted in advance of each semester and summer term. Students are strongly encouraged to meet with their Academic Advisors or the Program Director during these scheduled registration periods. Students needing assistance with registration, class selection, transcript evaluation, and academic counseling may contact the Registrar's Office at any time. Credit is granted only for courses for which students are properly registered. Registration for classes is also available using UPIKE Self-Service.

Cancellation of Courses

The University administration reserves the right to cancel any course for which an insufficient number of students has enrolled or for other reasons deemed necessary.

Withdrawal from a Graduate Course

A student wishing to withdraw from a course must consult with their graduate advisor and the Program Director (signature approval required). Withdrawal becomes effective only when the student presents official notice to the Registrar's Office. A student who withdraws from a course after drop/add dates for classes will receive grade of "W." Refer to the academic calendar for specific dates. When a student does not officially withdraw from a class or from the University, a grade of "F" or "FN" (failure for non-attendance) is incurred. For those graduate programs organized as a cohort, withdrawing from a course may result in a significant delay in progress through the program.

Withdrawal from the University

Any student who wishes to withdraw from the University must meet with the Program Director and must submit a completed *Withdrawal Form* to the Registrar's Office. Forms are available in the Registrar's Office. As part of the withdrawal process, students are required to meet with an employee of the Center for Student Success, the *Office of Student Financial Services*, Student Affairs, Residential Life, Library, and Business Office prior to submitting the form to the University Registrar. Grades for courses will be assigned in accordance with the course withdrawal policies and refunds are issued in accordance with the policies outlined in the Financial Information section of the *University of Pikeville Catalog*. Withdrawal becomes effective only when the student presents the completed *Withdrawal Form* to the University Registrar.

Graduate Academic Standing - Probation and Dismissal

Graduate students whose overall grade point average is at or above a 3.00 will be considered in good academic standing. Students who have less than a 3.00 overall GPA will be placed on academic probation or will be subject to dismissal from the program. Please refer to the specific program requirements regarding probationary and dismissal policies.

Graduate Program Grade Point Average Requirement

A student must have a 3.0 overall GPA in all program coursework, with no more than two C's in the program. In addition, the student must maintain a 3.0 GPA in the program. This standard must be met for the student to graduate. If the student falls below these standards, then that student shall be placed on academic probation or will be subject to dismissal from the program.

Academic Decisions & Academic Dismissal Appeal Process

At the end of the semester, the Registrar will provide the appropriate dean a list of students who are not in good academic standing. The dean will review the student's academic record and determine the academic status of these students. The dean will render a decision and provide a letter to the student to those students on probation or dismissed from the program.

Students who are academically dismissed may appeal their dismissal no later than 21 days of the date of receiving the outcome letter. All appeals will be submitted via the online Academic Suspension/Dismissal Appeals Form: (https://cm.maxient.com/reportingform.php?UnivofPikeville&layout_id=26). The appeal must detail why the student has failed to succeed academically and why the dismissal should be reversed. Academic Life Committee will review the appeal and render a final decision. The Committee is composed of academic deans, four faculty representatives, one from each college (College of Arts and Sciences, Coleman College of Business, College of Nursing and Human Services, Patton College of Education), the Dean of Students, and the Dean of Student Success. The Dean of Student Affairs will serve as the Chair. The appropriate academic dean will not have a vote for the status of their students, since they rendered the initial decision. The committee will submit a final report no later than 48 hours after a decision to the Provost.

Academic Dismissal

Inappropriate behavior in the class, clinical, field experience, or campus setting which seriously disrupts the learning process, endangers the health or safety of persons, or involve the destructive use or neglect of facilities will result in disciplinary action up to and including dismissal. Students dismissed for disciplinary reasons who wish to return must apply for reinstatement through Student Affairs.

Students who have been readmitted after Disciplinary Dismissal may be required to abide by a Readmission Contract which may specify one or more require activities or behaviors. Failure to abide by the Readmission Contract may result in the immediate dismissal of the student.

Academic Due Process – Course Grade Appeal

The undergraduate and graduate programs at the University of Pikeville use the same Course Grade Appeal Procedure. Please refer to the Undergraduate Academic Polices section of the *University of Pikeville Catalog* for details on the grade appeals procedure.

Academic Integrity Policy

The University of Pikeville is an academic community, and like all other communities, it can function properly only if its members adhere to clearly established goals and values. Essential to those goals and values is the commitment to the principles of truth and academic integrity. In order to articulate fully its commitment to academic integrity and to protect members of its community from the results of dishonest conduct, the University of Pikeville has adopted the following policies to address cases of academic dishonesty. Academic dishonesty includes, but is not limited to, the following acts:

1. Cheating

Intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise and/or claiming such material as one's own work product. The unauthorized receipt of or attempt to obtain answers or assistance during an examination or other gradable activity or event from another student or from an unauthorized device (phone, tablet, computer, etc.).

2. Plagiarism

Intentionally or knowingly taking another's ideas, work, or words as one's own without properly documenting or crediting the original source in any academic exercise and/or using these ideas, words, or statements in a paper or presentation without properly documenting or crediting the original source.

3. Fabrication

The deliberate falsification or invention of any information or citation in an academic exercise.

4. Facilitating Academic Dishonesty

Intentionally or knowingly helping or attempting to help another individual violate any provision of this policy.

5. Unauthorized Acquisition of Materials

The unauthorized receipt or attempt to obtain unauthorized examination questions/answers either for personal use or distribution to others.

6. Unauthorized Assistance

Attempting to give answers, receive answers, or assistance to another student during an examination or other academic exercise without authorization.

7. Academic Falsification

Any attempt to falsify grades and/or data results.

8. Academic Interference

Any attempt to interfere with another student's outcome on an academic exercise or clinical performance.

9. Failure to Report

Failing to report known violations of the Academic Integrity Policy

10. Unapproved Collaboration

Collaborating on any assignments such as homework, notes, take-home exams, draft papers, or projects in which the instructor does not allow collaboration.

If a violation of the Academic Integrity Policy is determined to have occurred, sanctions will be imposed upon the individual consistent with the nature, circumstances, and severity of the offense. Possible sanctions may include the following actions:

- 1. A written and/or verbal warning;
- 2. The requirement of additional academic integrity training;
- 3. A grade reduction for the academic exercise;
- 4. The assignment of an "F" or zero for the academic exercise;
- 5. A failing grade in the course with the inability to withdraw;
- 6. Dismissal from the university (automatic for repeat substantiated incidents of academic dishonesty); or
- 7. Other sanctions deemed appropriate by individual colleges.

Cases of suspected academic dishonesty will be addressed through the following process:

- 1. The faculty member teaching the course at issue, or the course director or exam proctor, will meet with the student as promptly as possible to review the allegations and any supporting evidence, and to give the student a chance to address that information. The faculty member may arrange for a third person to attend and document the meeting. At this time, the faculty member is encouraged to notify his or her division chair and/or dean that a possible violation of the policy has occurred.
- 2. If the faculty member concludes from the meeting that academic dishonesty more likely than not occurred, he/she will submit a written report to the appropriate academic dean describing the incident, attaching supporting evidence, and recommending a sanction consistent with this policy.
- 3. The dean will promptly provide the student with a copy of the faculty member's written report, recommended sanction, and supporting evidence. The student will be allowed five (5) business days to submit a written response, together with any supporting evidence the student may wish to offer in his or her defense, to the dean. The dean will include notice to the student concerning whether the allegation, if substantiated, will constitute a repeat offense of academic dishonesty.
- 4. The dean will review the record and either affirm or work with the faculty member to appropriately adjust the recommended sanction imposed to ensure that it is consistent with this policy. The dean will then notify the student and the faculty member, and provide a written notice of the decision to the Office of the Provost.
- 5. The student may appeal this decision to the provost. Grounds for appeal are limited to the following:
 (a) a procedural error that could have significantly affected the outcome, (b) previously unavailable and relevant evidence that could impact the outcome, (c) the finding of a violation is unsupported by

- the evidence, or (d) the penalties are too severe in light of the evidence. A student must submit his/her request for an appeal and the grounds for the appeal to the provost within five (5) business days after receiving notice of the dean's decision. If the provost finds one or more of the required grounds for appeal apply, an Academic Appeals Panel will be appointed.
- 6. The Academic Appeals Panel will be comprised of a five member, cross-college panel appointed by the provost. The selection of the panel will take place in consultation with the college/school deans (CAS, CCOB, CNHS, CNHS, PCOE, KYCOM, and/or KYCO). The provost will provide the panel with a copy of the record for the case.
- 7. The Academic Appeals Panel will elect one of its members to serve as chair for the appeal. The panel may request both the student and the faculty member to appear before the panel and answer any questions the panel may have prior to rendering a decision. The panel will ensure that any meeting with the student and faculty member is recorded. Regardless of whether the panel meets with the student and/or the faculty member, the panel members will meet to review the record for the case, deliberate on the merits, and render a decision. The panel may affirm, modify, or reverse the previous decision consistent with the possible sanctions outlined in this policy, and it must provide the student, the faculty member, and the provost a copy of its written decision. The provost will notify the dean of any changes from the original decision or sanctions. Unless an extension is needed, the panel will review the record, deliberate on the merits, and render a decision within fourteen (14) calendar days after the provost receives the request for an appeal.
- 8. The standard of proof for charges brought under this policy is whether the evidence and record shows that it is more likely than not that the student committed academic dishonesty.
- 9. If, at any stage of review, it is confirmed that an established act of academic dishonesty represents a repeat offense by a student who has been previously disciplined for academic dishonesty or an offense so egregious that it may compromise the integrity of the given course or program, or compromise the safety or security of individuals seeking health care from the university, dismissal from the university may be recommended or imposed. Dismissal is not necessarily limited to these grounds. The appropriate academic dean should promptly inquire of the office of the provost as to whether there are prior incidents of academic dishonesty by the student in any academic unit of the university.
- 10. Students may have an advisor (parent, legal guardian, attorney, etc.) present during the appeals process; however, that person will be limited to participating in a passive/advisory role only. Non-panel members may not address the convening panel unless invited to do so by the chair of the panel. If the student obtains legal counsel the university retains the right to postpone the proceedings until university legal representation can be present.
- 11. The Office of the Provost will be responsible for maintaining the official record of any case of academic dishonesty processed under this policy.
- 12. In the event of an appeal, the decision of the Academic Appeals Panel will be considered a final decision. Therefore, the grade appeal process may not be utilized to alter or overturn the decision made by the appeals panel. There is no further appeal beyond the Academic Appeals Panel.

Permission to Study at Other Institutions

Graduate students enrolled at the University of Pikeville who wish to take a course at another accredited institution for credit toward a University of Pikeville graduate degree must obtain the permission of the Program Director and, either, the University Registrar or the Dean of the appropriate college prior to enrolling in the course. Repeating a course at another institution will not change the grade received at the University of Pikeville. Policies regarding repeating a course and the transfer of a course vary from graduate program to graduate program. Please refer to the specific program guidelines for details.

Family Educational Rights and Privacy Act (FERPA) Policy

The University of Pikeville's policy with respect to its student educational records adheres to the requirements and regulations of the Family Educational Rights and Privacy Act. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level. Students to whom the rights have transferred are "eligible students."

Education records are records that are directly related to a student, maintained by an educational agency or institution, or by a party acting for the agency or institution. Record means any information maintained in any way, including, but not limited to: handwriting, video, audio tape, computer media, film, print, microfilm and microfiche.

The Family Educational Rights and Privacy Act (FERPA), (20 U.S.C. § 1232g; 34 CFR Part 99), is a federal law that protects the privacy of student education records. FERPA places limitations on the disclosure of personally identifiable information maintained by University of Pikeville with respect to students and limits access to educational records; including the right to inspect and review; right to consent to disclosures, with certain exceptions; the right to obtain copies; the right to seek amendment or correction of such records through informal and formal internal procedures; and the right to place a statement in such educational records explaining any information which the student believes to be inaccurate or misleading.

In accord with FERPA regulations, the University of Pikeville holds certain information to be "directory information," and therefore, subject to disclosure without prior consent from the student. Unless written objection is received no later than 30 days from the commencement of the academic year, the University of Pikeville designates the following items as directory information:

- Student's Name
- Address
- Electronic mail address (UPIKE only)
- Telephone listing
- Date and place of birth
- Photographs
- Major field(s) of study
- Dates of attendance
- Enrollment Status (full-time; part-time, undergraduate, graduate, professional)
- Most recent previous school attended
- Degrees awarded
- Classification/Grade Level
- Name of the undergraduate, graduate, and/or professional school attended
- Participation in officially recognized activities and sports
- Weight and height of athletes
- Honors and awards received

Educational records may be disclosed to school officials (administrators, staff, faculty, coaches, individuals and/or organizations to whom the University has contracted or are conducting studies on behalf of the University for services, studies, or research) who have a "legitimate educational interest" in the student without prior consent of the student. "School official" is defined by the Department of Education as the following:

- Person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff)
- Person or company with whom the University has contracted as its agent to provide a service instead of using University employees or officials (such as an attorney, auditor, or collection agent)
- Person serving on the Board of Trustees; and/or
- Student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks

A school official has a "legitimate educational interest" if a review of a student's record is necessary to fulfill the official's professional responsibilities to the University. School officials may have legitimate educational interests both in students who are currently enrolled and in those no longer enrolled.

If a significant threat to the health or safety of a student or other individual is determined, university personnel may disclose information from education records to any person, including parents, whose knowledge of the information is necessary to protect the health or safety of the student or other individuals. University personnel must maintain a record of the significant threat that formed the rational basis for the disclosure.

Other exceptions to education records include: sole possession records, records created and maintained by a law enforcement unit for a law enforcement purpose, employment records (unless contingent on attendance), medical records made and maintained in the course of treatment and disclosed only to those individuals providing treatment, records that only contain information about a student after he or she is no longer a student at the University of Pikeville (i.e. alumni records).

Objections must be in writing, signed and dated by the student, and be directed to the University of Pikeville Registrar's Office. Complaints regarding alleged violations of rights accorded students by the Family Educational Rights and Privacy Act may be directed to: Family Policy Compliance Office U.S. Department of Education, 400 Maryland Ave. S.W., Washington, D.C. 20202-8520. For additional information: http://www.aacrao.org.

CCOB, CNHS, and PCOE Graduate Degrees Offered

The University of Pikeville offers the following graduate degrees in the Coleman College of Business, College of Nursing and Human Services, and the Patton College of Education

Master of Arts (M.A.) in Education Master of Business Administration (M.B.A.) Master of Social Work (M.S.W.)

General Requirements for a Master's Degree

A candidate for a Master's degree is expected to fulfill the requirements for graduation at the time of admission or readmission to the University of Pikeville. The general requirements for the master's degree are as follows; however, requirements will vary from program to program. For specific program requirements, refer to the program listing in the *University of Pikeville Catalog* or consult with the program's director or Dean.

- 1. A minimum of 30 semester hours (at the 500 level or higher) with a minimum cumulative grade point average of 3.00 or higher. All course work (including transfer work) used to meet the requirements for a degree must have been completed no more than ten years prior to degree completion. For specific program requirements refer to the program listing in the *University of Pikeville's Undergraduate/Graduate Catalog*.
- 2. A grade of "C" or better in all course work used to meet program requirements. For specific program requirements refer to the program listing in the *University of Pikeville's Undergraduate/Graduate Catalog*.
- 3. Transfer hours are limited to a maximum of one-third of the program requirements. Only course work with a grade of "B" or better will be accepted for transfer. All transfer course work is listed with a grade of "P" on the University of Pikeville transcript. For specific program requirements refer to the program listing in the *University of Pikeville's Undergraduate/Graduate Catalog*.
- 4. A minimum of nine of the last twelve semester hours used to complete the master's degree requirements must be taken at the University of Pikeville.
- 5. Successful completion of all program degree requirements
- 6. Successful completion of institutional and program assessment requirements.

A Second Master's Degree

A student may receive two master's degrees. However, simultaneous enrollment in two or more programs and the granting of two or more master's degrees at the same time is not permitted.

Student Responsibility for Graduation

The ultimate responsibility for fulfilling graduation requirements rests with the individual student. Students should consult with their Academic Advisor to ensure that they are meeting all degree requirements. Students must apply for graduation by the deadline date published on the academic calendar. Applying late does not guarantee your name will appear in the program or that you will be permitted to participate in the Commencement ceremonies. Students may apply for graduation by accessing UPIKE Self-Service Graduation Application or by visiting the Registrar's Office. Diplomas will be mailed approximately 45 days after the semester/term that degree requirements and all financial obligations to the University have been met. If an outstanding or an unpaid balance exist, a student will not receive a diploma until the balance is zero.

Students who applied for graduation, but failed to meet all requirements by the anticipated completion date may be required to reapply to the institution, reapply for graduation, meet graduation requirements based on the catalog that is active at that time, and repay the \$250 graduation fee.

Additional information can be obtained by contacting the University Registrar.

COLEMAN COLLEGE OF BUSINESS

GRADUATE CURRICULUM, COURSE REQUIREMENTS, AND COURSE DESCRIPTIONS

Master of Business Administration (M.B.A.)

The University of Pikeville Master of Business Administration (M.B.A.) program is part of the Coleman College of Business. The M. B. A. at UPIKE is delivered online with courses being offered year-round. The program is designed specifically for working professionals and their organizations. Professionals increase their business knowledge and maximize analytical and decision-making skills through participation in the program, which emphasizes application of business principles and demonstration of management competencies. The program's integrative management approach provides cross-functional, cross-industry, and boundary-spanning perspectives on management.

The use of complex business cases requires students to assume the roles and responsibilities of organization leaders and managers. The challenges and tasks confronting students are modeled on those faced by managers on a daily basis as they meet organizational responsibilities.

M.B.A. Admission Requirements

The University of Pikeville M.B.A. program admission standards meet or exceed the general admission requirements for graduate programs. In addition to the general admission requirements, applicants to the M.B.A. program must meet the following criteria:

- 1. Complete the M.B.A. Graduate Application and submit the application fee;
- 2. An undergraduate degree from a regionally accredited institution; *
- 3. A recommended 3.00 GPA in their undergraduate work;
- A minimum of two professional recommendations addressing career potential and ability to do graduatelevel work.

Applications, letters of recommendation, and transcripts of all undergraduate and graduate work should be sent to:

M.B.A. Admissions University of Pikeville 147 Sycamore Street Pikeville, KY 41501

Email: cathymaynard@upike.edu.

All M.B.A. program applications will be reviewed by the M.B.A. Graduate Program Review Committee who will make the final admissions determination. A personal interview may be recommended prior to enrollment.

* If an applicant is enrolled in a professional school (pharmacy, dentistry, medical, etc.), or has earned a professional degree without a baccalaureate degree, a waiver from this policy may be requested by submitting a letter to the Dean of the Coleman College of Business documenting evidence for the waiver. The request will be reviewed by the Graduate Program Review Committee for consideration and the applicant will be notified of the committee's decision.

M.B.A. Transfer Credit Policy

M.B.A. students may not transfer more than six credit hours of graduate level work from a regionally accredited institution to the University of Pikeville. All course work (including transfer work) used to meet the requirements for a degree must have been completed no more than ten years prior to degree completion.

M.B.A. Repeat Course Policy

The graduate student may repeat a course one time if a grade of 'C' or below was earned in the course. Only the grade received on the last attempt is computed into the cumulative grade point average. No more than two courses may be repeated. The semester hours will be counted only once toward meeting the program requirements.

M.B.A. Program Grade Point Average Requirement

A student must have a 3.0 overall GPA in all program coursework, with no more than two C's in the program. In addition, the student must maintain a 3.0 GPA in the program. This standard must be met for the student to graduate. If the student falls below these standards, then that student shall be placed on academic probation or will be subject to dismissal from the program.

M.B.A. Learning Outcomes

At the conclusion of the degree program, the graduate will:

- 1. Evaluate business problems by utilizing modeling and systems thinking to make decisions across functional areas:
- 2. Apply effective written and verbal communication skills, including interpersonal interaction and team behavior;
- 3. Integrate principles of executive leadership and managerial development;
- 4. Assess the impact of contemporary business trends on business decisions;
- 5. Use principles of strategic planning to improve long-term business viability; and
- 6. Describe the various forms of economic systems and models used by world-class organizations.

M.B.A. Curricular Requirements

To earn the M.B.A. a student must complete thirty (30) credit hours of graduate level course work. All course work (including transfer work) used to meet the requirements for a degree must have been completed no more than ten years prior to degree completion. University of Pikeville reserves the right, even after the enrollment of students, to make individual curricular adjustments whenever serious deficiencies or needs are found. This may involve additional coursework whenever necessary. Deficiencies will be determined by the program faculty. Students may be required to take such courses without credit toward the master's degree and at their own expense.

In addition to completing the hours required in the program, the student will submit a portfolio to the Office of the Dean of the Coleman College of Business during their final semester in the UPIKE MBA program. The portfolio will consist of papers, projects and cases completed throughout the program. A narrative will accompany the case materials to integrate the portfolio with the M.B.A. learning outcomes. The evaluation of the portfolio contents will be completed by the graduate faculty in the Coleman College of Business.

Students admitted to the M.B.A. program will complete 30 credit hours, including Core Requirements and the option of selecting one of four specializations: Professional, Entrepreneurship and Innovation, Healthcare Management, or Strategic Communication. The M.B.A. curriculum is presented below. A student can complete multiple specializations; however, only one degree will be awarded.

BUS 590 Strategic Management(3)
This course is designed for students to attain the skills necessary to create and sustain competitive advantage through strategy formulation. This is accomplished through learning how to analyze industries and competitors to ascertain the risks and opportunities, and developing the firm's resources and capabilities to capitalize on strengths and overcome weaknesses. The course will provide exposure to the theories, models, and techniques of strategic management through the text, cases, video, and experiential activities.
BUS 594 Healthcare Management Capstone(3)
This course is designed to provide a culminating experience for students by integrating knowledge and skills acquired from the previous coursework. Students demonstrate a mastery of the competencies of the MBA in Healthcare Management program through a research project by addressing complex problems within the healthcare industry.
BUS 598 Entrepreneurship Capstone(3)
The capstone course is to be taken in the final term. It focuses on innovation by integrating and applying the skills and knowledge acquired throughout the M.B.A. program. With the approval of the instructor, a variety of project options are available, such as consulting for a real company, creating a new strategic initiative for an existing organization, or the planning of a new business. With each of these projects, students must research, analyze, and design compelling, innovative solutions. The course culminates with a written project report and presentation. organizational growth through data-driven analytics.

PATTON COLLEGE OF EDUCATION

GRADUATE CURRICULUM, COURSE REQUIREMENTS, AND COURSE DESCRIPTIONS

Master of Arts in Education - Teacher Leader Program

The Teacher Leader Master's Program is engaging, convenient, and designed to meet the needs of practicing teachers. Courses are eight weeks in length. Course content incorporates classroom, school, and/or district data, making it practical and relevant for todays' teachers. There are four certification options for this program:

Option 1: Master of Arts in Education with Rank II (30 credit hours)

Option 2: Master of Arts in Education with Rank 1 (30 credit hours)

Admission Criteria

Admission to any graduate teacher education program is not equivalent to admission to candidacy in the Master of Arts in Education: Teacher Leader Program (TLP). Additional information on admission criteria is available in the <u>Graduate Teacher Education Handbook</u>.

General Admission

Before an applicant can be enrolled in any graduate teacher education course he or she must:

- 1. Complete an application to the Graduate Teacher Education Program (GTEP).
- 2. The applicant must submit a completed and signed character and fitness questionnaire contained in Section III of the CA-1.
- 3. The applicant must present a signed Administrator Agreement with the principal of the school of employment. If the applicant is not actively employed within a P-12 school, he/she must have a signed Administrator Agreement designating a classroom/teacher partner with whom the applicant can collaborate to complete all required clinical experiences before being admitted to the program.
- 4. Submit official transcripts of all undergraduate and graduate work sent <u>directly</u> from the credit-granting institution to the University Registrar at the University of Pikeville. (Up to 6 hours of transferred credits are allowed.)
- 5. Have, on official transcripts, a minimum, non-rounded cumulative GPA of 2.75 on a 4.0 scale from the degree-granting institution (or a 2.6 prior to 2012) and a 3.0 on a 4.0 scale on all relevant graduate level coursework.
- 6. The applicant must sign an acknowledgement form stating that he/she can access the online GTEP Handbook.
- 7. The applicant must submit a copy of his/her P-12 statement of eligibility or an initial certificate earned by completion of an approved program through an approved educator preparation provider in **Kentucky**; or, for out-of-state applicants, a statement of eligibility or an initial certificate issued by the Education Professional Standards Board per 16 KAR 5:020 and earned by completion of a program through an approved educator preparation provider. (The Certification Inquiry from the EPSB Website demonstrating P-12 certification will also be acceptable evidence.)
- 8. If the applicant's first language is not English, he/she must provide evidence of English proficiency (i.e., TOEFL score of 80 on the iBT or 550 on the PBT).
- 9. The applicant must submit copy of minimum Kentucky passing scores on Praxis exams required for certification area, which can be indicated by a **Statement of Eligibility (SOE)** or **Teaching Certificate** issued by the state of Kentucky.
- 10. The candidate must review and sign a declaration to uphold the Professional Code of Ethics for Kentucky School Personnel defined in 704KAR20:680.
- 11. Agree to uphold the Model Code of Ethics for Educators (MCEE).
- 12. The applicant must demonstrate appropriate characteristics of a teacher leader by receiving no *level 1* (*Rarely or Never*) ratings on each section and a positive final recommendation on the Evaluation for Admission to the Graduate Teacher Education Program, that includes sections on professional qualities, critical thinking, communication skills, creativity, and collaboration. (Three are required.)
- 13. The candidate must complete a pre-self-assessment of the Teacher Leader Model Standards.

- 14. The applicant must have a signed statement indicating understanding and commitment to developing the expected professional dispositions.
 - (Please see the Graduate Teacher Education Handbook for more information.)

Applications and required forms are available in the University of Pikeville Graduate Education Office, Admissions Office, or University of Pikeville website.

Admission to Candidacy

An applicant must first meet the requirements to enroll in the Graduate Teacher Education Program. After twelve hours of approved graduate coursework, the applicant may apply for admission to candidacy. The following will be completed as a part of the first 12 hours.

In order to apply for candidacy, he or she must:

- 1. Obtain a GPA of at least a 3.0 on a 4.0 scale on the first 12 hours of relevant, transferable, education graduate coursework.
- 2. Submit an approved professional growth plan based on the *Kentucky Framework for Teaching*.
- 3. Have no ratings at the *ineffective* level on the teacher partner assessment of the Teacher Leader Model Standards.
- 4. Must attain a score of 3 or better on each of the professional dispositions identified on the Candidate Dispositions Inventory as assessed by graduate education faculty.
- 5. Be approved for admission to candidacy in the TLP by the Graduate Teacher Education Committee. (Please see the Graduate Teacher Education Handbook for more information.)

Classification Policy

All applicants in the Graduate Teacher Education Program (GTEP) may only take 12 hours before application to candidacy is required. Once admission to candidacy requirements are met, the applicant will be considered a candidate for the Master of Arts in Education: Teacher Leader Program Degree (TLP).

Transfer Policy

No more than six semester hours of graduate coursework may be transferred to the University of Pikeville to be applied as credit toward the Master of Arts in Education: Teacher Leader Program. These hours must be completed in a state or NCATE/CAEP approved teacher education program, be acceptable substitutions for required coursework for the University of Pikeville Teacher Leader Program, and the applicant must have earned a "B" or better for any course to be considered transferable.

The University Registrar will determine the transferability of any course completed at another institution. Any transferable coursework must be at the graduate level and must have been completed within the last three years prior to admission to the Graduate Teacher Education Program.

Academic Advisor

Each applicant in the University of Pikeville Graduate Teacher Education Program is assigned an advisor from within the Graduate Teacher Education Program who will guide him or her in completing educational goals, including requirements for the degree.

Orientation

All initial applicants will be provided with information at the beginning of their first semester on how to access UPIKE email, Canvas, library resources, and the <u>Graduate Teacher Education Handbook</u>. They will also learn how to contact their academic advisor.

Graduate Course Load

Students may enroll on a part-time or full-time-basis. Full-time status in the Graduate Teacher Education Program requires enrollment in six semester hours of graduate level coursework. A maximum of twelve hours may be granted with special permission by the Dean of the PCOE. All courses are designed for adults who are employed full-time.

Good Standing

The applicant or candidate must maintain a minimum GPA of 3.0 on a 4.0 scale in all graduate level course work to be considered in "good standing."

- Repeat Policy: Courses may be repeated twice without special approval.
- <u>Withdrawal Policy</u>: An applicant or candidate wishing to withdraw from a course must consult with his or her graduate advisor. Withdrawal becomes effective only when official notice has been presented to the University Registrar. Anyone who wishes to withdraw from the University must submit a completed "Withdrawal Form" to the University Registrar.
- <u>Probation and Suspension Policy</u>: When an applicant or candidate's GPA falls below 3.0 on a 4.0 scale, he or she will automatically be placed on academic probation for one semester during which the GPA must be raised to the required 3.0 level. If the GPA is not successfully raised after one semester of probation, the applicant or candidate may be officially suspended from the program. If an applicant or candidate is officially suspended from the Graduate Teacher Education Program, he or she must remain inactive for one semester before re-applying for admission.
- <u>Readmission Policy</u>: An applicant or candidate may be inactive for up to one year for any reason except
 official suspension without reapplying for admission. The applicant or candidate will be required to
 complete a readmission form from the graduate education office and must attend the Campus Orientation.

Exit Criteria

The Master of Arts in Education: Teacher Leader Program requires successful completion of thirty-one semester hours of graduate level coursework. In addition, candidates must meet the following exit criteria:

- 1. Complete an application for graduation.
- 2. Complete 24 semester hours of TLP coursework at the University of Pikeville with a minimum, non-rounded GPA of 3.0 or higher on a 4.0 scale in graduate-level coursework.
- 3. The candidate must complete the University of Pikeville Teacher Education Unit and Program Operations Survey.
- 4. The following will be completed as a part of EDU 570:
 - a) Score a 2 or better on the EDU 570 presentation of research results.
- 5. Complete a post self-assessment of the Teacher Leader Model Standards.
- 6. Have no ratings at the *ineffective* level on the Teacher Leader Model Standards (TLMS) for the Teacher Performance Assessment (TPA) as assessed by the teacher partner and school administrator based on classroom observations and performance products.
- Attain a score of 3 or better on each of the dispositions identified on the Candidate Dispositions
 Inventory as assessed by the teacher partner and school administrator.
 (Please see the Graduate Teacher Education Handbook for more information.)

Education Teacher Leader Program Course Descriptions EDU 510 Leadership Skills for Today's Teachers I......(3)

This first course in the program explores the various theories and practices in teacher leadership (i.e. co-teaching, mentoring, and peer coaching) and ways teacher leadership impacts P-12 student learning. It introduces teacher leader candidates to professional literature and to the knowledge and skills required for analysis of classroom, school, district data, school and district improvement plans, and available resources. This knowledge assists the Teacher Leader candidate in the refinement of his/her Individualized Professional Growth plan.

In this course teacher leader candidates will learn to read professional literature and to develop and evaluate both quantitative and qualitative research that informs their instruction and assessment. They will learn how to use research to answer specific questions that arise in their own classrooms, schools, and districts. They will collaborate with others in their schools and/or districts and candidates in their program and profession to develop a question or questions that will be used for future collaborative research in EDU 570. Must be taken at the University of Pikeville and must be completed before taking EDU 570. Prerequisite or Corequisite: EDU 510.

EDII 650	Instructional Design	(2)
上りし 050	Instructional Design	(3)

This course is designed to enhance the teacher leader candidate's ability to design instruction aligned with state and national standards to actively engage and motivate P-12 learners. This course integrates the principles of the *Universal Design for Learning Guidelines* (udlguidelines.cast.org | CAST, Inc. 2018), which includes using multiple means of student engagement, multiple means of representation, and multiple means of action and expression to advance learning. This course familiarizes candidates with the *Kentucky Framework for Teaching* and addresses self-assessment and professional growth. This course requires clinical implementation. *Prerequisite or Corequisite: This course can only be taken during the last semester of the candidate's coursework.*

COLLEGE OF NURSING AND HUMAN SERVICES

SCHOOL OF SOCIAL WORK GRADUATE CURRICULUM, COURSE REQUIREMENTS, AND COURSE DESCRIPTIONS

Master of Social Work (M.S.W.)

University of Pikeville Master of Social Work (MSW) program is designed to prepare students for advanced practice in the field of social work and offers a specialized curriculum focused on mental health and addictions. The MSW is delivered online with courses being offered year-round to meet the needs of working professionals. The program also offers two programs of study: a 30-hour Advanced Standing Option for students who hold a degree from a program accredited by the Council on Social Work Education (CSWE) and meet additional admission criteria; and a 60-hour program for students who have completed a baccalaureate degree in an area other than social work or completed a social work degree with a program that was not accredited by the CSWE.

Social Work Admission Requirements: Regular Standing, 60-Hour Program

*To be completed by students who <u>do not</u> hold an undergraduate social work degree from a program accredited by the Council on Social Work Education (CSWE) or who do not meet additional criteria for Advanced Standing.

- 1. Complete the MSW graduate application and submit the application fee;
- 2. An undergraduate degree from a regionally accredited institution;
- 3. A preferred overall GPA of 3.0 (on a 4.0 scale). Must submit transcript from degree granting institution and transcripts from any graduate work;
- 4. A minimum of 21 credit hours of undergraduate liberal arts coursework *
 - a. Six hours of social science (sociology, psychology, communication, political science, economics, anthropology, and human geography)
 - b. Six hours in arts and humanities (philosophy, ethics, art, music, theatre, religion, foreign language, and literature/writing)
 - c. Three hours in an introductory biology course or human based biology course.
 - d. Six hours in natural sciences or mathematics Must include a course in statistics.
- 5. The applicant must submit three recommendation forms from individuals in the following categories:**
 - a. Professor
 - b. Social Work Professor
 - c. Field Supervisor
 - d. Professional Social Worker
 - e. Work or Volunteer Supervisor
- 6. The applicant must sign an acknowledgement form stating that they can access and have reviewed the online MSW Handbook.
- 7. The applicant must review and sign a declaration to behave in a manner consistent with the National Association of Social Workers Code of Ethics.
- 8. The applicant must sign an acknowledgement form stating that they are willing to submit to a background check and drug screen which may be necessary for field education and that they may be responsible for the costs of such.
- 9. The applicant must sign an acknowledgement form stating that they understand that due to the online nature of the course they may be required to submit recorded video of self as part of program and/or class requirements.
- 10. The applicant must submit a personal statement approximately four pages in length, double-spaced, which addresses the following:
 - a. Why have you chosen to study social work? Why are you seeking graduate education at this time? What are your career goals for the five years following graduation?
 - b. Describe the prior experiences, if any, that you have had with online learning, identify any challenges that you anticipate with completing an online MSW, and briefly discuss your strategies for academic success.
 - c. Discuss specifically how you will plan for and accommodate the required hours per week needed to complete the field hours while in the program. If you are expecting to be employed while in the program, discuss how you will ensure your availability for field placement hours.
 - d. What information or experience influenced your choice in making an application to this school? How will you contribute to the University of Pikeville MSW program and to your peers?

Social Work Admission Requirements: Advanced Standing, 30-Hour Program

*To be completed by students who have completed an undergraduate degree in social work from a program accredited by the Council on Social Work Education (CSWE).

- 1. Complete the MSW graduate application and submit the application fee:
- 2. An undergraduate social work degree from a program accredited by the CSWE with no more than eight years between degree conferral and the start date of the MSW program;
 - a. Applicants holding a degree conferred more than eight years prior to beginning the MSW program <u>may</u> be considered if the applicant has been consistently employed in the field and/or consistently maintained a professional social work license. Documentation of employment and/or license is required.
- 3. A required overall GPA of 3.0 at the degree granting institution (on a 4.0 scale). Must submit transcript from degree granting institution and transcripts of any graduate work;
- 4. A grade of B or better on all undergraduate required social work courses;
- 5. The applicant must submit three recommendation forms from individuals in the following categories:*
 - a. Professor
 - b. Social Work Professor
 - c. Field Supervisor
 - d. Professional Social Worker
 - e. Work or Volunteer Supervisor
- The applicant must sign an acknowledgement form stating that they can access and have reviewed the online MSW Handbook.
- 7. The applicant must review and sign a declaration to behave in a manner consistent with the National Association of Social Workers Code of Ethics.
- 8. The applicant must sign an acknowledgement form stating that they are willing to submit to a background check and drug screen which may be necessary for field education and that they may be responsible for the costs of such:
- 9. The applicant must sign an acknowledgement form stating that they understand that due to the online nature of the course they may be required to submit recorded video of self as part of program and/or class requirements;
- 10. The applicant must submit a personal statement approximately four pages in length, double-spaced, which addresses the following:
 - a. Why have you chosen to study social work? Why are you seeking graduate education at this time? What are your career goals for the five years following graduation?
 - b. Describe prior experiences, if any, that you have had with online learning, identify any challenges that you anticipate with completing an online MSW, and briefly discuss your strategies for academic success.
 - c. Discuss specifically how you will plan for and accommodate the required hours per week needed to complete the field hours while in the program. If you are expecting to be employed while in the program, discuss how you will ensure your availability for field placement hours.
 - d. What information or experience influenced your choice in making an application to this school? How will you contribute to the University of Pikeville MSW program and to your peers?

*Please note that students applying for advanced standing must submit at least one recommendation form from a field supervisor and/or current employer.

The application <u>process</u> is the same for both regular standing and advanced standing applicants. All required application materials should be sent to: MSW Admissions, University of Pikeville Social Work Program, 147 Sycamore Street, Pikeville, KY 41501, Email: socialwork@upike.edu.

All completed program applications will be reviewed by the Social Work Admissions Committee who will make the final admissions determination. A personal interview may be requested prior to decision.

^{*}Please note that any liberal arts coursework not completed on admission to the MSW program, must be completed before beginning the advanced curriculum.

^{**}If you have graduated within the last five years, you must submit an academic recommendation.

Orientation

Once accepted all students will be required to complete an online orientation to the MSW program that will include, but is not limited to, addressing MSW program policies (academic and behavioral), how to access email and navigate Canvas, the learning management system, library resources, how to contact their advisor, preparation for and administration of the MSW program exit exams, and other topics deemed appropriate by program faculty and administrators.

Academic Advisor

Once accepted to the UPIKE MSW program, each student will be assigned an academic advisor from the MSW faculty who will guide them in completing their educational and career goals, including requirements for the degree.

Transfer Policy

Regular standing (60-hour program) students may transfer up to 12 semester hours and Advanced Standing (30-hour program) students may transfer up to six semester hours of graduate coursework to the University of Pikeville to be applied as credit toward the MSW program. These hours must have been completed at an MSW program accredited by the CSWE no more than five years prior to transfer request, must be acceptable substitutions for required coursework for the UPIKE MSW program, and the applicant must have earned a "B" or better for any course to be considered transferable. The UPIKE MSW program recognizes that there are considerable differences regarding the design of social work programs and therefore does not guarantee credit transfer.

Students wishing to transfer from another CSWE accredited program must complete the UPIKE MSW application process, meet all admission requirements, and must also be in good standing with the other institution. Evidence of good standing is required (i.e. letter of good standing from program director, dean, or their designee).

Life Experience Credit

The University of Pikeville Social Work Program <u>does not</u> give credit for life experience or previous work experience to social work students as substitutions for curriculum or field education requirements.

MSW Repeat Course Policy

The graduate student may repeat a course one time if a grade of 'C' or below was earned in the course. Only the grade received on the last attempt is computed into the cumulative grade point average. No more than two courses may be repeated. The semester hours will be counted only once toward meeting the program requirements.

Good Standing

The applicant or candidate must maintain a minimum GPA of 3.0 on a 4.0 scale in all graduate level coursework to be considered in "good standing." When students have completed 12 or more semester hours of graduate course work with a cumulative GPA of less than 3.0 on a 4.0 scale, they will automatically be placed on academic probation for one semester during which the GPA must be raised to the required 3.0 level. If the GPA is not successfully raised after one semester of probation, they may be officially dismissed from the program. If officially dismissed from MSW program, they must remain inactive for one 16-week semester before re-applying for admission.

Readmission Policy

A graduate application may be inactive for up to one year for any reason except official suspension without reapplying for admission. Students in good standing who do not enroll within three terms after the initial admission term will be required to reapply to the MSW program. Readmission can only be considered if the student will complete all requirements for the MSW degree within six years from the initial enrollment date.

Exit Criteria

In addition to the successful completion of curriculum, the MSW program requires the following exit criteria:

- 1. Complete the application for graduation.
- 2. The student must complete all UPIKE MSW program surveys.
- 3. The student must successfully pass the MSW exit exam(s).
 - a. Students in the Regular Standing, 60-hour program must pass the generalist social work practice exam, known as the Foundational Exam, with a 70% or higher in order to progress to the specialized curriculum.
 - b. All MSW program students must pass the advanced social work practice exam, known as the Comprehensive Exam, with a 70% or higher to fulfill degree requirements.
 - c. The exams are administered three times per calendar year toward the end of the Fall, Spring, and Summer semesters.

- d. Students who fail an exam after their first attempt will be notified and will need to schedule a virtual meeting with program administrators and/or their advisor to discuss the results and plan to retake the exam. Students are only permitted to retake the exam once and are permitted to do so in 4 to 12 months after the first attempt. Exceptions to this time frame could be granted by program administrators at the student's written request which explains need and rationale for the request.
- e. Students who wish to retake the exam must submit their intention to do so in writing to their academic advisor within one month of the regularly scheduled exam date. The student's advisor will arrange the retest and send a confirmation that the student has been scheduled, and any additional instructions and/or policies.
- f. Students who fail an exam for the second time will be dismissed from the program. The student will be eligible to apply for readmission to the MSW program and will enter the program as a new student and complete all required courses for the degree. Students may begin taking classes eight months after the date of the second failed exam attempt.

MSW Curricular Requirements

Students enrolled in the Regular Standing program must complete a total of 60 credit hours of graduate level coursework – 30 hours of foundational coursework focused on generalist social work practice and 30 hours of specialized curriculum.

Students in the Advanced Standing program must complete a total of 30 credit hours of graduate level coursework focused on a specialized curriculum.

All course work (including transfer work) used to meet the requirements for a degree for an MSW must have been completed no more than five years prior to degree completion. The University of Pikeville reserves the right, even after the enrollment of students, to make individual curricular adjustments whenever serious deficiencies or needs are found. This may involve additional coursework whenever necessary. Deficiencies will be determined by the program faculty. Students may be required to take such courses without credit toward the master's degree and at their own expense.

Education Manual.

Directed study in a specific area or issue in social work not covered by existing courses within the foundation curriculum. Must be appropriate for generalized social work practice. Interdisciplinary study is welcomed and encouraged. Permission of instructor(s) granted upon approval of a student generated proposed plan of study. Prerequisites: Fifteen (15) hours of foundation curriculum AND consent of the Instructor, Division Chair, and appropriate Dean(s).

This course builds on the knowledge base of human behavior and the social environment and examines psychopathology from an ecological perspective and explores historical and contemporary approaches to diagnosis and treatment. Using the Diagnostic and Statistical Manual of Mental Disorders as an organizing framework, this course will explore the impact of bio-psycho-socialspiritual influences on the incidence, course, and treatment of mental disorders on diverse populations across the lifespan. The course emphasizes the acquisition of diagnostic skills as they relate to comprehensive social work assessment and the development of social work interventions. The course also introduces and briefly describes the most effective treatments, and treatment combinations for mental illness, including medication. Ethical issues in clinical social work practice with diverse and multicultural clients and the role that clinical social workers play in an interprofessional treatment team are addressed. Prerequisite: Admission to Advanced Standing MSW Program or completion of foundation curriculum.

This advanced clinical concentration course will examine the etiology and epidemiology of chemical and behavioral addictive disorders. Addiction is explored from multiple theoretical perspectives (biological, sociological and psychological) and the relationships between and among addictive behaviors and socioeconomic status, race, ethnicity, culture, religion, gender, sexual orientation, gender identity, age, physical and mental ability, spirituality, religion, and intersectionality are investigated. The course will also evaluate the holistic impact of addiction on clients, families, social support networks, workplaces, and communities. Emphasis is placed on the development of the knowledge and skills necessary to effectively engage in the prevention, assessment, diagnosis, and treatment of addictive disorders using evidence-based approaches. Prerequisite: Admission to Advanced Standing MSW Program or completion of foundation curriculum.

This course will focus on the inescapable human experiences of loss, grief, and bereavement that occurs across the lifespan. This course focuses on providing a theoretical base for understanding the behavioral and psychosocial aspects of loss, death, and bereavement and builds on generalist knowledge of human behavior. More specifically, the course explores how grief, mourning and bereavement is influenced by age, developmental stage, gender, race, culture, ethnicity and social context, as well as how cultural, spiritual, and religious views impact perceptions of terminal illness, suicide, traumatic death, and disenfranchised grief. Special attention will be given to evidence-based clinical strategies, techniques, and goals of interventions in work with bereaved individuals, families and group across the lifespan. Prerequisite: Admission to Advanced Standing MSW Program or completion of foundation curriculum.

This course provides the advanced knowledge and skills necessary to engage in clinical practice with children and adolescents. Students will apply various theories and perspectives related to human behavior and evidenced based intervention approaches to effectively engage in the differential assessment and treatment of children and adolescents. The course highlights the importance of "family" inclusion, as well as the identification of risks, strengths, and resiliency factors when working with children and their families. Special consideration is given to the unique ethical and legal challenges associated with working with minors and the impact of diversity and culture. Prerequisite: Admission to Advanced Standing MSW Program or completion of foundation curriculum.

The course expands the knowledge base and skill set of generalist social work practice by emphasizing advanced clinical practice with diverse clients, including children, youth, adults, and families affected by mental illness and addiction. This course focuses on the knowledge, values, and skills driving direct practice and gives attention to the exploration and utilization of the therapeutic alliance and the application of evidence-based theories and other intervention methods with individuals and families. Students will demonstrate theoretical and practical knowledge and skills to engage and assess clients, to define and prioritize issues, to set mutually developed goals, to implement the planned change, and then monitor and evaluate the clinical intervention(s). The course will discuss various ethical issues associated with clinical practice and the challenges associated with the process of engaging, assessing, and designing interventions which are sensitive to and account for diversity and difference. The course will also explore the importance of self-care, self-reflection, and use of self in the therapeutic process. Prerequisite: Admission to Advanced Standing MSW Program or completion of foundation curriculum.

This course presents the foundations of clinical practice with older adults and their families. The course examines the biological, psychological, social, and spiritual aspects of the aging process, and its effects on older persons and their families. Students will learn methods to conduct the planned change process with older adult with a focus of self-determination, strengths, dignity, and resilience. Emphasis will be placed on natural and institutional support systems and the social work role in maintaining and enhancing functioning and well-being. Students will also examine the role of caregivers for older adults with limited functioning. The importance of interprofessional treatment planning is examined. Special consideration will be given to the implications of diversity and the intersectionality of social identities for older adults. Prerequisite: Admission to Advanced Standing MSW Program or completion of foundation curriculum.

SW 650 Clinical Practice with Groups
SW 655 Clinical Practice with Survivors of Violence
SW 658 Clinical Practice with LGBTQ+ Populations
