Beginning Fall 2019: Finding Your Place at UPIKE

The University of Pikeville General Education core curriculum prepares students for their roles in a fast-changing 21st Century World. The core curriculum positions student learning in the context of Finding Your Place at UPIKE. A curriculum that centers on place allows students to see themselves in their learning and encourages deeper connection to class material. Involving students in practices that focus on place gives them the critical skills needed to apply knowledge to world issues, whether local or global. Understanding place begins with understanding self and one's role in school and community and expands to include place in the physical and natural world, place in history, and place in the cultural and global world.
