SECTION I: PROGRAM INFORMATION

List of Programs

List each program for an initial teaching credential below and indicate whether it is offered at the Undergraduate level (UG), Institution Information Postgraduate level (PG), or both. (§205(a)(C))

THIS PAGE INCLUDES:	
>> List of Programs	
<u>Liot of Frogramo</u>	

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

• Teacher Preparation Program

List of Programs

CIP Code	Teacher Preparation Programs	UG, PG, or Both	Update
13.1202	Elementary Education	Both	
13.1203	Junior High/Intermediate/Middle School Education and Teaching	Both	
13.1322	Teacher Education - Biology	Both	
13.1323	Teacher Education - Chemistry	Both	
13.1305	Teacher Education - English/Language Arts	Both	
13.1316	Teacher Education - General Science	Both	
13.1311	Teacher Education - Mathematics	Both	
13.1318	Teacher Education - Social Studies	Both	

Total number of teacher preparation programs:

10

Program Requirements

Check the elements required for admission (entry) into and completion (exit) from the program. If programs are offered at the undergraduate level and postgraduate level, complete the table for both types of programs. (§205(a)(1)(C)(i))

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Full-time equivalent faculty supervising clinical experience
- · Adjunct faculty supervising clinical experience
- Cooperating Teachers/PreK-12 Staff Supervising Clinical Experience
- Supervised clinical experience

THIS PAGE INCLUDES:

- >> <u>Undergraduate Requirements</u>
- >> Postgraduate Requirements
- >> Supervised Clinical Experience

Undergraduate Requirements

- 1. Are there initial teacher certification programs at the undergraduate level?
 - Yes
 - No

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the undergraduate level. If no, leave the table below blank (or <u>clear responses already entered</u>) then click save at the bottom of the page.

Element	Admission	Completion
Transcript	Yes No	Yes No

	Other Specify: Exit Conference and Summative Evaluation	Yes No	• Yes No
2. What is the minimum GPA required for admission into the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)			
	2.75		
3. What is the minimum GPA required for completing the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)			
	2.75		

4. Please provide any additional information about the information provided above:

We normally require applicants to the initial teacher certification programs to pass the Praxis subject assessments before admission. In 2020, we waived the Praxis subject assessments required for each program licensure area at admission due to difficulty with ETS testing at the beginning of the pandemic. However, we did require subject matter verification at program admission through the following requirement: The applicant must have completed all required courses in specialization knowledge with a minimum, non-rounded GPA of 2.75 and no course grade lower than a "C." Specialization courses are those required in specific program licensure areas, which indicate subject matter verification. Minimum scores on their Praxis subject assessments are required in the state before candidates can receive teacher certification.

Postgraduate Requirements

1. Are there initial teacher certification programs at the postgraduate level?

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the postgraduate level. If no, leave the table below blank (or <u>clear responses already entered</u>) then click save at the bottom of the page.

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Academic Major

THIS PAGE INCLUDES:

- >> Teachers Prepared by Subject Area
- >> Teachers Prepared by Academic Major

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2019-20.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

No teachers prepared in academic year 2019-20

If your program has no teachers prepared, check the box above and leave the table below blank (or clear responses already entered).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2019-20. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

What are CIP Codes?

Do	participants	earn a	degree	upon	completion	of the	program?

• Yes

No teachers prepared in academic year 2019-20

If your program does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or <u>clear responses already entered</u>).

CIP Code	Academic Major	Number Prepared

SECTION I: PROGRAM INFORMATION

Program Assurances

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. (§205(a)(1)(A)(iii); §206(b))

T١	21 L	РΔ	GEI	INCL	חוו	ES:

>> Program Assurances

Program Assurances
 Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to tea based on past hiring and recruitment trends. Yes No
Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom. Yes No
3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects. Yes No Program does not prepare special education teachers
Prospective general education teachers are prepared to provide instruction to students with disabilities. Yes No
5. Prospective general education teachers are prepared to provide instruction to limited English proficient students. Yes No
Prospective general education teachers are prepared to provide instruction to students from low-income families. Yes No
7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable. Yes No

- 8. Describe your institution's most successful strategies in meeting the assurances listed above:
 - 1. Most of our teacher education candidates who successfully complete the University of Pikeville Teacher Education Program are employed in two local school districts. The Chairperson of the Patton College of Education and the Supervisor of Clinical Experience regularly collaborate with district P-12 personnel to determine their needs and the role of UPIKE's Teacher Education Programs in helping meet those needs. The information obtained is used in program redesign and improvement. 2. The University Clinical Supervisor regularly meets with all P-12 teachers who serve as cooperating teachers and collaborates with them to evaluate the performances of our student teachers and to determine how we can improve our preparation programs. The University Supervisor also collaborates with several local principals to discuss ways to better prepare our teacher candidates to meet the needs of the schools. 3. We survey all principals and cooperating teachers who have student teachers in their schools to collect performance data and identify any needs of the schools that are not being met. 4. P-12 practitioners serve on our Teacher Education Committee and are able to provide input regarding continuous improvement initiatives.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Quantifiable Goals

THIS PAGE INCLUDES:

- >> Report Progress on Last Year's Goal (2019-20)
- >> Review Current Year's Goal (2020-21)
- >> Set Next Year's Goal (2021-22)

Report Progress on Last Year's Goal (2019-20)

1. Did your program prepare teachers in mathematics in 2019-20?

If no, leave remaining questions for 2019-20 blank (or clear responses already entered).

Yes

No

2. Describe your goal.

Our goal was to add at least two prospective mathematics teacher in 2019-2020.

- 3. Did your program meet the goal?
 - Yes
 - No

4. Description of strategies used to achieve goal, if applicable:

We added one secondary mathematics teacher, and three middle grades math teachers in 2019-2020. We have an education faculty member who is certified to teach mathematics. This faculty member provides both individual and small-group tutoring to address specific student learning needs in mathematics and to help teacher candidates develop higher levels of mathematical skills and thinking. Academic advisors within education inform teacher candidates of the staffing needs of the regional P-12 schools. This oftentimes includes the need for teachers of mathematics. We work closely with the P-12 schools in our region so that we can stay informed of those needs.

- 5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:
 - 1) We will continue to collaborate with surrounding P-12 schools to help meet the teacher education needs of our region. 2) We will continue to collaborate with the faculty in our mathematics division at the University to ensure curriculum alignment.

Review Current Year's Goal (2020-21)
7. Is your program preparing teachers in mathematics in 2020-21? If no, leave the next question blank.
Yes No
8. Describe your goal.
Our goal is to add at least one mathematics teacher in 2020-2021.
Cot Novt Voorlo Cool (2024-22)
Set Next Year's Goal (2021-22)
9. Will your program prepare teachers in mathematics in 2021-22? If no, leave the next question blank.
9. Will your program prepare teachers in mathematics in 2021-22? If no, leave the next question blank. Yes No
9. Will your program prepare teachers in mathematics in 2021-22? If no, leave the next question blank. Yes
 9. Will your program prepare teachers in mathematics in 2021-22? If no, leave the next question blank. Yes No 10. Describe your goal.
 9. Will your program prepare teachers in mathematics in 2021-22? If no, leave the next question blank. Yes No 10. Describe your goal.
 9. Will your program prepare teachers in mathematics in 2021-22? If no, leave the next question blank. Yes No 10. Describe your goal.
 9. Will your program prepare teachers in mathematics in 2021-22? If no, leave the next question blank. Yes No 10. Describe your goal.
 9. Will your program prepare teachers in mathematics in 2021-22? If no, leave the next question blank. Yes No 10. Describe your goal.
 9. Will your program prepare teachers in mathematics in 2021-22? If no, leave the next question blank. Yes No 10. Describe your goal.
9. Will your program prepare teachers in mathematics in 2021-22? If no, leave the next question blank. Yes No No 10. Describe your goal.
 9. Will your program prepare teachers in mathematics in 2021-22? If no, leave the next question blank. Yes No 10. Describe your goal.

6. Provide any additional comments, exceptions and explanations below:

SECTION II: ANNUAL GOALS

Annual Goals: Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

8. Describe your goal.

Set Next Year's Goal (2021-22)

9. Will your program prepare teachers in instruction of limited English proficient students in 2021-22? If no, leave the next question blank.

10. Describe your goal.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Pass rate

SECTION IV: LOW-PERFORMING
Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program. ($\S205(a)(1)(D)$, $\S205(a)(1)(E)$)

THIS	PAC	F IN	ICI I	JDES

>> <u>Low-Performing</u>

Low-Performing
1. Is your teacher preparation program currently approved or accredited?
Yes No
If yes, please specify the organization(s) that approved or accredited your program:
State CAEP AAQEP Other specify:
2. Is your teacher preparation program currently under a designation as "low-performing" by the state?
Yes No

SECTION V: USE OF TECHNOLOGY

Use of Technology

On this page, review the questions regarding your program's use of technology. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

THIS PAG	E INCLUDES:		
>> <u>Use o</u>	f Technology		

Use of Technology

1.	Provide the following information about the use of technology in your teacher preparation program.	Please note that choosing	'yes'	indicates that
	your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))			

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction
 - Yes
 - No
- b. use technology effectively to collect data to improve teaching and learning
 - Ye
 - No
- c. use technology effectively to manage data to improve teaching and learning
 - Yes
 - No
- d. use technology effectively to analyze data to improve teaching and learning
 - Yes
 - No
- 2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All teacher education candidates are required to take and pass an educational technology course. The course provides teacher candidates opportunities to become proficient with a wide variety of technology applications to enhance P-12 student learning, manage the classroom, and assess/reflect on student learning. The class is delivered in a computer lab equipped with thirty student workstations, a teacher workstation, document camera, projector, and screen. The lab is equipped with software that allows an iOS device to be mirrored on the screen. Teacher candidates explore new research in technology including current terminology and are given instruction on a weekly basis as how to ethically and legally use technology in the classroom. Emphasis is also placed on how to use technology to create professional and effective presentations. Candidates are required to develop strategies to enhance lessons by incorporating technology into P-12 instruction. An emphasis is also placed on developing candidates' knowledge and skills to actively engage P-12 students with available technologies within their classrooms.

SECTION VI: TEACHER TRAINING

Teacher Training

Provide the following information about your teacher preparation program. (§205(a)(1)(G))

Ή	41S	PA	GF I	INCL	UDES:

>> Teacher Training

Teacher Training

- 1. Provide a description of the activities that prepare general education teachers to:
 - a. Teach students with disabilities effectively

All teacher candidates enrolled in any teacher preparation program at the University of Pikeville are required to complete two courses focused on meeting the needs of students with learning disabilities. In addition, candidates discuss IDEA 2004 in their education courses. In the course Exceptional Learners in the Inclusive Classroom, candidates learn the steps involved in the development of an IEP and the general education teacher's role in each step as candidates role play IEP team meetings. Candidates must also document field hours within P-12 classrooms. Their required field experiences involve classroom observations with diverse groups of students, including students with disabilities and ESL students. The education courses focused on developing teacher candidates' pedagogical skills integrate strategies for working with students with limited English proficiency.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

In the course Exceptional Learners in the Inclusive Classroom, candidates learn the steps involved in the development of an IEP and the general education teacher's role in each step as candidates role play IEP team meetings to prepare them for their role when they become P-12 teachers. We understand that our preservice teachers must be prepared for this process.

c. Effectively teach students who are limited English proficient.

The education courses focused on developing teacher candidates' pedagogical skills integrate strategies for working with students with limited English proficiency or ESL students. Our literacy courses also integrate strategies for working with P-12 students with limited English proficiency.

2. Does your program prepare special education teachers?

Yes

No

If yes, provide a description of the activities that prepare special education teachers to:

- a. Teach students with disabilities effectively
- b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Contextual Information

On this page, review the contextual information about your program. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:

>> Contextual Information

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The University of Pikeville provides an effective paradigm of educational beliefs and programming, ensuring a complete array of experiences, knowledge, dispositions, and skills to create success for the graduates of our professional education programs. Serving as a foundation for these beliefs and programs, the organizing theme "Empowering teachers to serve and lead in rural Appalachia and beyond" guides our growth and service. Our conviction that all students have potential to learn at high levels (regardless of exceptionalities and differences), functions as an impetus to facilitate a sense of responsibility and determination in the future teachers we train. This acts as the driving force behind the Patton College of Education at the University of Pikeville. Several elements complement this conceptual framework by defining standards and approaches advocated by the teacher education programs at the University of Pikeville. Teacher candidates are presented with a model of teaching that involves goal-directed planning, observation, and assessment of plans as they are implemented as well as the flexibility and skills to continually adapt to the needs, changes, and events they discover. Faculty in the Patton College of Education stress the importance of a broad repertoire of teaching strategies, a pluralistic approach to classroom management, and a model of teachers as decision makers. Teacher candidates learn to approach teaching in this rational reflective manner, relying on a broad knowledge base, multiple areas of competence, and appropriate dispositions to facilitate genuine human relationships and meaningful learning experiences. Candidates enter the teacher preparation programs at the University of Pikeville after they have completed the coursework in their content area majors and educational foundation courses. After admission, the teacher candidates participate in a full professional year. During the first semester of the professional year, we try to help solve the disconnect between the reality of the P-12 classroom and campus courses. Candidates are placed in the appropriate P-12 classroom half-days to learn content-specific pedagogy and classroom skills from master teachers. The second half of the day during the first semester, students are in education courses where college professors are able to connect what is happening in the P-12 schools to their campus classrooms. During the second semester of their professional year, candidates spend an additional fourteen weeks completing a traditional student teaching assignment. The programs have been designed to enable candidates to complete their professional year and graduate from the institution within four years of entering the University.

Supporting Files

No files have been provided.

You may upload files to be included with your report card. You should only upload PDF or Microsoft Word or Excel files. These files will be listed as links in your report card. Upload files in the order that you'd like them to appear.

Report Card Certification

Please make sure your entire report card is complete and accurate before completing this section. Once your report card is certified you will not be able to edit your data.

Certification of submission

I certify that, to the best of my knowledge, the information in this report is accurate and complete and conforms to the definitions and instructions used in the ✓ Higher Education Opportunity Act, Title II: Reporting Reference and User Manual.
